INDEPENDENT AUDITORS' REPORT

To the Retirement Plan Committee and Participants of the
Retirement Plan of Thales ATM, Inc.
Arlington, Virginia

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Plan of Thales ATM, Inc. (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB, the custodians of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the custodians as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the plan administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the custodians, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Plan Provisions

Benefit Formula	Effective December 31, 2001 all benefits in the plan are frozen. The benefit of a participant at normal retirement is equal to (A) plus (B): (A) Accrued benefit at December 31, 1995 (December 31, 2000) for hourly paid employees), net of Predecessor Plan accrued benefit. (B) For each year of service after January 1, 1996 (January 1, 2001 for hourly paid employees), 1.7% of Earnings up to the Average Social Security Wage Base, plus 2.0% of Earnings in excess of the Average Social Security Wage Base provided, however, that if Benefit Service accrued as of December 31, 1995 (December 31, 2000 for hourly paid employees) plus the number of Plan Years in which the participant accrues a benefit on or after January 1, 1996, (January 1, 2001 for hourly paid employees), equals or exceeds 35, the accrued benefit for each plan year shall equal 2% of Earnings.
Early Eligibility	First day of the month coinciding with or next following age 55 with ten year of Vesting Service
Early Benefit Amount	(A) For Participants who retire early from an active status: Accrued Benefit reduced by the lesser of (a) 1/12 of 2.5% for each calendar month benefits begin prior to Normal Retirement Date, or 2.5% for each point less than 85 where the number of points is equal to the sum of the Participant's age (computed to nearer 1/12 of a year) and 1/12th of his Months of Benefit Service as of the date employment terminates. (B) For terminated vested participants who retire early: Accrued benefit actuarially adjusted for early payment.
Vesting Schedule	Five or more years equals 100%
Vested Benefit	Benefit accrued to date of termination, adjusted by appropriate vesting percentage.
Preretirement Spouse Benefit	(A) Eligibility Eligible for early retirement and married one full year prior to death Benefit Formula 50% of the pension benefit accrued to date of death, reduced by appropriate early retirement and join and survivor factors. (B) Eligibility Eligible for vesting, but not eligible for early retirement and married one full year prior to death Benefit Formula 50% of the pension benefit accrued to date of death, payment deferred to early retirement date of the deceased Participant and reduced by appropriate early retirement and join and survivor factors.

Actuarial Cost Method

Actuarial Cost Method

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described in "Plan Assumptions" of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year for all Participants plus an estimate of the expenses to be paid from the plan assets during the plan year.

Target Liability and Funding Shortfall

As of January 1, 2008, a Target Liability is established which represents the present value of accrued benefits. This Target Liability is offset by adjusted assets, and the remainder (i.e. Funding Shortfall), if any, is amortized over seven years.

Subsequent changes in the Funding Shortfall due to asset experience, liability experience, plan amendments, and/or actuarial assumption changes will be amortized over a seven year period from their valuation dates.

Discount Rate

The plan sponsor has elected to use the Segment Rate approach for discount rate purposes, with an applicable month that is 4 months prior to the valuation date.

In addition, beginning with the 2012 plan year, solely for purposes of determining the minimum required contribution level, applicability of benefit restrictions, and for the at-risk determination, the adjusted 24-month average segment rates established by the Moving Ahead for Progress in the 21st Century Act (MAP-21) have been incorporated.

The adjusted 24-month average segment rates are generated by taking the unadjusted 24-month average segment rates for the sponsor-chosen lookback month and adjusting them so that each individual segment rate is not outside of the stipulated corridor around the corresponding 25-year average segment rate for the given plan year. For the 2013 plan year, the stipulated corridor is 90% - 110% of these 25-year average segment rates.

II. ASSET VALUATION METHOD

Assets have been valued in accordance with generally accepted procedures as described below.
All funds invested are valued in the following manner:

Definitions

i(t)	assumed growth rate, set equal to the lesser of the expected return on assets or the applicable 3rd segment rate for Plan Year t.
C(t)	sum of contributions and other additions to the fund from all sources other than investment transactions in Plan Year t
W(t)	sum of all withdrawals and other decreases to the fund from all sources other than investment transactions in Plan Year t
AV(t)	Actuarial Value of Assets as of Plan Year t
MV(t)	Market Value of Assets as of Plan Year t
EV(t)	Expected Value of Assets as of Plan Year t
G/L(t)	Gain or Loss for Plan Year t

Prudential

Actuarial Cost Method

Method

A description of the method used to determine the current year's Actuarial Value of Assets {AV(t)} is below.

For the preceding 2 years, G/L(t) is determined as follows:

$$EV(t) = MV(t-1) * (1 + i(t-1)) + [C(t-1) - W(t-1)] * (1 + i(t-1) * m)$$

Where m represents a proportionate yield consistent with the portion of the year for which C and W are invested

$$G/L(t-1) = EV(t) – MV(t)$$

For the current year, AV(t) is determined as follows:

$$AV(t) = MV(t) + 2/3 * G/L(t-1) + 1/3 * G/L(t-2)$$

Corridor Limits

The Actuarial Value of Assets may not be less than 90% or more than 110% of the current market value of plan assets as of the applicable valuation date [as required by IRC Section 430(g)(3)(B)(iii)]

Please note, as highlighted above, the assumed asset growth rate for each year is limited to the applicable 3rd segment rate by law. As a result, if the plan's expected rate of return is greater than this applicable rate, this method is expected to produce an actuarial value of assets that can be expected to be slightly less than the market value of assets, on average.

Actuarial Assumptions

Assumptions have been chosen to anticipate the long range experience of the Plan. Consistency among assumptions is important as each interacts with the others; equally important is the recognition of inflationary trends in the economy.

As the Enrolled Actuary for the Plan, I will certify to the reasonableness of these assumptions, in aggregate, as required by ERISA.

The actuarial assumptions used to compute Plan costs are:

RETIREMENT PLAN OF THALES ATM, INC.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION AND SIGNIFICANT EVENTS OF THE PLAN

The Retirement Plan of Thales ATM, Inc. (the "Plan") is a defined benefit plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") that was established January 1, 1988, for the salaried employees of Thales ATM, Inc. (the "Company"). Prior to January 2001, the Plan's name was Retirement Plan of Airsys ATM, Inc. and prior to September 1997, the Plan's name was the Retirement Plan of Wilcox Electric, Inc. Participants who were employed by the Company prior to January 1, 1988, also participate in the retirement plans of the Company's former parent companies, Northrop Corp. and American Standard, Inc. (predecessor plans). Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

No other employees are eligible to participate under the Plan as participation was closed on December 31, 2002. On December 31, 2002, the accrual of plan benefits of the Plan was frozen. As a result of freezing the accrual of benefits, each person who was a general participant in the Plan on December 31, 2002, and who was in the employment of the Company on that date, became fully vested in their accrued benefits as of December 31, 2002. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

Effective June 1, 2004, the Plan became one of the participating plans in the Thales Master Trust (Master Trust), see Note 4. The Master Trust's custodian of the pooled separate account investments is Prudential Retirement Insurance and Annuity Company. The custodian for the Master Trust's other investments is Prudential Bank & Trust, FSB. Both custodians are affiliated through common ownership, and will collectively be referred to as "Prudential."

The Plan document was restated in 2013. The restated Plan has essentially the same provisions as the previous Plan.

Contributions – Employer contributions are based upon actuarial determinations. Under the current provisions of the plan, employees make no contributions. All contributions made by the employer are paid to the trustee and deposited in the trust fund.

Retirement Benefits – Participants become eligible for normal retirement on the first day of the month coincident with or next following the employee's 65th birthday. Early retirement is permitted after age 55 with ten years of vested service.

Upon retirement, participants receive benefits based upon years of credited service. The Plan is only responsible for the portion of this computed benefit that exceeds the benefit payable under the predecessor plans.

Benefit distributions upon normal retirement are in the form of a life annuity for unmarried participants, if an optional payment is not selected. Married participants receive an actuarially reduced 50% joint and survivor annuity. Optional payment forms include single life annuity, contingent annuitant, 10-year certain or life benefit, or lump sum.

Vesting – At December 31, 2001, the accrual of plan benefits was frozen and all eligible participants who were employed on that date became fully vested.

Surviving Spouse Benefits – Upon the death of a vested participant prior to eligibility for early retirement, benefits become payable to the spouse beginning on the participant's earliest retirement date. The benefit payable to the spouse is equal to the 50% joint and survivor annuity that would have been paid had the participant survived to their earliest retirement date.

Upon the death of a vested participant after reaching eligibility for early retirement, the benefit payable to the spouse equals the benefit that would have been paid had the participant selected the early retirement option. The benefit is payable in the form of a 50% joint and survivor annuity.

Disability Retirement Benefits – In the event that a participant's employment is terminated as a result of disability, and the participant is eligible to receive a normal or early retirement benefit, they shall receive such benefit.

Administrative Expenses – Accounting fees incurred in administering the Plan are paid by the Company. Actuarial, PBGC, auditing and trustee fees are paid from the assets of the Plan.

Termination of the Plan – Upon termination of the plan, each participant's accrued benefits as of the date of termination shall become fully vested and nonforfeitable to the extent funded. The Pension Benefit Guaranty Corporation (PBGC) guarantees the payment of all nonforfeitable basic benefits subject to certain limitations described in ERISA. Some benefits may be fully or partially provided for by the then existing net assets and PBGC guaranty. Other benefits may not be provided at all.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires of the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment in Master Trust – The fair value of the Plan's Investments in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated expenses. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Funding Policy - Annual contributions, as determined by the Plan's actuary, are made by the Company to fund the Plan and have been computed in accordance with the Unit Credit Actuarial Cost Method. The Company's contributions for 2013 met the minimum funding requirements of ERISA.

Date of Management's Review – Subsequent events have been evaluated through September 29, 2014, which is the date the financial statements were available to be issued, and there were no material events requiring recognition or disclosure.

3. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances-retirement, death, disability, and termination of employment, are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the plan's actuary, Prudential. Significant actuarial assumptions used include an investment return of 7.75% in both 2013 and 2012, and no projected annual salary increase. Life expectancy assumptions for the 2013 year were based on the IRS 2014 Static Mortality Table for Males and Females, while the life expectancy assumptions for 2012 were based on the IRS 2013 Static Mortality Table for Males and Females.

The actuarial present value of accumulated plan benefits as of December 31 is as follows:

	2013	2012
Vested Benefits:

Actuarial present value of accumulated plan benefits at end of period	$ 11,252,061

4. MASTER TRUST

The Plan's sole investment is its interest in the Master Trust which was established for the investment of assets of this Plan (referred to as Plan B below) and two other Thales Company sponsored retirement plans, Thales Communications Pension Plan (Plan A) and Thales Pension Plan for Certain U.S. Employees (Plan C). Each participating retirement plan has a divided interest in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning-of-year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss), less actual distributions and allocated administrative expenses. Investment income (loss), investment management fees and other direct expenses relating to the Master Trust are allocated to individual plans based on the average daily balances. The Plan's interest in the Master Trust was 26.49% and 26.88% as of December 31, 2013 and 2012, respectively.

The following is a summary of the value of the investments of the Master Trust as of December 31:

	December 31, 2013				
	Plan A	Plan B	Plan C	Total	Plan B's Percent Interest in Master Trust
Investments, at fair value:					
Pooled Sep Accts	$ 10,301,753	$ 8,755,245	$ 15,799,126	$ 34,856,124	25.12%

	$ 12,900,409	$ 12,530,996	$ 21,185,694	$ 46,617,099	26.88%

The following are changes in net assets for the Master Trust for the year ended December 31, 2013:

Investment income:	
Net appreciation in fair value and dividends - mutual funds	$ 1,574,536
Net appreciation in fair value - pooled separate accounts	6,076,696
Net appreciation in fair value - limited partnerships	503,580
Net investment income	8,154,812
Contributions	1,512,800
Total additions	9,667,612
Deductions from net assets:	
Benefits paid to participants	3,212,003
Administrative expenses	451,548
Total deductions	3,663,551
Net increase	6,004,061
Net Assets available from benefits:	
Beginning of year	46,617,099
End of year	$ 52,621,160

Individual investments in the Master Trust that exceed 5% of total investments as of December 31 were as follows:

	2013	2012
Prudential Pooled Separate Accounts:		
Dryden S&P 500	$ 9,763,741	$ 7,954,782
Core Bond	7,180,494	7,885,140

The Master Trust is comprised of mutual funds, pooled separate accounts and a limited partnership, which invest in a variety of investments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility due to the level of risk associated with certain investment securities. It is reasonably possible that changes in the values of investment securities will occur in the near term and, that such changes could materially affect the amounts reported in the financial statements.

Investment expenses are allocated to the individual plans based upon each Plan's investments, and certain other expenses are charged to each specific plan. Expenses paid by the Master Trust attributable to this Plan consisted of the following for the year ended December 31, 2013:

PBGC premiums	$ 150,792
Professional fees	21,775
Contract administrative and actuarial fees	194,608
Investment advisory fees	84,373
	$ 451,548

5. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Master Trust – Valued at fair value based on the fair value of the underlying investments of the fund, which have been determined based on the fair value of the underlying investments of the Master Trust. When quoted market prices are not available, the fair value of investments is estimated primarily by independent investment brokerage firms and insurance companies.

The underlying investments in the master trust are valued as follows:

Pooled Separate Accounts – Prudential calculates a unit value (similar to a net asset value "NAV") of a separate account daily. It is the sum of the market value of the underlying investments as determined by quoted market prices, less operating expenses accrued but not deducted, if any.

Mutual Funds – Valued at the closing price reported on the active market on which the individual securities are traded.

Limited Partnership – Valued at the reported amount in the audited financial statements, based on the fair value of the underlying investments held by the limited partnership.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Master Trust's investments are reported at fair value as follows at December 31, 2013 and 2012:

	Master Trust Assets

(a) This investment is the "Alternative Investments Institutional, L.P., (the "LP") a Delaware limited partnership. The LP was organized for the purpose of investing in securities and private investment companies. The LP is managed by Alternative Investment Group, L.L.C. (the "General Partner") and Alternative Investment Group Services, L.P. (the "Management Company"). The LP invests substantially all of its assets through a master-feeder structure in Alternative Investments Institutional Master Fund Ltd. (the "Master Fund"), an investment company that has the same investment objectives as the LP. The LP owned approximately 67% of the Master Fund at December 31, 2013. The LP is valued at the end of each calendar year. There are no unfunded commitments. Redemption requirements call for 90 days' notice, and the LP will be redeemed at the end of that quarter. Ninety percent of the fund will be redeemed, and 10% will be held back until the next annual audit is complete.

(b) These are investments in entities that use NAV per share to determine fair value. They are valued daily, can be redeemed daily with no restrictions, and without prior notice. There are no unfunded commitments.

The following table provides further details of Level 3 fair value measurements for the year ended December 31, 2013:

	Limited Partnership
Beginning Balance	$ 3,306,915
Realized gains/(losses)	-
Unealized gains/(losses) relating to investments still held at the reporting date	503,580
Sales	
Purchases	-
Ending Balance	$ 3,810,495
The amount of total gains or losses for the period included in changes in net assets attribtuable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 503,580

The Plan Administrator assesses the reasonableness of the valuation of the limited partnership investment by reviewing the published financial statements of the limited partnership, and by reviewing industry and market conditions.

6. INFORMATION CERTIFIED BY CUSTODIANS

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, FSB, the custodians of the Plan, have certified that the following data included in the accompanying financial statements is complete and accurate with respect to investments as of December 31, 2013 and 2012, and for the year ended December 31, 2013:

- Investment in Master Trust, at fair value
- Investment income from Master Trust

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

7. TAX STATUS

The IRS has determined and informed the Company by a letter dated July 27, 2014, that the Plan is designed in accordance with applicable sections of the IRC. The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision has been made in the financial statements for income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments held in the Master Trust are pooled separate accounts managed by Prudential. Prudential is the custodian of the Plan and therefore, these transactions qualify as party-in-interest.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Actuarial Cost Method

Actuarial Cost Method

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described in "Plan Assumptions" of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year for all Participants plus an estimate of the expenses to be paid from the plan assets during the plan year.

Target Liability and Funding Shortfall

As of January 1, 2008, a Target Liability is established which represents the present value of accrued benefits. This Target Liability is offset by adjusted assets, and the remainder (i.e. Funding Shortfall), if any, is amortized over seven years.

Subsequent changes in the Funding Shortfall due to asset experience, liability experience, plan amendments, and/or actuarial assumption changes will be amortized over a seven year period from their valuation dates.

Discount Rate

The plan sponsor has elected to use the Segment Rate approach for discount rate purposes, with an applicable month that is 4 months prior to the valuation date.

In addition, beginning with the 2012 plan year, solely for purposes of determining the minimum required contribution level, applicability of benefit restrictions, and for the at-risk determination, the adjusted 24-month average segment rates established by the Moving Ahead for Progress in the 21st Century Act (MAP-21) have been incorporated.

The adjusted 24-month average segment rates are generated by taking the unadjusted 24-month average segment rates for the sponsor-chosen lookback month and adjusting them so that each individual segment rate is not outside of the stipulated corridor around the corresponding 25-year average segment rate for the given plan year. For the 2013 plan year, the stipulated corridor is 90% - 110% of these 25-year average segment rates.

II. ASSET VALUATION METHOD

Assets have been valued in accordance with generally accepted procedures as described below.
All funds invested are valued in the following manner:

Definitions

i(t)	assumed growth rate, set equal to the lesser of the expected return on assets or the applicable 3rd segment rate for Plan Year t.
C(t)	sum of contributions and other additions to the fund from all sources other than investment transactions in Plan Year t

Actuarial Cost Method

Method

A description of the method used to determine the current year's Actuarial Value of Assets {AV(t)} is below.

For the preceding 2 years, G/L(t) is determined as follows:

$$EV(t) = MV(t-1) * (1 + i(t-1)) + [C(t-1) - W(t-1)] * (1 + i(t-1) * m)$$

Where m represents a proportionate yield consistent with the portion of the year for which C and W are invested

$$G/L(t-1) = EV(t) – MV(t)$$

For the current year, AV(t) is determined as follows:

$$AV(t) = MV(t) + 2/3 * G/L(t-1) + 1/3 * G/L(t-2)$$

Corridor Limits

The Actuarial Value of Assets may not be less than 90% or more than 110% of the current market value of plan assets as of the applicable valuation date [as required by IRC Section 430(g)(3)(B)(iii)]

Please note, as highlighted above, the assumed asset growth rate for each year is limited to the applicable 3rd segment rate by law. As a result, if the plan's expected rate of return is greater than this applicable rate, this method is expected to produce an actuarial value of assets that can be expected to be slightly less than the market value of assets, on average.

Actuarial Assumptions

Assumptions have been chosen to anticipate the long range experience of the Plan. Consistency among assumptions is important as each interacts with the others; equally important is the recognition of inflationary trends in the economy.

As the Enrolled Actuary for the Plan, I will certify to the reasonableness of these assumptions, in aggregate, as required by ERISA.

The actuarial assumptions used to compute Plan costs are:
