J.D. BYRIDER 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of J.D. Byrider 401(k) Plan (the Plan) provides only general information. Plan participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan was organized effective May 8, 2003, as a defined contribution retirement savings plan covering all eligible employees of Byrider Franchising, Inc., Byrider Finance, Inc., Byrider Properties, Inc., Byrider Sales of Indiana S., Inc., and J.D. Byrider Systems, Inc. (collectively, the Employer) who have at least 60 days of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, Plan participants may authorize the Employer to contribute to the Plan up to 100% of their eligible annual compensation, subject to the maximum annual amount permitted under the Internal Revenue Code (IRC). Participants who attain age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make rollover contributions from amounts representing distributions from other qualified plans.

The Employer makes safe-harbor matching contributions equal to 100% of the first 4% and 50% of the next 2% of compensation that each participant contributes to the Plan. The Employer may also elect to make discretionary profit-sharing and matching contributions to the Plan. No Employer discretionary profit-sharing or matching contributions were made to the Plan in 2013.

Participants direct the investment of their contributions, as well as those made by the Employer, into various investment options offered by the Plan.

Participant Accounts: Each participant's account is credited with the participant's contributions and Employer matching contributions, as well as allocations of the Employer's profit-sharing contributions and Plan earnings. Participant accounts may also be charged with an allocation of certain administrative expenses of the Plan. Allocations are based on participant earnings or account balances, or specific participant transactions, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures: Participants are vested immediately in their contributions and the Employer's safe-harbor matching contributions plus actual earnings thereon. Vesting in the Employer's discretionary profit-sharing and matching contribution portion of their account is based on years of service. A participant is 20% vested after one year of service, increasing by 20% per additional year, with full vesting after five years of credited service.

At December 31, 2013 and 2012, forfeited nonvested accounts of terminated participants totaled \$7,498 and \$7,410, respectively. These accounts will be used to reduce future Employer contributions or pay Plan expenses. In 2013, no forfeited nonvested accounts were utilized.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants: Participants may borrow from their account a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. The repayment terms of the notes cannot exceed five years except for the purchase of the participant's principal residence, for which the terms may exceed five years per the Plan Agreement. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through regular payroll deductions.

Benefits: Upon the occurrence of a distributable event due to separation from service by termination, death, disability, or retirement, as defined by the Plan Agreement, a participant may elect to receive a lump-sum cash distribution equal to the value of the participant's vested interest in his or her account. Hardship and in-service withdrawals, as defined in the Plan Agreement, are also permitted from a participant's account.

Plan Termination: Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will become 100% vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are presented on the accrual basis of accounting.

Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As discussed in Note 5, the Plan invests in a guaranteed investment contract, and invested in a collective trust fund, which are fully benefit-responsive funds. The Plan's statements of net assets available for benefits present the fair value of these investments as well as the adjustment of these investments from fair value to contract value. Fair value approximates contract value for the guaranteed investment contract. The Plan's statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants are stated at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are treated as distributions based upon the terms of the Plan Agreement.

Payment of Benefits: Benefits are recorded when paid.

Plan Expenses: Administrative expenses for maintaining the Plan may be paid by the Employer or by the Plan, at the discretion of the Employer. Certain administration fees are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tax Status: The Plan has adopted a volume submitter plan document whose sponsor has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the volume submitter plan document was designed in compliance with the applicable sections of the IRC. Although the Plan and the volume submitter plan document have been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements.

The plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in process. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Subsequent Events: The Plan Administrator has evaluated the financial statements for subsequent events occurring through October 7, 2014, the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan has categorized its assets and liabilities that are measured at fair value into a three-level fair value hierarchy. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. In situations where there is little or no market activity for the asset or liability, the Plan makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used by the Plan for investment assets that are measured at fair value on a recurring basis. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Fund Shares: Valued at the published net asset value (NAV), as reported by each fund, of the shares held by the Plan at the reporting date.

Collective Trust Fund: Valued at the unit price reported by the sponsoring company. The underlying investment owned by the fund consists primarily of Guaranteed Investment Contracts (GIC) and synthetic GICs. The synthetic GICs have underlying portfolios of bonds with attached wrap contracts.

Guaranteed Investment Contract: Valued at fair value (which approximates contract value) by the insurance company by using the adjusted income approach of resetting interest rates periodically based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. The crediting rate is supported by claims paying ability of the insurer. Interest rates are reset quarterly. See below for significant unobservable inputs used and the related quantitative information.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain assets could result in a different fair value measurement at the reporting date.

Following is a summary, by major nature and risks class within each level of the fair value hierarchy, of the Plan's investment assets that are measured at fair value on a recurring basis as of December 31, 2013 and 2012:

All investment information disclosed in the accompanying financial statements, related notes and supplemental schedule has not been audited, but was obtained or derived from information provided to the Plan Administrator by the Plan's trustee. The following is a summary of the Plan's investment information which has been certified as complete and accurate as of December 31, 2013 and 2012, and for the year ended December 31, 2013, by Reliance Trust Company, the Trustee, in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA:

NOTE 5 - FULLY BENEFIT-RESPONSIVE INVESTMENTS

The Plan has an investment in the Standard Stable Asset Fund (Standard), which is a benefit-responsive fund. The Plan had an investment in the Union Bond & Trust Company Stable Value Fund A (Union), which is a benefit-responsive fund, through September 2013. As described in Note 2, because these investments are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits attributable to the investment. Contract value, as reported to the Plan by The Standard Insurance Company and Union Bond & Trust Company, represents contributions made under the fund, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 5 - FULLY BENEFIT-RESPONSIVE INVESTMENTS (CONTINUED)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield rate based on actual earnings of the Standard was approximately 0.68% for 2013, and the average interest rate credited to participants was approximately 0.68% for 2013. The average yield rate based on actual earnings of the Union was approximately 1.27% for 2013 and 1.62% for 2012, and the average interest rate credited to participants was approximately 1.17% for 2013 and 1.42% for 2012.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) communications from the Plan's sponsor designed to induce participants to transfer from the fund, (4) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (5) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE 6 - PLAN AMENDMENT

Effective January 1, 2013, the Plan Agreement was amended to permit Roth contributions to be available for hardship withdrawals.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Standard Retirement Services, Inc., the Plan's third-party administrator, and/or its affiliates receive indirect fees from investments which are deducted from investment returns. Direct fees paid by the Plan to the Plan's third-party administrator totaled \$96,742 in 2013.

The Employer provides certain accounting, administrative, and investment management services to the Plan for which it receives no compensation.

Notes receivable from participants are permitted party-in-interest transactions.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan's investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.

NOTE 9 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to net assets per Form 5500 at December 31, 2012:

Net assets available for benefits per the financial statements	\$18,840,294
Adjustment from contract value to fair value for fully benefit-responsive investment contract	<u>25,429</u>
Net assets per Form 5500	<u>\$18,865,723</u>

The following is a reconciliation of net increase per the financial statements to net income per Form 5500 for the year ended December 31, 2013:
