Notes to Financial Statements

December 31, 2013

1. Summary of Significant Accounting Policies

Plan Description

The Plan included employees of Mercy Health Partners, Inc. (“Mercy”), as well as the employees of certain affiliates of the Plan Fiduciary: Jefferson Memorial Hospital, Inc., St. Mary’s Hospital of Campbell County, Inc., Mercy Health and Wellness Center, LLC, St. Mary’s Medical Center of Scott County, Inc., and Baptist Hospital of Cocke County, Inc. (collectively, the “Sponsor Employers”). The Sponsor Employers were all acquired in the acquisition discussed below.

Basis of Accounting and Freeze and Termination

The accounting records of the Mercy Health Partners 401(k) Retirement Plan (the “Plan”) are maintained on an accrual basis. Annual returns filed under applicable provisions of the Employee Retirement Security Act of 1974 (“ERISA”) and the Internal Revenue Code (“IRC”) are filed on the cash basis of accounting.

In 2011, Mercy was acquired by another entity and Catholic Health Partners became The Plan Fiduciary. In connection with the acquisition, the Plan Fiduciary elected to freeze the Plan effective October 1, 2011 (“Frozen Date”). The Plan was then terminated effective October 1, 2013 (“Termination Date”). In accordance with accounting principles generally accepted in the United States of America, the Plan changed its basis of accounting from the ongoing plan basis to the liquidation basis for years after 2010. The adoption of the liquidation basis of accounting does not have a significant impact on the Plan’s financial statements.

As a result of the decision to freeze the Plan, effective the Frozen Date, all participant accounts became fully vested, regardless of the vesting schedule and were no longer subject to forfeitures, no new participants were admitted to the Plan, no additional contributions were made to the Plan by participants and no new participant loans were allowed. Effective the Termination Date, previously forfeited balances were restored to qualifying participants and participants were directed to transfer their balances into another qualified employer plan or an individual retirement account, or to receive a direct taxable distribution. All assets of the Plan were fully distributed by December 31, 2013.

Use of Estimates

The preparation of financial statements on the liquidation basis of accounting are in conformity with accounting principles generally accepted in the United States of America and require the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Mercy Health Partners 401(k) Retirement Plan
Notes to Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Participant Notes Receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest.

Upon default of participant notes receivable, the entire outstanding principal and interest shall be immediately due and payable. If a distributable event, as defined by the IRC, has occurred, the note receivable will be foreclosed on and be offset against the participant's account balance. If a participant's note receivable is in default, the participant shall be treated as having a taxable deemed distribution whether or not a distribution event has occurred.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses (primarily investment fees) are paid by the Plan and allocated to participant accounts. Remaining fees for legal, accounting and other administration are paid by the Plan Sponsor.

Subsequent Events

In preparation of the accompanying financial statements, subsequent events that have occurred since the balance sheet date have been evaluated through October 8, 2014, the date the financial statements were available for issuance.

2. Description of the Plan

General

The Plan is a defined contribution plan with a cash or deferred arrangement ("401(k)"). Prior to the Frozen Date, the Plan was available to all employees of the Plan Fiduciary and affiliates (the "Affiliates") who had completed one year of service and attained age 21. Participation in the Plan was strictly voluntary, and employees could elect to participate as of the date the age and service requirements were satisfied. The Plan is subject to the provisions of ERISA.

The Plan Fiduciary is responsible for the administration of the Plan and entrusted the maintenance of records and the day-to-day administration to Transamerica Retirement Services ("TRS").

Mercy Health Partners 401(k) Retirement Plan

Notes to Financial Statements (continued)

2. Description of the Plan (continued)

Contributions

Prior to the Frozen Date, participating employees could defer 401(k) contributions up to the IRS limitation. The Sponsor Employers made matching contributions of 50% of the first 4% of earnings. At year-end, the Sponsor Employers could make additional contributions (“Sponsor Employer contributions”) at the option of the Sponsor Employers’ Board of Directors.

Receivables from the Sponsor Employers for contributions were unsecured. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Prior to the Frozen Date, employee contributions to the Plan were made through payroll deductions. The employee contributions and employer matching contributions were remitted to the Trustee after each payroll.

Investments

The Plan Fiduciary established a trust with State Street Bank and Trust Company (“SSBT” or the “Trustee”) to hold, administer and invest the assets of the Plan. Each investment fund with SSBT (including certain investment options of Transamerica Financial Life Insurance Company (“Transamerica”), an affiliate of TRS) was a collective investment trust in which the Plan had an undivided interest with other employee benefit plans that participated in the investment funds.

The Plan did not require these investment funds to be insured or collateralized. The maximum loss, if any, that would be incurred by the Plan if the counterparties to the Plan’s investments failed to perform, was the recorded amount of such investments. SSBT delegated its administrative duties to TRS.

The investment funds were stated at fair value based on the last reported sales price for the year. In accordance with the policy of stating investments at fair value, net appreciation or depreciation in the fair value of investments is reflected in the Statement of Changes in Net Assets in Liquidation Available for Benefits. This includes all investments bought or sold, as well as held during the year.

Mercy Health Partners 401(k) Retirement Plan
Notes to Financial Statements (continued)

2. Description of the Plan (continued)

Investments (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under terms of the Plan. Fully benefit-responsive investment contracts held by the Plan are as follows:

Guaranteed Pooled Fund

The Plan invested in an investment contract held in the Guaranteed Pooled Fund of Transamerica. The Statement of Net Assets in Liquidation Available for Benefits presents the fair value of this investment contract, which approximates contract value. Participants should refer to the Transamerica Financial Life Insurance Company Guaranteed Pooled Fund financial statements for more information.

The Plan also invested in an investment contract held in the Stable Fund (General Account) of Transamerica. SSBT maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for administrative expenses. The Stable Fund issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan. Because the Stable Fund does not include participant funds, it was not considered a fully benefit-responsive contract.

Participant Accounts

Participants could allocate their account among various investment. Participants had the opportunity to change the investment options previously elected at any time.

Each participant's account was credited with the participant's contribution; the respective Sponsor Employer's matching contribution and an allocation of the Sponsor Employer's discretionary contribution and Plan earnings. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's account.

Participant Notes Receivable

Prior to the Frozen Date, participants could borrow part of the value of their before-tax contributions from the Plan. The amount was required to be at least \$1,000 and not more than 1/2 the value of their account, limited to \$50,000. The loan was fully secured by the participant's account. The loan was repaid by the participants over a five-year period, or longer if for the acquisition or renovation of a principal residence, including interest at the prevailing market interest rate.

Mercy Health Partners 401(k) Retirement Plan
Notes to Financial Statements (continued)

2. Description of the Plan (continued)

Vesting

Prior to the Frozen Date, participants were immediately vested in their voluntary contributions plus actual earnings on those contributions. Vesting in the Sponsor Employer's matching and discretionary contribution portion of their accounts plus related earnings was based on years of service, defined as 1,000 hours in a calendar year, as follows:

<u>Years of Service</u>	<u>Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Effective the Frozen Date, participants became fully vested in their accounts.

Forfeitures

Forfeitures were created when participants terminated employment before becoming entitled to their full benefits under the Plan. Forfeitures could be used to reduce future Sponsor Employers' contributions or pay Plan expenses. See Note 4 for a summary of the forfeitures account.

Summary Plan Description

The foregoing description of the Plan provides only general information. Participants should refer to the Mercy Health Partner's 401(k) Retirement Plan Summary Plan Description for a more complete description of the Plan's provisions. Copies of this publication are available from the Plan Fiduciary.

3. Income Tax Status

The Internal Revenue Service ("IRS") has ruled the prototype plan from which the Plan was designed in accordance with applicable sections of the IRC and is, therefore, not subject to tax under present income tax law. Although the Plan has been amended since receiving the determination letter, the Plan Fiduciary and the Plan's tax counsel are not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualification status, and believe the Plan is designed, and being currently, operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Mercy Health Partners 401(k) Retirement Plan

Notes to Financial Statements (continued)

3. Income Tax Status (continued)

The Plan Fiduciary has not submitted a request to the IRS for a favorable determination letter with respect to the Plan's qualified status as of the Frozen Date, Termination Date or as of October 8, 2014, the date the financial statements were available for issuance but believes that the Plan has complied with applicable actions regarding Plan termination.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

4. Trustee Information (Unaudited)

The Trustee holds the Plan's investment assets and executes transactions therein. Financial information relating to those investments is included in the accompanying financial statements based upon information provided by the Trustee. That information, which has not been audited, is summarized as follows:

4. Trustee Information (Unaudited) (continued)

The balance in the forfeitures account was invested in the Transamerica Stable Fund as directed by the Plan Administrator. Activity in this nonparticipant-directed investment is as follows for the years ended December 31:

	2013	2012
Nonparticipant-directed account at beginning of year	\$60,874	\$87,512
Appreciation in fair value	1,597	15,284
Forfeitures used	(62,471)	(41,922)
Nonparticipant-directed account at end of year	\$ —	\$60,874

The forfeitures account was inadequate to cover reinstated forfeitures to qualifying participants. Amounts contributed to restore said forfeitures are included in employer contributions as discussed in Note 6.

5. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1	Quoted prices in active markets for identical assets.
Level 2	Significant other observable inputs.
Level 3	Significant unobservable inputs.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for investments measured at fair value:

Money market funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value of shares held by the Plan at year-end.

Guaranteed pooled fund, fixed account fund and stable fund: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

5. Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Level 1	Level 2	Total
Money market funds	\$ 1,291,379	\$ —	\$ 1,291,379
Mutual funds:			
Small/Mid cap funds	2,434,053	—	2,434,053
Large cap funds	7,478,028	—	7,478,028
Bond funds	1,187,635	—	1,187,635
Multi-Asset funds	7,082,346	—	7,082,346
International funds	2,305,709	—	2,305,709
Guaranteed pooled fund	—	2,685,751	2,685,751

6. Contributions

Cash contributions by the Plan Fiduciary in 2013 are to reinstate previously forfeited amounts to qualifying participants' accounts. Qualifying participants are considered those who were in the Plan at the Frozen Date, regardless of vesting. The Plan Fiduciary contributed \$153,978 to the Plan in 2013 since there were inadequate assets in the Plan to cover the reinstated forfeitures.

7. Excess Contributions

Benefit payments in 2012 include payments of \$11,413, made to certain active participants to return them excess deferred contributions to satisfy the relevant nondiscrimination provisions of the Plan for the prior year.
