NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2013

A. Description of Plan

The following description of The Columbus Distributing Company (Company) Profit Sharing and Retirement Savings Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

1. General

The Plan is a qualified defined contribution plan with savings and profit sharing features. Every person employed by the Company, subject to the requirements described below, is eligible to participate in the Plan except for union employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Under the Plan, the Company contributes a portion of its annual profits to the Plan to provide retirement benefits for employees. Employees are permitted to contribute a portion of their wages to the Plan and to direct the investment and profit sharing allocation among various fund options.

2. Contributions

Upon completing six months of service with the Company, employees may elect to contribute up to 100% of their compensation, as defined, in increments of 1%. Employees' pre-tax contribution will begin as of the January 1 or July 1 coinciding with or immediately following the date on which the employee becomes an eligible participant. The Company may elect to make a matching contribution as defined by the Plan. No matching of employee contributions was made by the Company in 2013. Each year, the Company will contribute between 5% and 15% of its annual profits to the Plan. Any participant will be eligible to participate in the profit sharing plan on the six month anniversary of their hire date. The exact amount of each year's employer profit sharing contribution is determined by the Company's Board of Directors. The percentage of the employer contribution was 5% for 2013. Contributions are subject to certain limitations.

YEAR ENDED DECEMBER 31, 2013

A. Description of Plan, Continued

Participants direct the investment of their contribution and employer contributions into various investment options offered by the Plan. The Plan currently offers thirteen mutual funds as investment options for participants.

3. Vesting

Participants are immediately vested in their contribution plus net earnings thereon. Vesting of the Company's profit sharing contributions and matching contributions is based on years of credited service. A participant is 20% vested in the Company profit sharing contributions and matching contributions after 2 years of service, as defined, with an additional 20% for every year of credited service thereafter, with 100% vesting in all past and future Company contributions occurring after 6 years of credited service. Employees become 100% vested in Company profit sharing contributions and matching contributions upon retirement at or after the age of 60, in the event of disability, or upon death.

4. Allocation Provision

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances with the exception of the Company profit sharing contributions which are allocated to participant accounts based upon the ratio of a participant's eligible compensation to total eligible compensation of all Plan participants. The benefit to which a participant is entitled is the benefit which can be provided from the participant's vested account. The accompanying statement of net assets available for benefits includes \$251,067 and \$251,186 for terminated participants who had not been paid as of December 31, 2013 and 2012, respectively.

Forfeitures are allocated to each remaining participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants during the year ended December 31, 2013 were \$15,367.

5. Participant Loans

Participants have the ability to withdraw up to the greater of (a) the amount of their vested accrued benefit up to \$10,000 or (b) one-half of their vested accrued benefit not to exceed \$50,000. In no event shall the total outstanding loans to any participant exceed the value of their account at the time a loan is made. Participant loans bear an interest rate of prime plus 1%. The interest rate is established upon the issuance of the loan and remains fixed until the loan is totally repaid. The maximum term of a loan is five years, except for loans used to finance the purchase of a residence, where the term can be extended to fifteen years. Employee loans are due in full upon a participant's termination of employment.

6. Withdrawals and Payment Benefits

Upon a participant's retirement, death, disability, or other termination of employment with the Company, the entire vested balance in the participant's account may be distributed or deferred until as late as age 65, at the participant's election. The normal form of payment with respect to a participant's vested account is lump sum. Participants may also elect to receive installment payments.

In-service withdrawals of participant's contributions and employer's profit sharing contributions and matching contributions are permitted at age 65 under the Plan.

B. Summary of Significant Accounting Policies, Continued

2. Basis of Accounting

The accompanying financial statements of the Plan have been prepared using a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the modified cash basis, contributions are recorded when received by the trustee, dividend and interest income are recognized when earned and benefits and administrative expenses are recorded when paid.

3. Investment Valuation and Income Recognition

The Plan investments are reported at fair value as determined by quoted market prices, which represent the net asset value of shares held by each investment fund of the Plan. Fair value is the price that would be required to sell an asset in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements. Purchases and sales of investments are recorded on a trade-date basis. Interest and dividend income are recorded when earned. Investment income includes unrealized appreciation or depreciation of the investment funds.

4. Notes Receivable From Participants

Loans to participants are reported at their unpaid principal balances.

5. Contributions

Contributions are recorded when received by the trustee.

6. Payments of Benefits

Benefits are recorded when paid.

7. Administrative Expenses

All expenses of administration, including fees of the trustee, are paid from the assets of the Plan or at the Company's discretion, by the Company. These expenses are recognized when paid.

B. Summary of Significant Accounting Policies, Continued

8. Use of Estimates

The preparation of financial statements in conformity with a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

C. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. There were no Level 2 or Level 3 inputs.

E. Plan Termination

Although the Company has not expressed any intent to do so, it has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. F. Tax Status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to Section 501(a) of the Internal Revenue Code, and accordingly, the trust's net investment income is exempt from income taxes. The Plan's trustee has obtained a favorable tax opinion letter from the Internal Revenue Service for the prototype plan which the Company has adopted and Plan management believes that the Plan continues to qualify and to operate as designed.

Financial statements prepared on the modified cash basis of accounting require the plan administrator to evaluate tax positions taken by the Plan and disclose a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

G. Party-In-Interest Transactions

The Plan's trustee is Bank of America, N.A. which charges a fee for its service. Total fees paid to the trustee out of the Plan for the year ended December 31, 2013 were \$5,586. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable possible that changes in the various investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
