AXIOM MULTIPLE EMPLOYER 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan

The following description of the Axiom Multiple Employer 401 (k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 2013 as a voluntary defined contribution plan available to the members of the Donald Martens and Sons Ambulance Service (the Employer). To reflect the co-employment relationship between the Employer and the other employers and employees, the Employer deemed it advisable and in the best interests of the employees, that the Plan qualify as a multiple employer plan. Employers in a multiple employer plan may have different benefit formulas for their participating employees. Accordingly, each adopting employer executes an adoption agreement with terms and conditions specific to such employer. Eligible employees of the Employer and other employers may enter the Plan on entry dates coinciding with or following the date on which those employees meet the eligibility requirements as outlined within their respective employer's adoption agreement. Those entry dates are generally on a quarterly basis. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute any amount of pre-tax and after tax annual compensation, as defined by the Plan, up to the maximum allowable under the Internal Revenue Code (IRC). Participants may also roll over amounts representing distributions from other qualified defined benefit or contribution plans. For the year ended December 31, 2013, individual participants' contributions were limited to \$17,500. Participants who are age 50 and older may also contribute an additional \$5,500 on an annual basis.

The Plan provides for employer discretionary matching and discretionary contributions. The employer discretionary matching contribution is an amount equal to a matching percentage, which the employer from time to time deems advisable, of the participant's eligible contributions for the plan year. For the year ended December 31, 2013, the participating employers contributed an amount up to 6% of a participant's compensation. Such discretionary contributions amounted to \$56,060 for the year ended December 31, 2013.

Participant accounts

Each participant account is credited with the participant's contribution and allocation of: (a) the employer's discretionary matching contribution and discretionary contribution (if any) and (b) Plan earnings or losses including market value adjustments on Plan investments. Allocations of earnings and losses are based on the proportion of the participant's account balance to the total account balances of all participants, as defined in the Plan document. All participant contributions are participant-directed and may be invested in one fund or allocated among different funds. Participants may change the allocation of contributions among funds pursuant to Plan provisions.

Allocation and vesting of benefits

Participants are immediately vested in their voluntary contributions plus actual earnings or losses thereon. Vesting in any employer's contribution, plus any earnings or losses thereon, is based upon the number of years of continuous service as listed in the following table:

AXIOM MULTIPLE EMPLOYER 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Note 1 – Description of Plan, Continued

<u>Years of Service</u>	<u>Percent Vested</u>
Less than 2	-
2, but less than 3	20
3, but less than 4	40
4, but less than 5	60
5, but less than 6	80
6 or more	100

Participant accounts become fully vested upon death, disability, or upon termination of the Plan.

Forfeitures

Forfeitures are used to reduce the employer's elective contribution and/or used to pay Plan administration expenses. Forfeitures are allocated to participants' accounts in the same manner as employer matching contributions. At December 31, 2013, the net assets available for plan benefits included unallocated forfeitures amounting to \$8,342.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum distribution, or in monthly installments. For termination of service due to other reasons, a participant may choose to leave the vested interest in the Plan if such amounts exceed \$5,000 or elect a lump-sum distribution. Participants with vested amounts less than \$1,000 must elect a lump-sum distribution, and participants with a vested amount between \$1,000 and \$5,000 are placed in an IRA provided by the Plan Administrator or may elect a lump-sum distribution. Funds may also be accessed prior to the date they become distributable by way of a financial hardship withdrawal. Hardship withdrawals are allowable in accordance with Internal Revenue Service (IRS) guidelines.

Participant notes receivable

Plan participants may borrow from their fund accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans, which are collateralized by the balance in the participant's account, bear interest at prime, determined as of the date of the loan request, which ranged from 4.25% to 6.25% as of December 31, 2013. Principal and interest are paid ratably through monthly payroll deductions. All loans are required to be repaid within a period of five years, except loans to acquire the participant's principal residence which must be repaid in a reasonable period of time, not to exceed fifteen years.

Participant investment options

Participants must direct their salary deferred contributions from several investment options offered through the Plan Custodian, Lincoln National Life Insurance Company (Lincoln), as made available and determined by the Plan Administrator. Those investment options consist of values of interest in pooled separate accounts and guaranteed fund. Values of interest in pooled separate accounts and guaranteed fund are units of participation that the Plan has in the underlying assets of the accounts/fund.

AXIOM MULTIPLE EMPLOYER 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Note 1 – Description of Plan, Continued

Plan administration

The Plan is administered by the Employer pursuant to the terms and conditions of the Plan and trust. Under the terms of the Plan, a group of designated employees of the Employer act as trustees.

The Employer has contracted with Lincoln under a group variable annuity contract to act as the Plan's Custodian. Lincoln will invest each participant's account balance in pooled separate accounts and guaranteed fund, as instructed by each participant. The Employer has contracted with Pinnacle Financial Services, Inc. (Pinnacle) to act as the Plan's third party administrator.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment valuation and income recognition

The Plan's pooled separate accounts and guaranteed fund are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Interest income is recognized when earned. Dividend income is recorded on the ex-dividend date. Realized gains and losses on investments are recognized upon the sale of the related investment and unrealized appreciation or depreciation is recognized at period-end when carrying values of the related investments are adjusted to their fair values. Purchases and sales of investments are recorded on a trade-date basis. Earnings on investments, with the exception of participant loans, are allocated on a pro rata basis to individual participant accounts based on the type of investment and the ratio of each participant's individual account balance to the aggregate of participant account balances.

The portion of interest included in each loan payment made by a participant is recognized as interest income in the participant's individual account.

Participant notes receivable are valued at their outstanding balances, which approximate fair value.

In accordance with the policy of stating investments at fair value, the Plan presents in the statement of changes in net assets available for plan benefits the net appreciation (depreciation) in the fair value of investments which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Administrative expenses

Administrative expenses for the year ended December 31, 2013 were \$25,797. Other administrative expenses such as accounting and legal fees are paid by employers, rather than the participants.

Management estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets and changes in net assets and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and such differences may be material.

AXIOM MULTIPLE EMPLOYER 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Note 2 – Summary of Significant Accounting Policies, Continued

Risks and uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the high level of risk associated with certain investment securities and the level of uncertainty related to changes in the values of investment securities, it is at least reasonably possible that changes in risks in the near-term could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

Payment of benefits to withdrawing participants

The Plan records benefit payments to withdrawing participants when paid.

Uncertain tax positions

The Plan accounts for uncertainty in income taxes in accordance with the provisions of the Accounting Standards Codification (ASC) *Income Taxes*, FASB ASC 740. The guidance requires entities to assess their uncertain tax positions for the likelihood they would be overturned upon examination by the IRS. In accordance with this guidance, the Plan has determined it does not have any positions at December 31, 2013, that it would be unable to substantiate.

Concentration of credit risk

Financial instruments which potentially subject the Plan to concentrations of credit risk consist of the Plan's debt securities included in investment vehicles. Management believes that the Plan Custodian maintains the Plan's investments with high credit-quality institutions and attempts to limit the credit exposure of any particular investment.

Note 3 – Information Prepared and Certified by the Plan Custodian

The following investment information was obtained from data prepared and certified to as complete and accurate by the Plan Custodian as of December 31, 2013. NOTES TO FINANCIAL STATEMENTS, CONTINUED

Note 4 – Fair Value Measurements

ASC 820-10, *Fair Value Measurement*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The authoritative guidance describes a fair value hierarchy based on three levels of input, of which the first two are considered observable and the last is considered unobservable, that may be used to measure fair value.

- | | |
|---------|---|
| Level 1 | Quoted prices in active markets for identical assets or liabilities. |
| Level 2 | Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. |
| Level 3 | Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. |

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Following is a description of the Plan's valuation methodologies for assets and liabilities measured at fair value. Such valuation methodologies were applied to all of the assets and liabilities carried at fair value. The Plan has an established and well-documented process for determining fair values. Fair value is based upon quoted market prices, where available. If listed prices or quotes are not available, fair value is based upon models that primarily use, as inputs, market-based or independently-sourced market parameters, including yield curves, interest rates, volatilities, equity or debt prices and credit curves. In addition to market information, models also incorporate transaction details such as maturity. Valuation adjustments, such as liquidity valuation adjustments, may be necessary when the Plan is unable to observe a recent market price for a financial instrument that trades in inactive (or less active) markets. Liquidity adjustments are not taken for positions classified within Level 1 (as defined above in the fair value hierarchy).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. Following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

AXIOM MULTIPLE EMPLOYER 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Note 4 – Fair Value Measurements, Continued

Pooled separate accounts

The Plan's pooled separate accounts are valued based upon the units of such pooled separate accounts held by the Plan at year-end multiplied by the respective unit value. The unit values of the pooled separate accounts are based upon significant observable inputs, but are not based upon quoted market prices in an active market. The underlying investments of the pooled separate accounts consist solely of mutual funds, each of which follows a separate investment strategy in accordance with the categorization shown in the table above. Due to the nature of these securities, there are no unfunded commitments or redemption restrictions. The Plan's pooled separate account investments are considered Level 2 investments as of December 31, 2013.

The following table summarizes the Plan's investments based on valuation methodology applied by the Plan as of December 31, 2013:

Description	Level 1:	Level 2:	Level 3:	Total
	Quoted prices in markets for identical assets	Significant other observable inputs	Significant unobservable inputs	
Investments:				
Pooled separate accounts	\$ -	\$ 1,657,539	\$ -	\$ 1,657,539
Guaranteed fund	-	-	251,888	251,888
	<u>\$ -</u>	<u>\$ 1,657,539</u>	<u>\$ 251,888</u>	<u>\$ 1,909,427</u>

The following is a schedule of the Plan's Level 3 investment activity for the year ended December 31, 2013 measured on a recurring basis using significant unobservable inputs:

Balance, beginning of year	\$ -
Net appreciation	3,280
Purchases	270,081
Settlements	<u>(21,473)</u>
Balance, end of year	<u>\$ 251,888</u>

Note 5 – Guaranteed Fund with Plan Custodian

The Plan has a fully benefit-responsive guaranteed investment contract with Lincoln which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

AXIOM MULTIPLE EMPLOYER 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Note 5 – Guaranteed Fund with Plan Custodian, Continued

The contract value of the guaranteed fund is the relevant measurement of the net assets available for plan benefits in a defined contribution plan that holds fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The statement of net assets available for plan benefits presents the fair value of the fully benefit-responsive investment contracts with the appropriate adjustment to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis. The Plan Custodian indicated that the fair value of the guaranteed fund equals the contract value as of December 31, 2013.

The average yields, based on actual earnings for the guaranteed fund, for the year ended December 31, 2013 was 1.3%. As of December 31, 2013, there are no reserves recorded against contract value for credit risk of the contract issuer. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than zero percent. Interest rates are reviewed for resetting at least semi-annually. Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with the Plan Custodian. The Plan Administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with the Plan's participants is not probable. The guaranteed fund investment is considered a Level 3 investment as of December 31, 2013.

Note 6 – Party-In-Interest Transactions

The Plan's investments include shares of pooled separate accounts and guaranteed fund administered by Lincoln National Life Insurance Company (the Plan Custodian). Therefore, transactions in these investments qualify as party-in-interest transactions.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 – Tax Status

On December 15, 2009, the Internal Revenue Service stated that the volume submitter profit sharing plan adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code. The Plan has not received a determination letter specific to the Plan itself; however, the Plan Administrator and the Plan's tax counsel believe that the Plan is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 9 – Subsequent Events

The Plan evaluated events occurring subsequent to December 31, 2013 through October 7, 2014, the date on which the financial statements were available to be issued, for matters that should be recorded in the financial statements or disclosed in the footnotes thereto.
