INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Thompson & Johnson Equipment Co., Inc.
Profit Sharing and Retirement Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Thompson & Johnson Equipment Co., Inc. Profit Sharing and Retirement Plan (Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 7, which was certified by Prudential Bank and Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company, the trustee and custodian of the Plan, respectively, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee and custodian hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained a certification from the trustee and custodian as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the Plan administrator by the trustee and custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, Schedule H, Line 4a - Schedule of Delinquent Participant Contributions and Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of or for the year ended December 31, 2013, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PROFIT SHARING AND RETIREMENT PLAN

Notes to Financial Statements

December 31, 2013 and 2012

(1) Description of Plan

The following description of the Thompson & Johnson Equipment Co., Inc. (Company) Profit Sharing and Retirement Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all full-time employees of the Company. Employees become eligible to participate in the Plan upon completion of six months of service with the Company. After meeting the service requirement, employees can enter the Plan on the first day of the month coinciding with or next following the date on which the employee satisfies the eligibility requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Each year, participants may contribute a percentage of their pre-tax annual compensation, as defined by the Plan, up to the maximum allowable under the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans (rollovers). Newly hired employees are automatically enrolled in the Plan upon reaching eligibility at a contribution level of one percent of pre-tax compensation. Newly hired employees may make an affirmative election to not participate in the Plan.

(Continued)

(1) Description of Plan, Continued

(b) Contributions, Continued

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a guaranteed income fund and various pooled separate accounts as investment options for participants. The Company may elect to make a discretionary matching contribution to the Plan on behalf of each participant equal to the percent declared for the contribution period as determined by the board of directors of the Company. During 2013 and 2012, the Company contributed 50% of the first 5% of compensation that the participant contributes to the Plan. The Company can also elect to make additional discretionary profit sharing contributions to the Plan as determined by the board of directors of the Company. These contributions are invested in a guaranteed income fund and are able to be allocated subsequently at the participants' discretion. Discretionary employer profit sharing contributions are allocated to the individual accounts of eligible participants in the ratio of each eligible participant's compensation, as defined, for the Plan year to the total compensation of all eligible participants for that Plan year. No discretionary employer profit sharing contributions were made in 2013 and 2012. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant's accounts are charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's profit sharing and matching contributions vest at a rate of twenty percent per year beginning with the second year of service with the participant becoming fully vested after six years of service. Participants become immediately vested if the participant reaches age 65 while employed by the Company.

(Continued)

(1) Description of Plan, Continued

(e) Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate (3.25%) plus 1%, which is commensurate with local prevailing rates as determined by the Plan administrator. Participant loans are payable over one to five years unless for the purchase of a primary residence, in which case, the maximum duration of the loan may be up to ten years. Principal and interest is paid ratably through payroll deductions.

(f) Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive a lump-sum distribution equal to the value of the participant's vested balance. A participant may, however, upon the attainment of age 59½, elect to receive a pre-retirement distribution while remaining in the service of the Company. Participants with balances that exceed $5,000 may defer receiving lump-sum payments upon termination until a distribution is required to be made.

(g) Forfeited Accounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled approximately $6,000 and $8,000, respectively. The Plan's forfeited non-vested accounts are used to reduce future employer matching contributions. During 2013 and 2012, $7,721 and $20,969, respectively, of forfeitures were used to reduce employer contributions.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract. The statements of changes in net assets available for benefits are prepared on a contract value basis for fully benefit-responsive investment contracts.

(Continued)

(2) Summary of Significant Accounting Policies, Continued

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation of fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Administrative Expenses

Certain investment management fees are netted with investment income. Participants who make withdrawals from the Plan incur a processing fee for each distribution taken. These fees are charged directly to the individual participant's accounts. Except for loan origination fees associated with notes receivable from participants, all other administrative expenses are paid by the Company.

(g) Subsequent Events

The Plan has evaluated subsequent events through October 3, 2014, the date the financial statements were available to be issued.

(Continued)

(3) Investments

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31:

	2013		2012	
	Number of units	Fair value	Number of units	Fair value
Guaranteed Income Fund	63,755	$ 1,954,235	67,519	$ 2,024,092
Oakmark Equity & Income Strategy Fund	14,219	715,469	15,773	637,716
Core Plus Bond/REAMS Fund	17,128	407,018	15,462	372,837
Retirement Goal 2030 Fund	23,937	556,292	21,378	414,679
Large Cap Blend RCM Fund	22,550	305,421	30,681	330,295
Large Cap Value/LSV Asset Management Fund	13,345	368,864	13,131	257,153

(4) Guaranteed Investment Contract with Insurance Company

The Plan has a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company (PRIAC). PRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant's withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The contract is included in the financial statements at contract value as reported to the Plan by PRIAC.

As described in note 2(a), because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by PRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

PRIAC prospectively guarantees the interest rates credited for the PRIAC Guaranteed Income Fund for six months. The guaranteed interest rate is determined by Prudential Financial, the parent company of PRIAC. Prudential Financial determines the guaranteed rate of interest based on its projected investment earnings, the current interest environment, its investment expenses, and a profit and risk component for the six-month period.

(Continued)

(4) Guaranteed Investment Contract with Insurance Company, Continued

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment at December 31, 2013 and 2012 is equal to contact value and was $1,954,235 and $2,024,092, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.5 percent. Such interest rates are reviewed semi-annually for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants, are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2013	2012
Average yields:		
Based on actual earnings	2.20%	2.55%
Based on interest rate credited to participants	2.20%	2.55%

(5) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(Continued)

(5) Fair Value Measurements, Continued

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: Units of pooled separate accounts are valued at the net asset value (NAV) of units of the fund. Fair value as determined by Prudential Retirement Insurance and Annuity Company is based on the fair market value of the underlying investments, which are shares of mutual funds.

Guaranteed Income Fund: Valued at contract value, which approximates fair value. The contract is not exchange-traded and therefore has been classified as a level 3 investment.

(5) Fair Value Measurements, Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurement at December 31:

(a) Value, fixed income and growth fund strategies seek to replicate the movements of an index of a specific financial market, such as the Russell 1000, 2000 and Mid Cap Index, regardless of market conditions.

(b) Blend fund strategies are to reflect the composition of the S&P 500 Index and MSCI Equity and to seek long-term capital appreciation.

(c) Retirement goal funds asset allocation strategy allows investors to remain in a single retirement goal fund through every life stage, using their own risk tolerance to help select the appropriate retirement goal fund. Each retirement goal fund's investment objective is to consistently outperform its custom benchmark over full market cycles. The custom benchmark is designed to evolve over time, in keeping with the investment time horizon remaining until expected target retirement date. There is no assurance the objective of the fund will be met.

(7) Information Certified by the Plan's Trustee and Custodian

The Plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee and custodian have certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate.

	December 31, 2013	December 31, 2012
Investments, at fair value	$ 5,115,050	4,611,681
Notes receivable from participants	$ 99,362	103,484

	Years ended December 31, 2013	Years ended December 31, 2012
Investment income:		
Net appreciation of fair value of investments	$ 576,735	281,410
Interest on guaranteed income fund	43,922	57,398
	620,657	338,808
Interest income on notes receivable from participant	4,800	2,861
	$ 625,457	341,669

All information in the supplemental schedules is presented solely upon those certifications.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

(8) Related-Party Transactions and Party-In-Interest Transactions

Certain Plan assets are units of pooled separate accounts or a guaranteed income fund managed by Prudential Retirement Insurance and Annuity Company and notes receivable from participants managed by Prudential Bank and Trust, F.S.B. Prudential Bank and Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company are the trustee and custodian of the Plan, respectively, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation of fair value of investments as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments to the third-party administrator of $665 and $570 in 2013 and 2012, respectively, which were not covered by revenue sharing. The Plan sponsor pays directly any other fees related to the Plan's operations.

(Continued)

(9) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Company may determine.

(10) Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations prior to 2010.

(11) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Thompson & Johnson Equipment Co., Inc.
Profit Sharing and Retirement Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Thompson & Johnson Equipment Co., Inc. Profit Sharing and Retirement Plan (Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 7, which was certified by Prudential Bank and Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company, the trustee and custodian of the Plan, respectively, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee and custodian hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained a certification from the trustee and custodian as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the Plan administrator by the trustee and custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, Schedule H, Line 4a - Schedule of Delinquent Participant Contributions and Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of or for the year ended December 31, 2013, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THOMPSON & JOHNSON EQUIPMENT CO., INC.
PROFIT SHARING AND RETIREMENT PLAN

Notes to Financial Statements

December 31, 2013 and 2012

(1) Description of Plan

The following description of the Thompson & Johnson Equipment Co., Inc. (Company) Profit Sharing and Retirement Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all full-time employees of the Company. Employees become eligible to participate in the Plan upon completion of six months of service with the Company. After meeting the service requirement, employees can enter the Plan on the first day of the month coinciding with or next following the date on which the employee satisfies the eligibility requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Each year, participants may contribute a percentage of their pre-tax annual compensation, as defined by the Plan, up to the maximum allowable under the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans (rollovers). Newly hired employees are automatically enrolled in the Plan upon reaching eligibility at a contribution level of one percent of pre-tax compensation. Newly hired employees may make an affirmative election to not participate in the Plan.

(Continued)

(1) Description of Plan, Continued

(b) Contributions, Continued

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a guaranteed income fund and various pooled separate accounts as investment options for participants. The Company may elect to make a discretionary matching contribution to the Plan on behalf of each participant equal to the percent declared for the contribution period as determined by the board of directors of the Company. During 2013 and 2012, the Company contributed 50% of the first 5% of compensation that the participant contributes to the Plan. The Company can also elect to make additional discretionary profit sharing contributions to the Plan as determined by the board of directors of the Company. These contributions are invested in a guaranteed income fund and are able to be allocated subsequently at the participants' discretion. Discretionary employer profit sharing contributions are allocated to the individual accounts of eligible participants in the ratio of each eligible participant's compensation, as defined, for the Plan year to the total compensation of all eligible participants for that Plan year. No discretionary employer profit sharing contributions were made in 2013 and 2012. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant's accounts are charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's profit sharing and matching contributions vest at a rate of twenty percent per year beginning with the second year of service with the participant becoming fully vested after six years of service. Participants become immediately vested if the participant reaches age 65 while employed by the Company.

(Continued)

(1) Description of Plan, Continued

(e) Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate (3.25%) plus 1%, which is commensurate with local prevailing rates as determined by the Plan administrator. Participant loans are payable over one to five years unless for the purchase of a primary residence, in which case, the maximum duration of the loan may be up to ten years. Principal and interest is paid ratably through payroll deductions.

(f) Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive a lump-sum distribution equal to the value of the participant's vested balance. A participant may, however, upon the attainment of age 59½, elect to receive a pre-retirement distribution while remaining in the service of the Company. Participants with balances that exceed $5,000 may defer receiving lump-sum payments upon termination until a distribution is required to be made.

(g) Forfeited Accounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled approximately $6,000 and $8,000, respectively. The Plan's forfeited non-vested accounts are used to reduce future employer matching contributions. During 2013 and 2012, $7,721 and $20,969, respectively, of forfeitures were used to reduce employer contributions.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract. The statements of changes in net assets available for benefits are prepared on a contract value basis for fully benefit-responsive investment contracts.

(Continued)

(2) Summary of Significant Accounting Policies, Continued

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation of fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Administrative Expenses

Certain investment management fees are netted with investment income. Participants who make withdrawals from the Plan incur a processing fee for each distribution taken. These fees are charged directly to the individual participant's accounts. Except for loan origination fees associated with notes receivable from participants, all other administrative expenses are paid by the Company.

(g) Subsequent Events

The Plan has evaluated subsequent events through October 3, 2014, the date the financial statements were available to be issued.

(Continued)

(3) Investments

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31:

	2013		2012	
	Number of units	Fair value	Number of units	Fair value
Guaranteed Income Fund	63,755	$ 1,954,235	67,519	$ 2,024,092
Oakmark Equity & Income Strategy Fund	14,219	715,469	15,773	637,716
Core Plus Bond/REAMS Fund	17,128	407,018	15,462	372,837
Retirement Goal 2030 Fund	23,937	556,292	21,378	414,679
Large Cap Blend RCM Fund	22,550	305,421	30,681	330,295
Large Cap Value/LSV Asset Management Fund	13,345	368,864	13,131	257,153

(4) Guaranteed Investment Contract with Insurance Company

The Plan has a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company (PRIAC). PRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant's withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The contract is included in the financial statements at contract value as reported to the Plan by PRIAC.

As described in note 2(a), because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by PRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

PRIAC prospectively guarantees the interest rates credited for the PRIAC Guaranteed Income Fund for six months. The guaranteed interest rate is determined by Prudential Financial, the parent company of PRIAC. Prudential Financial determines the guaranteed rate of interest based on its projected investment earnings, the current interest environment, its investment expenses, and a profit and risk component for the six-month period.

(Continued)

(4) Guaranteed Investment Contract with Insurance Company, Continued

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment at December 31, 2013 and 2012 is equal to contact value and was $1,954,235 and $2,024,092, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.5 percent. Such interest rates are reviewed semi-annually for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants, are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2013	2012
Average yields:		
Based on actual earnings	2.20%	2.55%
Based on interest rate credited to participants	2.20%	2.55%

(5) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(Continued)

(5) Fair Value Measurements, Continued

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: Units of pooled separate accounts are valued at the net asset value (NAV) of units of the fund. Fair value as determined by Prudential Retirement Insurance and Annuity Company is based on the fair market value of the underlying investments, which are shares of mutual funds.

Guaranteed Income Fund: Valued at contract value, which approximates fair value. The contract is not exchange-traded and therefore has been classified as a level 3 investment.

(5) Fair Value Measurements, Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurement at December 31:

(a) Value, fixed income and growth fund strategies seek to replicate the movements of an index of a specific financial market, such as the Russell 1000, 2000 and Mid Cap Index, regardless of market conditions.

(b) Blend fund strategies are to reflect the composition of the S&P 500 Index and MSCI Equity and to seek long-term capital appreciation.

(c) Retirement goal funds asset allocation strategy allows investors to remain in a single retirement goal fund through every life stage, using their own risk tolerance to help select the appropriate retirement goal fund. Each retirement goal fund's investment objective is to consistently outperform its custom benchmark over full market cycles. The custom benchmark is designed to evolve over time, in keeping with the investment time horizon remaining until expected target retirement date. There is no assurance the objective of the fund will be met.

(7) Information Certified by the Plan's Trustee and Custodian

The Plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee and custodian have certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate.

	December 31, 2013	December 31, 2012
Investments, at fair value	$ 5,115,050	4,611,681
Notes receivable from participants	$ 99,362	103,484

	Years ended December 31, 2013	Years ended December 31, 2012
Investment income:		
Net appreciation of fair value of investments	$ 576,735	281,410
Interest on guaranteed income fund	43,922	57,398
	620,657	338,808
Interest income on notes receivable from participant	4,800	2,861
	$ 625,457	341,669

All information in the supplemental schedules is presented solely upon those certifications.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

(8) Related-Party Transactions and Party-In-Interest Transactions

Certain Plan assets are units of pooled separate accounts or a guaranteed income fund managed by Prudential Retirement Insurance and Annuity Company and notes receivable from participants managed by Prudential Bank and Trust, F.S.B. Prudential Bank and Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company are the trustee and custodian of the Plan, respectively, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation of fair value of investments as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments to the third-party administrator of $665 and $570 in 2013 and 2012, respectively, which were not covered by revenue sharing. The Plan sponsor pays directly any other fees related to the Plan's operations.

(Continued)

(9) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Company may determine.

(10) Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations prior to 2010.

(11) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Thompson & Johnson Equipment Co., Inc.
Profit Sharing and Retirement Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Thompson & Johnson Equipment Co., Inc. Profit Sharing and Retirement Plan (Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 7, which was certified by Prudential Bank and Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company, the trustee and custodian of the Plan, respectively, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee and custodian hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained a certification from the trustee and custodian as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the Plan administrator by the trustee and custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, Schedule H, Line 4a - Schedule of Delinquent Participant Contributions and Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of or for the year ended December 31, 2013, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THOMPSON & JOHNSON EQUIPMENT CO., INC.
PROFIT SHARING AND RETIREMENT PLAN

Notes to Financial Statements

December 31, 2013 and 2012

(1) Description of Plan

The following description of the Thompson & Johnson Equipment Co., Inc. (Company) Profit Sharing and Retirement Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all full-time employees of the Company. Employees become eligible to participate in the Plan upon completion of six months of service with the Company. After meeting the service requirement, employees can enter the Plan on the first day of the month coinciding with or next following the date on which the employee satisfies the eligibility requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Each year, participants may contribute a percentage of their pre-tax annual compensation, as defined by the Plan, up to the maximum allowable under the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans (rollovers). Newly hired employees are automatically enrolled in the Plan upon reaching eligibility at a contribution level of one percent of pre-tax compensation. Newly hired employees may make an affirmative election to not participate in the Plan.

(Continued)

(1) Description of Plan, Continued

(b) Contributions, Continued

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a guaranteed income fund and various pooled separate accounts as investment options for participants. The Company may elect to make a discretionary matching contribution to the Plan on behalf of each participant equal to the percent declared for the contribution period as determined by the board of directors of the Company. During 2013 and 2012, the Company contributed 50% of the first 5% of compensation that the participant contributes to the Plan. The Company can also elect to make additional discretionary profit sharing contributions to the Plan as determined by the board of directors of the Company. These contributions are invested in a guaranteed income fund and are able to be allocated subsequently at the participants' discretion. Discretionary employer profit sharing contributions are allocated to the individual accounts of eligible participants in the ratio of each eligible participant's compensation, as defined, for the Plan year to the total compensation of all eligible participants for that Plan year. No discretionary employer profit sharing contributions were made in 2013 and 2012. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant's accounts are charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's profit sharing and matching contributions vest at a rate of twenty percent per year beginning with the second year of service with the participant becoming fully vested after six years of service. Participants become immediately vested if the participant reaches age 65 while employed by the Company.

(Continued)

(1) Description of Plan, Continued

(e) Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate (3.25%) plus 1%, which is commensurate with local prevailing rates as determined by the Plan administrator. Participant loans are payable over one to five years unless for the purchase of a primary residence, in which case, the maximum duration of the loan may be up to ten years. Principal and interest is paid ratably through payroll deductions.

(f) Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive a lump-sum distribution equal to the value of the participant's vested balance. A participant may, however, upon the attainment of age 59½, elect to receive a pre-retirement distribution while remaining in the service of the Company. Participants with balances that exceed $5,000 may defer receiving lump-sum payments upon termination until a distribution is required to be made.

(g) Forfeited Accounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled approximately $6,000 and $8,000, respectively. The Plan's forfeited non-vested accounts are used to reduce future employer matching contributions. During 2013 and 2012, $7,721 and $20,969, respectively, of forfeitures were used to reduce employer contributions.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract. The statements of changes in net assets available for benefits are prepared on a contract value basis for fully benefit-responsive investment contracts.

(Continued)

(2) Summary of Significant Accounting Policies, Continued

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation of fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Administrative Expenses

Certain investment management fees are netted with investment income. Participants who make withdrawals from the Plan incur a processing fee for each distribution taken. These fees are charged directly to the individual participant's accounts. Except for loan origination fees associated with notes receivable from participants, all other administrative expenses are paid by the Company.

(g) Subsequent Events

The Plan has evaluated subsequent events through October 3, 2014, the date the financial statements were available to be issued.

(Continued)

(3) Investments

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31:

	2013		2012	
	Number of units	Fair value	Number of units	Fair value
Guaranteed Income Fund	63,755	$ 1,954,235	67,519	$ 2,024,092
Oakmark Equity & Income Strategy Fund	14,219	715,469	15,773	637,716
Core Plus Bond/REAMS Fund	17,128	407,018	15,462	372,837
Retirement Goal 2030 Fund	23,937	556,292	21,378	414,679
Large Cap Blend RCM Fund	22,550	305,421	30,681	330,295
Large Cap Value/LSV Asset Management Fund	13,345	368,864	13,131	257,153

(4) Guaranteed Investment Contract with Insurance Company

The Plan has a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company (PRIAC). PRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant's withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The contract is included in the financial statements at contract value as reported to the Plan by PRIAC.

As described in note 2(a), because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by PRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

PRIAC prospectively guarantees the interest rates credited for the PRIAC Guaranteed Income Fund for six months. The guaranteed interest rate is determined by Prudential Financial, the parent company of PRIAC. Prudential Financial determines the guaranteed rate of interest based on its projected investment earnings, the current interest environment, its investment expenses, and a profit and risk component for the six-month period.

(Continued)

(4) Guaranteed Investment Contract with Insurance Company, Continued

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment at December 31, 2013 and 2012 is equal to contact value and was $1,954,235 and $2,024,092, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.5 percent. Such interest rates are reviewed semi-annually for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants, are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2013	2012
Average yields:		
Based on actual earnings	2.20%	2.55%
Based on interest rate credited to participants	2.20%	2.55%

(5) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(Continued)

(5) Fair Value Measurements, Continued

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: Units of pooled separate accounts are valued at the net asset value (NAV) of units of the fund. Fair value as determined by Prudential Retirement Insurance and Annuity Company is based on the fair market value of the underlying investments, which are shares of mutual funds.

Guaranteed Income Fund: Valued at contract value, which approximates fair value. The contract is not exchange-traded and therefore has been classified as a level 3 investment.

(5) Fair Value Measurements, Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurement at December 31:

(a) Value, fixed income and growth fund strategies seek to replicate the movements of an index of a specific financial market, such as the Russell 1000, 2000 and Mid Cap Index, regardless of market conditions.

(b) Blend fund strategies are to reflect the composition of the S&P 500 Index and MSCI Equity and to seek long-term capital appreciation.

(c) Retirement goal funds asset allocation strategy allows investors to remain in a single retirement goal fund through every life stage, using their own risk tolerance to help select the appropriate retirement goal fund. Each retirement goal fund's investment objective is to consistently outperform its custom benchmark over full market cycles. The custom benchmark is designed to evolve over time, in keeping with the investment time horizon remaining until expected target retirement date. There is no assurance the objective of the fund will be met.

(7) Information Certified by the Plan's Trustee and Custodian

The Plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee and custodian have certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate.

	December 31, 2013	December 31, 2012
Investments, at fair value	$ 5,115,050	4,611,681
Notes receivable from participants	$ 99,362	103,484

	Years ended December 31, 2013	Years ended December 31, 2012
Investment income:		
Net appreciation of fair value of investments	$ 576,735	281,410
Interest on guaranteed income fund	43,922	57,398
	620,657	338,808
Interest income on notes receivable from participant	4,800	2,861
	$ 625,457	341,669

All information in the supplemental schedules is presented solely upon those certifications.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

(8) Related-Party Transactions and Party-In-Interest Transactions

Certain Plan assets are units of pooled separate accounts or a guaranteed income fund managed by Prudential Retirement Insurance and Annuity Company and notes receivable from participants managed by Prudential Bank and Trust, F.S.B. Prudential Bank and Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company are the trustee and custodian of the Plan, respectively, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation of fair value of investments as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments to the third-party administrator of $665 and $570 in 2013 and 2012, respectively, which were not covered by revenue sharing. The Plan sponsor pays directly any other fees related to the Plan's operations.

(Continued)

(9) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Company may determine.

(10) Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations prior to 2010.

(11) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Thompson & Johnson Equipment Co., Inc.
Profit Sharing and Retirement Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Thompson & Johnson Equipment Co., Inc. Profit Sharing and Retirement Plan (Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 7, which was certified by Prudential Bank and Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company, the trustee and custodian of the Plan, respectively, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee and custodian hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained a certification from the trustee and custodian as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the Plan administrator by the trustee and custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, Schedule H, Line 4a - Schedule of Delinquent Participant Contributions and Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of or for the year ended December 31, 2013, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THOMPSON & JOHNSON EQUIPMENT CO., INC.
PROFIT SHARING AND RETIREMENT PLAN

Notes to Financial Statements

December 31, 2013 and 2012

(1) Description of Plan

The following description of the Thompson & Johnson Equipment Co., Inc. (Company) Profit Sharing and Retirement Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all full-time employees of the Company. Employees become eligible to participate in the Plan upon completion of six months of service with the Company. After meeting the service requirement, employees can enter the Plan on the first day of the month coinciding with or next following the date on which the employee satisfies the eligibility requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Each year, participants may contribute a percentage of their pre-tax annual compensation, as defined by the Plan, up to the maximum allowable under the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans (rollovers). Newly hired employees are automatically enrolled in the Plan upon reaching eligibility at a contribution level of one percent of pre-tax compensation. Newly hired employees may make an affirmative election to not participate in the Plan.

(Continued)

(1) Description of Plan, Continued

(b) Contributions, Continued

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a guaranteed income fund and various pooled separate accounts as investment options for participants. The Company may elect to make a discretionary matching contribution to the Plan on behalf of each participant equal to the percent declared for the contribution period as determined by the board of directors of the Company. During 2013 and 2012, the Company contributed 50% of the first 5% of compensation that the participant contributes to the Plan. The Company can also elect to make additional discretionary profit sharing contributions to the Plan as determined by the board of directors of the Company. These contributions are invested in a guaranteed income fund and are able to be allocated subsequently at the participants' discretion. Discretionary employer profit sharing contributions are allocated to the individual accounts of eligible participants in the ratio of each eligible participant's compensation, as defined, for the Plan year to the total compensation of all eligible participants for that Plan year. No discretionary employer profit sharing contributions were made in 2013 and 2012. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant's accounts are charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's profit sharing and matching contributions vest at a rate of twenty percent per year beginning with the second year of service with the participant becoming fully vested after six years of service. Participants become immediately vested if the participant reaches age 65 while employed by the Company.

(Continued)

(1) Description of Plan, Continued

(e) Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate (3.25%) plus 1%, which is commensurate with local prevailing rates as determined by the Plan administrator. Participant loans are payable over one to five years unless for the purchase of a primary residence, in which case, the maximum duration of the loan may be up to ten years. Principal and interest is paid ratably through payroll deductions.

(f) Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive a lump-sum distribution equal to the value of the participant's vested balance. A participant may, however, upon the attainment of age 59½, elect to receive a pre-retirement distribution while remaining in the service of the Company. Participants with balances that exceed $5,000 may defer receiving lump-sum payments upon termination until a distribution is required to be made.

(g) Forfeited Accounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled approximately $6,000 and $8,000, respectively. The Plan's forfeited non-vested accounts are used to reduce future employer matching contributions. During 2013 and 2012, $7,721 and $20,969, respectively, of forfeitures were used to reduce employer contributions.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract. The statements of changes in net assets available for benefits are prepared on a contract value basis for fully benefit-responsive investment contracts.

(Continued)

(2) Summary of Significant Accounting Policies, Continued

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation of fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Administrative Expenses

Certain investment management fees are netted with investment income. Participants who make withdrawals from the Plan incur a processing fee for each distribution taken. These fees are charged directly to the individual participant's accounts. Except for loan origination fees associated with notes receivable from participants, all other administrative expenses are paid by the Company.

(g) Subsequent Events

The Plan has evaluated subsequent events through October 3, 2014, the date the financial statements were available to be issued.

(Continued)

(3) Investments

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31:

	2013		2012	
	Number of units	Fair value	Number of units	Fair value
Guaranteed Income Fund	63,755	$ 1,954,235	67,519	$ 2,024,092
Oakmark Equity & Income Strategy Fund	14,219	715,469	15,773	637,716
Core Plus Bond/REAMS Fund	17,128	407,018	15,462	372,837
Retirement Goal 2030 Fund	23,937	556,292	21,378	414,679
Large Cap Blend RCM Fund	22,550	305,421	30,681	330,295
Large Cap Value/LSV Asset Management Fund	13,345	368,864	13,131	257,153

(4) Guaranteed Investment Contract with Insurance Company

The Plan has a benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company (PRIAC). PRIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant's withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The contract is included in the financial statements at contract value as reported to the Plan by PRIAC.

As described in note 2(a), because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by PRIAC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

PRIAC prospectively guarantees the interest rates credited for the PRIAC Guaranteed Income Fund for six months. The guaranteed interest rate is determined by Prudential Financial, the parent company of PRIAC. Prudential Financial determines the guaranteed rate of interest based on its projected investment earnings, the current interest environment, its investment expenses, and a profit and risk component for the six-month period.

(Continued)

(4) Guaranteed Investment Contract with Insurance Company, Continued

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment at December 31, 2013 and 2012 is equal to contact value and was $1,954,235 and $2,024,092, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.5 percent. Such interest rates are reviewed semi-annually for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants, are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2013	2012
Average yields:		
Based on actual earnings	2.20%	2.55%
Based on interest rate credited to participants	2.20%	2.55%

(5) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(Continued)

(5) Fair Value Measurements, Continued

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: Units of pooled separate accounts are valued at the net asset value (NAV) of units of the fund. Fair value as determined by Prudential Retirement Insurance and Annuity Company is based on the fair market value of the underlying investments, which are shares of mutual funds.

Guaranteed Income Fund: Valued at contract value, which approximates fair value. The contract is not exchange-traded and therefore has been classified as a level 3 investment.

(5) Fair Value Measurements, Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurement at December 31:

(a) Value, fixed income and growth fund strategies seek to replicate the movements of an index of a specific financial market, such as the Russell 1000, 2000 and Mid Cap Index, regardless of market conditions.

(b) Blend fund strategies are to reflect the composition of the S&P 500 Index and MSCI Equity and to seek long-term capital appreciation.

(c) Retirement goal funds asset allocation strategy allows investors to remain in a single retirement goal fund through every life stage, using their own risk tolerance to help select the appropriate retirement goal fund. Each retirement goal fund's investment objective is to consistently outperform its custom benchmark over full market cycles. The custom benchmark is designed to evolve over time, in keeping with the investment time horizon remaining until expected target retirement date. There is no assurance the objective of the fund will be met.

(7) Information Certified by the Plan's Trustee and Custodian

The Plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee and custodian have certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate.

	December 31, 2013	December 31, 2012
Investments, at fair value	$ 5,115,050	4,611,681
Notes receivable from participants	$ 99,362	103,484

	Years ended December 31, 2013	Years ended December 31, 2012
Investment income:		
Net appreciation of fair value of investments	$ 576,735	281,410
Interest on guaranteed income fund	43,922	57,398
	620,657	338,808
Interest income on notes receivable from participant	4,800	2,861
	$ 625,457	341,669

All information in the supplemental schedules is presented solely upon those certifications.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

(8) Related-Party Transactions and Party-In-Interest Transactions

Certain Plan assets are units of pooled separate accounts or a guaranteed income fund managed by Prudential Retirement Insurance and Annuity Company and notes receivable from participants managed by Prudential Bank and Trust, F.S.B. Prudential Bank and Trust, F.S.B. and Prudential Retirement Insurance and Annuity Company are the trustee and custodian of the Plan, respectively, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation of fair value of investments as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments to the third-party administrator of $665 and $570 in 2013 and 2012, respectively, which were not covered by revenue sharing. The Plan sponsor pays directly any other fees related to the Plan's operations.

(9) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Company may determine.

(10) Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations prior to 2010.

(11) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
