WALBRO ENGINE MANAGEMENT, LLC UAW LOCAL 9699 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2013

1. Description of plan:

The following description of the Walbro Engine Management, LLC UAW Local 9699 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan was established in July 2007.

General:

The Sponsor of the Plan is Walbro Engine Management, LLC (Sponsor).

The Plan is a defined contribution retirement plan covering employees of Walbro Engine Management, LLC who are at least 18 years of age, are covered by a collective bargaining agreement between the Sponsor and the UAW Local 9699 and have achieved seniority status under said agreement. Leased employees and nonresident aliens with no U.S. source of income are excluded from participating in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participants' contributions:

Under the 401(k) provisions of the Plan, the participants may elect to defer up to 25% of their pretax regular compensation and up to 100% of bonuses, subject to current statutory limits determined annually and prescribed by the Internal Revenue Service. The Plan also permits eligible participants to make additional voluntary contributions of qualified rollovers from other retirement plans.

Employer contributions:

Participants with an original hire date of November 9, 2006 or later are eligible to receive employer nonelective contributions equal to 3% of eligible compensation, as defined. Participants with an original hire date prior to November 9, 2006 who were participants in the Walbro Engine Management, LLC UAW Local 9699 Pension Plan on July 5, 2009, are eligible to receive a 100% vested nonelective contribution of \$0.39 per hour. Employer contributions are invested in the same funds and increments as directed by the participant for the participant's contributions. Contributions are subject to statutory limitations.

Participants' accounts:

Each participant's account is credited with the participant's elective deferral and rollover contributions, actual earnings thereon, allocations of the employer's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options:

Upon enrollment in the Plan, a participant may direct contributions in any whole percentage increments into any of several different investment options. All of the assets are in the custody of Fidelity Management Trust Company. Participants may change their investment options at any time.

WALBRO ENGINE MANAGEMENT, LLC UAW LOCAL 9699 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEAR ENDED DECEMBER 31, 2013

1. Description of plan (continued):

Vesting:

Participants are immediately vested in their elective deferral contributions and any rollover contributions made to the Plan, plus actual earnings thereon. Vesting in the employer's contribution portion of the participant's accounts (that were not subject to immediate vesting) plus actual earnings thereon is based on years of credited service. Participants vest 100% upon the completion of their third year of credited service or upon attaining their normal retirement age. The Plan defines a year of credited service to be a twelve consecutive month period commencing with the participant's hire date with at least 1,000 hours of service. Upon death or total disability of any participant prior to retirement, the participant's account balance shall become fully vested.

Hardship withdrawals:

If approved by the Plan Administrator, a participant may withdraw from his/her participant deferral contributions account, the amount needed to satisfy any of the following immediate and heavy financial needs (minimum of \$500): unreimbursed medical expenses for qualified persons, purchase of a principal residence, to prevent eviction from or foreclosure on a principal residence, to pay for post-secondary education expenses for qualified persons, funeral expenses or for expenses that qualify as a casualty deduction under the Internal Revenue Code (IRC). Prior to receiving a hardship withdrawal, a participant must first exhaust all other options. The participant will be unable to contribute to the Plan for six months following receipt of a hardship withdrawal.

Payment of benefits:

On termination of service due to death, disability, retirement or other reason, a participant whose vested account balance exceeds \$1,000 may elect to receive a lump-sum amount payment equal to the value of their account balance. Participants with account balances less than \$1,000 must take a lump sum distribution as soon as practicable following termination.

Forfeitures:

Forfeited balances of terminated participants' nonvested accounts are used to reduce future employer contributions. At December 31, 2013 and 2012, there were no nonvested accounts to be forfeited in future periods. During 2013, no forfeitures were used to reduce employer contributions.

2. Summary of significant accounting policies:

Basis of accounting:

The Plan's financial statements are prepared using the accrual method of accounting.

WALBRO ENGINE MANAGEMENT, LLC UAW LOCAL 9699 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEAR ENDED DECEMBER 31, 2013

2. Summary of significant accounting policies (continued):

Estimates:

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. See Note 4 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net appreciation in the fair value of investments includes both realized and unrealized gains and losses on investments bought and sold as well as held during the year.

Payments of benefits:

Benefits paid to participants are recorded when paid.

Subsequent events:

The Plan has evaluated the events that have occurred subsequent to December 31, 2013 through September 30, 2014, the date that the financial statements were available to be issued. The Plan has no responsibility to update these financial statements for events and circumstances occurring after this date.

3. Federal income tax status:

The Sponsor has adopted a volume submitter plan, as sponsored by Fidelity Management & Research Company, who obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Sponsor believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust tax-exempt as of December 31, 2013 and 2012.

WALBRO ENGINE MANAGEMENT, LLC UAW LOCAL 9699 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEAR ENDED DECEMBER 31, 2013

3. Federal income tax status (continued):

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

4. Fair value measurements:

Fair value is defined as the price to sell an asset or transfer a liability between market participants as of the measurement date. Fair value measurements assume the asset or liability is exchanged in an orderly manner; the exchange is in the principal market for that asset or liability (or in the most advantageous market when no principal market exists); and that the market participants are independent, knowledgeable, able and willing to transact an exchange. The fair value for qualifying alternative investments is determined based on the investment's net asset value as a practical expedient. Considerable judgment is required in interpreting market data used to develop the estimates of fair value. Accordingly, the estimates presented in the financial statements are not necessarily indicative of the amounts that could be realized in a current market exchange. The use of different market assumptions and estimation methodologies may have a material effect on the estimated fair value.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Transfers between levels are recorded at the beginning of the reporting period in which they occur. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets or active markets that the Plan does not have access to;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEAR ENDED DECEMBER 31, 2013

4. Fair value measurements (continued):

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

At December 31, 2013, the fair value of assets measured on a recurring basis is as follows:

	<u>Fair value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Registered investment companies:				
Stock funds - Large cap	\$ 14,595	\$ 14,595	\$ -	\$ -

Stock funds - Small cap	7,093	7,093	-	-

	<u>\$ 614,580</u>	<u>\$ 614,580</u>	<u>\$ -</u>	<u>\$ -</u>

At December 30, 2012 the fair value of assets measured on a recurring basis is as follows:

	<u>Fair value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Registered investment companies:				
Stock funds - Large cap	\$ 8,490	\$ 8,490	\$ -	\$ -

	<u>\$ 458,996</u>	<u>\$ 458,996</u>	<u>\$ -</u>	<u>\$ -</u>

The assets in the preceding tables were measured primarily using the market approach. Following is a description of the valuation methodologies used for assets measured at fair value:

Registered investment companies: Valued at the closing price reported in the active market in which the individual securities are traded.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEAR ENDED DECEMBER 31, 2013

4. Fair value measurements (continued):

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investments:
