INDEPENDENT AUDITORS' REPORT

To the Board of Directors
 Associated Benefits Corporation
 Plan Administrator for The Restated Thrift/
 Profit Sharing Plan for Cooperatives and Participants
 (Participating Employer – Stateline Cooperative, Group 190):

Report on the Financial Statements

We were engaged to audit the accompanying financial statements – modified cash basis of The Restated Thrift/Profit Sharing Plan for Cooperatives (Participating Employer – Stateline Cooperative, Group 190) (the Plan), which comprise the statement of net assets available for benefits-modified cash basis as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits-modified cash basis for the years then ended, and the related notes to the financial statements – modified cash basis.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2 to the financial statements. This includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Wells Fargo Bank, N.A., the trustee of The Thrift and Profit Sharing Trust for Cooperatives, of which the Plan is a participant, except for comparing the information with the related information included in the financial statements and the supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, which are the responsibility of plan management, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements – modified cash basis and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(Participating Employer – Stateline Cooperative, Group 190)

Notes to Financial Statements – Modified Cash Basis

As of and for the Years Ended December 31, 2013 and 2012

1. Description of the Plan

The Restated Thrift/Profit Sharing Plan for Cooperatives ("Thrift/Profit Sharing Plan") is a prototype defined contribution plan administered by Associated Benefits Corporation ("Plan Administrator"). The participating employer, Stateline Cooperative, Group 190, has adopted the Thrift/Profit Sharing Plan with 401(k) provisions ("Plan"). The following description of the Plan provides only general information. Participants should refer to the Plan document for more complete information.

General – The Plan is a defined contribution plan available to all full-time employees of the participating employer who have attained age 21 and complete four months of service. Wells Fargo Bank, n.a. ("Trustee") serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Each year, participants may contribute up to 80 percent of their compensation on a pre-tax basis, as defined in the Plan, subject to certain Internal Revenue Code (IRC) limitations. In addition, after-tax contributions to the Plan are permitted up to the limits allowed by law. The participating employer contributes 25 percent of the first 6 percent of base compensation that a participant contributes to the Plan.

Participant Accounts – Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's and employer contributions and an allocation of the Plan's earnings (losses) and charged with withdrawals and an allocation of administrative expenses. Allocations are based on participant account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments – Participants direct the investment of their contributions and employer contributions into any combination of the investment alternatives offered by the Plan in multiples of one percent. Plan participants may transfer funds from one investment fund to another. Transfers are effective the day made or the next business day.

Vesting – Participants are immediately vested in employer and employee contributions and actual earnings (losses) thereon.

Notes Receivable from Participants – Participants may borrow from their fund accounts, subject to balance limitations. The repayment period for the loans is not to exceed five years, or fifteen years if the loan is for the purchase of the participant's principal residence. The loans are secured by the balance in the participant's account. The interest rate charged on the loans is one percentage point above the prime rate. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits – On termination of service, a participant may elect to receive either a lump-sum payment equal to the value of his or her vested account, or installment payments over various periods as elected by the participant.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). Under the modified cash basis of accounting, transactions are recorded in the financial statements on the cash receipts and disbursement basis; however, investments are adjusted to fair value. Accordingly, these statements are not intended to present the Plan's financial position or changes to financial position in conformity with GAAP. The principal differences in the Plan's statement relate to investment income and contributions, which are not recorded until received.

Use of Estimates – The preparation of financial statements in conformity with the modified cash basis of accounting, which is a comprehensive basis of accounting other than GAAP, requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan through its investment in the Thrift and Profit Sharing Trust for Cooperatives ("Trust") utilizes various investment securities, including U.S. government securities, corporate debt instruments, mutual funds, and common collective trust funds. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition – Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a description of valuation methods. Purchases and sales of securities are recorded on a trade-date basis. Dividend and interest income are recorded as received. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

The general fund is a stabilized fixed income portfolio managed by the Trustee. The objective of the general fund is to produce stable returns that are usually higher than traditional money market investments. The general fund usually experiences little or no fluctuation in principal value as it is invested predominately in common collective trust funds invested in direct obligations of the U.S. Government and U.S. Government Agencies. The general fund is stated at fair value and then adjusted to contract value as described below.

In accordance with GAAP, the general fund is included at fair value in participant-directed investments in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statements of changes in net assets available for benefits are presented on a contract value basis.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expense are reflected as a reduction of investment return for such investments.

Valuation of Investments (Investment Contracts) - The Plan's investment contract with Monumental Life Insurance Co. included in the general fund is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Notes Receivable from Participants – Notes receivable from participants are valued at unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan document.

Administrative Expenses – Administrative expenses of the Plan are paid by the Plan as provided in the Plan document.

Payment of Benefits – Benefit payments to participants are recorded upon distribution. As of December 31, 2013 and 2012, net assets available for benefits included no benefits due to participants who had withdrawn from participation in the Plan but have not yet been paid.

3. **Fair Value Measurements**

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The Plan's policy is to recognize significant transfers between levels at the actual date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2013 and 2012, there were no significant transfers in or out of Levels 1, 2, or 3.

Asset Valuation Techniques – Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Shares of registered investment companies held are primarily categorized as Level 1; they are valued at quoted market prices that represent the net asset value of shares held at plan-year-end.

U.S. common stocks are categorized as Level 1 if the securities trade on national or international exchanges and are valued at their last reported closing price.

Investments in common collective trust funds and commingled funds are valued based upon the redemption price of units held by the Plan, which is based on current fair value of the funds' underlying assets. Unit values are determined by the financial institution sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation dates. Investments in common collective trust funds and commingled funds are categorized as Level 2.

The general fund is a stabilized fixed income portfolio managed by the Trustee. The underlying investments in the general fund are stated at estimated fair value based upon the redemption price of units held by the general fund, which is based on the current fair value of the collective trust funds underlying assets. Unit values are determined by the financial institution sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation dates.

The following tables set forth by level within the fair value hierarchy a summary of the Trust's investments measured at fair value on a recurring basis at December 31, 2013 and 2012.

The valuation methods as described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Transfers Between Levels – The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits are evaluated. There were no transfers between levels for the years ended December 31, 2013 and 2012.

Net Asset Value (NAV) per Share – The plan has disclosed the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share as of December 31, 2013 and 2012. The following tables for December 31, 2013 and 2012 set forth a summary of the Trust's investments with a reported NAV.

*The fair values of the investments have been estimated using the net asset value of the investment.

- (a) The domestic stock and equity funds seek to provide long-term growth of capital by investing primarily in equity securities and to achieve above average results over a market cycle. The funds employ a "multi-style, multi-manager" approach whereby portions of the domestic stock funds are allocated to different money managers who employ distinct investment styles. The funds use three principal investment styles intended to complement one another:

Growth: Emphasizes investments in equity securities of companies with above-average earnings growth prospects.

Value: Emphasizes investments in equity securities of companies that appear to the money manager to be undervalued relative to their corporate worth, based on earnings, book or asset value, revenues, cash flow or other measures.

Market-Oriented: Emphasizes investments in companies from the broad equity market rather than focusing on the growth or value segments of the market.

- (b) The international stock funds provide participation in financial markets outside of the United States. The international stock funds invest in international financial markets, primarily those of developed economies in Europe and the Pacific Basin. These funds invest primarily in equity securities issued by foreign corporations, but may invest in other securities perceived as offering attractive investment return opportunities. As with domestic equity funds, the international equity funds combine Growth, Value, and Market-Oriented Advisers to ensure style diversification.
- (c) The fixed income funds strategies seek to invest at least 80% of their net assets plus any borrowing for investment purposes in a diversified portfolio of bonds, including corporate bonds of domestic and foreign issuers payable in U.S. dollars, short-term debt instruments, mortgage-related securities, and U.S. Treasury securities and other debt securities issued or guaranteed by the U.S. Government (including its agencies and instrumentalities). Although the strategies seek to invest primarily in investment-grade debt securities (i.e., those rated in the four highest rating categories by S&P or Moody's), they may include investing a portion of their net assets in bonds rated below investment grade.
- (d) The general fund is a stabilized fixed income portfolio managed by the Trustee. The objective of the general fund is to produce stable returns that are usually, higher than traditional money market investments. The general fund usually experiences little or no fluctuation in principal value as it is invested predominately in common collective trust funds invested in direct obligations of the U.S. Government and U.S. Government Agencies.

4. Investments and Interest in the Thrift and Profit Sharing Trust for Cooperatives

Wells Fargo Bank, n.a. manages the Trust on behalf of the Thrift/Profit Sharing Plan under the terms of the trust agreement between Wells Fargo Bank, n.a. and the Thrift/Profit Sharing Plan. The Plan is a participant in the Trust. The authority to invest is vested in the Trustee, subject to the funding policy and investment objectives established by the Plan Administrator. The investments and changes therein of the Trust have been reported to the Thrift/Profit Sharing Plan by the Trustee. Since the Plan's funds are commingled with funds from other plans participating in the Trust, the investments reported in these financial statements reflect on the Plan's allocable portion of the individuals investments. The Plan participates in the investment activity of the Trust based on a weighted average of invested Plan assets to the total assets of the Trust on a daily basis. Common stock consists of certain investments which have been allowed to be rolled into the Trust without allocation to the Plan's investment options. Participation in these common stocks is based on the specific investments attributable to the Plan of which the participant is a member.

The nets assets and investments of the Trust at December 31, 2013 and 2012 are summarized as follows:

General Fund – The general fund primarily invests in traditional guaranteed investment contracts (GICs) and security backed contracts issued by insurance companies and other financial institutions.

Traditional GICs are backed by the general account of the contract issuer. The general fund deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified period. Interest is accrued on either a simple or fully compounded basis, and is paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals will be at contract value (principal plus accrued interest).

A security backed contract is an investment contract issued by an insurance company or other financial institution, backed by a portfolio of bonds that are owned by the general fund. Security-backed contracts are considered either “targeted benchmark” (underlying investments are managed to a specific benchmark) or “targeted duration” (underlying investments are managed to a specific duration). The portfolio underlying the contract is maintained separately from the contract issuer’s general assets, usually by a third party custodian. The interest crediting rate of a security-backed contract is based on the contract value, and the fair value, duration, and yield to maturity of the underlying portfolio. These contracts typically allow for realized and unrealized gains and losses on the underlying assets to be amortized, usually over the duration of the underlying investments, through adjustments to the future interest crediting rate, rather than reflected immediately in the net assets of the general fund. The issuer guarantees that all qualified participant withdrawals will be at contract value.

Risks arise when entering into any investment contract due to the potential inability of the issuer to meet the terms of the contract. In addition, security backed contracts have the risk of default or the lack of liquidity of the underlying portfolio assets.

The primary variables impacting the future crediting rates of security backed contracts include:

- The current yield of the assets underlying the contract.
- The duration of the assets underlying the contract.
- The existing difference between the fair value and contract value of the assets within the contract.

GICs provide a fixed rate of interest over the term to maturity of the contract, and therefore, do not experience fluctuating crediting rates. The security backed contracts are designed to reset their respective crediting rate on a quarterly basis. GIC crediting rates are not reset. Security backed contracts cannot credit an interest rate that is less than 0%.

The crediting rate of security backed contracts will track current market yields on a trailing basis. The rate reset allows the contract value to converge with the fair value of the underlying portfolio over time, assuming the portfolio continues to earn the current yield for a period of time equal to the current portfolio duration.

To the extent that the underlying portfolio of a security backed contract has unrealized and/or realized losses, a positive adjustment is made to the adjustment from fair value to contract value under contract value accounting. As a result, the future crediting rate may be lower over time than the then current market rates. Similarly, if the underlying portfolio generates unrealized and/or realized gains, a negative adjustment is made to the adjustment from fair value to contract value, and the future crediting rate may be higher than the then current market rates.

Average Yields – The yield earned by the general fund at December 31, 2013 and 2012 was 1.45% and 3.40%, respectively. This represents the annualized earning of all investments in the general fund divided by the fair value of all investments in the general fund at December 31, 2013 and 2012.

The yield earned by the general fund with an adjustment to reflect the actual interest rate credited to participants in the general fund at December 31, 2013 and 2012 was 3.15% and 1.46%, respectively. This represents the annualized earnings credited to participants in the general fund divided by the fair value of all investments in the general fund at December 31, 2013 and 2012.

Limitations on the Ability of the GIC to Transact at Contract Value – GICs and security backed contracts generally provide for withdrawals associated with certain events which are not in the ordinary course of the general fund operations. These withdrawals are paid with a market value adjustment applied to the withdrawal as defined in the investment contract. Each contract issuer specifies the events which may trigger a market value adjustment; however, such events may include all or a portion of the following:

- Material amendments to the general fund's structure or administration;
- Changes to the participating plans' competing investment options including the elimination of equity wash provisions;
- Complete or partial termination of the general fund, including a merger with another fund;
- The failure of the general fund to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA;
- The redemption of all or a portion of the interests in the general fund held by a participating plan at the direction of the participating plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan;
- Any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the general fund or participating plans;
- The delivery of any communication to plan participants designed to influence a participant not to invest in the general fund.

GICs generally do not permit issuers to terminate the agreement prior to the scheduled maturity date. Security backed contracts generally are evergreen contracts that contain termination provisions, allowing the general fund or the contract issuer to terminate with notice, at any time at fair value, and providing for automatic termination of the contract if the contract value or the fair value of the underlying portfolio equals zero. The issuer is obligated to pay the excess contract value when the fair value of the underlying portfolio equals zero.

In addition, if the general fund defaults in its obligations under the security-backed contract (including the issuer's determination that the agreement constitutes a non-exempt prohibited transaction as defined under ERISA), and such default is not corrected within the time permitted by the contract, then the contract may be terminated by the issuer and the general fund will receive the fair value as of the date of termination.

5. Exempt Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Wells Fargo Bank, n.a. Wells Fargo Bank, n.a. is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for the investment management services are included as a reduction of the return earned on each fund.

6. Plan Termination

Although it has not expressed any intention to do so, the participating employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

7. Federal Income Tax Status

The Internal Revenue Service has determined and informed the Plan Administrator by a letter dated December 8, 2011, that the Plan and related Trust were designed in accordance with applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related Trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. Information Certified by the Trustee

The following is a summary of the unaudited information regarding the Plan as of December 31, 2013 and 2012, and for the years then ended, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by Wells Fargo Bank, n.a., the trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

	<u>2013</u>	<u>2012</u>

Supplemental schedule: All investment balances and information included in the supplemental schedule of assets (held at end of year).

Notes 3 and 4: All investment balances and investment information in the notes, except for the classification of investments into levels within the fair value hierarchy.

9. Subsequent Events

Subsequent events related to the financial statements – modified cash basis have been evaluated through October 6, 2014, which is the date the financial statements – modified cash basis were available to be issued, and the Plan has determined that there are no material events that required adjustment to or disclosure in these financial statements – modified cash basis.

10. **Reconciliation of Financial Statements to Form 5500**

A reconciliation of net assets available for benefits per the financial statements – modified cash basis to the total net assets per the Form 5500 as of December 31, 2013 and 2012, and the net change in net assets per the financial statements to the net income per the Form 5500 for the years ended December 31, 2013 and 2012, are as follows:
