CLEAN EARTH PLAN
NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Clean Earth Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution retirement plan, covering all non-union employees of Clean Earth, Inc. and Subsidiaries (the Companies). Employees who have completed 60 days of service and have attained age 21 are automatically enrolled in the Plan. Eligible participants may opt out of the Plan at any time. Employees are eligible for profit sharing and qualified non-elective contributions (QNEC) if they are employed with the Companies on the last day of the Plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may elect to contribute from 1% to 100% of their compensation to the Plan on a pre-tax basis, subject to limitations imposed under the Internal Revenue Code (IRC). Participants who enter the Plan through automatic enrollment who do not specify a deferral amount will have 2% deferred on their behalf. These deferrals are invested in the target date fund closest to the year the participant reaches age 65. Participants may also make rollover contributions to the Plan from other qualified defined benefit or defined contribution plans.

The Plan permits discretionary matching contributions, profit-sharing contributions and QNEC by the Companies. In 2013 and 2012, the Companies made discretionary matching contributions of 40% and 35%, respectively, of the first 6% of employee deferrals. The Companies contributed \$211,363 and \$157,546 in discretionary matching contributions during the years ended December 31, 2013 and 2012, respectively. The Companies did not make any profit-sharing or QNEC contributions to the Plan in 2013 and 2012.

Participants' Accounts

Each participant's account is credited with his or her contributions, the Companies' matching contributions, an allocation of profit-sharing and QNEC, and investment earnings and losses, and charged with an allocation of administrative expenses. Profit-sharing contribution allocations are based on participant compensation. QNEC are allocated proportionately based on compensation on behalf of each participant who is included in the group of lowest paid non-highly compensated participants for the Plan year. All other allocations are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

CLEAN EARTH PLAN
NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN (continued)

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Vesting in the Companies' matching, profit-sharing contributions and QNEC contributions is based on years of continuous service according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 1 year	0%
1 year but less than 2	20%
2 years but less than 3	60%
3 years but less than 4	100%

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan or are automatically invested in the appropriate target date funds.

Forfeitures

Forfeitures are created when participants terminate employment prior to becoming entitled to full benefits. At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$9,445 and \$8,379, respectively. At the Companies' discretion, forfeitures may be reallocated to participants that are employed on the last day of the Plan year or used to reduce employer contributions. The Companies reallocated \$0 and \$62,823 of forfeitures to participants during the years ended December 31, 2013 and 2012, respectively. The Companies used \$948 and \$0 of forfeitures to reduce employer contributions during 2013 and 2012, respectively.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or separation of service, participants or their beneficiaries are entitled to receive a distribution of their vested account balance in the form of a lump-sum payment or installments. Upon proven financial hardship, participants may elect to receive a distribution equal to the value of their deferral contributions.

Notes Receivable from Participants

Participants may borrow from their accounts up to 50% of their vested account balance, from a minimum of \$1,000 up to a maximum of \$50,000. Notes receivable terms range from one to five years or up to 25 years for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account and bear interest at 6%. Principal and interest are paid ratably through payroll deductions and remitted to the custodian on a monthly basis. Interest income of \$21,995 and \$17,164 for 2013 and 2012, respectively, has been recorded as other income in the accompanying Statements of Changes in Net Assets Available for Benefits.

CLEAN EARTH PLAN
NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits should present the fair values of the insurance company general account as well as the adjustments from fair value to contract value; however, for the Plan, contract value approximates fair value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses are paid by the Plan. All other expenses related to the Plan are paid by the Companies.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold, as well as held, during the year.

The Companies evaluated subsequent events through September 29, 2014, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. INVESTMENTS

The following table presents the fair value of investments at December 31, 2013 and 2012. The investments and investment activity have been certified as complete and accurate by Transamerica Life Insurance and Annuity Company, the custodian of the Plan, and have not been audited by the independent auditors. Individual investments that represent 5% or more of the Plan's net assets are separately identified.

4. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already required or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs used in valuation models (Level 3 measurements).

The three levels of the fair value hierarchy under GAAP are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in inactive markets. Level 2 inputs include those other than quoted prices that are observable for the asset or liability and that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Insurance company pooled separate accounts - The fair value of the underlying assets are used to determine the net asset value of the account.

Insurance company general account - unallocated contracts - Valued based on the deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees (See Note 7).

4. FAIR VALUE MEASUREMENTS (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 2	Total
Insurance company pooled separate accounts		
Bond fund	\$ 986,690	986,690

5. TAX STATUS

The Plan received a tax determination letter on May 29, 2009 in which the Internal Revenue Service (IRS) stated that the Plan was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to the year ended December 31, 2010.

6. PLAN TERMINATION

Although they have not expressed any intent to do so, the Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their accounts.

7. INSURANCE COMPANY GENERAL ACCOUNT

During 2013 and 2012, the Plan participated in an insurance company general account through Transamerica Life Insurance and Annuity Company. As described in Note 2, because the investment in the insurance company general account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment in the insurance company general account. Contract value, as reported to the Plan by Transamerica Life Insurance and Annuity Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value is the amount payable to Plan participants upon demand. The insurance company general account has no stated maturity dates and the amount payable on demand is the contract value. Generally, there are no events that would limit the ability of the Plan to transact at contract value, would allow the issuer to terminate the contract, or would require the Plan sponsor to settle at an amount different from the contract value. If an event should ever occur such that realization of full contract value for a particular investment contract is no longer probable, the insurance company general account may no longer be considered fully benefit-responsive.

NOTES TO THE FINANCIAL STATEMENTS

7. INSURANCE COMPANY GENERAL ACCOUNT (continued)

The interest rate is reset monthly, with no maturity dates on balances. The following are the guaranteed, crediting and average interest rates for the insurance company general account:

	<u>2013</u>	<u>2012</u>
Guaranteed / crediting interest rate	1.45 %	1.65 %
Average interest rate	1.45 %	1.75 %

8. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments at December 31, 2013 and 2012 are invested in funds managed by Transamerica Life Insurance and Annuity Company. Transamerica Life Insurance and Annuity Company is the custodian of the Plan, and therefore, these transactions are considered party-in-interest transactions.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

10. CORRECTIVE DISTRIBUTIONS PAYABLE

In order to pass the Actual Deferral Percentage (ADP) Test, the Plan administrator elected to refund excess elective deferrals and earnings thereon to certain highly-compensated employees. The calculated amount for elective deferrals was \$45,267 and \$11,694 for the years ended December 31, 2013 and 2012, respectively. The calculated amount for earnings was \$8,191 and \$1,380 for the years ended December 31, 2013 and 2012, respectively. These amounts are paid out to the employees in the following plan year and thus have been included as corrective distributions payable in the accompanying Statements of Net Assets Available for Benefits.
