INDEPENDENT AUDITORS' REPORT

To the Investment and Benefits Committee and Participants
of the Retirement Plan of W. R. Grace & Co.-Conn. Chemical Group
(Chicago Dewey & Almy Plant):

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Plan of W. R. Grace & Co.-Conn. Chemical Group (Chicago Dewey & Almy Plant) (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, the related statements of changes in net assets available for benefits for the years then ended, the statements of accumulated plan benefits as of December 31, 2013 and 2012, the statements of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 5 and 9, which was certified by The Northern Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the Trustee as of December 31, 2013 and 2012 and for the years then ended, that the information provided to the Plan administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2013 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

1. Description of the Plan

The following description of the Retirement Plan of W. R. Grace & Co.-Conn. Chemical Group (Chicago Dewey & Almy Plant) ("Plan") provides only general information. Participants should refer to the Plan document for a complete description of its provisions.

General

The Plan is a noncontributory defined benefit retirement plan which was established January 1, 1963. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Certain administrative decisions regarding the Plan are made by a committee appointed by the Board of Directors and/or the Investment and Benefits Committee of W. R. Grace & Co. ("Grace"). For investment purposes, the assets of the Plan are commingled with the assets of certain other retirement plans of Grace in the Trust Fund of the W. R. Grace & Co. Retirement Plans ("Fund"), a master trust, which is maintained by The Northern Trust Company ("Trustee").

On April 2, 2001, Grace and 61 of its U.S. subsidiaries and affiliates (collectively, the "Company") filed voluntary petitions for reorganization under Chapter 11 of the United States Bankruptcy Code with the United States Bankruptcy Court for the District of Delaware (the "Court"). With the Court's permission, Grace continued to meet its obligations under the Plan while operating under Chapter 11. Grace emerged from bankruptcy on February 3, 2014.

Eligibility

Any hourly employee of the Chicago Dewey & Almy Plant is eligible to participate in the Plan. Participants enter the Plan on the first day of the month following the date on which the eligibility requirements are met.

Pension Benefits

Participants are eligible to receive retirement benefits upon actual retirement at any age from 65 (based on the retirement benefit level at actual termination or the commencement of retirement benefits, if earlier) and are eligible for early retirement benefits at age 55. Participants' monthly retirement benefits range from \$17 to \$45 for each year of credited service, depending on the date of termination of service, as defined by the Plan. Additionally, retirees' monthly benefits are reduced if the employee has less than ten years of service.

Benefits are paid in the form of an annuity unless the participant's accrued benefit is valued at \$1,000 or less, in which case the participant will receive a direct lump sum distribution from the Plan. If the participant's accrued benefit exceeds \$1,000 but not \$5,000, the benefit will remain in the Plan until the participant affirmatively elects to have the Plan distribute the funds or have the funds paid in a direct rollover to an individual retirement plan. Former Grace employees with an account balance within the W. R. Grace & Co. Savings and Investment Plan (the "S&I Plan") may directly roll over into the S&I Plan a lump sum distribution received from the Plan.

Notes to Financial Statements
December 31, 2013 and 2012**

Death and Disability Benefits

Upon the death of an active vested participant, or a vested former participant who terminated on or after January 1, 1976, a death benefit may be payable to the participant's spouse or designated beneficiary.

Disability benefits are also available for eligible participants prior to retirement age.

Vesting

Employees are fully vested in benefits accrued after 5 years of vesting service, as defined by the Plan, or at age 55 regardless of years of service.

2. Summary of Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The financial records of the Plan are maintained on the accrual basis of accounting.

Investment Valuation and Income Recognition

All investments in the Fund are stated at fair value, with the exception of annuity and immediate participation contracts, which are stated at contract value. Contract value represents contributions made under the contract plus interest at the contract rate ranging from 4.64% to 4.71% during 2013 and from 5.03% to 5.09% during 2012, and dividends less funds used for benefit payments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 6 for a description of significant accounting policies employed in determining the fair value of investments held by the Fund. Purchases and sales of securities are recorded on a trade-date basis. Securities denominated in foreign currencies are translated at the exchange rate prevailing at the statement of net assets available for benefits date. Investment income (loss) from securities denominated in foreign currencies is translated at the average exchange rate prevailing during the year. The average cost method is used to determine the cost of securities sold. Dividends are recorded on the ex-dividend date. Funds under the investment contract that have been allocated and applied to purchase annuities (through insurance companies with those companies obligated to pay the related pension benefit) are excluded from the Plan's assets.

Risks and Uncertainties

Contributions to the Plan, if any, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, employee compensation and demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**Retirement Plan of W. R. Grace & Co.-Conn. Chemical Group
(Chicago Dewey & Almy Plant)
Notes to Financial Statements
December 31, 2013 and 2012**

Investment securities are exposed to various risks, such as interest rate, credit and market risks. Investment securities change in value, and it is possible that such changes could be material.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Such estimates include those regarding fair value of investments and accumulated benefit obligations. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent those future periodic payments, including lump sum distributions, based on the Plan provisions earned by all active, retired and vested terminated participants up to the date of the valuation. Accumulated plan benefits include benefits expected to be paid to (a) retired or vested terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits reflecting the time value of money and the probability of payment between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation were (a) life expectancy of active participants (the RP-2000 Mortality Table), (b) a graduated retirement age scale from age 55 to 70 and (c) an interest rate of 6.00% as of December 31, 2013 and 2012. Changes in the mortality table, retirement rates, and termination rates assumptions resulted in an increase in the actuarial present value of accumulated plan benefits of \$84,951 for the year ended December 31, 2013. Changes in the interest rate assumption resulted in an increase in the actuarial present value of accumulated plan benefits of \$170,576 for the year ended December 31, 2012. The foregoing actuarial assumptions are based on the presumption that the Plan will continue.

In the event of Plan termination, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

Payment of Benefits

Benefit payments to participants are recorded when paid.

**Retirement Plan of W. R. Grace & Co.-Conn. Chemical Group
(Chicago Dewey & Almy Plant)
Notes to Financial Statements
December 31, 2013 and 2012**

Administrative Expenses

Expenses incurred in the administration of the Plan are required to be paid through the Fund, unless paid directly by the Company at its discretion. Administrative expenses incurred by the Fund are allocated to the Plan as described in Note 5. The Fund paid administrative expenses totaling \$2,986,228 and \$2,785,194 for the years ended December 31, 2013 and 2012, respectively.

Subsequent Events

The Plan evaluated for disclosure any subsequent events through September 29, 2014, the date the financial statements were available to be issued, and determined there were no material subsequent events that warrant disclosure, except as discussed in Note 1.

3. Funding Policies

Employee contributions are not allowed or required by the Plan. Contributions are made by the Company based upon annual actuarial determinations of cost using the "Projected Unit Credit Method." The contributions of the Company are to be made at such intervals as may be determined by management and the Plan's actuaries in such amounts as are necessary to maintain the Plan on a sound actuarial basis and to meet minimum funding standards of ERISA. With the permission of the Court, the Company's contributions for 2013 and 2012 met or exceeded the minimum funding requirements of ERISA. The contribution receivable amount of \$676,000 as of December 31, 2013 was remitted to the Plan on April 1, 2014. The contribution receivable amount of \$506,000 as of December 31, 2012 was remitted to the Plan on March 20, 2013.

Under the provisions of the Pension Protection Act, the minimum funding requirements have been increased. Therefore, Plan sponsors may be required to make larger contributions in the future if Plan obligations are less than 100% funded.

4. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event of Plan termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, to provide the following benefits in the order indicated:

- (a) Benefits attributable to employee contributions, if any, with interest, taking into account those paid out before termination.
- (b) Other vested benefits up to insurance limitations guaranteed by the Pension Benefit Guaranty Corporation ("PBGC").
- (c) All other (i.e., uninsured) vested benefits.
- (d) All nonvested benefits.

**Retirement Plan of W. R. Grace & Co.-Conn. Chemical Group
(Chicago Dewey & Almy Plant)
Notes to Financial Statements
December 31, 2013 and 2012**

Benefits to be provided via investment contracts under which a third party is obligated to pay would be excluded for allocation purposes.

Any remaining Plan assets would be returned to the Company. The PBGC insures pension benefits to Plan participants, up to certain limits, should unfunded vested benefits exist upon Plan termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether a particular participant's accumulated plan benefit will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at the time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2013 and 2012, that ceiling was \$4,790 and \$4,653, respectively. That ceiling applies to pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. For all benefits greater than the PBGC ceiling, the benefits will not be guaranteed for the excess.

5. Investment in the Fund

The Plan has an undivided interest in the Fund, which comprises all of the Plan's investments. As the Plan's sole investment is its interest in the Fund, the investment is greater than 5% of the Plan's net assets. The assets of the Fund are comprised entirely of the Plan's assets and the assets of certain other retirement plans of the Company, each of which has an undivided interest in the Fund and is a related party to the Plan. At December 31, 2013 and 2012, the Plan's percentage interests in the Fund were approximately .58% and .54%, respectively.

Net appreciation in the fair value of Fund investments consists of the realized gains (losses) and the unrealized appreciation (depreciation) on those investments.

Fund Investments

Investments in publicly traded securities are valued at the closing sales price on the last day of the year, which is fair value. Investments, such as corporate bonds traded on the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices, which approximates fair value. Group trust funds and common/collective trust funds are valued at fair value, as they are principally made up of marketable securities which are valued based on quoted market prices, with the remaining investments in the funds fair value as determined by the investment advisor. The redemption frequency and redemption notice period for the Plan's Level 2 investments are daily.

The Plan is pursuing a well-defined risk management strategy designed to reduce investment risks as its funded status improves. The Plan has adopted a diversified set of portfolio management strategies to optimize the risk reward profile of the Plan.

As part of the Fund's investment strategy, certain investment managers may use derivative financial instruments including fixed income futures, options and swaps as substitutes for certain types of fixed income securities for the following primary reasons: (1) to hedge a part of the Fund's portfolio to contain or lessen exposure in certain areas of risk (e.g. currency risk), (2) to gain market exposure in the portfolio in a more efficient and less

**Retirement Plan of W. R. Grace & Co.-Conn. Chemical Group
(Chicago Dewey & Almy Plant)
Notes to Financial Statements
December 31, 2013 and 2012**

expensive manner, (3) to enhance investment returns by decreasing the cost of structuring the portfolio or by capturing pricing disparities between financial instruments, and (4) to adjust the maturity mix of the portfolio more efficiently. These investments are marked-to-market and generally have maturities of six months or less. During 2013 and 2012, derivative transactions were executed in accordance with policies referenced in each investment manager's relevant management agreement and with the Fund's Statement of Investment Policy. The investment managers use exchange-traded investments such as equity and interest rate futures and on occasion, over-the-counter ("OTC") options and forward exchange contracts.

There may be risk exposures associated with some of the derivative transactions. Credit loss could occur due to nonperformance of counterparties associated with these transactions. The investment managers mitigate these exposures through credit approvals, credit limits and other counterparty monitoring procedures.

The following is a summary of the significant accounting policies associated with the Fund's use of derivatives:

Futures - Upon entering into a futures contract, the Fund is required to pledge to the broker an amount of cash and/or collateral equal to the minimum "initial margin" requirements of the exchange. Pursuant to the futures contract, the Fund agrees to receive from, or pay to, the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin", which is settled daily and is included in net appreciation (depreciation) in Other Investments. Fixed income futures of \$(14,201,782) were held by the Fund at December 31, 2013, with corresponding fixed income futures offset of \$14,201,782. Fixed income futures and related offset are included in Other Investments in the net Fund assets available for benefits. There were no fixed income futures or related offset outstanding at December 31, 2012.

The following table presents the Plan's open futures contracts as of December 31, 2013:

<u>Contract</u>	<u>Notional Value</u>	<u>Quantity</u>	<u>Contract Long (Short)</u>	<u>Fair Value</u>
U.S. Treasury 10-year note futures	\$ 100,000	(2)	\$ (200,000)	\$ (246,094)
U.S. Treasury long bond futures	\$ 100,000	(27)	\$ (2,700,000)	\$ (3,464,438)
U.S. Treasury ultra bond futures	\$ 100,000	(77)	\$ (7,700,000)	\$ (10,491,250)

Options - Investment managers may buy or write put and call options through listed exchanges and in the OTC market. When an investment manager buys or writes an option, an amount equal to the premium paid or received by the Fund is recorded as an asset or liability and is periodically adjusted to the current fair value of the option purchased or written. The premiums paid or received from buying or writing options are recorded as realized gains or losses upon the expiration of the options. The difference between the premium and the amount paid or received on effecting a closing purchase or sale transaction is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is recorded as a realized gain or loss, if sold, or an adjustment to cost, if acquired. The Fund, as a writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and as a result, bears the market

risk of an unfavorable change in the price of the security underlying the written option. There were no fixed income options outstanding at December 31, 2013 and 2012. Fixed income options are included in Other Investments in the net Fund assets available for benefits.

Swaps - Conventional interest rate swaps and/or forward interest rate swap spreads are employed for duration and yield curve management. Credit default swaps are used for credit risk management and may be purchased to protect long positions or to capitalize on deteriorating credits or sold to capitalize on pricing inefficiencies relative to cash pay bonds. Total return swaps are used to gain inexpensive exposure to the market and for efficient sector allocation. There were no swaps outstanding at December 31, 2013 and 2012. Swaps are included in Other Investments in the net Fund assets available for benefits.

Fixed income - The investment managers take positions in long and short futures contracts, options, swaps and forward contracts to carry out the Fund's fixed income investment strategy. Investment managers do not use derivative transactions to leverage the Fund's portfolio. Short-term and long-term futures contracts are exchange-traded instruments used to provide the portfolio with liquidity, to obtain a desired portfolio structure and to capture relative value differences.

The investment managers trade listed options on both short-term and long-term futures. The investment managers also trade OTC options on securities, swaps and futures. OTC options are used primarily with securities rather than with futures because there is no listed market for options on most securities. Whether exchange traded or OTC, options are used to obtain a desired portfolio structure.

The assets of the Plan held by the Fund are commingled. The Company, its independent actuary and the Trustee have maintained a record of the assets of each separate plan in the Fund by crediting contributions and charging disbursements to the balance of the Plan's assets at the start of each year. Returns on investments and administrative expenses are allocated to the participating plans on a monthly basis based on the proportion of each plan's beginning net asset balance to the total beginning net asset balance of the Fund for such period.

6. Fair Value Measurements

Certain of the Fund's assets and liabilities are reported at fair value. See Note 5 for methods of valuation for the various investments held by the Fund. Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 "Fair Value Measurement" defines fair value as the value that would be received at the measurement date in the principal or "most advantageous" market. The Fund uses principal market data, whenever available, to value assets and liabilities at fair value that are required to be reported at fair value. ASC 820 prescribes three valuation techniques that shall be used to measure fair value as follows:

1. **Market Approach**—uses prices or other relevant information generated by market transactions involving identical or comparable assets or liabilities.

**Retirement Plan of W. R. Grace & Co.-Conn. Chemical Group
(Chicago Dewey & Almy Plant)
Notes to Financial Statements
December 31, 2013 and 2012**

2. Income Approach—uses valuation techniques to convert future amounts to a single present amount (discounted).
3. Cost Approach—the amount that currently would be required to replace the service capacity of an asset (i.e., current replacement cost).

One or a combination of the approaches above can be used to calculate fair value, whichever results in the most representative fair value.

In addition to the three valuation techniques, ASC 820 prescribes a fair value hierarchy in order to increase consistency and comparability in fair value measurements and related disclosures. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 Inputs — Quoted prices in active markets for identical assets or liabilities. A quoted price in an active market provides the most reliable evidence of fair value.

Level 2 Inputs — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs — Unobservable inputs for the asset or liability, which should reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The methods of investment valuation discussed in Note 5 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the valuation methodologies as of December 31, 2013 and 2012.

7. Tax Status of Plan

The Plan received a favorable determination letter from the Internal Revenue Service dated October 25, 2013. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

ASC 740 "Income Taxes" prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return as well as guidance on de-recognition, classification, interest and penalties and financial statement reporting disclosures. For these benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. As the Plan is tax exempt and has no unrelated business income, the provisions of ASC 740 do not have a material impact on the Plan's financial statements.

The Plan recognizes interest and penalties accrued on any unrecognized tax exposures as a component of income tax expense. The Plan does not have any amounts accrued relating to interest and penalties as of December 31, 2013 and 2012.

The Plan is subject to routine audits by the IRS and Department of Labor; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for Plan years prior to 2010.

8. Related Party Transactions

Certain Fund investments are common/collective trust funds held by The Northern Trust Company as Trustee. The Company provides certain accounting and administrative services to the Plan for which no fees are charged. Fees are paid at the Fund level and are allocated to the Plan. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.
