General

The Plan is a defined contribution plan covering all eligible permanent, part-time and full-time employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrative Committee (Committee) is responsible for oversight of the Plan. The Committee meets with the plan investment advisors to review and determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Eligibility Requirements

Employees become eligible to participate in the Plan and make deferral contributions to the Plan after quarterly enrollment dates, coincident or following their employment commencement date. Employees become eligible to receive the Non-Safe Harbor Non-elective Contributions (as defined) after the applicable entry date upon reaching the age of 18, and being credited with one year and 1,000 hours of service.

Plan Administration

The Plan's administrator is the Company. Charles Schwab Bank (Charles Schwab) is the custodian of all participant directed investments except the Retirement Income Fund, for which Wilmington Trust Retirement and Institutional Services Company (Wilmington) is the custodian. State Street is the custodian of all non-participant directed investments. Charles Schwab is the Plan's trustee. The Company and the custodians have certain responsibilities as described by the plan document and the trust agreement.

NOTE 1 – Description of the Plan (Continued)

Contributions

Each participant may elect to contribute a prescribed percentage of his or her compensation to the Plan. For employees who elect to participate, such percentage shall not be less than 1% nor exceed 100% of eligible compensation as defined under the Plan, subject to certain IRC limitations up to a maximum amount of $17,500 for the 2013 Plan year. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants that are 50 years of age or older who have met the IRC deferral limit or the specified plan limits, may contribute a catch-up deferral of up to $5,500 for 2013.

The Plan also provides for discretionary Non-Safe Harbor Matching Contributions. Participants are eligible to receive Non-Safe Harbor Matching Contributions after one year of service has been completed. During the year ended December 31, 2013, the Company made Non-Safe Harbor Matching Contributions equal to 25% of each employee's contributions, up to 4% of the employee's compensation, as defined. For the year ended December 31, 2013, Non-Safe Harbor Matching Contributions totaled $178,583.

Participant and Company matching contributions to each participant's account are self-directed by the participant in one or more of the investment choices offered under the Plan. The Plan currently offers mutual funds and a common collective trust. Participants' contributions must be allocated among the available investment choices in whole percentages. Participants may change their self-directed investment elections at any time via direct phone or via internet access with the custodian.

The Plan also permits the Company to make discretionary Non-Safe Harbor Non-Elective Contributions to participants' accounts. For the year ended December 31, 2013, Non-Safe Harbor Non-Elective Contributions to the Plan totaled $3,186,205. Non-Safe Harbor Non-Elective Contributions are non-participant directed and are invested in a portfolio of investments at the direction of the Company. A non-interest bearing cash account is maintained to provide available liquidity for distributions. Contributions are subject to certain limitations.

NOTE 1 – Description of the Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, the Non-Safe Harbor Matching Contributions, and the earnings thereon. Vesting in the Company's discretionary Non-Safe Harbor Non-Elective Contributions plus earnings thereon is based on years of continuous service. Participants vest in Non-Safe Harbor Non-Elective Contributions in accordance with the following schedule:

Years of Service	Vested Percentage
1 or-less	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is set at 2% above the prime rate, as defined. Principal and interest are paid ratably through monthly payroll deductions.

NOTE 1 - Description of the Plan (Continued)

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Withdrawals by participants from their accounts are permitted in accordance with the Plan's provisions.

Forfeited Accounts

Unallocated forfeited balances as of December 31, 2013 and 2012 totaled $9,308 and $26,532, respectively. These accounts will be used to pay administrative expenses or to reduce future Company contributions. During the year ended December 31, 2013, administrative expenses of $11,776 were paid from forfeited non-vested accounts and $25,625 was used for employer matching and discretionary contributions.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract-value basis for fully benefit-responsive investment contracts.

NOTE 2 – Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Investment Contracts

The Plan's investments are stated at fair value based on quoted market prices of the underlying assets as determined by Charles Schwab, Wilmington and State Street. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 – Summary of Significant Accounting Policies (Continued)

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Other administrative expenses are paid by the Plan and are included in administrative expenses. Investment related expenses that may be in addition to the investment advisory fees reported are included in net appreciation in fair value investments.

Subsequent Events

Management of the Plan evaluated subsequent events through October 8, 2014, the date the financial statements were available to be issued.

NOTE 4 – Information Prepared and Certified by the Custodians

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab, Wilmington and State Street, the custodians of the Plan, have certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate with respect to investments and notes receivable from participants:

- Investments at fair value, excluding real estate
- Notes receivable from participants
- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Schedule of assets held at end of year
- Schedule of reportable transactions

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE 5 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5 – Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Money market funds and certificates of deposit: Valued at cost.

Common stock, U.S. government securities and municipal securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

Common collective trusts: Valued at fair value by determining quoted prices in active markets of the underlying units, less liabilities. (See Note 6.)

Real Estate

The Plan's real estate investment consists of undeveloped land located in Riverside County, California. The plan administrator estimated a fair value of $100,000 based upon a 2012 appraisal performed by an independent commercial real estate appraiser which considered recent sales of comparable properties. This investment has been included in Level 3 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 – Guaranteed Investment Contract with Charles Schwab

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reporting to the Plan by Charles Schwab and Wilmington, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issue or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $2,188,793 and $2,315,315, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit Charles Schwab to terminate the agreement prior to the scheduled maturity date.

Average yields:

	2013	2012
Based on actual earnings	1.82%	2.60%
Based on interest rate credited to participants	2.08%	1.30%

NOTE 7 - Related-Party Transactions

Certain plan investments are investment funds managed by the custodians and notes receivable from participants. The custodians and participants are considered parties-in-interest under ERISA. Administrative fees paid to the custodians totaled $48,867 for the year ended December 31, 2013. All of these transactions are considered exempt party-in-interest transactions under ERISA.

NOTE 8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time or to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their employer contributions.

NOTE 9 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 7, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements. Continued qualification is dependent on the Plan's future operations.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2010.

NOTE 10 – Risks and Uncertainties

The Plan provides for investments in various investment securities and real estate with different investment strategies. These investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 11 – Reconciliation of the Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31:

	2013	2012
Net assets available for benefits per the financial statements	$ 99,831,751	$ 78,503,920

Net assets available for benefits per the Form 5500	$ 99,740,634	$ 78,424,731

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to net income per the Form 5500 for the year ended December 31, 2013:

Net increase in net assets available for benefits per the financial statements	$ 21,327,831
Less: 2013 adjustment from fair value to contract value for fully benefit-responsive investment contracts	(91,117)
Add: 2012 adjustment from fair value to contract value for fully benefit-responsive investment contracts	79,189
Net income per the Form 5500	$ 21,315,903
