INDEPENDENT AUDITOR'S REPORT

To KBR Benefits Committee of
Technical Staffing Resources, LLC 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Technical Staffing Resources, LLC 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2013 is required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

TECHNICAL STAFFING RESOURCES, LLC
401(k) PLAN
Notes to Financial Statements

(1) Description of the Plan

The Technical Staffing Resources, LLC 401(k) Plan (the Plan), formerly the Allstates Technical Services, Inc. 401(k) Retirement Plan, is a defined contribution plan covering all eligible employees of Technical Staffing Resources, LLC (the Company), formerly Allstates Technical Services, Inc., the plan sponsor. The Plan was established in accordance with Sections 401(a) and 401(k) of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The following description of the Plan provides only general information. Participants should refer to the Plan document or summary Plan description for a more complete description of the Plan's provisions.

(a) Eligibility

Certain employees of the Company are eligible for immediate participation in the Plan upon their hire date. Employees are eligible to receive Company contributions on their date of hire.

(b) Contributions

Participants may elect to contribute to the tax deferred savings feature of the Plan through periodic payroll deductions. Participants may contribute up to 25% of their eligible earnings. However, the total amount of a participant's tax deferred savings contributions was limited to \$17,500 for 2013, and the 2013 limit for eligible earnings was \$255,000. Participants who are age 50 or older before the close of the Plan year may elect to make a catch-up contribution (\$5,500 per participant in 2013).

The Company may make a discretionary matching contribution on a Plan year, quarterly period, or a pay period basis. A discretionary match was made at the end of the Plan year to all active, non-highly compensated staff employee participants. The Company's discretionary match was equal to 100% of the first 5% and 50% of the next 1% of participant contributions to the Plan.

The Company may make a discretionary profit sharing contribution. Participants must be employed as of the last day of the Plan year. There was no profit sharing contribution made in 2013.

Employees are permitted to roll over pre-tax and after-tax amounts with earnings held in other qualified plans or individual retirement accounts (IRAs) into the Plan, as specified in the Plan document.

(c) Investment Elections and Transfers

The Plan participates in the KBR Employee Benefit Master Trust (the Master Trust). The Master Trust was established for the collective investment of certain defined contribution and defined benefit plans. In addition, the Plan maintains a clearing account, which invests in a short-term investment fund to facilitate the payment of benefits and receipt of contributions to the Plan. Contributions and participant account balances may be directed to one of fifteen funds or a combination of funds. The assets of the funds are held in the Master Trust (see Note 4). The Plan allows participants to make daily transfers of their account balances among the funds, subject to the Plan's investment transfer policy. The amount of the transfer may be all or any portion of the participant's account balance.

TECHNICAL STAFFING RESOURCES, LLC
401(k) PLAN
Notes to Financial Statements

The Plan has an investment transfer policy that places waiting periods on transfers and reallocations into and out of all of the investment funds. If a participant makes a transfer or fund reallocation out of a fund other than the Stable Value Fund, the participant cannot transfer money into that same fund for up to twenty calendar days. If funds are transferred or reallocated into the Stable Value Fund, the number of units that the money represents on the day of the transfer or reallocation transaction is locked in and cannot be transferred out of the Stable Value Fund for up to twenty calendar days. Participants are permitted to reallocate or transfer money into the Stable Value Fund at any time.

(d) Administration

The KBR Benefits Committee (Benefits Committee) maintains all control, management, and administration of the Plan. The KBR Investment Committee maintains all powers and duties related to the Plan's investment fund or funds.

State Street Bank and Trust Company (State Street or the Trustee) is the Plan's trustee, and Aon Hewitt is the recordkeeper.

(e) Notes Receivable from Participants

A participant may borrow from their vested account balance a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 (reduced by the highest outstanding loan balance in all Company sponsored Plans by the participant in the prior twelve months) or 50% of their vested account balance. A participant may not have more than one loan outstanding at any time. Loans bear interest at the current prime rate plus 1% as published in the Wall Street Journal at the time of the loan. Loans must be repaid within five years through payroll deductions (10 years for primary residence loans) and are collateralized by the participant's vested account balance. If a participant fails to comply with the repayment terms of the loan, the Benefits Committee or its designee may deem such defaulted loans as a distribution when the loans are considered uncollectible from the participant.

(f) Vesting

Participants' contributions to their accounts and earnings thereon are fully vested when made or earned. Vesting in the Company contribution portion of their accounts plus earnings thereon is based on years of continuous service. The Plan utilizes the five-year graded vesting method and a participant is 100 percent vested after five years of credited service.

The non-vested portion of a participant's account is forfeited as of their benefit commencement date, as defined in the Plan.

Forfeitures of terminated participants' nonvested accounts are reallocated to active participant accounts as part of the employer discretionary profit sharing contribution. No forfeitures were allocated to participant accounts during 2013 or 2012. Forfeitures available as of December 31, 2013 and 2012 were \$50,468 and \$48,634, respectively.

TECHNICAL STAFFING RESOURCES, LLC
401(k) PLAN
Notes to Financial Statements

(g) Distributions

Each participant, or his or her designated beneficiary, may elect to receive a distribution upon retirement, termination, disability, or death. Termination distributions are made in either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a fixed period of time, not to exceed the life expectancy of the participant or the beneficiary. In-service withdrawals, including hardship withdrawals, may be available as defined by the Plan document.

(h) Investment Earnings

Investment earnings on participants' accounts are allocated proportionately based on their relative account balance in each investment fund.

(2) Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through the Master Trust. The statements of net assets available for benefits present the fair value of the investment in the Master Trust as well as the adjustment of the investment in the Master Trust from fair value to contract value relating to investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(c) Securities Transactions and Investment Income of the Master Trust

The Plan records interest on cash and cash equivalents and participant loans held outside of the Master Trust as earned. Purchases and sales of securities held outside the Master Trust are recorded on a trade-date basis.

Purchases and sales of securities in the Master Trust are recorded on a trade-date basis. Realized gains (losses) on investments sold and unrealized appreciation (depreciation) for investments of the Master Trust are combined and presented as Plan interest in Master Trust investment income (loss) in the statement of changes in net assets available for benefits.

Notes to Financial Statements

In addition, investment income (loss) of the Master Trust includes dividends, interest, and other income. Interest income on the Master Trust investments is recorded as earned. Dividends on the Master Trust investments are recorded on the ex-dividend date.

(d) *Valuation of Investments Held in the Master Trust*

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The Stable Value Fund within the Master Trust invests primarily in asset-backed contracts that are fully benefit-responsive. These asset-backed contracts have two components: 1) a portfolio of securities or underlying assets and 2) a wrap contract. These underlying assets, generally fixed income securities, are held by an independent trustee for the sole benefit of the fund and a wrap contract is entered into for a fee with a financial institution to assure contract value liquidity for Plan participant-directed withdrawals, transfers, or loans. The issuer of the contract (wrap provider) undertakes to repay the principal amount deposited pursuant to the contract plus accrued interest less expenses to fund participant-directed withdrawals, transfers, and loans. The crediting rate of the asset-backed contract is a function of the relationship between the market value, yield, and duration of the underlying assets versus the contract value. If the positive adjustment for the portion of net assets attributable to fully benefit-responsive investment contracts from fair value to contract value increases, the crediting rate at the next reset date will be negatively impacted and vice versa. Interest rate change is a key factor that can influence future crediting rates because it impacts the value, yield, and duration of the underlying securities. The contract rate is reset periodically by wrap providers and cannot be less than zero.

The net weighted average yield earned, which is different from the interest rate credited to participants, by the entire fund for 2013 was 1.22% and for 2012 was 0.87%. The net weighted average interest rate credited to participants in the fund for 2013 was 1.53% and for 2012 was 1.90%.

All of the asset-backed contracts held by the fund are fully participating contracts. In a fully participating contract, the asset and liability risks may be transferred from the wrap provider to the fund in the event of a termination or a non-participant directed withdrawal, transfer, or loan. The risk of this event happening is possible but not probable. The wrap provider may terminate a fully benefit-responsive contract and settle at an amount different from the contract value if the wrap provider or the fund is unable to meet the terms of the contract.

The Plan's proportionate interest in the investments of the Master Trust is shown in the statements of net assets available for benefits as Plan interest in the Master Trust (see Note 4).

(e) *Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document. At December 31, 2013 and 2012, no allowance was considered necessary by management.

(f) Administrative Expenses

The Master Trust pays substantially all Plan expenses on behalf of the Plan. Generally, trustee fees, recordkeeping fees, audit fees, and investment management fees are paid from Master Trust assets and are charged to the applicable plans participating in the Master Trust. Expenses related to the direct management of the Master Trust are shared on an equitable basis by the participating plans. Expenses specifically related to an individual plan are charged to the assets of the plan that incurred the charges. These expenses are shown as a component of Plan interest in Master Trust investment income (loss).

(g) Payment of Benefits

Benefits are recorded when paid.

(3) Fair Value Measurements

The Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value, and requires additional disclosure about the use of fair value measurements in an effort to make the measurement of fair value more consistent and comparable.

Cash and cash equivalents, equity securities, mutual funds, and bonds held within the Master Trust are presented at their quoted market values. Common/collective trust funds are stated at the fair value of the underlying securities. The Master Trust considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

The Master Trust's investment in the Retirement Income, Target Date 2020, Target Date 2030, Target Date 2040, Target Date 2050, Global Equity, Large Cap Equity, BE&K Cash Balance, Moderate Premixed Portfolio, Small Cap Equity, and Non-U.S. Equity Funds represents the unitized values of certain pooled managers' accounts on a combined basis. Each pooled manager's account is valued daily. A unit price is calculated for each pooled manager by dividing the total value of the manager's account by the total number of units in existence for that manager. Net income and realized/unrealized investment gains and losses by each manager are passed through to the investment options through the managers' unit price.

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value under ASC 820 must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

TECHNICAL STAFFING RESOURCES, LLC
401(k) PLAN
Notes to Financial Statements

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e. projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. There have been no changes in the methodologies used at December 31, 2013 or 2012.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2013 and 2012:

(4) Investment Assets Held in the Master Trust

Certain assets of the Plan are combined with the assets of certain other benefit plans of affiliated companies in a Master Trust. The assets of the Master Trust are segregated into fifteen funds in which the plans may participate. The combination of the plans' assets is only for investment purposes and the plans continue to be operated under their current plan documents, as amended.

The following is a summary of net assets as of December 31, 2013 and 2012 and net investment activity for the year ended December 31, 2013 of the Master Trust and net appreciation (depreciation) by investment type for the year ended December 31, 2013. The Plan's interest in the applicable Master Trust net assets as of December 31, 2013 and 2012 is also presented.

The following is a summary of the Master Trust's net appreciation (depreciation) by investment type for the year ended December 31, 2013:

Net Appreciation (Depreciation) by Investment Type	Year Ended December 31, 2013
Equity securities:	
Non-U.S. companies	\$ 40,349,569
U.S. companies	104,674,540
Bonds:

Common/collective trust funds	101,572,658
Mutual funds	44,476,827
Net investment appreciation (depreciation)	\$ 308,234,691

The Master Trust makes use of several investment strategies involving limited use of derivative investments. Certain investment managers are allowed limited use of derivatives for strategies such as portfolio structuring, return enhancement, or hedging against market and interest rate changes. Derivatives may also be used as a hedge against foreign currency fluctuations. Investment managers are not permitted to use leverage for any investment purchase. Derivative investments are stated at estimated fair values as determined by quoted market prices. Gains and losses on such investments are included in net investment appreciation (depreciation) in the statement of changes in participating plans' net assets of the Master Trust.

(5) Investments

The investment in the Master Trust held by State Street represents 5% or more of the Plan's net assets at December 31, 2013 and 2012.

(6) Information Certified by the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012 and schedule H, line 4i-schedule of assets (held at end of year) as of December 31, 2013 and the related investment activity and interest income on notes receivable from participants reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2013.

TECHNICAL STAFFING RESOURCES, LLC
401(k) PLAN
Notes to Financial Statements

(7) Tax Status

The Plan obtained its latest determination letter on October 5, 2010, in which the Internal Revenue Service (IRS) stated that the Plan and the related trust, as then designed, were in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified and the related trust is tax-exempt as of December 31, 2013 and 2012.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(8) Plan Termination

The Company may amend, modify, or terminate the Plan at any time. No such termination is contemplated, but if it should occur, the accounts of all participants would be immediately fully vested and paid in accordance with the terms of the Plan.

(9) Risks and Uncertainties

The investments of the Master Trust are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(10) Party-in-Interest Transactions

The Plan, through its participation in the Master Trust, may invest in investment securities issued and or managed by the Trustee and asset managers. The Plan also contains notes receivable from participants. These entities and notes receivable from participants are considered parties-in-interest to the Plan. These transactions are covered by an exemption from the prohibited transaction provisions of ERISA and the IRC.

(11) Subsequent Events

The Plan has evaluated subsequent events through October 9, 2014, the date the financial statements were available to be issued.
