T.H. Ryan Cartage Co./L & D Drivers Service401(k) Plan
Notes to Financial Statements
December 31, 2013 and 2012

1. DESCRIPTION OF PLAN

The following description of the T.H. Ryan Cartage Co./L & D Drivers Service 401(K) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all union employees of T.H. Ryan Cartage Co./L & D Drivers Service (collectively, the Company) who are covered by a collective bargaining agreement and have completed a minimum of 1,000 hours of service with the Company. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may make pre-tax or Roth contributions up to 100% of compensation, as defined in the Plan. Participants who have attained age of 50 before the end of the plan year are eligible to make catch-up contributions. Participants may change their contribution percentages during the first ten days of each quarter and stop their contributions at any time. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make discretionary matching contributions. In order to share in the matching contribution, participants must be employed on the last day of the plan year unless the plan year was the year of the participant's death, disability, or retirement. Discretionary matching contributions were $52,099.22 and $52,825.57 for the years ended December 31, 2013 and 2012, respectively.

The Company may also contribute a discretionary profit sharing contribution. In order to share in the profit sharing contribution, the participant must be employed on the last day of the plan year unless the plan year was the year of the participant's death, disability, or retirement. There was no discretionary profit sharing contributions for the years ended December 31, 2013 and 2012.

Contributions are subject to certain limitations.

Investments Options

Participants may direct all their contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocations of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the plan provisions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and discretionary profit sharing contribution portions is based on the following table:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of Benefits

On termination of service due to health, disability, retirement, or attainment of age 59 1/2, a participant may receive a lump sum amount equal to the value of the participant's vested interest in his or her account. If a participant's account is worth at least $1,000.00 the participant may elect to receive their benefit payment either at termination or the normal retirement date. Under certain conditions participants may receive a hardship distribution.

Notes Receivable from Participants

Participants may barrow from their fund accounts a minimum of $1,000.00 up to maximum equal to the lesser of $50,000.00 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 8.75%, which are commensurate with local prevailing rates as determined by the plan administrator. Participants may only have one loan outstanding at any time. The term of the loan may not exceed 5 years or 25 years if the loan proceeds will be used to acquire the principal residence of the participant. Principal and interest is paid ratably through payroll deductions. Loans may be acquired for hardship reasons only as described by the Plan.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $4,979.32 and $392.93 respectively. These accounts will be used to reduce future employer contributions. Also, for year ended December 31, 2013, employer contributions were reduced by $4,979.32 from forfeited non-vested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on trade date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events are transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, non-recognized subsequent events).

The Plan has evaluated subsequent events through October 10, 2014, which was the date that these financial statements were available for issuance, and determined that there were no significant subsequent events through that date.

3. INVESTMENTS

Investments that represent 5% or more of the Plan's net assets are separately identified below as of either or both year ends.

	2013	2012
American Funds – Investment Company of America – R3	$ 151,401	$ 105,432
American Funds – The Growth Fund of America – R3	224,138	137,236
American Funds – Money Market Fund – R3	524,471	529,327

American Funds – 2030 Target Date Retirement Fund – R3	113,135	-0-
American Funds – Intermediate Bond Fund of America – R3	111,766	114,976

During 2013 and 2012, the Plan's investments (including investments bought, sold, and held during the year) appreciated (depreciated) in value by $173,231 and $108,834 as follows:

Description	2013	2012
Mutual Funds		
Balanced Funds	$ 26,879	$ 22,097
Fixed Income Funds	(2,928)	1,260
Growth Funds	38,103	22,804
International Funds	28,955	22,089
Large Cap Funds	23,368	10,016
Small Cap Funds	12,115	10,741
Target Date Funds	46,739	19,828
TOTAL	$ 173,231	$ 108,834

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) guidance on fair value measurements established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are describes as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets
- quoted prices for identical or similar assets or liabilities in inactive markets,
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at the price. The mutual funds held by the Plan are deemed to be actively traded.

4. **FAIR VALUE MEASUREMENTS (Continued)**

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

December 31, 2013:

Description	Level 1	Level 2	Level 3	Total

5. CERTIFICATION OF FINANCIAL INFORMAITON

The financial data included in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at December 31, 2013 and 2012 at fair value, net appreciation/(depreciation) in fair value of investments, and interest and dividends, was obtain or derived from information supplied to the plan administrator and certified as complete and accurate by Capital Bank and Trust Company, the custodian of plan assets, and has not been audited by the independent auditors for the Plan

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. TAX STATUS

The Company adopted a prototype plan from Capital Bank and Trust Company. This plan received a determination letter from the Internal Revenue Service on March 31, 2008 stating that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to taxing authority examinations for years prior to 2010.

8. RELATED PARTY TRANSACTIONS

Plan investments and notes receivable from participants managed by Capital Bank and Trust, the custodian and, therefore, these transactions qualify as party-in-interest. Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for their services.

9. RISKS AND UNCERTANTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.
