Notes to Financial Statements

December 31, 2013 and 2012 and Year Ended December 31, 2013

NOTE A - DESCRIPTION OF PLAN

The following description of the Clinical Specialties, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees who have reached the age 21 and have completed three months of service with Clinical Specialties, Inc. (the Company and Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Prior to January 1, 2013, eligible participants were able to elect to defer up to the lesser of 100% of compensation as defined by the Plan, or the maximum contribution allowable by law. Effective January 1, 2013, eligible participants may elect to defer up to 50% of pre-tax or after-tax compensation as defined by the Plan per pay period, subject to the maximum annual contribution allowable by law. Effective January 1, 2013, the Plan was amended to include an automatic enrollment provision under which employees who have not declined participation or enrolled on Great-West Trust Company, LLC's website as of the date of their eligibility to participate in the Plan will be automatically enrolled in the Plan with a deferral of 3%. Those participants automatically enrolled will have automatic deferral increases of 1% each year starting in the third year through the seventh year of participation in the Plan. The Company provides a matching contribution equal to 25% of the participant's deferral up to 8% of eligible compensation that a participant contributes to the Plan. The Company may also provide a profit sharing contribution to certain participants subject to Plan provisions. No profit sharing contributions were made for the year ended December 31, 2013. The Plan provides for the acceptance of rollover contributions from other plans qualified under the Internal Revenue Code (the Code). The Plan also provides for catch-up contributions for participants who reach the age of 50 by the end of the Plan year.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contributions and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant account earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

December 31, 2013 and 2012 and Year Ended December 31, 2013

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Upon termination of service, a participant or a participant's beneficiary upon the participant's death may receive a lump-sum amount equal to the vested value of his or her account. Effective March 1, 2013, the Plan was amended to allow a participant or a participant's beneficiary upon the participant's death, to receive his or her account balance in monthly, quarterly, semi-annual, or annual installments. If the value of the benefits credited to a participant's account is \$5,000 or less at the time of termination, the entire amount will be distributed to a participant without the participant's consent. If the value of the benefits credited to a participant's account is greater than \$1,000 but less than \$5,000 at the time of termination, the entire amount will be rolled over into an individual retirement account designated by the Plan administrator. In-service distributions are permitted for participants who have attained age 59½.

Active participants may request hardship withdrawals from their account balance, subject to Plan provisions. A participant who receives a distribution on account of hardship is prohibited from making deferrals for six months after receipt of the distribution.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, reduced by the participants' highest outstanding notes receivable balance during the previous twelve months. The maximum number of loans a participant may have outstanding at one time is two. Notes receivable terms range from 1 - 5 years, or longer for the purchase of a primary residence. Notes receivable are secured by the balance in the participants' accounts and bear interest at a rate of 4.25% at December 31, 2013. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts

Forfeitures may be used to reduce the Company's contributions to the Plan or to reduce administrative expenses. Unallocated forfeiture balances as of December 31, 2013 and 2012 were \$6,921 and \$613, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Notes to Financial Statements

December 31, 2013 and 2012 and Year Ended December 31, 2013

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting (Continued)

Investments contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's guaranteed interest contract with Great-West Life & Annuity Insurance Company is considered to be fully benefit-responsive. The contract is included in the statement of net assets available for benefits at contract value, which due to the contract's provisions, is deemed to approximate its fair value. As the contract value of the investment approximates its fair value, the accompanying statement of net assets available for benefits does not reflect an adjustment to contract value.

Investment Valuation

The Plan's investments are reported at fair value based upon the last traded or current bid prices in active markets. Where there are no readily available last traded or current bid prices, fair value is determined as discussed in Note E.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make repayments on a note receivable and the plan administrator deems the note receivable to be in default, the balance on the note receivable from the participant is reclassified to benefits paid to participants.

Investment Income Recognition

Purchases and sales of securities are recorded on a trade date basis. Gains and losses on securities transactions are determined using the specific identification method. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Contributions

Participant contributions are recorded and credited to each participant's account when received by the custodian from the Company. Any contributions attributable to the plan year but not received by the last day of the plan year are recorded as a receivable.

Payment of Benefits

Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Income Taxes

The Company adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the form of the Plan is designed in accordance with applicable sections of the Code. The Plan has since been amended; however, the Plan Sponsor believes the Plan is currently designed and being operated in compliance with applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events

The Plan Sponsor has evaluated subsequent events through October 6, 2014, the date which the financial statements were available to be issued.

NOTE C - CERTIFICATION

Notes receivable from participants and investment information disclosed in the accompanying financial statements and supplemental schedule, including notes receivable from participants and investments held at December 31, 2013 and 2012, and net appreciation in the fair value of investments, interest, and dividends for the year ended December 31, 2013 were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the custodian.

NOTE D - INVESTMENTS

The Plan's investments are 100% participant-directed and are held by the custodian. The fair values of investments that represent 5% or more of the Plan's net assets are as follows:

	December 31,	
	2013	2012
Mutual Funds:		
American Funds EuroPacific Growth R3	\$ 306,120	\$ 257,094
Great-West Moderately Aggressive Profile II Fund I	626,577	337,548
Great-West Moderately Conservative Profile II Fund I	627,800	546,706
Great-West Moderate Profile II Fund I	783,715	546,312
Great-West Conservative Profile II Fund I	321,935	
Ivy Science & Technology Y	379,420	
PIMCO Total Return Admin		268,496

During 2013, the Plan's investments in mutual funds (including gains and losses on investments bought, sold, and held during the year) appreciated in value by \$560,079.

NOTE E - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The three levels of the fair value hierarchy, which are based upon the inputs used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities (for example, exchange quoted prices).

CLINICAL SPECIALTIES, INC. 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2013 and 2012 and Year Ended December 31, 2013

NOTE E - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 - Inputs to the valuation methodology are observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not sufficiently active to qualify as Level 1, other observable inputs, or inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are significant to the fair value measurement and unobservable (for example, supported by little or no market activity).

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels. The Plan's investments accounted for at fair value as of December 31, 2013 are summarized below:

	<u>Level 1</u>	<u>Level 3</u>	<u>Total</u>

NOTE E - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Mutual funds are valued at the net asset value of the shares held by the Plan at year end, as reported on the active market in which the investments are traded.

The guaranteed interest account is valued at the sum of contributions, interest, and any transfers to the account, minus any amounts distributed, fees and expenses, and any transfers from the account (see Note F).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The table below sets forth a summary of changes in the fair value of the Plan's guaranteed interest account (Level 3 asset):

	Year Ended December 31, <u>2013</u>
Fair value, beginning of year	\$ 141,914
Purchases	23,702
Sales	(<u>79,810</u>)
Fair value, end of year	<u>\$ 85,806</u>

NOTE F - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has an investment contract with Great-West Life & Annuity Insurance Company (GW) under which contributions from the Plan are maintained in GW's general account. Under the contract, the Plan owns a promise by the issuer to pay interest at crediting rates, which are set based on the earnings of certain underlying assets of GW and market conditions. Participants may ordinarily direct permitted withdrawals or transfers of all or a portion of their account balance at contract value, however, withdrawals due to a Plan-initiated termination of the contract may be deferred for a period of time not longer than twelve months. Contract value represents deposits made to the contract; plus earnings at guaranteed crediting rates, less withdrawals and fees. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The minimum annual crediting rate under the contract cannot be less than zero. Interest crediting rates are reset quarterly for all investments in the fund regardless of when deposited. The net average yield and crediting interest rates on the general account were both 1.26% and 1.65% for funds invested in 2013 and 2012, respectively. When establishing interest rates for the contract, GW considers many factors, including current economic and market conditions, the general interest rate environment and market conditions, and both the expected and actual experience of a reference portfolio within the general account. The rates are established without the use of a specific formula. The repayment of principal and interest credited to participants in the Plan is a financial obligation of GW. There are no events that allow the issuer to terminate the contract and which require the Plan Sponsor to settle at an amount different than contract value. If the contract is terminated prior to GW's recovery of any and all start-up costs incurred, or there are any other outstanding charges and fees, these amounts will be recouped as a contract termination charge.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their total participant account balances.

NOTE H - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
