INDEPENDENT AUDITORS' REPORT

Plan Administrator and Participants
Health Decisions 401(k) Plan

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Health Decisions 401(k) Plan (the "Plan"), which comprise the statements of net assets available for plan benefits – modified cash basis as of December 31, 2013 and 2012, and the related statement of changes in net assets available for plan benefits – modified cash basis for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Wells Fargo Bank, N.A., the trustee of the plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter
The supplemental schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2013 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Basis of Accounting
We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

1. DESCRIPTION OF PLAN

The following description of the Health Decisions 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General - The Plan is a defined contribution plan established July 1, 1996. The Plan is designed to conform to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All employees of Health Decisions, Inc. (the "Company" and "Plan Sponsor") other than union employees, nonresident aliens, leased employees and fixed term employees who are 21 years of age and have completed thirty days of service are eligible to participate in the Plan.
b. Contributions - Each year, participants may contribute up to 80% of their compensation, as defined by the Plan. Participants are automatically enrolled in the Plan at a 3% of compensation deferral rate unless they opt out or opt for a different deferral amount. After the first year the Plan automatically escalates employees' deferral percentages by one percent on the first day of the Plan year up to a maximum of 8% unless they opt out or opt for a different deferral amount. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. The Company makes a discretionary matching contribution equal to 50% of the first 5% of compensation that a participant contributes to the Plan. Participants direct the investment of all contributions made on their behalf into various investment options offered by the Plan. The Plan currently offers one guaranteed interest contract, one common collective trust fund and various mutual funds as investment options for participants. Contributions are subject to annual limits established by the Internal Revenue Service.
c. Participant Accounts - Each participant's account is credited with (1) participant's contributions, (2) employer match contributions, and (3) allocations of (a) Plan earnings, (b) administrative expenses and (c) employer discretionary contribution. Allocations are based on participant's plan compensation or participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
d. Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting of the Company's contribution portion of their accounts is based on the following schedule:

Years of Service	Vesting Percentage
Less than two	0%
2	20%
3	40%
4	60%
5	80%
Six or more	100%

Participants will automatically become 100% vested upon attainment of early retirement age (59 ½) or retirement due to disability or death.

1. DESCRIPTION OF PLAN (Continued)

e. Payment of Benefits - Upon termination of service due to death, disability, retirement, or any other reason or upon reaching early retirement age (59 ½), a participant or their beneficiary may receive a lump sum amount equal to the vested portion of the value of the funds credited to the participant's account. In addition, during active service, a participant can take hardship distributions if certain conditions are satisfied and a participant over the age of 59 ½ can take in-service distributions from their accounts in which they are fully vested. Upon taking a hardship distribution the participant will be voluntarily suspended from the Plan for six months. Effective March 1, 2014, a terminated participant with a vested balance greater than $1,000 but less than $5,000 will automatically receive a roll over distribution of their vested balance to an Individual Retirement Account set up in their name unless they make an affirmative action to receive or roll over their account. Terminated participants with vested balances of $1,000 or less are automatically distributed their vested account balances upon termination.

f. Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance, whichever is less. Participants are limited to one loan at any given point of time. The loans are secured by the balance in the participant's account and bear interest at a reasonable interest rate as determined by the Plan Administrator at the time of issuance. As of December 31, 2013, the effective interest rate of notes receivable was 4.25%. The loans must be repaid within 5 years, unless the funds borrowed are used toward the purchase of a primary residence. Principal and interest is paid ratably through payroll deductions.

g. Forfeited Accounts - Forfeitures of terminated participants' non-vested employer matching and profit sharing contributions can be used to pay Plan administrative expenses or reduce employer matching contributions. At December 31, 2013 and 2012 forfeited non-vested accounts totaled $84,520 and $49,713, respectively. In 2013, no Plan administrative fees or employer contribution were paid out of forfeited non-vested accounts.

h. Administrative expenses – Administrative fees paid by the Plan include investment advisory, recordkeeping and transactions fees. The Plan Sponsor also pays significant expenses relating to the plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounting records of the Plan are maintained by the trustee on the modified cash basis. Under this basis, additions to the Plan assets are recognized when collected rather than when earned and deductions are recognized when paid rather than when incurred.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for plan benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by Wells Fargo Bank, N.A. See Note 7 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income in accrued on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Estimates

The preparation of financial statements in conformity with modified cash basis accounting requires management to make estimates and assumptions that affect the reported amounts of assets and changes therein, and disclosure of contingent assets. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated events and transactions that occurred between December 31, 2013 and October 8, 2014 which is the date the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

3. PLAN ADMINISTRATIVE COMMITTEE INFORMATION

The plan administrative committee consists of BJ Thompson and Debbie Edmondson, employees of the Company. They have designated the trustee, Wells Fargo Bank, N.A. to hold the Plan's invested assets and to execute investment transactions.

4. TRUSTEE AGREEMENT

The appointed trustee of the Plan's assets is Wells Fargo Bank, N.A. The trustee has been given the authority and power to purchase and sell securities and other investments at their discretion. The trustee agreement provides for benefit payments to be made from the Plan by the trustee upon the direction and request of the plan administrator. In August 2014 the plan administrative committee elected to change trustees. Effective January 1, 2015 the Plan trustee will be Putnam Fiduciary Trust Company.

5. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule:

	2013	2012
Notes receivable from participants	$ 29,037	$ 88,703
Mutual funds	3,721,099	3,170,217
Common collective trust fund	67,164	1,595
Guaranteed investment contract*	1,092,269	1,020,443
Net investment income (loss)	813,076	N/A
Interest on notes receivable from participants	1,513	N/A

* Investments are certified at fair value except for the guaranteed investment contract fund which is certified at contract value.

6. INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31:

	2013	2012
MetLife Stable Value Fund GA Contract, 7,321 and 6,969 shares, respectively (fair value $1,104,315 and $1,077,124, respectively)	$ 1,092,269	$ 1,020,443
Oppenheimer International Growth Fund Y, 17,373 and 19,570 shares, respectively	662,939	601,006
American Funds Growth Fund of America R5, 11,468 and 11,261 shares, respectively	492,551	386,249
American Funds Fundamental Investor, 5,823 and 7,111 shares, respectively	302,729	290,073
Pioneer Disciplined Value Fund Y, 15,163 and 12,710 shares, respectively	297,495	232,471
PIMCO Total Return Fund, 25,226 shares	N/A	283,542

During 2013, the Plan's mutual funds, common collective trust fund and guaranteed investment contract (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $758,720.

7. FAIR VALUE MEASUREMENTS

The Plan follows FASB ASC 820, Fair Value Measurements, which defines fair value as the price that would be received from selling an asset in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

7. FAIR VALUE MEASUREMENTS (Continued)

FASB ASC 820 also establishes a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The categorization of each investment type within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

FASB ASC 820 establishes three levels of inputs that may be used to measure fair value: Level 1: Quoted prices in active markets for identical assets or liabilities at the measurement date; Level 2: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active market for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or Level 3: Unobservable inputs that are supported by little or no market activity and that reflect the Plan's own assumptions about market participants and prices.

Investment Valuation

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust fund

Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Guaranteed investment contract

Valued at fair value by the insurance company by discounting revenue method and the Contract's share of the fair value of the securities in the underlying MetLife separate accounts. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. (See note 8)

7. FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

7. FAIR VALUE MEASUREMENTS (Continued)

Summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	Guaranteed Investment Contract
Balance as of January 1, 2013	$ 1,077,124
Net investment gain	19,773
Unrealized gains/(losses) relating to instruments still held at the reporting date	(44,635)
Purchases	107,754
Settlements	(55,701)
Balance as of December 31, 2013	$ 1,104,315
The amount of total gains or losses for the period included in the changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date.	$ (44,635)

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statements of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The Plan considers the MetLife Stable Value Fund, a Guaranteed Investment Contract (GIC), a level 3 asset due to the complex nature of GIC's. The Funds underlying MetLife separate accounts are considered level 2 assets and the related wrappers are considered level 3 assets by the fund's management. The fair value of the separate account is the contract's pro-rata share of the fair value of the securities in the underlying MetLife separate accounts that the contract participates in. The fair value of the wrapper is the discounted revenue method, being 20 basis points of the guaranteed value over five years discounted by the LIBOR swap curve. No unobservable inputs internally developed by the Plan have been applied to this investment, thus no quantitative information about the valuation techniques of significant unobservable inputs have been disclosed.

Fair Value of Investment in Entities that use Net Asset Value

The following table summarizes additional disclosures of the Plan's investments whose fair value is based on net asset value (NAV) per share as of December 31, 2013 and 2012, respectively.

December 31, 2013	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust-fund – WellsFargo/ BlackRock index fund (a)	$ 67,164	$ -	Daily	Daily

December 31, 2012	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust-fund – Wells Fargo index fund (b)	$ 1,595	$ -	Daily	Daily

(a) This category includes a fund that seeks to invest in collective investments funds managed and trusted by Wells Fargo Bank, N.A., as advised by BlackRock Institutional Trust Company, N.A. with the objective of approximating, before fees and expenses, the total return of the S&P 500 Index.

(b) This category includes a fund that seeks to invest in common stocks in substantially the same percentages as the S&P 500 Index with the objective of approximating, before fees and expenses, the total return of the S&P 500 Index.

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY

During 2007, the Plan entered into a benefit-responsive investment contract with MetLife. In a MetLife managed guaranteed investment contract, the assets are invested in a MetLife separate account. MetLife will guarantee principal and accrued interest, based on the credited interest rates, for participant-initiated withdrawals as long as the contract remains active. As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $1,104,315 and $1,077,124, respectively. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio.

Such interest rates are reviewed on a quarterly basis for resetting and have a minimum credited rate of 0%. MetLife will reset the rate by amortizing the difference between the market value of the portfolio and the guaranteed value over the weighted average duration of the Fund's investments. Participants will receive the principal and accrued earnings credited to their accounts on withdrawal for allowed events. These events include transfer to other Plan investment options, and payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan.

Average yields:	2013	2012
Based on actual earnings	-1.36%	5.37%
Based on interest rate credited to participants	2.45%	2.93%

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events could include, but are not limited to the following (1) amendment to the Plan document (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor event (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption under ERISA. The Plan's administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

9. RELATED PARTY TRANSACTIONS

Certain Plan investments are held in an interest bearing account managed by Wells Fargo Bank, N.A., which is the trustee of the Plan's assets and therefore, these transactions qualify as party-in-interest transactions. During 2013, contract administration fees of $18,271, loan setup fees of $150 and indirect investment advisory fees of $19,427 were paid to Wells Fargo Bank, N.A.

10. PLAN TERMINATION

Although the Company intends to continue the Plan, it reserves the right to amend or terminate the Plan at any time. In the event of Plan termination, participants will become 100% vested in their employer contributions.

11. TAX STATUS

The Plan follows the provisions of FASB ASC 740-10 *Accounting for Uncertainty in Income Taxes.* FASB ASC 740-10 prescribes a comprehensive model for how the Plan should measure, recognize, present, and disclose in its financial statements uncertain tax positions that the Plan has taken or expects to take on a tax return. The Plan is no longer subject to U.S. Department of Labor and Internal Revenue Service examinations for years before December 31, 2008.

On March 31, 2008, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401 of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. The prototype plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel still believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

12. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

INDEPENDENT AUDITORS' REPORT

Plan Administrator and Participants
Health Decisions 401(k) Plan

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Health Decisions 401(k) Plan (the "Plan"), which comprise the statements of net assets available for plan benefits – modified cash basis as of December 31, 2013 and 2012, and the related statement of changes in net assets available for plan benefits – modified cash basis for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Wells Fargo Bank, N.A., the trustee of the plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter
The supplemental schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2013 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Basis of Accounting
We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

1. DESCRIPTION OF PLAN

The following description of the Health Decisions 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General - The Plan is a defined contribution plan established July 1, 1996. The Plan is designed to conform to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All employees of Health Decisions, Inc. (the "Company" and "Plan Sponsor") other than union employees, nonresident aliens, leased employees and fixed term employees who are 21 years of age and have completed thirty days of service are eligible to participate in the Plan.
b. Contributions - Each year, participants may contribute up to 80% of their compensation, as defined by the Plan. Participants are automatically enrolled in the Plan at a 3% of compensation deferral rate unless they opt out or opt for a different deferral amount. After the first year the Plan automatically escalates employees' deferral percentages by one percent on the first day of the Plan year up to a maximum of 8% unless they opt out or opt for a different deferral amount. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. The Company makes a discretionary matching contribution equal to 50% of the first 5% of compensation that a participant contributes to the Plan. Participants direct the investment of all contributions made on their behalf into various investment options offered by the Plan. The Plan currently offers one guaranteed interest contract, one common collective trust fund and various mutual funds as investment options for participants. Contributions are subject to annual limits established by the Internal Revenue Service.
c. Participant Accounts - Each participant's account is credited with (1) participant's contributions, (2) employer match contributions, and (3) allocations of (a) Plan earnings, (b) administrative expenses and (c) employer discretionary contribution. Allocations are based on participant's plan compensation or participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
d. Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting of the Company's contribution portion of their accounts is based on the following schedule:

Years of Service	Vesting Percentage
Less than two	0%
2	20%
3	40%
4	60%
5	80%
Six or more	100%

Participants will automatically become 100% vested upon attainment of early retirement age (59 ½) or retirement due to disability or death.

1. DESCRIPTION OF PLAN (Continued)

e. Payment of Benefits - Upon termination of service due to death, disability, retirement, or any other reason or upon reaching early retirement age (59 ½), a participant or their beneficiary may receive a lump sum amount equal to the vested portion of the value of the funds credited to the participant's account. In addition, during active service, a participant can take hardship distributions if certain conditions are satisfied and a participant over the age of 59 ½ can take in-service distributions from their accounts in which they are fully vested. Upon taking a hardship distribution the participant will be voluntarily suspended from the Plan for six months. Effective March 1, 2014, a terminated participant with a vested balance greater than $1,000 but less than $5,000 will automatically receive a roll over distribution of their vested balance to an Individual Retirement Account set up in their name unless they make an affirmative action to receive or roll over their account. Terminated participants with vested balances of $1,000 or less are automatically distributed their vested account balances upon termination.

f. Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance, whichever is less. Participants are limited to one loan at any given point of time. The loans are secured by the balance in the participant's account and bear interest at a reasonable interest rate as determined by the Plan Administrator at the time of issuance. As of December 31, 2013, the effective interest rate of notes receivable was 4.25%. The loans must be repaid within 5 years, unless the funds borrowed are used toward the purchase of a primary residence. Principal and interest is paid ratably through payroll deductions.

g. Forfeited Accounts - Forfeitures of terminated participants' non-vested employer matching and profit sharing contributions can be used to pay Plan administrative expenses or reduce employer matching contributions. At December 31, 2013 and 2012 forfeited non-vested accounts totaled $84,520 and $49,713, respectively. In 2013, no Plan administrative fees or employer contribution were paid out of forfeited non-vested accounts.

h. Administrative expenses – Administrative fees paid by the Plan include investment advisory, recordkeeping and transactions fees. The Plan Sponsor also pays significant expenses relating to the plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounting records of the Plan are maintained by the trustee on the modified cash basis. Under this basis, additions to the Plan assets are recognized when collected rather than when earned and deductions are recognized when paid rather than when incurred.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for plan benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by Wells Fargo Bank, N.A. See Note 7 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income in accrued on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Estimates

The preparation of financial statements in conformity with modified cash basis accounting requires management to make estimates and assumptions that affect the reported amounts of assets and changes therein, and disclosure of contingent assets. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated events and transactions that occurred between December 31, 2013 and October 8, 2014 which is the date the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

3. PLAN ADMINISTRATIVE COMMITTEE INFORMATION

The plan administrative committee consists of BJ Thompson and Debbie Edmondson, employees of the Company. They have designated the trustee, Wells Fargo Bank, N.A. to hold the Plan's invested assets and to execute investment transactions.

4. TRUSTEE AGREEMENT

The appointed trustee of the Plan's assets is Wells Fargo Bank, N.A. The trustee has been given the authority and power to purchase and sell securities and other investments at their discretion. The trustee agreement provides for benefit payments to be made from the Plan by the trustee upon the direction and request of the plan administrator. In August 2014 the plan administrative committee elected to change trustees. Effective January 1, 2015 the Plan trustee will be Putnam Fiduciary Trust Company.

5. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule:

	2013	2012
Notes receivable from participants	$ 29,037	$ 88,703
Mutual funds	3,721,099	3,170,217
Common collective trust fund	67,164	1,595
Guaranteed investment contract*	1,092,269	1,020,443
Net investment income (loss)	813,076	N/A
Interest on notes receivable from participants	1,513	N/A

* Investments are certified at fair value except for the guaranteed investment contract fund which is certified at contract value.

6. INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31:

	2013	2012
MetLife Stable Value Fund GA Contract, 7,321 and 6,969 shares, respectively (fair value $1,104,315 and $1,077,124, respectively)	$ 1,092,269	$ 1,020,443
Oppenheimer International Growth Fund Y, 17,373 and 19,570 shares, respectively	662,939	601,006
American Funds Growth Fund of America R5, 11,468 and 11,261 shares, respectively	492,551	386,249
American Funds Fundamental Investor, 5,823 and 7,111 shares, respectively	302,729	290,073
Pioneer Disciplined Value Fund Y, 15,163 and 12,710 shares, respectively	297,495	232,471
PIMCO Total Return Fund, 25,226 shares	N/A	283,542

During 2013, the Plan's mutual funds, common collective trust fund and guaranteed investment contract (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $758,720.

7. FAIR VALUE MEASUREMENTS

The Plan follows FASB ASC 820, Fair Value Measurements, which defines fair value as the price that would be received from selling an asset in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

7. FAIR VALUE MEASUREMENTS (Continued)

FASB ASC 820 also establishes a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The categorization of each investment type within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

FASB ASC 820 establishes three levels of inputs that may be used to measure fair value: Level 1: Quoted prices in active markets for identical assets or liabilities at the measurement date; Level 2: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active market for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or Level 3: Unobservable inputs that are supported by little or no market activity and that reflect the Plan's own assumptions about market participants and prices.

Investment Valuation

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust fund

Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Guaranteed investment contract

Valued at fair value by the insurance company by discounting revenue method and the Contract's share of the fair value of the securities in the underlying MetLife separate accounts. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. (See note 8)

7. FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

7. FAIR VALUE MEASUREMENTS (Continued)

Summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	Guaranteed Investment Contract
Balance as of January 1, 2013	$ 1,077,124
Net investment gain	19,773
Unrealized gains/(losses) relating to instruments still held at the reporting date	(44,635)
Purchases	107,754
Settlements	(55,701)
Balance as of December 31, 2013	$ 1,104,315
The amount of total gains or losses for the period included in the changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date.	$ (44,635)

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statements of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The Plan considers the MetLife Stable Value Fund, a Guaranteed Investment Contract (GIC), a level 3 asset due to the complex nature of GIC's. The Funds underlying MetLife separate accounts are considered level 2 assets and the related wrappers are considered level 3 assets by the fund's management. The fair value of the separate account is the contract's pro-rata share of the fair value of the securities in the underlying MetLife separate accounts that the contract participates in. The fair value of the wrapper is the discounted revenue method, being 20 basis points of the guaranteed value over five years discounted by the LIBOR swap curve. No unobservable inputs internally developed by the Plan have been applied to this investment, thus no quantitative information about the valuation techniques of significant unobservable inputs have been disclosed.

Fair Value of Investment in Entities that use Net Asset Value

The following table summarizes additional disclosures of the Plan's investments whose fair value is based on net asset value (NAV) per share as of December 31, 2013 and 2012, respectively.

December 31, 2013	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust-fund – WellsFargo/ BlackRock index fund (a)	$ 67,164	$ -	Daily	Daily

December 31, 2012	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust-fund – Wells Fargo index fund (b)	$ 1,595	$ -	Daily	Daily

(a) This category includes a fund that seeks to invest in collective investments funds managed and trusted by Wells Fargo Bank, N.A., as advised by BlackRock Institutional Trust Company, N.A. with the objective of approximating, before fees and expenses, the total return of the S&P 500 Index.

(b) This category includes a fund that seeks to invest in common stocks in substantially the same percentages as the S&P 500 Index with the objective of approximating, before fees and expenses, the total return of the S&P 500 Index.

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY

During 2007, the Plan entered into a benefit-responsive investment contract with MetLife. In a MetLife managed guaranteed investment contract, the assets are invested in a MetLife separate account. MetLife will guarantee principal and accrued interest, based on the credited interest rates, for participant-initiated withdrawals as long as the contract remains active. As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $1,104,315 and $1,077,124, respectively. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio.

Such interest rates are reviewed on a quarterly basis for resetting and have a minimum credited rate of 0%. MetLife will reset the rate by amortizing the difference between the market value of the portfolio and the guaranteed value over the weighted average duration of the Fund's investments. Participants will receive the principal and accrued earnings credited to their accounts on withdrawal for allowed events. These events include transfer to other Plan investment options, and payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan.

Average yields:	2013	2012
Based on actual earnings	-1.36%	5.37%
Based on interest rate credited to participants	2.45%	2.93%

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events could include, but are not limited to the following (1) amendment to the Plan document (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor event (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption under ERISA. The Plan's administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

9. RELATED PARTY TRANSACTIONS

Certain Plan investments are held in an interest bearing account managed by Wells Fargo Bank, N.A., which is the trustee of the Plan's assets and therefore, these transactions qualify as party-in-interest transactions. During 2013, contract administration fees of $18,271, loan setup fees of $150 and indirect investment advisory fees of $19,427 were paid to Wells Fargo Bank, N.A.

10. PLAN TERMINATION

Although the Company intends to continue the Plan, it reserves the right to amend or terminate the Plan at any time. In the event of Plan termination, participants will become 100% vested in their employer contributions.

11. TAX STATUS

The Plan follows the provisions of FASB ASC 740-10 *Accounting for Uncertainty in Income Taxes.* FASB ASC 740-10 prescribes a comprehensive model for how the Plan should measure, recognize, present, and disclose in its financial statements uncertain tax positions that the Plan has taken or expects to take on a tax return. The Plan is no longer subject to U.S. Department of Labor and Internal Revenue Service examinations for years before December 31, 2008.

On March 31, 2008, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401 of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. The prototype plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel still believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

12. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

INDEPENDENT AUDITORS' REPORT

Plan Administrator and Participants
Health Decisions 401(k) Plan

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of Health Decisions 401(k) Plan (the "Plan"), which comprise the statements of net assets available for plan benefits – modified cash basis as of December 31, 2013 and 2012, and the related statement of changes in net assets available for plan benefits – modified cash basis for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Wells Fargo Bank, N.A., the trustee of the plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter
The supplemental schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2013 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Basis of Accounting
We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

1. DESCRIPTION OF PLAN

The following description of the Health Decisions 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General - The Plan is a defined contribution plan established July 1, 1996. The Plan is designed to conform to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All employees of Health Decisions, Inc. (the "Company" and "Plan Sponsor") other than union employees, nonresident aliens, leased employees and fixed term employees who are 21 years of age and have completed thirty days of service are eligible to participate in the Plan.
b. Contributions - Each year, participants may contribute up to 80% of their compensation, as defined by the Plan. Participants are automatically enrolled in the Plan at a 3% of compensation deferral rate unless they opt out or opt for a different deferral amount. After the first year the Plan automatically escalates employees' deferral percentages by one percent on the first day of the Plan year up to a maximum of 8% unless they opt out or opt for a different deferral amount. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. The Company makes a discretionary matching contribution equal to 50% of the first 5% of compensation that a participant contributes to the Plan. Participants direct the investment of all contributions made on their behalf into various investment options offered by the Plan. The Plan currently offers one guaranteed interest contract, one common collective trust fund and various mutual funds as investment options for participants. Contributions are subject to annual limits established by the Internal Revenue Service.
c. Participant Accounts - Each participant's account is credited with (1) participant's contributions, (2) employer match contributions, and (3) allocations of (a) Plan earnings, (b) administrative expenses and (c) employer discretionary contribution. Allocations are based on participant's plan compensation or participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
d. Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting of the Company's contribution portion of their accounts is based on the following schedule:

Years of Service	Vesting Percentage
Less than two	0%
2	20%
3	40%
4	60%
5	80%
Six or more	100%

Participants will automatically become 100% vested upon attainment of early retirement age (59 ½) or retirement due to disability or death.

1. DESCRIPTION OF PLAN (Continued)

e. Payment of Benefits - Upon termination of service due to death, disability, retirement, or any other reason or upon reaching early retirement age (59 ½), a participant or their beneficiary may receive a lump sum amount equal to the vested portion of the value of the funds credited to the participant's account. In addition, during active service, a participant can take hardship distributions if certain conditions are satisfied and a participant over the age of 59 ½ can take in-service distributions from their accounts in which they are fully vested. Upon taking a hardship distribution the participant will be voluntarily suspended from the Plan for six months. Effective March 1, 2014, a terminated participant with a vested balance greater than $1,000 but less than $5,000 will automatically receive a roll over distribution of their vested balance to an Individual Retirement Account set up in their name unless they make an affirmative action to receive or roll over their account. Terminated participants with vested balances of $1,000 or less are automatically distributed their vested account balances upon termination.

f. Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance, whichever is less. Participants are limited to one loan at any given point of time. The loans are secured by the balance in the participant's account and bear interest at a reasonable interest rate as determined by the Plan Administrator at the time of issuance. As of December 31, 2013, the effective interest rate of notes receivable was 4.25%. The loans must be repaid within 5 years, unless the funds borrowed are used toward the purchase of a primary residence. Principal and interest is paid ratably through payroll deductions.

g. Forfeited Accounts - Forfeitures of terminated participants' non-vested employer matching and profit sharing contributions can be used to pay Plan administrative expenses or reduce employer matching contributions. At December 31, 2013 and 2012 forfeited non-vested accounts totaled $84,520 and $49,713, respectively. In 2013, no Plan administrative fees or employer contribution were paid out of forfeited non-vested accounts.

h. Administrative expenses – Administrative fees paid by the Plan include investment advisory, recordkeeping and transactions fees. The Plan Sponsor also pays significant expenses relating to the plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounting records of the Plan are maintained by the trustee on the modified cash basis. Under this basis, additions to the Plan assets are recognized when collected rather than when earned and deductions are recognized when paid rather than when incurred.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for plan benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by Wells Fargo Bank, N.A. See Note 7 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income in accrued on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Estimates

The preparation of financial statements in conformity with modified cash basis accounting requires management to make estimates and assumptions that affect the reported amounts of assets and changes therein, and disclosure of contingent assets. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated events and transactions that occurred between December 31, 2013 and October 8, 2014 which is the date the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

3. PLAN ADMINISTRATIVE COMMITTEE INFORMATION

The plan administrative committee consists of BJ Thompson and Debbie Edmondson, employees of the Company. They have designated the trustee, Wells Fargo Bank, N.A. to hold the Plan's invested assets and to execute investment transactions.

4. TRUSTEE AGREEMENT

The appointed trustee of the Plan's assets is Wells Fargo Bank, N.A. The trustee has been given the authority and power to purchase and sell securities and other investments at their discretion. The trustee agreement provides for benefit payments to be made from the Plan by the trustee upon the direction and request of the plan administrator. In August 2014 the plan administrative committee elected to change trustees. Effective January 1, 2015 the Plan trustee will be Putnam Fiduciary Trust Company.

5. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule:

	2013	2012
Notes receivable from participants	$ 29,037	$ 88,703
Mutual funds	3,721,099	3,170,217
Common collective trust fund	67,164	1,595
Guaranteed investment contract*	1,092,269	1,020,443
Net investment income (loss)	813,076	N/A
Interest on notes receivable from participants	1,513	N/A

* Investments are certified at fair value except for the guaranteed investment contract fund which is certified at contract value.

6. INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31:

	2013	2012
MetLife Stable Value Fund GA Contract, 7,321 and 6,969 shares, respectively (fair value $1,104,315 and $1,077,124, respectively)	$ 1,092,269	$ 1,020,443
Oppenheimer International Growth Fund Y, 17,373 and 19,570 shares, respectively	662,939	601,006
American Funds Growth Fund of America R5, 11,468 and 11,261 shares, respectively	492,551	386,249
American Funds Fundamental Investor, 5,823 and 7,111 shares, respectively	302,729	290,073
Pioneer Disciplined Value Fund Y, 15,163 and 12,710 shares, respectively	297,495	232,471
PIMCO Total Return Fund, 25,226 shares	N/A	283,542

During 2013, the Plan's mutual funds, common collective trust fund and guaranteed investment contract (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $758,720.

7. FAIR VALUE MEASUREMENTS

The Plan follows FASB ASC 820, Fair Value Measurements, which defines fair value as the price that would be received from selling an asset in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

7. FAIR VALUE MEASUREMENTS (Continued)

FASB ASC 820 also establishes a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The categorization of each investment type within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

FASB ASC 820 establishes three levels of inputs that may be used to measure fair value: Level 1: Quoted prices in active markets for identical assets or liabilities at the measurement date; Level 2: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active market for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or Level 3: Unobservable inputs that are supported by little or no market activity and that reflect the Plan's own assumptions about market participants and prices.

Investment Valuation

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust fund

Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Guaranteed investment contract

Valued at fair value by the insurance company by discounting revenue method and the Contract's share of the fair value of the securities in the underlying MetLife separate accounts. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. (See note 8)

7. FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

7. FAIR VALUE MEASUREMENTS (Continued)

Summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	Guaranteed Investment Contract
Balance as of January 1, 2013	$ 1,077,124
Net investment gain	19,773
Unrealized gains/(losses) relating to instruments still held at the reporting date	(44,635)
Purchases	107,754
Settlements	(55,701)
Balance as of December 31, 2013	$ 1,104,315
The amount of total gains or losses for the period included in the changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date.	$ (44,635)

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statements of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The Plan considers the MetLife Stable Value Fund, a Guaranteed Investment Contract (GIC), a level 3 asset due to the complex nature of GIC's. The Funds underlying MetLife separate accounts are considered level 2 assets and the related wrappers are considered level 3 assets by the fund's management. The fair value of the separate account is the contract's pro-rata share of the fair value of the securities in the underlying MetLife separate accounts that the contract participates in. The fair value of the wrapper is the discounted revenue method, being 20 basis points of the guaranteed value over five years discounted by the LIBOR swap curve. No unobservable inputs internally developed by the Plan have been applied to this investment, thus no quantitative information about the valuation techniques of significant unobservable inputs have been disclosed.

Fair Value of Investment in Entities that use Net Asset Value

The following table summarizes additional disclosures of the Plan's investments whose fair value is based on net asset value (NAV) per share as of December 31, 2013 and 2012, respectively.

December 31, 2013	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust-fund – WellsFargo/ BlackRock index fund (a)	$ 67,164	$ -	Daily	Daily

December 31, 2012	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust-fund – Wells Fargo index fund (b)	$ 1,595	$ -	Daily	Daily

(a) This category includes a fund that seeks to invest in collective investments funds managed and trusted by Wells Fargo Bank, N.A., as advised by BlackRock Institutional Trust Company, N.A. with the objective of approximating, before fees and expenses, the total return of the S&P 500 Index.

(b) This category includes a fund that seeks to invest in common stocks in substantially the same percentages as the S&P 500 Index with the objective of approximating, before fees and expenses, the total return of the S&P 500 Index.

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY

During 2007, the Plan entered into a benefit-responsive investment contract with MetLife. In a MetLife managed guaranteed investment contract, the assets are invested in a MetLife separate account. MetLife will guarantee principal and accrued interest, based on the credited interest rates, for participant-initiated withdrawals as long as the contract remains active. As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $1,104,315 and $1,077,124, respectively. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio.

Such interest rates are reviewed on a quarterly basis for resetting and have a minimum credited rate of 0%. MetLife will reset the rate by amortizing the difference between the market value of the portfolio and the guaranteed value over the weighted average duration of the Fund's investments. Participants will receive the principal and accrued earnings credited to their accounts on withdrawal for allowed events. These events include transfer to other Plan investment options, and payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan.

Average yields:	2013	2012
Based on actual earnings	-1.36%	5.37%
Based on interest rate credited to participants	2.45%	2.93%

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events could include, but are not limited to the following (1) amendment to the Plan document (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor event (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption under ERISA. The Plan's administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

9. RELATED PARTY TRANSACTIONS

Certain Plan investments are held in an interest bearing account managed by Wells Fargo Bank, N.A., which is the trustee of the Plan's assets and therefore, these transactions qualify as party-in-interest transactions. During 2013, contract administration fees of $18,271, loan setup fees of $150 and indirect investment advisory fees of $19,427 were paid to Wells Fargo Bank, N.A.

10. PLAN TERMINATION

Although the Company intends to continue the Plan, it reserves the right to amend or terminate the Plan at any time. In the event of Plan termination, participants will become 100% vested in their employer contributions.

11. TAX STATUS

The Plan follows the provisions of FASB ASC 740-10 *Accounting for Uncertainty in Income Taxes.* FASB ASC 740-10 prescribes a comprehensive model for how the Plan should measure, recognize, present, and disclose in its financial statements uncertain tax positions that the Plan has taken or expects to take on a tax return. The Plan is no longer subject to U.S. Department of Labor and Internal Revenue Service examinations for years before December 31, 2008.

On March 31, 2008, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401 of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. The prototype plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel still believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

12. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

We were engaged to audit the accompanying financial statements of Health Decisions 401(k) Plan (the "Plan"), which comprise the statements of net assets available for plan benefits – modified cash basis as of December 31, 2013 and 2012, and the related statement of changes in net assets available for plan benefits – modified cash basis for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Wells Fargo Bank, N.A., the trustee of the plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter
The supplemental schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2013 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Basis of Accounting
We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

1. DESCRIPTION OF PLAN

The following description of the Health Decisions 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General - The Plan is a defined contribution plan established July 1, 1996. The Plan is designed to conform to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All employees of Health Decisions, Inc. (the "Company" and "Plan Sponsor") other than union employees, nonresident aliens, leased employees and fixed term employees who are 21 years of age and have completed thirty days of service are eligible to participate in the Plan.
b. Contributions - Each year, participants may contribute up to 80% of their compensation, as defined by the Plan. Participants are automatically enrolled in the Plan at a 3% of compensation deferral rate unless they opt out or opt for a different deferral amount. After the first year the Plan automatically escalates employees' deferral percentages by one percent on the first day of the Plan year up to a maximum of 8% unless they opt out or opt for a different deferral amount. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. The Company makes a discretionary matching contribution equal to 50% of the first 5% of compensation that a participant contributes to the Plan. Participants direct the investment of all contributions made on their behalf into various investment options offered by the Plan. The Plan currently offers one guaranteed interest contract, one common collective trust fund and various mutual funds as investment options for participants. Contributions are subject to annual limits established by the Internal Revenue Service.
c. Participant Accounts - Each participant's account is credited with (1) participant's contributions, (2) employer match contributions, and (3) allocations of (a) Plan earnings, (b) administrative expenses and (c) employer discretionary contribution. Allocations are based on participant's plan compensation or participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
d. Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Vesting of the Company's contribution portion of their accounts is based on the following schedule:

Years of Service	Vesting Percentage
Less than two	0%
2	20%
3	40%
4	60%
5	80%
Six or more	100%

Participants will automatically become 100% vested upon attainment of early retirement age (59 ½) or retirement due to disability or death.

1. DESCRIPTION OF PLAN (Continued)

e. Payment of Benefits - Upon termination of service due to death, disability, retirement, or any other reason or upon reaching early retirement age (59 ½), a participant or their beneficiary may receive a lump sum amount equal to the vested portion of the value of the funds credited to the participant's account. In addition, during active service, a participant can take hardship distributions if certain conditions are satisfied and a participant over the age of 59 ½ can take in-service distributions from their accounts in which they are fully vested. Upon taking a hardship distribution the participant will be voluntarily suspended from the Plan for six months. Effective March 1, 2014, a terminated participant with a vested balance greater than $1,000 but less than $5,000 will automatically receive a roll over distribution of their vested balance to an Individual Retirement Account set up in their name unless they make an affirmative action to receive or roll over their account. Terminated participants with vested balances of $1,000 or less are automatically distributed their vested account balances upon termination.

f. Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance, whichever is less. Participants are limited to one loan at any given point of time. The loans are secured by the balance in the participant's account and bear interest at a reasonable interest rate as determined by the Plan Administrator at the time of issuance. As of December 31, 2013, the effective interest rate of notes receivable was 4.25%. The loans must be repaid within 5 years, unless the funds borrowed are used toward the purchase of a primary residence. Principal and interest is paid ratably through payroll deductions.

g. Forfeited Accounts - Forfeitures of terminated participants' non-vested employer matching and profit sharing contributions can be used to pay Plan administrative expenses or reduce employer matching contributions. At December 31, 2013 and 2012 forfeited non-vested accounts totaled $84,520 and $49,713, respectively. In 2013, no Plan administrative fees or employer contribution were paid out of forfeited non-vested accounts.

h. Administrative expenses – Administrative fees paid by the Plan include investment advisory, recordkeeping and transactions fees. The Plan Sponsor also pays significant expenses relating to the plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounting records of the Plan are maintained by the trustee on the modified cash basis. Under this basis, additions to the Plan assets are recognized when collected rather than when earned and deductions are recognized when paid rather than when incurred.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for plan benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by Wells Fargo Bank, N.A. See Note 7 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income in accrued on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Estimates

The preparation of financial statements in conformity with modified cash basis accounting requires management to make estimates and assumptions that affect the reported amounts of assets and changes therein, and disclosure of contingent assets. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated events and transactions that occurred between December 31, 2013 and October 8, 2014 which is the date the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

3. PLAN ADMINISTRATIVE COMMITTEE INFORMATION

The plan administrative committee consists of BJ Thompson and Debbie Edmondson, employees of the Company. They have designated the trustee, Wells Fargo Bank, N.A. to hold the Plan's invested assets and to execute investment transactions.

4. TRUSTEE AGREEMENT

The appointed trustee of the Plan's assets is Wells Fargo Bank, N.A. The trustee has been given the authority and power to purchase and sell securities and other investments at their discretion. The trustee agreement provides for benefit payments to be made from the Plan by the trustee upon the direction and request of the plan administrator. In August 2014 the plan administrative committee elected to change trustees. Effective January 1, 2015 the Plan trustee will be Putnam Fiduciary Trust Company.

5. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule:

	2013	2012
Notes receivable from participants	$ 29,037	$ 88,703
Mutual funds	3,721,099	3,170,217
Common collective trust fund	67,164	1,595
Guaranteed investment contract*	1,092,269	1,020,443
Net investment income (loss)	813,076	N/A
Interest on notes receivable from participants	1,513	N/A

* Investments are certified at fair value except for the guaranteed investment contract fund which is certified at contract value.

6. INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31:

	2013	2012
MetLife Stable Value Fund GA Contract, 7,321 and 6,969 shares, respectively (fair value $1,104,315 and $1,077,124, respectively)	$ 1,092,269	$ 1,020,443
Oppenheimer International Growth Fund Y, 17,373 and 19,570 shares, respectively	662,939	601,006
American Funds Growth Fund of America R5, 11,468 and 11,261 shares, respectively	492,551	386,249
American Funds Fundamental Investor, 5,823 and 7,111 shares, respectively	302,729	290,073
Pioneer Disciplined Value Fund Y, 15,163 and 12,710 shares, respectively	297,495	232,471
PIMCO Total Return Fund, 25,226 shares	N/A	283,542

During 2013, the Plan's mutual funds, common collective trust fund and guaranteed investment contract (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $758,720.

7. FAIR VALUE MEASUREMENTS

The Plan follows FASB ASC 820, Fair Value Measurements, which defines fair value as the price that would be received from selling an asset in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

7. FAIR VALUE MEASUREMENTS (Continued)

FASB ASC 820 also establishes a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The categorization of each investment type within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

FASB ASC 820 establishes three levels of inputs that may be used to measure fair value: Level 1: Quoted prices in active markets for identical assets or liabilities at the measurement date; Level 2: Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active market for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or Level 3: Unobservable inputs that are supported by little or no market activity and that reflect the Plan's own assumptions about market participants and prices.

Investment Valuation

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust fund

Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Guaranteed investment contract

Valued at fair value by the insurance company by discounting revenue method and the Contract's share of the fair value of the securities in the underlying MetLife separate accounts. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. (See note 8)

7. FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

7. FAIR VALUE MEASUREMENTS (Continued)

Summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	Guaranteed Investment Contract
Balance as of January 1, 2013	$ 1,077,124
Net investment gain	19,773
Unrealized gains/(losses) relating to instruments still held at the reporting date	(44,635)
Purchases	107,754
Settlements	(55,701)
Balance as of December 31, 2013	$ 1,104,315
The amount of total gains or losses for the period included in the changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date.	$ (44,635)

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statements of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The Plan considers the MetLife Stable Value Fund, a Guaranteed Investment Contract (GIC), a level 3 asset due to the complex nature of GIC's. The Funds underlying MetLife separate accounts are considered level 2 assets and the related wrappers are considered level 3 assets by the fund's management. The fair value of the separate account is the contract's pro-rata share of the fair value of the securities in the underlying MetLife separate accounts that the contract participates in. The fair value of the wrapper is the discounted revenue method, being 20 basis points of the guaranteed value over five years discounted by the LIBOR swap curve. No unobservable inputs internally developed by the Plan have been applied to this investment, thus no quantitative information about the valuation techniques of significant unobservable inputs have been disclosed.

Fair Value of Investment in Entities that use Net Asset Value

The following table summarizes additional disclosures of the Plan's investments whose fair value is based on net asset value (NAV) per share as of December 31, 2013 and 2012, respectively.

December 31, 2013	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust-fund – WellsFargo/ BlackRock index fund (a)	$ 67,164	$ -	Daily	Daily

December 31, 2012	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust-fund – Wells Fargo index fund (b)	$ 1,595	$ -	Daily	Daily

(a) This category includes a fund that seeks to invest in collective investments funds managed and trusted by Wells Fargo Bank, N.A., as advised by BlackRock Institutional Trust Company, N.A. with the objective of approximating, before fees and expenses, the total return of the S&P 500 Index.

(b) This category includes a fund that seeks to invest in common stocks in substantially the same percentages as the S&P 500 Index with the objective of approximating, before fees and expenses, the total return of the S&P 500 Index.

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY

During 2007, the Plan entered into a benefit-responsive investment contract with MetLife. In a MetLife managed guaranteed investment contract, the assets are invested in a MetLife separate account. MetLife will guarantee principal and accrued interest, based on the credited interest rates, for participant-initiated withdrawals as long as the contract remains active. As described in Note 2, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $1,104,315 and $1,077,124, respectively. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio.

Such interest rates are reviewed on a quarterly basis for resetting and have a minimum credited rate of 0%. MetLife will reset the rate by amortizing the difference between the market value of the portfolio and the guaranteed value over the weighted average duration of the Fund's investments. Participants will receive the principal and accrued earnings credited to their accounts on withdrawal for allowed events. These events include transfer to other Plan investment options, and payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan.

Average yields:	2013	2012
Based on actual earnings	-1.36%	5.37%
Based on interest rate credited to participants	2.45%	2.93%

8. INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events could include, but are not limited to the following (1) amendment to the Plan document (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor event (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption under ERISA. The Plan's administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

9. RELATED PARTY TRANSACTIONS

Certain Plan investments are held in an interest bearing account managed by Wells Fargo Bank, N.A., which is the trustee of the Plan's assets and therefore, these transactions qualify as party-in-interest transactions. During 2013, contract administration fees of $18,271, loan setup fees of $150 and indirect investment advisory fees of $19,427 were paid to Wells Fargo Bank, N.A.

10. PLAN TERMINATION

Although the Company intends to continue the Plan, it reserves the right to amend or terminate the Plan at any time. In the event of Plan termination, participants will become 100% vested in their employer contributions.

11. TAX STATUS

The Plan follows the provisions of FASB ASC 740-10 *Accounting for Uncertainty in Income Taxes.* FASB ASC 740-10 prescribes a comprehensive model for how the Plan should measure, recognize, present, and disclose in its financial statements uncertain tax positions that the Plan has taken or expects to take on a tax return. The Plan is no longer subject to U.S. Department of Labor and Internal Revenue Service examinations for years before December 31, 2008.

On March 31, 2008, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401 of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. The prototype plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel still believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

12. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.
