NOTE 1 – THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General – The following description of the Barracuda Networks 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that was established on January 1, 2010 by Barracuda Networks (the Company) to provide benefits to eligible employees, as defined in the Plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code), as amended, and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration – The Company has appointed a 401(k) Committee (the Committee) to manage the operation and administration of the Plan. The Company has contracted with Charles Schwab Bank (formerly Charles Schwab Trust Company) (Schwab) to act as the trustee, and a third-party administrator to process and maintain the records of participant data. Substantially all expenses incurred for administering the Plan are paid by the Company.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Forfeited accounts – Forfeited nonvested accounts may be used to pay Plan administrative expenses or reduce future employer contributions.

Investment valuation and income recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Notes receivable from participants – Notes receivable from participants (notes receivable) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions upon the occurrence of a distributable event based upon the terms of the Plan document.

Income taxes – The Plan has been amended since receiving its latest determination letter dated Nobember 23, 2010. The Plan administrator believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Risks and uncertainties – The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates, or other factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Subsequent events – The Plan has evaluated subsequent events through October 8, 2014, which is the date the financial statements were available to be issued.

NOTE 2 – FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds and interest-bearing cash: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Non-fully benefit-responsive common/collective trust funds: Valued at quoted redemption value of units owned by the Plan at year end.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Unfunded commitment	**Redemption frequency**	**Other redemption restrictions**	**Redemption notice period**
Common/collective trusts funds:				
Target Funds	$ -	Daily	None	Daily

The Target Funds (the Funds) seek to provide total return for investors retiring approximately at or near the target year. The Funds are diversified across several asset classes, including but not limited to, Commodities, Large Cap Equities, Mid Cap Equities, Small Cap Equities, International Equities, Fixed Income, Treasury Inflation Protected Securities, Real Estate Investment Trusts, and Stable Value. Assets are allocated to a combination of underlying Schwab Institutional Trust Funds, the Charles Schwab Stable Value Fund, and non-unities accounts and collective trusts and mutual funds. The Funds are designed to provide a single investment portfolio that adjusts over time to meet the changing risk and return objectives of investors over their expected investment horizon. As the target retirement date approached, the Funds' portfolio becomes more conservative with a larger fixed income and stable value investment component. The values of the Funds will fluctuate up to and after the target dates. There is no guarantee the Funds will provide adequate income at or through retirement.

NOTE 3 – RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Schwab, the trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 4 – PARTICIPATION AND BENEFITS

Participant contributions – Participants may elect to have the Company contribute their eligible pre-tax or after tax compensation to the Plan up to the amount allowable under the Plan document and current income tax regulations. The Plan also permits the automatic enrollment of eligible employees in the Plan with a contribution of 6% of eligible compensation, unless the employee affirmatively elects otherwise. Participants who have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable and taxed compensation. Contributions withheld are invested in accordance with the participant's direction.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions – Effective June 1, 2013, the Company is allowed to make discretionary contributions to the Plan in the form of a basic matching contribution, and an employer performance matching contribution, as defined in the Plan and as approved by the Board of Directors. In 2013, the Company made a basic matching contribution equal to 100% of participant deferrals up to 1.25% of each eligible participant's eligible compensation, not to exceed $1,000 per year. In addition, the Company approved a performance matching contribution equal to 100% of participant deferrals up to 1.25% of each eligible participant's eligible compensation, not to exceed $1,000 per year.

Vesting – Participants are immediately vested in their contributions. Participants are fully vested in the employer's matching and performance contributions allocated to their account after four years of credited service.

Participant accounts – Each participant's account is credited with the participant's contribution, an allocation of the Company contributions, if any, and Plan earnings or losses.

Payment of benefits – Upon termination, the participants or beneficiaries may elect to leave their account balance in the Plan, or receive their total benefits in a lump sum amount equal to the value of the participant's vested interest in their account. The Plan allows for the automatic lump sum distribution of vested participant account balances that do not exceed $1,000.

Notes receivable from participants – The Plan allows participants to borrow not less than $1,000 and up to the lesser of $50,000 or 50% of their vested account balance. The notes receivable are secured by the participant's vested balance. Such notes receivable bear interest at the available market financing rates and must be repaid to the Plan within a five year period, unless the proceeds are used for the purchase of a principal residence in which case the maximum repayment period may be longer. The specific terms and conditions of such notes receivable are established by the Committee. Outstanding notes receivable at December 31, 2013 carry an interest rate of 4.25%.

Mutual funds	454,333	108,460
Other	40,130	9,315
	$ 1,402,368	$ 462,845

NOTE 6 – PLAN TERMINATION OR MODIFICATION

The Company intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate or modify the Plan at any time by resolution of its Board of Directors and subject to the provisions of ERISA. In the event the Plan was terminated in the future, participants would become fully vested in their accounts.
