Note 1. Description of the Plan

The following description of the Progressive Machine & Design, LLC 401(k) Plan (the "Plan") provides only general information. The Plan was established to provide tax-deferred retirement savings to eligible employees. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all eligible employees of Progressive Machine & Design, LLC and its affiliated company Global Packaging Systems, LLC (collectively known as the "Company"). Employees must be age eighteen or older for participation in the employee elective deferral contributions of the Plan. Employees that have completed six months of service are eligible for the employer contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Subsequent to year end, the eligibility period was updated from six months of service to one month of service.

Contributions - The Plan agreement provides that participants shall be permitted to make contributions not to exceed the ceiling imposed by the Internal Revenue Service of $17,500 for the year ended December 31, 2013. If a participant is age 50 or over, the ceiling is increased to $23,000 for the year ended December 31, 2013. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make an annual discretionary contribution out of current or accumulated profits. The amount of contributions made in a given year is left solely to the discretion of the Company.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations of Plan earnings and administrative expenses are based on participant account balances. Allocations of the Company's contributions are based on participants' compensation for the year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants - Participants are permitted to borrow from their fund accounts a minimum of $1,000, up to 50% of their account balance, not to exceed $50,000. Loan terms range from 1 - 5 years, with an interest rate of prime rate plus one percent, with a stated rate of 4.25% at December 31, 2013 . If the purpose of the loan is to acquire a principal residence, repayment may be made over a reasonable period of time, not to exceed 10 years. The loans are secured by the balance in the participant's account. Principal and interest is paid ratably through weekly payroll deductions.

Payment of Benefits - On termination of service, benefits may be paid in a lump-sum amount, a distribution in the form of an annuity, or a combination of both. Participants may withdraw any part of their vested account after reaching the age of 59 ½.

Forfeitures - Forfeited balances of terminated participants' non-vested accounts are used to reduce the Company's contribution. Unallocated forfeitures as of December 31, 2013 amounted to $4,416.

Note 2. Summary of Significant Accounting Policies

Method of Accounting - The accompanying financial statements have been prepared using the accrual basis of accounting.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Administrative expenses were paid by both the Company and the Plan in 2013.

Subsequent Events - The Plan has evaluated subsequent events through the date of the report which is the date the financial statements were available to be issued.

Note 3. Information Prepared and Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees have certified that the following data included in the accompanying December 31, 2013 financial statements and supplemental schedule is complete and accurate:

Investments, at fair value	$	7,667,492
Notes receivable from participants	$	162,156
Investment income	$	1,010,835

The Plan obtained certifications from MG Trust Company for the period January 1, 2013 - January 31, 2013 and Fidelity Management Trust Company for the period February 1, 2013 - December 31, 2013 (the trustees) for the plan year ended December 31, 2013. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Realized gain on mutual funds	$ 9,407
Unrealized gain on mutual funds	402,522
Realized gain on common collective trust	228
Unrealized gain on common collective trust	4,346
Net appreciation in fair value of investments	$ 416,503

Note 5. Fair Value of Financial Instruments

ASC 820-10 establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value.

Money Market - Valued at the net asset value of shares held by the Plan at year-end (Level 1).

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1).

Common Collective Trust - Valued at the net asset value (NAV) of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner (Level 2).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value are summarized below:

Note 6. Net Asset Value (NAV) Per Share

In accordance with ASU No. 2009-12, the Plan expanded its disclosures to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share or its equivalent for which the fair value is not readily determinable, as of December 31, 2013. For the Plan, such assets include investments in a common/collective trust.

The following table for December 31, 2013 and 2012, sets forth a summary of the Plan's investments with a reported NAV:

	Fair Value Using Net Asset Value per Share December 31, 2013	
	Fair Value *	Unfunded Commitment
Stable value common collective trust (a)	$ 428,640	$ -
Total assets at fair value	$ 428,640	$ -

	Fair Value Using Net Asset Value per Share December 31, 2012	
	Fair Value *	Unfunded Commitment
Stable value common collective trust (a)	$ 388,751	$ -
Total assets at fair value	$ 388,751	$ -

* The fair values of the investments have been estimated using the net asset value of the investment.

(a) Strategies seek to invest in a variety of investment contracts offered by major insurance companies and other approved financial institutions and in certain types of fixed income securities.

There are no redemption restrictions in the investments.

Note 7. Party-In-Interest Transactions

The Plan pays administrative fees to its custodians and these transactions are non-prohibited party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $863 for the year ended December 31, 2013. Participant loans also qualify as party-in-interest transactions.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event that the Plan terminates, the assets of the Plan will be distributed among the participants or their beneficiaries in proportion to their respective interest in the funds.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded as of December 31, 2013. There are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions and the Department of Labor; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.
