NOTES TO FINANCIAL STATEMENTS

1. **SUMMARY DESCRIPTION OF THE PLAN**:

The following description of the Wheel Pros, LLC (the "Company" or "Employer") 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Nature of Operations – The Plan became effective on January 1, 2000. The Plan is a defined contribution profit sharing plan covering all employees if they are at least 21 years of age and have completed 1,000 hours of service in a given plan year are eligible for participation on the first day of the quarter. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is intended to be a "Qualified" plan under Internal Revenue Code (IRC) Section 401(a). As such, contributions made to the Plan are not taxable to the participant until distributed.

Contributions – Each participant may contribute up to 100% of their annual compensation, subject to the limits of IRC Section 402(g), which for 2013 was $17,500. Employees over age 50 can also make an additional catch-up contribution of $5,500. The Company amended the Plan effective January 1, 2011 to continue the Employer matching contribution. The Company made matching contributions to the Plan of each participant's salary deferrals of 50%, up to the maximum matching contribution of 6% of eligible compensation. For the year ended December 31, 2013, the Company made $339,630 in matching contributions.

Participant Accounts – Each participant's account is credited with the employee's contributions and Employer matching contributions, as well as plan earnings/losses on investments.

Vesting – Participants are immediately vested in their elective contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant becomes 100% vested after five years of credited service earning 20% per year. The Plan defines one year as 1,000 hours of service. A participant's account also becomes fully vested in the event of total disability or death, or upon reaching the normal retirement age.

Payment of Benefits – A participant's account balance may be distributed in a lump sum upon the participant's termination from service, retirement or due to death.

Investment Options – Upon enrollment in the Plan, a participant may direct his or her contributions in any of the investment accounts which are sponsored by John Hancock Life Insurance Company, the custodian of the Plan. Participants may change their investment choices at any time and their contribution percentages on the first day of each quarter of the Plan year.

Participant Loans – Participants may borrow from the Plan in an amount greater than $1,000 up to a maximum of the lesser of $50,000 or 50% of the participant's vested account balance. Loans must be repaid within five years (unless the loan is for the purchase of a home). The Plan administrator determines whether the interest rate is commercially reasonable at the time the loan is approved. Loan interest rates are 5.25% at December 31, 2013. Interest income earned on a participant loan is credited to the account of the participant borrower. Interest income on participant loans totaled $20,989 at December 31, 2013.

Administrative Expenses – Certain administrative expenses of the Plan are paid directly by the Sponsor. During the 2013 Plan year, the Plan incurred total administrative expenses of $5,691.

Forfeited Accounts – Forfeitures utilized to reduce the employers contribution for the years ended December 31, 2013 and 2012 amounted to $3,596 and $0, respectively.

2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**:

Basis of Accounting – The financial statements of the Plan are presented on the accrual basis of accounting.

The Plan follows accounting standards set by the Financial Accounting Standards Board, commonly referred to as the FASB. The FASB sets generally accepted accounting principles (GAAP) that the Plan follows to ensure they consistently report the Plan's net assets available for plan benefits and changes in net assets available for plan benefits. References to GAAP issued by the FASB in these footnotes are to the FASB *Accounting Standards Codification*™, sometimes referred to as the Codification or ASC.

Reporting of Fully Benefit-Responsive Contracts – The Company follows ASC 962-325-55, *Reporting of Fully Benefit-Responsive Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (ASC 962), to present its investment in the John Hancock Guaranteed Investment Contracts at fair value with an adjustment to net assets available for benefits at fair value representing the difference between the fair value and contract value of the fully benefit-responsive investment contracts held by the fund. The Plan noted that contract value and fair value were materially equivalent. As a result, this had no impact on the net assets available for benefits for December 31, 2013 and 2012.

Use of Estimates – The preparation of financial statements in conformity with GAAP in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation – The Plan's investments are stated at fair value. Investments in insurance company pooled separate accounts are reported at the value reported to the Plan by the insurance company, which represents approximate fair value. Investments in insurance company deposit administration contracts (guaranteed investment contracts or GICs) are reported at fair value. Participant loans are valued at cost which approximates fair value. Reinvested income, accrued interest and dividends are reflected as additions to the cost basis of the investments. Investment transactions are recorded on the date of purchase or sale (trade-date). Gains and losses are computed using the average cost method. Investment income is recorded on the accrual basis.

Payments of Benefits – Benefits are recorded when paid. As of December 31, 2013, there were no amounts that have been elected to be distributed and have yet to be paid.

Risks and Uncertainties – The Plan provides for various investment options in any combination of stocks, bonds, fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

3. **FAIR VALUE MEASUREMENTS** (unaudited):

ASC 820, *Fair Value Measurements and Disclosure*, established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs are the highest priority and consist of unadjusted quoted prices in active markets for identical assets and liabilities. Level 2 inputs are inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for an asset or liability.

There have been no changes in the methodologies used at December 31, 2013.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts: Valued at a per unit value for the number of units held by the Plan at year end.

Deposit Administration Contracts: Stated at contract value, which approximates fair value. Discounting the scheduled future payments required under the contract using an interpolated market rate for contracts with maturities comparable to the average remaining life of the contract being valued (Note 4).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012 (unaudited):

	Assets at Fair Value as of December 31, 2013

4. **INVESTMENTS** (unaudited):

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from the custodian that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements as to investments administered by the custodian, investment income, individual fund activity, and all information in the supplemental schedule is presented in reliance solely upon those certifications.

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated $1,338,372 during the year ended December 31, 2013, all of which relates to the Plan's pooled separate accounts. The following table presents the fair value of investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2013 and 2012:

	2013	2012
Disciplined Value	$ 493,305	$ 14,589
Lifestyle – Moderate	$ 1,074,322	$ 1,039,323
Lifestyle – Balance	$ 1,706,058	$ 1,343,994
Lifestyle – Growth	$ 2,257,828	$ 1,581,460
Lifestyle – Aggressive	$ 945,480	$ 670,842
Participant loans	$ 429,301	$ 403,922

Investment Contract with Insurance Company – The Plan maintains unallocated insurance contracts with the custodian. The custodian maintains the contributions in a general account. The account is credited

with earnings or losses on the underlying investments and charged for Plan withdrawals and administrative expenses charged by the custodian. The contracts are included in the financial statements at contract value, which approximates fair market value. The crediting interest rate on the contracts ranged from 0.10% to 0.57% as of December 31, 2013. The average crediting interest rate at December 31, 2013 is 0.34%. The interest rate is reset monthly.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the plan or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

5. **PLAN TERMINATION**:

Although it has not expressed any intent to do so, the Employer reserves the right to terminate the Plan at any time by resolution of its Board of Directors. If termination occurs, the balances of all participants become fully vested and each participant will receive a total lump sum distribution.

6. **RELATED PARTY TRANSACTIONS**:

Certain Plan investments are shares of mutual funds and guaranteed investment contracts which are managed by John Hancock Life Insurance Company, which is also the custodian as defined by the Plan, and therefore these transactions qualify as party-in-interest.

7. **TAX STATUS**:

The Internal Revenue Service issued a determination letter dated July 16, 2010, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the "Code") and, therefore, are exempt from federal income taxes. The Plan has been amended since receiving this determination letter. However, in the opinion of the Company, the Plan is currently being operated within the terms of the Plan and remains qualified under the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Tax years that remain subject to examination include 2010 through the current period. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. **RECONCILIATION OF FINANCIAL STATEMENTS TO 5500**:

The following table is a reconciliation of net assets available for benefits per the financial statements at December 31:

	2013	2012
Net assets available for benefits per the financial statements	$ 9,255,246	$ 7,133,748
Plus: Corrective distributions payable	30,913	–
Net assets available for benefits per Form 5500	$ 9,286,159	$ 7,133,748

	2013
Net increase per the financial statements	$ 2,121,498
Plus: Corrective distributions	30,913
Net income per Form 5500	$ 2,152,411

There are no differences between the financial statements and the Form 5500 in the net assets available for benefits for the year ended December 31, 2012.

9. **SUBSEQUENT EVENTS**:

The Plan Administrator has evaluated subsequent events through October 3, 2014, the date the financial statements were available to be issued, and, other than the above, has determined that there are no additional subsequent events that need to be disclosed.
