NOTE 1 – DESCRIPTION OF PLAN

The Tifco Industries, Inc. Employees' 401(k) Plan (the Plan) is a qualified retirement plan adopted by TIFCO Industries, Inc. (the Company) to provide employees with the opportunity to save for retirement on a tax-deferred basis. The Plan was originally effective January 1, 1967, and has since been amended to conform to new tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Significant provisions of the Plan in effect as of December 31, 2013 are summarized below. Participants should refer to the legal Plan document for a more complete description of the Plan's provisions.

Eligibility – All employees of the Company who have completed six months of service are eligible for participation in the Plan upon reaching an entry date. The entry date is the first day of the Plan year coinciding with or next following the date the employee satisfies the eligibility requirement.

Contributions – Participants may elect to defer an amount of compensation into the Plan not to exceed a dollar limit that is set by law. Participants who have attained age 50 before the end of a calendar year may elect to defer additional amounts as catch-up contributions. Participants may modify or revoke their election at any time.

The Company may contribute a discretionary percentage of participants' salary deferrals which will be determined on an annual basis. The Company made a matching contribution for 2013 in the amount of $108,144. The Company may also make a discretionary profit sharing contribution that will be allocated or divided among participants eligible to share in the contribution for the Plan year. In order to share in the profit sharing contribution, a participant must be employed on the last day of the Plan year and must have completed at least 1,000 hours of service with the Company during the Plan year. The Company did not make a profit sharing contribution for 2013.

Participants are permitted to deposit into the Plan distributions they have received from other plans and certain IRAs as rollover contributions.

Participant Accounts – Each participant's account is credited with their contributions, rollovers, employer contributions, and Plan earnings or losses. Participant accounts may also be charged with an allocation of certain administrative expenses. A participant's account is segregated for purposes of determining the earnings or losses on investments and does not share in the investment performance of other participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions and rollovers plus actual Plan earnings or losses thereon. Vesting of employer contributions and actual Plan earnings or losses thereon is based on vesting years of service. Participants become 100% vested after six years of credited service.

Investment Options – Participants direct the investment of their interest in the Plan into investment securities. The Plan currently offers various mutual funds and a money market fund as investment choices for participants. Participants may exchange or transfer money between investment securities at any time.

Notes Receivable From Participants – Loans are available to participants on a reasonably equivalent basis. Participants may borrow from their vested accounts a minimum of $1,000 up to a maximum of $50,000, reduced by the excess of their highest outstanding balance of loans from the Plan during the prior one-year period, or one half of their vested account balance, whichever is less.

The loans are adequately secured and charged a reasonable rate of interest. Principal and interest payments are paid ratably through payroll deductions. Generally, the term of the loan may not exceed five years unless used to purchase a principal residence.

Payment of Benefits – If a participant terminates employment for any reason and the value of their vested benefit does not exceed $5,000, they will be entitled to a lump-sum distribution within a reasonable time after termination of employment. If the vested benefit exceeds $5,000, they must elect to receive the benefit. Benefit payments will be made in a single lump-sum payment in cash, installments, or directly rolled over to an IRA or another retirement plan.

Participants may receive an in-service distribution upon reaching age 59½. Hardship distributions are available to participants who do not have sufficient resources or savings available to satisfy certain immediate and heavy financial needs.

Forfeited Accounts – The non-vested portion of a terminated participant's account balance remains in the Plan and is called a forfeiture. Forfeitures may be used for the payment of Plan expenses. At December 31, 2013 and 2012, forfeited non-vested accounts totaled $-0- and $239, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be required to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See *Note 3* for discussion of fair value measurements.

Net appreciation in fair value of investments includes realized gains and losses on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is on the accrual basis.

Notes Receivable From Participants – Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Company deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Participant Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2014.

Benefits Paid to Participants – Benefits are recorded when paid. There are no amounts requested and due to terminated participants at December 31, 2013.

Administrative Expenses – The Plan permits the payment of Plan expenses to be made from the Plan's assets. Expenses paid using Plan assets will generally be allocated among the accounts of all participants in the Plan. These expenses will be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. Certain other expenses specifically incurred by, or attributable to, a participant will be paid directly from that participant's account.

Recent Accounting Pronouncements – The Company has evaluated recent accounting pronouncements and their adoption has had, or is not expected to have, a material impact on the financial statements of the Plan.

Subsequent Events – The Plan has evaluated subsequent events through July 10, 2014, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Money Market Fund – Valued at the closing price reported on the active market on which the fund is actively traded.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTE 4 – INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

Investments and investment activities included in the accompanying statements of net assets available for benefits, *Note 5*, statement of changes in net assets available for benefits, and supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) have been certified as complete and accurate by Charles Schwab Bank, the trustee, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Company instructed the Plan's independent auditors not to perform any auditing procedures with respect to the certified information except for comparing such information to the Plan's financial statements and supplemental schedule.

NOTE 5 – INVESTMENTS (UNAUDITED)

At December 31, 2013 and 2012, all investments of the Plan were participant-directed. The following presents investments at December 31, 2013 and 2012 that represented 5% or more of the Plan's net assets:

	2013	2012
Dodge & Cox International Stock Fund	**$ 1,472,565**	$ 1,364,789
T Rowe Price Small Cap Stock Fund	**1,291,125**	1,001,911
Vanguard F-I Secs S-T US Treasury	****	1,690,114
Vanguard Mid Cap Index Fund	**1,159,308**	794,078
Vanguard Dividend Growth Fund	**1,238,709**	1,123,038
Schwab Money Market Fund*	**3,046,827**	**

* Indicates a party-in-interest
** Represents less than 5% of the Plan's net assets as of December 31.

During 2013, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value by $2,140,489.

NOTE 6 – RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the trustee and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The Company pays directly any other fees related to the Plan's operations.

NOTE 7 – PLAN TERMINATION

Although the Company intends to maintain the Plan indefinitely, the Company reserves the right to terminate the Plan at any time. Upon termination, no further contributions will be made to the Plan and all amounts credited to participants' accounts will become 100% vested. The Company will direct the distribution of participants' accounts in a manner permitted by the Plan as soon as practical.

NOTE 8 – TAX STATUS

The Plan is a prototype non-standardized profit sharing plan with CODA sponsored by Newport Retirement Services LLC that has been adopted by the Company. The prototype plan received its latest opinion letter on March 31, 2008, in which the IRS stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has not requested its own determination letter from the IRS. Although the Plan has been amended since receiving the opinion letter, the Company believes that the Plan is designed and is currently in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
