NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF PLAN

The following brief description of the (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan covering all eligible employees of Interpool, Inc. d/b/a TRAC Intermodal and TRAC Leasing, Inc. (the "Company"). Effective January 1, 2014, the Plan covers all eligible employees of TRAC Logistics LLC. The Plan is a defined contribution plan that is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The inception date of the Plan was November 1, 2008.

Contributions

Each year, participants are able to contribute up to 60% of eligible compensation, as defined in the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers a variety of mutual funds and a guaranteed investment contract as investment options for the participants.

The Company, at its discretion, may make matching contributions for all eligible participants. For the year ended December 31, 2013, the Company matched 100% of the first 6% of eligible contributions. The Company may also make an additional discretionary matching contribution to eligible employees. The Company did not make any such contribution for the year ended December 31, 2013. All contributions to the Plan are subject to certain Internal Revenue Service limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching and additional matching contributions, and Plan earnings (losses) and is charged with an allocation of investment expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions, all rollovers and transfers from qualified plans and actual earnings or losses therein. Matching contributions are vested at a rate of 20% per year beginning with the first year of service.

Notes Receivable from Participants

Participants are allowed to borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of (i) 50% of their vested account balance, or (ii) \$50,000 less the highest outstanding balance during the previous 12-month period. The notes receivable are secured by the balance in the participant's account. The interest rate is the prime rate plus 1% at the time of borrowing. Terms range from 1-5 years for personal borrowings or up to 10 years for the purchase of a primary residence. Interest rates ranged from 3.25% to 5.75% at December 31, 2013.

TRAC INTERMODAL RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF PLAN (CONTINUED)

Payments of Benefits

On termination of service due to death, disability or retirement, a participant is to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, subject to Internal Revenue Service regulations, a participant is to receive the value of the vested interest in his or her account as a lump-sum distribution or have the balance deposited directly into another qualified retirement account.

Forfeited Accounts

At December 31, 2013, forfeited non-vested accounts totaled \$18,037. Forfeited non-vested accounts are available to reduce future employer contributions or pay Plan expenses. For the year ended December 31, 2013, \$23,962 was used to pay Plan expenses.

Administrative Expenses

The Plan's administrative expenses are paid primarily by the Company through forfeitures, as provided by the Plan document. Certain expenses, such as loan origination fees and investment expenses, are borne by the participants.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

The Plan invests in investment contracts through a collective investment trust (the "investment contracts"). Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the investment contracts at fair value, as well as an additional line item showing an adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by T. Rowe Price Trust Company (the "Trustee"). See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Recent Accounting Pronouncements

On July 8, 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2013-09, *Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans* in Update No. 2011-04, which was effective upon issuance. The amendments in this update defer indefinitely the effective date of certain required disclosures in Update No. 2011-04 (Topic 820) of quantitative information about the significant unobservable inputs used in Level 3 fair value measurements for investments held by a nonpublic employee benefit plan in its plan sponsor's own nonpublic entity equity securities, including equity securities of its plan sponsor's nonpublic affiliated entities. The amendments in this update do not defer the effective date for those certain quantitative disclosures for other nonpublic entity equity securities held in the nonpublic employee benefit plan or any qualitative disclosures. This update did not have a significant impact on these financial statements.

In October 2012, the FASB issued ASU 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to these financials. The impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

Subsequent Events

Management has evaluated subsequent events for potential recognition and disclosure that occurred after December 31, 2013, but before August 18, 2014, the date the financial statements were available to be issued. Except for the matter disclosed in Note A, no items were determined by management to require disclosure.

C. INFORMATION CERTIFIED AND PROVIDED BY THE TRUSTEE

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes C, D and E and the supplemental schedule related to the following assets:

D. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures to Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

TRAC INTERMODAL RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

D. FAIR VALUE MEASUREMENTS (CONTINUED)

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common Collective Trust: valued at the daily contract value net asset value ("NAV") as calculated as of the close of the New York Stock Exchange ("NYSE") each day the NYSE is open.

Mutual funds: valued at the NAV of shares held by the Plan at year end. The NAV is calculated as of the close of the NYSE each day the NYSE is open.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012.

NOTES TO FINANCIAL STATEMENTS

D. FAIR VALUE MEASUREMENTS (CONTINUED)

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no transfers in or out of Level 3.

E. INVESTMENTS IN COMMON COLLECTIVE TRUST

The Plan invests in the T. Rowe Price Stable Value Common Trust Fund (the "Trust"). The Trust seeks to provide maximum current income while maintaining stability of principal. The Trust invests primarily in Guaranteed Investment Contracts, Bank Investment Contracts, Synthetic Investment Contracts and Separate Account Contracts. Investments in the common collective trust are priced at NAV per unit based on contract value, as computed by the Trustee. The contract value and fair value of the T. Rowe Price Stable Value Fund was \$1,593,291 and \$1,615,873, respectively, at December 31, 2013, and \$1,508,537 and \$1,573,390, respectively, at December 31, 2012. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan. Withdrawals are permitted at any time without penalty, and the contract is determined to be fully benefit-responsive. The statements of net assets available for benefits present an investment contract at fair value, as well as an additional line item showing an adjustment of the fully benefit-responsive contract from fair value to contract value.

F. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities in general are exposed to various risks such as those involving interest rates, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

G. RELATED PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the Trustee. Since T. Rowe Price Trust Company is the trustee of the Plan, these transactions qualify as party-in-interest transactions. T. Rowe Price Retirement Plan Services, Inc. is the recordkeeper for the Plan.

TRAC INTERMODAL RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

H. TAX STATUS

Effective November 1, 2008, the Plan adopted a non-standardized form of a prototype Profit Sharing Plan sponsored by CODA. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that is more likely than not to be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to examination by the federal government for the years before 2010.

I. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company reserves the right to terminate the Plan, in whole or in part, at any time, subject to the provisions of ERISA. In the event that such termination occurs, all amounts credited to participant accounts will become 100% vested and the Trustee, in accordance with the Plan document, will distribute the net assets of the Plan in a uniform and non-discretionary manner.
