NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the JRH Industries Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees, except those covered by a collective bargaining agreement, of JRH Industries, LLC, and its wholly owned subsidiaries, Commercial Honing, LLC and Premier Hydraulics, LLC (collectively, the Company), who have completed one year of service, as defined, and have attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute to the Plan up to 100% of their pre-tax annual compensation, as defined in the Plan, subject to the maximum permitted by the Internal Revenue Service (IRS). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Company makes matching contributions of 50% of the first 6% of participant compensation contributed to the Plan. The Company may also make discretionary profit sharing contributions to the Plan. The discretionary contributions are funded in the year subsequent to their authorization. No profit sharing contributions were authorized for 2013. Contributions are subject to certain IRS limitations.

Participant Accounts

A separate account is maintained for each participant. Each participant's account is credited with the participant's contribution, allocations of the Company's contributions, and Plan earnings or losses as defined by the Plan agreement. Allocation of the Company's matching contribution is based on the participant's contribution. Allocations of the Company's profit sharing contribution are given only to participants employed at the end of the Plan year who have completed at least 1,000 hours of service during the Plan year, and are based on participants' compensation for the Plan year relating to the contribution. Plan earnings are allocated daily based on each participant's account balance. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account, as defined.

Vesting

Participants are immediately vested in their contributions and matching contributions plus actual earnings thereon. Vesting in the Company's profit sharing contributions is based on years of continuous service. A participant is 100% vested after six years of credited service.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants

The Plan allows participants to borrow money within certain limits from their individual accounts. The loans are secured by the balance in the participant's account. Such loans bear interest at a reasonable rate commensurate with current interest rates charged for loans made under similar circumstances by persons in the business of lending money. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, periodic installments over a period not to exceed the participant's remaining life expectancy at the time payments begin, or an annuity contract. If the participant's account balance is between \$1,000 and \$5,000, the plan administrator may make an automatic rollover of the participant's vested interest in his or her account to a qualified individual retirement account. If the participant's vested balance is less than \$1,000, the plan administrator may direct the custodian to make a lump sum distribution of the account balance. Participants terminated for other reasons are entitled to receive their benefits as soon as administratively feasible following the date of termination. Distributions of a participant's 401(k) account balance may be authorized at anytime by the plan administrator under certain hardship conditions.

Forfeitures

Forfeitures are used first to reduce administrative expenses and then to reduce employer matching contributions or can be reallocated to participating employees for the years in which they were forfeited. At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$31,481 and \$4,094, respectively. During 2013, \$31,989 was transferred to the forfeiture account, and \$8,075 was primarily used to reduce administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts. As of December 31, 2013, the fair value of the investment contract approximates contract value.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value as reported by Principal Trust Company (Principal), the custodian of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisers, custodian, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Assets of the Plan are held in separate accounts of a trust administered by Principal, representing investments in mutual funds, pooled separate accounts, common/collective trust funds, and a guaranteed investment contract.

Investment of participants' contributions and the Company's contributions into these investments are at the direction of each participant.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded at December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Plan expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expense. Investment related expenses are included in net appreciation in fair value of investments.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes

The Plan recognizes and discloses uncertain tax positions in accordance with GAAP. As of December 31, 2013 and 2012, and for the year ended December 31, 2013, the Plan did not have a liability for unrecognized tax benefits. The Plan is no longer subject to examination by federal and state taxing authorities prior to 2010.

Subsequent Events

Management has evaluated subsequent events through October 1, 2014, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE CUSTODIAN

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by Principal, the custodian.

Principal has certified as to the completeness and accuracy of the investments it holds, changes in net assets arising from investment activity, and the schedule of assets held at end of year as of December 31, 2013 and 2012, and for the year ended December 31, 2013.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access |
| Level 2 | Other significant observable inputs including: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means |
| Level 3 | Inputs are significant and unobservable (including the Plan's own assumptions used to determine value) |

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTES TO THE FINANCIAL STATEMENTS

4. FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies utilized at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: Fair value is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date). The guaranteed investment contract is not actively traded, and significant other observable inputs are not available.

Common/collective trust funds: Valued at the NAV of units of the common/collective trust fund. The NAV as provided by the trustee of the fund, is used as a practical expedient to estimated fair value. The NAV is based on the fair value of the underlying investments held by the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV.

Pooled separate accounts: Valued using quoted market prices of the securities included in the underlying funds, which includes a mix of mutual funds, common/collective trust funds, and managed accounts.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value by level, within the fair value hierarchy, are comprised of the following at December 31, 2013:

<u>Description</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Common/collective trust funds:

4. FAIR VALUE MEASUREMENTS (Continued)

Assets measured at fair value by level, within the fair value hierarchy, are comprised of the following at December 31, 2012:

Description	Level 1	Level 2	Level 3
Common/collective trust funds:			
Target date funds		\$ 3,317,282

Following is a reconciliation of activity for the fair value of the Plan's level 3 assets for the year ended December 31, 2013:

	GIC

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed investment contract	\$ 421,950	Discontinuation Value	Composite Crediting Rate	2.00% - 2.10%
			Surrender Charge	5.00%

NOTES TO THE FINANCIAL STATEMENTS

5. INVESTMENTS

The Plan's investments which exceed 5% of the Plan's net assets available for benefits as of December 31, 2013 and 2012, are as follows:

	<u>2013</u>	<u>2012</u>
Principal Trust Target 2010 Fund		\$ 269,198
Principal Trust Target 2020 Fund	\$ 845,985	\$1,270,883
Principal Trust Target 2025 Fund	\$ 425,394	\$ 564,956
Principal Trust Target 2030 Fund	\$ 292,749	\$ 502,763
Principal Trust Target 2040 Fund	\$ 218,399	\$ 260,569
Principal Fixed Income Guaranteed Option	\$ 421,950	

6. GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a benefit-responsive investment contract with Principal Life Insurance Company (Principal Life). Principal Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1.35%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTES TO THE FINANCIAL STATEMENTS

6. GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	<u>2013</u>	<u>2012</u>
Based on actual earnings	2.00%	2.10%
Based on interest rate credited to participants	2.00%	2.10%

7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Principal, or related companies. Principal is the custodian, as defined by the Plan and, therefore, such transactions qualify as party-in-interest transactions.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan was qualified and the related trust were tax exempt as of the financial statement date.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
