TRANSATLANTIC HOLDINGS, INC. TARGET BENEFIT PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following brief description of the Transatlantic Holdings, Inc. Target Benefit Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information of the Plan’s provisions.

(a) General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and is designed in accordance with Internal Revenue Code (“IRC”) section 401(a). The Plan is a profit sharing plan with a discretionary contribution and allocation formula. Participants in the Plan generally include any salaried U.S. employee of Transatlantic Holdings, Inc. (“THI”) and certain of its subsidiaries (collectively, “TRH”) who is age 21 or older and has completed one year of service. The Plan is sponsored by THI and the trustee of the Plan is Vanguard Fiduciary Trust Company (the “Trustee”).

The Plan was established on January 1, 2010.

(b) Contributions

TRH may at its discretion make contributions to the Plan on behalf of each participant for each plan year. The contributions are allocated to participant accounts following a formula outlined in the Plan. Participants are not permitted or required to make contributions to the Plan.

(c) Participant Accounts

A separate account is maintained for each participant. The account reflects the participant’s share of TRH contributions and the income, realized gain or loss, and unrealized gain or loss attributable to the account. Participants are permitted to change the investments within their account on a daily basis, subject to certain limitations. All investments are participant directed.

(d) Vesting

Participants become 100% vested in their account upon completion of three years of service, attainment of age 65 or death or disability, as defined by the Plan, while employed by TRH. A participant who has not completed three years of service, attained age 65, died or become disabled as of their separation from TRH will forfeit their account balance.

(e) Payment of Benefits

Following the termination of employment with TRH, retirement from TRH, death or disability of a participant, or complete termination of the Plan, the participant’s vested benefits will be distributed as a lump sum.

(f) Plan Termination

Although it has not expressed any intent to do so, THI has the right, under the Plan, to terminate the Plan at any time. In the event of termination, the accounts of the participants of the Plan would become fully vested and non-forfeitable.

(g) Forfeited Accounts

Forfeited nonvested accounts totaled \$1,739 and \$0 at December 31, 2013 and 2012, respectively. These forfeitures reduced employer contributions.

2. Summary of Accounting Policies

(a) Basis of Presentation

The accompanying statements of net assets available for benefits and statement of changes in net assets available for benefits have been prepared under the accrual method of accounting in accordance with generally accepted accounting principles in the U.S. (“GAAP”).

TRANSATLANTIC HOLDINGS, INC. TARGET BENEFIT PLAN
NOTES TO FINANCIAL STATEMENTS

(b) Use of Estimates

The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that affect the reported amounts and related disclosures as of the date of the financial statements and for the period covered by the financial statements. Actual results may differ materially from these estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the Plan. The statement of net assets available for benefits presents the adjustment of the fully benefit-responsive investment contracts (*i.e.*, common/collective trusts) from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for such contracts. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Units of common/collective trusts are valued at net asset value at year-end based on information reported by the Trustee using the respective audited financial statements of the common/collective trusts.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Administrative Expenses

Expenses for maintaining the Plan are principally paid by TRH.

(f) Subsequent Events

The Plan has evaluated subsequent events through September 22, 2014, the date the financial statements were available to be issued.

3. Fair Value Measurements

(a) Fair Value Measurements on a Recurring Basis

The Plan measures at fair value on a recurring basis financial instruments included in its investment portfolio. The fair value of a financial instrument is the amount that would be received to sell an asset in an orderly transaction between willing, able and knowledgeable market participants at the measurement date.

The degree of judgment used in measuring the fair value of financial instruments generally correlates with the level of pricing observability. Financial instruments with quoted prices in active markets generally have more pricing observability and less judgment is used in measuring fair value. Conversely, financial instruments traded in other-than-active markets or that do not have quoted prices have less observability and are measured at fair value using valuation models or other pricing techniques that require more judgment. An active market is one in which transactions for the asset being valued occurs with sufficient frequency and volume to provide pricing information on an ongoing basis. An other-than-active market is one in which there are few transactions, the prices are not current, price quotations vary substantially either over time or among market makers, or in which little information is released publicly for the asset being valued. Pricing observability is affected by a number of factors, including the type of financial instrument, whether the financial instrument is new to the market and not yet established, the characteristics specific to the transaction and general market conditions.

The Plan maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring fair value. Whenever available, the Plan obtains quoted prices in active markets for identical assets at the balance sheet date to measure at fair value investments in registered investment companies. Market price data generally are obtained from exchange or dealer markets.

TRANSATLANTIC HOLDINGS, INC. TARGET BENEFIT PLAN
NOTES TO FINANCIAL STATEMENTS

(b) Fair Value Hierarchy

Assets recorded at fair value in the statement of net assets available for benefits are measured and classified in a hierarchy for disclosure purposes consisting of three levels based on the observability of inputs available in the marketplace used to measure the fair values as discussed below:

- Level 1: Fair value measurements that are quoted prices (unadjusted) in active markets that the Plan has the ability to access for identical assets. Market price data generally is obtained from exchange or dealer markets. Assets measured at fair value on a recurring basis and classified as Level 1 consist of most investments in registered investment companies.
- Level 2: Fair value measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets in active markets and inputs other than quoted prices that are observable for the asset, such as interest rates and yield curves that are observable at commonly quoted intervals. Assets measured at fair value on a recurring basis and classified as Level 2 consist of investments in certain registered investment companies and investments in common/collective trusts. Each common/collective trust provides for daily participant redemptions by the plan at reported net asset values per share, with no advance notice requirement.
- Level 3: Fair value measurements based on valuation techniques that use significant inputs that are unobservable. These measurements may be made under circumstances in which there is little, if any, market activity for the asset. The assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment. In making the assessment, factors specific to the asset are considered. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety. No assets were measured at fair value on a recurring basis and classified as Level 3.

4. Investments

The Plan invests in investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

In general, Plan participants can adjust their investment allocations on a daily basis. On January 1, 2013, the Plan ceased to offer the AllianceBernstein International Value Fund Class A (the "Alliance Fund") as an investment alternative. As a result, participants' who did not voluntarily transfer their account balances allocated to the Alliance Fund into an alternative fund under the Plan were automatically transferred into the Tweedy Browne Global Value Fund on December 31, 2012. Participants had at least 30 days prior to the transfer date to make voluntary transfers. After the transfer, participants were permitted to transfer Tweedy Browne Global Value Fund balances into other investment alternatives under the Plan.

5. Related Party Transactions

The Plan invests in shares of mutual funds and common/collective trusts managed by affiliates of the Trustee. The Trustee acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from prohibited transaction rules.

In 2013 and 2012, TRH incurred on behalf of the Plan \$17,748 and \$17,927, respectively, of expenses from Vanguard Group, Inc., an affiliate of the Trustee.

6. Tax Status

The Internal Revenue Service ("IRS") has determined and informed THI by a letter dated April 25, 2014 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The determination letter is retroactive to the Plan's inception of January 1, 2010. The plan administrator and the Plan's tax counsel believe that the plan continues to be operated in compliance with the applicable requirements of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
