Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by the Nationwide Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph we do not express an opinion on this supplemental schedule.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 - PLAN DESCRIPTION

The following description of the Walter & Haverfield LLP Profit Sharing Retirement Plan (“the Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Nature of operations

The Plan is a defined contribution plan covering substantially all employees of Walter & Haverfield LLP (“the Firm”) who have met the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Eligibility

To be eligible for deferral / employee contributions and Firm matching contributions, employees must have completed one hour of service and attained age 18. To be eligible for Firm non-elective contributions, employees must have completed one year of service and attained age 18. Employees enter the Plan on the first day of the month following, or coincident with, having attained eligibility.

Contributions

Each year, participants may contribute up to 100% of their annual compensation, as defined in the Plan document. The Firm shall make a matching contribution to all eligible participants, as defined in the Plan document, of 25% of the first 4% of eligible compensation that a participant contributes to the Plan, except that any “catch-up” contributions will not be taken into consideration for the purposes of Firm matching contributions. No matching contributions are made for partners. The Firm, at its discretion, may make non-elective contributions to all participants who have completed one year of service and worked at least 1,000 hours, and are employed on the last day of the plan year. The contributions will be allocated as follows: a discretionary amount based on each participant’s total compensation will be allocated to each participant’s account; any remaining unallocated contribution will be allocated to each eligible class of participants, based on the compensation formula described in the Plan document.

Participant accounts

Participants direct the investment of their contributions into various investment options offered by the Plan. Each participant’s account is credited with the participant’s contribution, allocations of any Firm contributions, and earnings thereon. Allocations are based on participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account. The net value of each participant’s account is established daily by the Plan’s trustee.

Vesting

A participant, at all times, has a 100% non-forfeitable vested interest in his account.

NOTE 1 - PLAN DESCRIPTION (Continued)

Investment options

All investments of the Plan are held by a trustee. Participants direct the investments in their individual accounts. Participants may, subject to a procedure established under the Plan, direct the trustees to invest some of their contributions in self-directed brokerage accounts.

Notes receivable from participants

Participants may borrow from their accounts, up to a maximum of the lesser of \$50,000, or 50% of their account balance on the date of the loan. The loans are secured by the balance in the participants' vested accounts and bear interest at a rate commensurate with local market rates for similar loans. Payment terms are based on the type of loan.

Payment of benefits

A participant or his or her beneficiary, upon termination, death, or retirement, receives his or her interest in his or her account in the form of a lump-sum distribution, as defined in the Plan. Additionally, the Plan has provisions for an active participant who has attained age 65 to make withdrawals from his or her vested account.

Plan amendment

The Plan was amended and restated effective January 1, 2009.

Other

In the event of termination, the net assets of the Plan would be allocated in accordance with the provisions of the Plan, and within the manner described by the Employee Retirement Income Security Act of 1974 (ERISA).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The Plan's investments include a guaranteed investment contract. The contract is not benefit responsive, and therefore, is valued at fair value that approximates contract value.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of estimates

In preparing financial statements in conformity with generally accepted accounting principles, management makes estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is a price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain administrative costs of the Plan are paid by the Firm.

Risks and uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 3 - RELATED PARTY TRANSACTIONS

Nationwide Trust Company has physical and administrative control of certain plan assets and is responsible for the safekeeping of the Plan's assets, investment of funds, and other transactions as directed by the plan administrator or participants. Fees paid by the Plan to the trustee amounted to \$16,738 for the year ended December 31, 2013.

NOTE 4 - INVESTMENTS

The Plan's investments are held in a trust by the Plan's trustee. The following tables present those investments. Investments that represent five percent or more of the Plan's net assets are separately identified.

NOTE 5 - CERTIFIED INFORMATION

The trustee of the Plan holds the Plan's investment assets and executes transactions thereon. Financial information relating to those assets, which comprised a majority of the Plan's assets, is included in the accompanying financial statements based on information provided by the trustee. That information, which has not been audited by independent accountants, is summarized below:

NOTE 6 - FAIR VALUE MEASUREMENT

FASB ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

WALTER & HAVERFIELD LLP
PROFIT SHARING RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 6 - FAIR VALUE MEASUREMENT (Continued)

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Interest bearing cash: Money market funds are valued at net asset value of shares held by the Plan at year end; certificate of deposits are valued at original cost, plus accrued interest, which approximates fair value.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year end.

Common stock, corporate debt instruments, and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Guaranteed investment contract: Fair value is the amount Plan participants would receive currently if participants were to withdraw or transfer funds within the Plan prior to maturity. The fair value represents contract value adjusted to reflect current interest rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined and informed the Firm by a letter dated December 9, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since the determination letter has been received. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 7 - TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A portion of the Plan's investments are held in participant-directed brokerage accounts at December 31, 2013. These assets are reported in the aggregate on Part I of Schedule H as one asset held for investment purposes on the supplementary schedule. In accordance with the Form 5500 reporting requirements, interest-bearing cash (\$720,540), registered investment companies (\$155,282), and common stock (\$895,834) are reported as an other investment (\$1,771,656) at December 31, 2013.

NOTE 9 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through October 6, 2014.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by the Nationwide Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2013, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - PLAN DESCRIPTION

The following description of the Walter & Haverfield LLP Profit Sharing Retirement Plan ("the Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Nature of operations

The Plan is a defined contribution plan covering substantially all employees of Walter & Haverfield LLP ("the Firm") who have met the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Eligibility

To be eligible for deferral / employee contributions and Firm matching contributions, employees must have completed one hour of service and attained age 18. To be eligible for Firm non-elective contributions, employees must have completed one year of service and attained age 18. Employees enter the Plan on the first day of the month following, or coincident with, having attained eligibility.

Contributions

Each year, participants may contribute up to 100% of their annual compensation, as defined in the Plan document. The Firm shall make a matching contribution to all eligible participants, as defined in the Plan document, of 25% of the first 4% of eligible compensation that a participant contributes to the Plan, except that any "catch-up" contributions will not be taken into consideration for the purposes of Firm matching contributions. No matching contributions are made for partners. The Firm, at its discretion, may make non-elective contributions to all participants who have completed one year of service and worked at least 1,000 hours, and are employed on the last day of the plan year. The contributions will be allocated as follows: a discretionary amount based on each participant's total compensation will be allocated to each participant's account; any remaining unallocated contribution will be allocated to each eligible class of participants, based on the compensation formula described in the Plan document.

Participant accounts

Participants direct the investment of their contributions into various investment options offered by the Plan. Each participant's account is credited with the participant's contribution, allocations of any Firm contributions, and earnings thereon. Allocations are based on participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. The net value of each participant's account is established daily by the Plan's trustee.

Vesting

A participant, at all times, has a 100% non-forfeitable vested interest in his account.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 - PLAN DESCRIPTION (Continued)

Investment options

All investments of the Plan are held by a trustee. Participants direct the investments in their individual accounts. Participants may, subject to a procedure established under the Plan, direct the trustees to invest some of their contributions in self-directed brokerage accounts.

Notes receivable from participants

Participants may borrow from their accounts, up to a maximum of the lesser of \$50,000, or 50% of their account balance on the date of the loan. The loans are secured by the balance in the participants' vested accounts and bear interest at a rate commensurate with local market rates for similar loans. Payment terms are based on the type of loan.

Payment of benefits

A participant or his or her beneficiary, upon termination, death, or retirement, receives his or her interest in his or her account in the form of a lump-sum distribution, as defined in the Plan. Additionally, the Plan has provisions for an active participant who has attained age 65 to make withdrawals from his or her vested account.

Plan amendment

The Plan was amended and restated effective January 1, 2009.

Other

In the event of termination, the net assets of the Plan would be allocated in accordance with the provisions of the Plan, and within the manner described by the Employee Retirement Income Security Act of 1974 (ERISA).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The Plan's investments include a guaranteed investment contract. The contract is not benefit responsive, and therefore, is valued at fair value that approximates contract value.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of estimates

In preparing financial statements in conformity with generally accepted accounting principles, management makes estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is a price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain administrative costs of the Plan are paid by the Firm.

Risks and uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Fees paid by the Plan to the trustee amounted to \$16,738 for the year ended December 31, 2013.

NOTE 4 - INVESTMENTS

The Plan's investments are held in a trust by the Plan's trustee. The following tables present those investments. Investments that represent five percent or more of the Plan's net assets are separately identified.

NOTE 5 - CERTIFIED INFORMATION

The trustee of the Plan holds the Plan's investment assets and executes transactions thereon. Financial information relating to those assets, which comprised a majority of the Plan's assets, is included in the accompanying financial statements based on information provided by the trustee. NOTE 6 - FAIR VALUE MEASUREMENT

FASB ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

WALTER & HAVERFIELD LLP
PROFIT SHARING RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 6 - FAIR VALUE MEASUREMENT (Continued)

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Interest bearing cash: Money market funds are valued at net asset value of shares held by the Plan at year end; certificate of deposits are valued at original cost, plus accrued interest, which approximates fair value.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year end.

Common stock, corporate debt instruments, and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Guaranteed investment contract: Fair value is the amount Plan participants would receive currently if participants were to withdraw or transfer funds within the Plan prior to maturity. The fair value represents contract value adjusted to reflect current interest rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined and informed the Firm by a letter dated December 9, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since the determination letter has been received. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 7 - TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A portion of the Plan's investments are held in participant-directed brokerage accounts at December 31, 2013. These assets are reported in the aggregate on Part I of Schedule H as one asset held for investment purposes on the supplementary schedule. In accordance with the Form 5500 reporting requirements, interest-bearing cash (\$720,540), registered investment companies (\$155,282), and common stock (\$895,834) are reported as an other investment (\$1,771,656) at December 31, 2013.

NOTE 9 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through October 6, 2014.

October 6, 2014

The Administrative Committee
Walter & Haverfield LLP
Profit Sharing Retirement Plan
Cleveland, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Walter & Haverfield LLP Profit Sharing Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by the Nationwide Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2013, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 - PLAN DESCRIPTION

The following description of the Walter & Haverfield LLP Profit Sharing Retirement Plan (“the Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Nature of operations

The Plan is a defined contribution plan covering substantially all employees of Walter & Haverfield LLP (“the Firm”) who have met the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Eligibility

To be eligible for deferral / employee contributions and Firm matching contributions, employees must have completed one hour of service and attained age 18. To be eligible for Firm non-elective contributions, employees must have completed one year of service and attained age 18. Employees enter the Plan on the first day of the month following, or coincident with, having attained eligibility.

Contributions

Each year, participants may contribute up to 100% of their annual compensation, as defined in the Plan document. The Firm shall make a matching contribution to all eligible participants, as defined in the Plan document, of 25% of the first 4% of eligible compensation that a participant contributes to the Plan, except that any “catch-up” contributions will not be taken into consideration for the purposes of Firm matching contributions. No matching contributions are made for partners. The Firm, at its discretion, may make non-elective contributions to all participants who have completed one year of service and worked at least 1,000 hours, and are employed on the last day of the plan year. The contributions will be allocated as follows: a discretionary amount based on each participant’s total compensation will be allocated to each participant’s account; any remaining unallocated contribution will be allocated to each eligible class of participants, based on the compensation formula described in the Plan document.

Participant accounts

Participants direct the investment of their contributions into various investment options offered by the Plan. Each participant’s account is credited with the participant’s contribution, allocations of any Firm contributions, and earnings thereon. Allocations are based on participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account. The net value of each participant’s account is established daily by the Plan’s trustee.

Vesting

A participant, at all times, has a 100% non-forfeitable vested interest in his account.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 - PLAN DESCRIPTION (Continued)

Investment options

All investments of the Plan are held by a trustee. Participants direct the investments in their individual accounts. Participants may, subject to a procedure established under the Plan, direct the trustees to invest some of their contributions in self-directed brokerage accounts.

Notes receivable from participants

Participants may borrow from their accounts, up to a maximum of the lesser of \$50,000, or 50% of their account balance on the date of the loan. The loans are secured by the balance in the participants' vested accounts and bear interest at a rate commensurate with local market rates for similar loans. Payment terms are based on the type of loan.

Payment of benefits

A participant or his or her beneficiary, upon termination, death, or retirement, receives his or her interest in his or her account in the form of a lump-sum distribution, as defined in the Plan. Additionally, the Plan has provisions for an active participant who has attained age 65 to make withdrawals from his or her vested account.

Plan amendment

The Plan was amended and restated effective January 1, 2009.

Other

In the event of termination, the net assets of the Plan would be allocated in accordance with the provisions of the Plan, and within the manner described by the Employee Retirement Income Security Act of 1974 (ERISA).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The Plan's investments include a guaranteed investment contract. The contract is not benefit responsive, and therefore, is valued at fair value that approximates contract value.

WALTER & HAVERFIELD LLP
PROFIT SHARING RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of estimates

In preparing financial statements in conformity with generally accepted accounting principles, management makes estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is a price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain administrative costs of the Plan are paid by the Firm.

Risks and uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 3 - RELATED PARTY TRANSACTIONS

Nationwide Trust Company has physical and administrative control of certain plan assets and is responsible for the safekeeping of the Plan's assets, investment of funds, and other transactions as directed by the plan administrator or participants. Fees paid by the Plan to the trustee amounted to \$16,738 for the year ended December 31, 2013.

NOTE 4 - INVESTMENTS

The Plan's investments are held in a trust by the Plan's trustee. The following tables present those investments. Investments that represent five percent or more of the Plan's net assets are separately identified.

<u>Investments at Fair Value as of December 31,</u>	<u>2013</u>	<u>2012</u>

NOTE 5 - CERTIFIED INFORMATION

The trustee of the Plan holds the Plan's investment assets and executes transactions thereon. Financial information relating to those assets, which comprised a majority of the Plan's assets, is included in the accompanying financial statements based on information provided by the trustee. That information, which has not been audited by independent accountants, is summarized below:

NOTE 6 - FAIR VALUE MEASUREMENT

FASB ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

WALTER & HAVERFIELD LLP
PROFIT SHARING RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 6 - FAIR VALUE MEASUREMENT (Continued)

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Interest bearing cash: Money market funds are valued at net asset value of shares held by the Plan at year end; certificate of deposits are valued at original cost, plus accrued interest, which approximates fair value.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year end.

Common stock, corporate debt instruments, and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Guaranteed investment contract: Fair value is the amount Plan participants would receive currently if participants were to withdraw or transfer funds within the Plan prior to maturity. The fair value represents contract value adjusted to reflect current interest rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7 - TAX STATUS

The Internal Revenue Service has determined and informed the Firm by a letter dated December 9, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since the determination letter has been received. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 7 - TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A portion of the Plan's investments are held in participant-directed brokerage accounts at December 31, 2013. These assets are reported in the aggregate on Part I of Schedule H as one asset held for investment purposes on the supplementary schedule. In accordance with the Form 5500 reporting requirements, interest-bearing cash (\$720,540), registered investment companies (\$155,282), and common stock (\$895,834) are reported as an other investment (\$1,771,656) at December 31, 2013.

NOTE 9 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through October 6, 2014.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Walter & Haverfield LLP Profit Sharing Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by the Nationwide Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2013, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - PLAN DESCRIPTION

The following description of the Walter & Haverfield LLP Profit Sharing Retirement Plan (“the Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Nature of operations

The Plan is a defined contribution plan covering substantially all employees of Walter & Haverfield LLP (“the Firm”) who have met the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Eligibility

To be eligible for deferral / employee contributions and Firm matching contributions, employees must have completed one hour of service and attained age 18. To be eligible for Firm non-elective contributions, employees must have completed one year of service and attained age 18. Employees enter the Plan on the first day of the month following, or coincident with, having attained eligibility.

Contributions

Each year, participants may contribute up to 100% of their annual compensation, as defined in the Plan document. The Firm shall make a matching contribution to all eligible participants, as defined in the Plan document, of 25% of the first 4% of eligible compensation that a participant contributes to the Plan, except that any “catch-up” contributions will not be taken into consideration for the purposes of Firm matching contributions. No matching contributions are made for partners. The Firm, at its discretion, may make non-elective contributions to all participants who have completed one year of service and worked at least 1,000 hours, and are employed on the last day of the plan year. The contributions will be allocated as follows: a discretionary amount based on each participant’s total compensation will be allocated to each participant’s account; any remaining unallocated contribution will be allocated to each eligible class of participants, based on the compensation formula described in the Plan document.

Participant accounts

Participants direct the investment of their contributions into various investment options offered by the Plan. Each participant’s account is credited with the participant’s contribution, allocations of any Firm contributions, and earnings thereon. Allocations are based on participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account. The net value of each participant’s account is established daily by the Plan’s trustee.

Vesting

A participant, at all times, has a 100% non-forfeitable vested interest in his account.

PROFIT SHARING RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 1 - PLAN DESCRIPTION (Continued)

Investment options

All investments of the Plan are held by a trustee. Participants direct the investments in their individual accounts. Participants may, subject to a procedure established under the Plan, direct the trustees to invest some of their contributions in self-directed brokerage accounts.

Notes receivable from participants

Participants may borrow from their accounts, up to a maximum of the lesser of \$50,000, or 50% of their account balance on the date of the loan. The loans are secured by the balance in the participants' vested accounts and bear interest at a rate commensurate with local market rates for similar loans. Payment terms are based on the type of loan.

Payment of benefits

A participant or his or her beneficiary, upon termination, death, or retirement, receives his or her interest in his or her account in the form of a lump-sum distribution, as defined in the Plan. Additionally, the Plan has provisions for an active participant who has attained age 65 to make withdrawals from his or her vested account.

Plan amendment

The Plan was amended and restated effective January 1, 2009.

Other

In the event of termination, the net assets of the Plan would be allocated in accordance with the provisions of the Plan, and within the manner described by the Employee Retirement Income Security Act of 1974 (ERISA).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The Plan's investments include a guaranteed investment contract. The contract is not benefit responsive, and therefore, is valued at fair value that approximates contract value.

WALTER & HAVERFIELD LLP
PROFIT SHARING RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of estimates

In preparing financial statements in conformity with generally accepted accounting principles, management makes estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is a price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain administrative costs of the Plan are paid by the Firm.

Risks and uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 3 - RELATED PARTY TRANSACTIONS

Nationwide Trust Company has physical and administrative control of certain plan assets and is responsible for the safekeeping of the Plan's assets, investment of funds, and other transactions as directed by the plan administrator or participants. Fees paid by the Plan to the trustee amounted to \$16,738 for the year ended December 31, 2013.

NOTE 4 - INVESTMENTS

The Plan's investments are held in a trust by the Plan's trustee. The following tables present those investments. Investments that represent five percent or more of the Plan's net assets are separately identified.

<u>Investments at Fair Value as of December 31,</u>	<u>2013</u>	<u>2012</u>

NOTE 5 - CERTIFIED INFORMATION

The trustee of the Plan holds the Plan's investment assets and executes transactions thereon. Financial information relating to those assets, which comprised a majority of the Plan's assets, is included in the accompanying financial statements based on information provided by the trustee. NOTE 6 - FAIR VALUE MEASUREMENT

FASB ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

WALTER & HAVERFIELD LLP
PROFIT SHARING RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

NOTE 6 - FAIR VALUE MEASUREMENT (Continued)

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Interest bearing cash: Money market funds are valued at net asset value of shares held by the Plan at year end; certificate of deposits are valued at original cost, plus accrued interest, which approximates fair value.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year end.

Common stock, corporate debt instruments, and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Guaranteed investment contract: Fair value is the amount Plan participants would receive currently if participants were to withdraw or transfer funds within the Plan prior to maturity. The fair value represents contract value adjusted to reflect current interest rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Internal Revenue Service has determined and informed the Firm by a letter dated December 9, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since the determination letter has been received. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 7 - TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A portion of the Plan's investments are held in participant-directed brokerage accounts at December 31, 2013. These assets are reported in the aggregate on Part I of Schedule H as one asset held for investment purposes on the supplementary schedule. In accordance with the Form 5500 reporting requirements, interest-bearing cash (\$720,540), registered investment companies (\$155,282), and common stock (\$895,834) are reported as an other investment (\$1,771,656) at December 31, 2013.
