Note 1: Description of the Plan

The following description of the Seabreeze Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan which was adopted by Seabreeze Management Company, Inc. (the "Company") effective January 1, 2009, and is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986, as amended. The purpose of the Plan is to provide retirement benefits for substantially all employees who have completed one year of service and are age 21 or older.

Contributions

Participants may elect to contribute up to 100% of their pretax annual compensation not to exceed the maximum deferral limitation, as defined in the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions and the matching contributions into various investment options offered by the Plan. The Company matches up to 3 percent of participant contributions.

In addition, a nonelective contribution may be made at the option of the Company's Board of Directors. The nonelective contribution is allocated to participants based on the participant's compensation for the Plan year in proportion to total compensation of all participants. A participant does not have to make contributions to the Plan to be eligible for an allocation of the nonelective contribution. The Company did not make any nonelective contributions for the year ended December 31, 2013.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1: Description of the Plan (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is vested at the rate of 20% each year after one year of service and is considered to be 100 percent vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow against their Plan account balance within plan guidelines. Loan terms are at the discretion of the borrower but generally cannot exceed five years. Loans used to acquire principal residence are not to exceed a term of twenty years. The loan amount cannot exceed the lesser of (a) one-half of the participant's non-forfeitable interest under the Plan, or (b) $50,000. Interest is charged on the outstanding balance at rates determined by the plan administrator based on the prevailing interest rates. Principal and interest is paid ratably through payroll deductions. The loans are secured by the vested account balance in the participant's account.

Benefit Payments

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution. Additionally, under certain circumstances of financial hardship or upon attaining the age of 59 ½, participants are allowed to withdraw their funds from the Plan.

Forfeitures

Forfeitures of the employee's non-vested portion of the Company's contributions are used to reduce Plan administrative expenses then to reduce Company contributions. At December 31, 2013 and 2012, forfeited non-vested accounts totaled $589 and $3,958, respectively. During the year ended December 31, 2013, employer contributions were reduced by $8,553 from forfeited non-vested accounts.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair values of investments. Fees related to administration of participant loans are deducted from the applicable participants' accounts.

Note 2: Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value at December 31, 2013 and 2012. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gains and/or losses are reported the day after the trade date.

Net realized and unrealized appreciation is recorded in the accompanying statement of changes in net assets available for benefits as net realized and unrealized gains on pooled separate accounts.

Brokerage fees are added to the acquisition costs of assets purchased and subtracted from the proceeds of assets sold.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Delinquent participant loans are reclassified as distributions based upon terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The process of preparing financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and gains, and expenses and losses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Note 3: Concentrations, Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 4: Information Prepared and Certified by John Hancock

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, all participants would become fully vested in their accounts.

Note 7: Tax Status

The Plan adopted the Pension Group, Inc. Prototype Non-Standardized Profit Sharing Plan with CODA ("Prototype Plan"), which received a determination letter from the Internal Revenue Service ("IRS") dated March 31, 2008, stating that the Prototype Plan was designed in accordance with the provisions of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 8: Party-in Interest

The Plan has various investments in the pooled separate accounts and a guaranteed interest account that are managed by John Hancock. John Hancock is the custodian, as defined by the Plan, and therefore, these investments qualify as party-in interest transactions. Notes receivable from participants represent loans to employees, and therefore, also qualify as party-in-interest transactions.

Note 9: Withdrawn Participants

At December 31, 2013 and 2012, there were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not been paid.

Note 10: Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *"Fair Value Measurements and Disclosures",* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 10: Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2013 and 2012. Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts: The Plan invests in pooled separate accounts, which consist of mutual funds and do not have guaranteed rates of return. The fair values of these assets are determined by reference to the funds' Net Asset Value ("NAV"). See Note 11 for further descriptions of the valuation of pooled separate accounts.

Guaranteed Interest Account: Contract value, as reported to the Plan by John Hancock, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expense. Contract value approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 10: Fair Value Measurements (Continued)

(a) Small Capitalization Growth - These investments seek total return through growth of capital and current income. Under normal circumstances, the funds will invest its net assets, plus the amount of any borrowings for investment purposes, in equity securities of small-capitalization companies. The funds are valued at the closing price per the appropriate exchange.

(b) Mid Capitalization Growth - These investments seek long-term growth of capital and invest primarily in common stocks and other equity securities. These funds invest at least 80% of their net assets in securities of mid-sized companies.

(c) Large Capitalization Growth - These investments seek long-term growth of capital. The funds are asset allocation funds that diversify their assets among various classes of investments such as equity securities, bonds and money market instruments. The funds may invest in any type of U.S. or foreign equity security that meets certain fundamental and technical standards. The funds are valued at the closing price per the appropriate exchange.

(d) Small Capitalization Value - These investments seek long-term capital growth; income is a secondary consideration. These funds invest primarily in common stocks, and may invest up to 25% of total assets in foreign securities. Normally, the funds primarily invest in equity securities of companies that are undervalued and have a potential for capital appreciation.

(e) Middle Capitalization Value - These investments seek long-term capital growth. These funds invest in common stock of small and midsize companies outside the United States.

(f) Large Capitalization Value - These investments seek capital appreciation and current income. These funds normally invest their assets in equity securities that have prospects for income payments to continue or increase. Equity securities include common stocks, preferred stocks, securities convertible into stocks, and depositary receipts for those securities. They focus on the stocks of companies they believe are undervalued compared to their perceived worth (value companies). Investments may include companies of any size, while they focus on companies with large capitalizations and may include foreign securities.

(g) Small Capitalization Blend - These investments seek long-term growth of capital. Under normal circumstances, the funds' assets invest primarily in common stocks (growth, value, or both) of small and midsize U.S. companies. The funds are valued at the closing price per the appropriate exchange.

Note 11: Net Asset Value per Share ("NAV") (Continued)

(h) Mid-Capitalization Blend – Depending on the proximity to its target date, this fund will seek to achieve the following objectives to varying degrees: growth, income, and conservation of capital. The Fund will increasingly emphasize income and conservation of capital by investing a greater portion of its assets in bond, equity income and balanced funds as it approaches and passes their target dates, this way, the fund seeks to balance total return and stability over time.

(j) Bond Funds - Typically, investments are composed primarily of domestic fixed-income securities. Securities are priced by Interactive Data Corporation using inputs such as benchmark yields, reported trades, broker/dealer quotes, and issuer spreads. Interactive Data Corporation also monitors market indices and industry and economic events, including credit rating agency actions.

(k) Money Market Fund - This investment seeks to obtain maximum current income consistent with income preservation of principal and liquidity. Under normal market conditions, the fund invests in high quality, U.S. dollar denominated money market instruments.

Note 12: Subsequent Events

The Plan has evaluated subsequent events through October 7, 2014, the date the financial statements were available to be issued.
