Note 15-FAIR VALUE OF THE INVESTMENTS IN THE PLAN

On January 1, 2008, the Company adopted SFAS No. 157, fair value measurements, for valuing and reporting the fair value of the investments in the *Plan*. The schedule of assets held for investment purposes is shown at current value(except participant loans) which is the same as fair value.

Subsequent Events

The *Plan* Administrator has evaluated subsequent events through August 21, 2014, the date these financial statements were available to be issued, and there were no material subsequent events that required recognition.

Note 16-FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosure*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities(Level 1 measurement) and the lowest priority to unobservable inputs(Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 16- FAIR VALUE MEASUREMENTS(continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2013.

- Investments in mutual funds are valued at the closing prices reported on the active markets on which the mutual funds are traded.

- Investments in U.S. government securities are valued at the closing price reported on the active market on which the individual securities are traded.

- Guaranteed investment contracts are valued at fair value considering the credit-worthiness of the issuer(John Hancock Insurance Company).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the *Plan* believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the *Plan's* assets at fair value as of December 31, 2013:

Assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 7,423,988	-	-	$7,423,988
Guaranteed Account	252,325	-	-	252,325
Investment in benefit responsive contract	-	-	-	-
Interest bearing cash	-	-	-	-
	$ 7,676,313	$ -	$ -	$ 7,676,313

Note 16- FAIR VALUE MEASUREMENTS (continued)

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net realized and unrealized appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Note 17- NOTE RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the *Plan* document.

Note 18- RECENT ACCOUNTING PRONOUNCEMENTS

In January 2010, the Financial Accounting Standards Board, (FASB), issued Accounting Standards Update(ASU) 2010-06, *Improving Disclosures about Fair Value Measurements.* ASU 2010-06 amended Accounting Standards Codification (ASC) 820 to clarify certain existing fair value disclosures and required a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. The guidance in ASU 2010-06 became effective for reporting periods beginning after December 15, 2009. The adoption of this guidance did not have a material effect on the *Plan's* net assets available for plan benefits or its changes in net assets available for *Plan* benefits. There were no significant transfers between Levels 1, 2 and 3 in 2012.

In September 2010, FASB issued an amendment, *Plan Accounting-Defined Contribution Pension Plans* (Topic 962): *Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from *plan* investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

Note 18- RECENT ACCOUNTING PRONOUNCEMENTS(continued)

This amendment was adopted for the year ended December 31, 2010. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. There was no impact to the net assets as of December 31, 2013 as a result of the adoption.

In May 2011, FASB issued additional disclosure requirements for fair value measurements. Under this guidance, the amendments change the wording used to describe many of the requirements for measuring fair value and for disclosing information about fair value measurements. The amendment explains how to measure fair value and does not require additional fair value measurements and are not intended to establish valuation standards or affect valuation practices. Amendments must be applied prospectively. The disclosure is effective for years beginning after December 15, 2011. There is no impact of the adoption of this update on the *Plan's* financial statements as of December 31, 2013.

Note 19- BASIC FINANCIAL STATEMENT

Benefits under the *Plan* are provided by insurance and trust. *Plan* expenses were $376,707. These expenses included $11,024 in administrative expenses and $364,683 in benefits paid to participants and beneficiaries, and $0 in other expenses. A total of 182 persons were participants in or beneficiaries of the *Plan* at the end of the *Plan* year, although not all of these persons had yet earned the right to receive benefits.

The value of *Plan* assets, after subtracting liabilities of the *Plan*, was $8,503,390 as of 12/31/13, compared to $6,794,457 as of 01/01/2013. During the *Plan* year the *Plan* experienced an increase in its assets of $1,708,933. This increase includes unrealized appreciation or depreciation in the value of the *Plan* assets; that is, the difference between the value of the *Plan's* assets at the end and the value of the assets at the beginning of the year or the cost of the assets acquired during the year. The *Plan* had total income of $2,079,283, including employer contributions of $655,947, employee contributions of $507,749, gains of $900,447 from the sale of assets and earnings from investments of $15,140. Transfer of assets into the plan $6,357.
