INDEPENDENT AUDITORS' REPORT

The Trustees
Gershow Recycling Corporation 401(K) Profit Sharing Plan
Medford, New York

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Gershow Recycling Corporation 401(k) Profit Sharing Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United Statements of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3 and 4, which was certified by John Hancock Life Insurance Company of New York, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2013, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter - Supplemental Schedule

The supplemental information, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2013, is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Other Matter - 2012 Financial Statements

The financial statements of the Plan as of December 31, 2012 were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Act of 1974, the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by John Hancock Life Insurance Company of New York, the custodian of the Plan. Their report, dated October 4, 2013, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statement and (b) the form and content of the information included in the financial statements, other than derived from the information certified by the custodian, were presented in compliance with the Department of Labor's Rules and Regulation for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Report on Form and Content in Compliance With DOL Rules and Regulations - 2013

The form and content of the information included in the 2013 financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 - DESCRIPTION OF PLAN

Effective March 1, 1996, Gershow Recycling Corporation (the "Plan Sponsor") established the Gershow Recycling Corporation 401(k) Profit Sharing Plan (the "Plan") as a defined contribution plan for employees of Gershow Recycling Corporation and its participating employers (collectively, the "Company"). Participating employers include the following companies: Gershow Recycling of Brooklyn, Inc., S & I Industries Corp., Huntington Scrap Corporation, Gershow Recycling of Freeport, Inc., Gershow Recycling of Valley Stream, Inc., Gershow Recycling of Riverhead, Inc. and Eastern Long Island Yacht Sales, Inc.

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a. ***General*** - The Plan is a 401(k) defined contribution plan. All employees employed by a participating employer are eligible to participate in the Plan on any date following the completion of one year of service, defined as 1,000 hours of credited service, and the attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

b. ***Contributions*** - Plan contributions consist of compensation reduction elections of participants (401(k) contributions), rollovers, employer matching contributions, and employer discretionary profit sharing contributions. Under the terms of the Plan, the Company will match 20% of the employee elective deferrals for eligible employees, not to exceed 3% of the participant's compensation. In addition, under the terms of the Plan, the Company may determine to make discretionary profit sharing contributions. For the year ended December 31, 2013, the Company elected not to make profit sharing contributions. Contributions are subject to certain Internal Revenue Service limitations.

   All investments are participant directed. Participants direct the investment of the contributions into a variety of pooled separate accounts as offered through John Hancock Life Insurance Company of New York (the "Custodian").

c. ***Participant Accounts*** - Each participant's account is credited with the participant's contributions, the Company's contributions to the Plan on behalf of the participant, and allocations of Plan earnings or losses. Allocations of Plan earnings or losses are based upon actual performance of each participant's investment elections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. ***Vesting*** - Participants are immediately vested in their elective contributions, the rollover portion of their account balances, and the earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus earnings thereon is based on years of continuous credited service, according to a vesting schedule of 20% per year of credited service, beginning after the second full year of credited service, with an additional 20% vesting for each additional year of credited service. A participant is 100% vested in the employer matching and discretionary profit sharing contributions and earnings thereon after six years of credited service, or upon attaining normal retirement age or earlier, in the event of termination of employment due to disability or death.

e. ***Notes Receivable from Participants*** - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of: $50,000 reduced by the participant's highest outstanding note balance to the Plan during the one-year period ending on the day before the date on which the note is made; or

Continued

50% of their vested account balances, less current outstanding note balances. All notes, other than those used to purchase a principal residence, must be repaid within five years. Loans for principal residences must be repaid within 30 years. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with interest rates being charged by local lenders, at inception, as determined by the Plan administrator. Principal and interest are paid ratably through weekly payroll deductions over the term of the note, which generally will not exceed 60 months. At December 31, 2013, the notes bear interest at rates ranging from 3.25% to 5.25% and have scheduled maturities to July 2023.

f. ***Payment of Benefits*** - On termination of service due to death, disability, or retirement, a participant whose vested balance exceeds $5,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments, or have the value applied to the purchase of an annuity, other than a life annuity. Participants whose vested benefits do not exceed $5,000 will receive a single lump-sum payment. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, a direct rollover to another qualified plan, or a direct rollover to an individual retirement account.

g. ***Plan Expenses*** - The Plan allows for third-party administrator expenses to be paid out of Plan assets and allocated to each participant based on his or her proportionate share of the Plan assets. However, specific direct expenses incurred by an individual participant shall be deducted from that participant's account only. In the event of a lump-sum distribution following termination, the participant's account will be reduced by a $100 processing fee, and if the participant's vested account is less than the processing fee, the balance of the account will be eliminated without a distribution to the participant. The Company has elected to absorb the remaining costs of the Plan.

h. ***Forfeited Accounts*** - The forfeited portion of nonvested accounts will be used either to reduce future employer contributions or to pay plan expenses. At December 31, 2013 and 2012, forfeitures recorded by the Plan amounted to $36 and $7,375, respectively. During the year ended December 31, 2013, $7,339 of forfeitures were used to pay plan expenses.

2 - Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

a. ***Basis of Accounting*** - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

b. ***Use of Estimates*** - The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

c. ***Investment Valuation and Income Recognition*** - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Continued

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

d. ***Notes Receivable from Participants*** - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a deemed distribution is recorded.

e. ***Payments of Benefits*** - Benefits are recorded when paid.

f. ***Expenses*** - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in the administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

g. ***Excess Contributions Payable*** - Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2014.

3 - Information Certified by the Custodian (Unaudited)

The Plan invests in pooled separate accounts that are being held by John Hancock Life Insurance Company of New York (the "Custodian"). Investment information related to those investments as of December 31, 2013 and 2012 and for the year ended December 31, 2013, included in this note, the accompanying financial statements, and supplemental schedule is based on information supplied and certified by the Custodian in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The fair value of investments is summarized as follows:

	December 31,	
	2013	2012
Pooled Separate Accounts	**$ 4,113,449**	$3,241,526

The following presents investments at fair value that represent 5% or more of the Plan's net assets:

	December 31,	
	2013	2012
Investments at Fair Value		
Pooled Separate Accounts		
American Century Heritage Fund	**$ 1,017,810**	$ 748,814

Money Market Fund	⋆	228,454

⋆ Represents less than 5% of the Plan's net assets.

Continued

During the year ended December 31, 2013, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $850,664.

4 - Fair Value Measurements (Unaudited)

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the Financial Accounting Standards Board's guidance for *Fair Value Measurements and Disclosures ASC 820* are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled Separate Accounts - Valued on a per unit basis, which is calculated based on the net asset value ("NAV") of the underlying investment in mutual funds or the fair value of other investments held and adjusted for an annual expense charge, as defined.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value

Pooled separate accounts are reported as Level 2 investments and may be redeemed on a daily basis. The redemption notice period for pooled separate accounts is also daily. There are no unfunded commitments or other redemption restrictions.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. There were no transfers into or out of Level 3 for the years ended December 31, 2013 and 2012.

The following describes the investment strategies for Level 2 investments held by the Plan for the years ended December 31, 2013 and 2012:

Aggressive Growth Funds

International Value Fund - This fund seeks long-term growth of capital. The portfolio managers focus on identifying companies that they believe are selling at the greatest discount to future value. They identify these stocks using fundamental analysis, proprietary screens, and a worldwide network of experienced research sources. Over 12,000 stocks are maintained in the firm's proprietary database. The most undervalued stocks with sound fundamentals are placed on the Franklin Templeton Bargain List. New purchases for the portfolio are taken from this list. The portfolio is constructed using bottom-up (company-specific) stock selection with country allocation decisions playing a minimal role.

Continued

DFA U.S. Small Cap Fund - This fund seeks long-term capital appreciation. The primary objective of the U.S. Small Company Portfolio is to capture the return premiums of the U.S. small company asset class by investing in a well-diversified portfolio of securities. All companies that fall into the smallest 10% of the market universe (market capitalization) and have passed a qualitative and quantitative screening process are eligible for investment by the fund. Company size is determined on the basis of a company's market capitalization, which is calculated by multiplying the price of a company's stock by the number of its shares of outstanding common stock.

Franklin Small-Mid Cap Growth Fund - This fund seeks long-term growth of capital. After identifying small- and mid-cap stocks in an emerging growth phase, Franklin Templeton's portfolio managers and more than 30 analysts employ rigorous, bottom-up (company specific) fundamental research to identify attractive investment opportunities. The management team seeks to purchase stocks of companies with a distinct competitive advantage, such as a unique product, that is expected to lead to significant long-term growth. The investment team focuses on finding companies with competitive advantages that can lead to significant long-term growth, such as being well positioned to take advantage of trends or benefiting from rapid technological advances.

Oppenheimer Global Fund - This fund seeks capital appreciation. In selecting securities, the manager looks primarily for foreign and U.S. companies with high growth potential. He or she uses fundamental analysis of a company's financial statements, management structure, operations and product development, and considers factors affecting the industry of which the company is part. The portfolio manager also considers overall and relative economic conditions in the U.S. and foreign markets and seeks broad portfolio diversification in different countries. The manager is currently focused on companies that stand to benefit from global growth trends, businesses with strong competitive positions and high demand for their products or services, and cyclical opportunities in the business cycle and sectors or industries that may benefit from those opportunities. In applying these criteria, the manager considers the effect of worldwide trends on the growth of various business sectors. The trends, or "themes", currently considered include the development of new technologies, corporate restructuring, the growth of mass affluence, and demographic changes.

EuroPacific Growth Fund - This fund seeks long-term growth of capital. The underlying fund's investment professionals seek to provide, in aggregate, a well-diversified and moderately aggressive portfolio through patient stock picking. Management tends to show strong conviction in their holdings and takes a long-term investment approach, often recognizing market contractions as buying opportunities. The Fund invests in securities of growing companies based primarily in Europe and the Pacific Basin. Holdings may range from small firms to large corporations. Under normal market conditions, the portfolio will invest almost all its assets in securities of issuers based outside the United States. The portfolio may invest in securities of issuers based in developing countries.

American Century Heritage Fund - This fund seeks long-term growth of capital. The objective of the managers is to build a portfolio with mid-cap growth characteristics composed of stocks delivering the best combination of acceleration and market leadership. Management looks for companies that have shown accelerating growth in sales or earnings. They believe this accelerating growth leads to upward earnings estimate revisions and expanding price-earnings multiples. Companies showing accelerating earnings are prioritized according to their share price action and will lead to more fundamental research by the analysts to find an identifiable catalyst expected to drive continued growth. Management will make rather large sector bets if it finds several companies with accelerating earnings in a particular area.

Growth Funds

Mid Cap Index Fund - This fund seeks to achieve the approximate aggregate total return of a mid-cap U.S. domestic equity market index. John Hancock Asset Management's managers try to match the performance of the S&P Mid Cap 400 Index by holding all, or a representative sample of, the securities that comprise the Index. Although slight differences may exist in the short term, the Mid Cap Index portfolio and the S&P Mid Cap 400 Index are expected to perform similarly over the long run.

Continued

Small Cap Value Fund - This fund seeks long-term capital appreciation. The portfolio manager focuses on high-quality companies with a proven track record of above-average profitability and that sell at a discount relative to the overall small-cap market. Screens focusing on items such as ROA, ROE, P/E, and P/B are used, leaving approximately 500 securities for further analysis. The portfolio manager uses proprietary fundamental research to focus on high-quality companies that exhibit one or more of the following characteristics: financial structures that are more conservative than the relevant industry average, companies that have relatively longer histories of operating performance as a publicly traded company and companies that have some sustainable advantage that will enable them to earn above-average rates of return. The quality of management, strategic direction and expectations with regard to the use of current and future cash flows are also integral components of the valuation process. This process will lead to a portfolio that will consist of approximately 60 to 90 holdings with each individual position accounting for no more than 5% of the portfolio.

Value Fund - This fund seeks to achieve an above-average total return over a market cycle of three to five years. Invesco's approach is to select equity securities which are believed to be undervalued relative to the stock market in general as measured by the Russell Midcap Value Index. Generally, medium market capitalization companies will consist primarily of those that the subadviser believes are selling below their intrinsic value and offer the opportunity for growth of capital. The portfolio emphasizes a "value" style of investing focusing on those companies with strong fundamentals, consistent track records, growth prospects, and attractive valuations. Invesco may favor securities of companies that are undervalued industries. The management team may purchase stocks that do not pay dividends. They may also invest the portfolio's assets in companies with smaller or larger market capitalizations.

John Hancock Disciplined Value Fund - This fund seeks long-term growth of capital. Robeco invests primarily in large cap companies with an emphasis on attractive valuation, focused internal research and risk aversion. Robeco believes value opportunities are best identified through fundamental bottom-up research that is aided by quantitative tools. Stock selection is based on three characteristics: attractive valuation, sound business fundamentals, and improving business momentum. Their fundamental work incorporates the full menu of public filings, industry information and management discussion, which in conjunction with their professional judgment and experience, helps them formulate an assessment of each company's intrinsic value and its prospects for achieving it.

Massachusetts Investors Fund - This fund seeks capital appreciation. MFS uses a bottom-up investment approach in buying and selling investments for the Fund. Investments are selected primarily based on fundamental analysis of issuers and their potential in light of their current financial condition and industry position, and market, economic, political, and regulatory conditions. Factors considered may include analysis of earnings, cash flows, competitive position, and management ability. Quantitative analysis of these and other factors may also be considered. The investment philosophy and process have remained the same since the MFS Massachusetts Investors Trust's inception in 1924.

The Growth Fund of America - This fund seeks to achieve growth of capital. American Funds' multiple portfolio counselor system allows each investment professional to implement his or her best investment ideas and helps to provide diversification for the overall portfolio. The Fund's investment professionals look for companies that offer the potential to provide strong earnings growth. Investments include the traditional growth company, as well as opportunities in cyclical companies and those in a turnaround situation that appear to be undervalued. The management of this Fund is more conservative than the traditional growth portfolio with more aversion to the risk inherent in the peer group.

Davis New York Venture Fund - This fund seeks long-term growth of capital. Davis Advisors' value-oriented investment philosophy has been in place since the firm's founding in 1969. The underlying fund's basic philosophy is to seek durable, well-managed businesses that can be purchased at value prices and held for the long-term. The Fund's managers conduct extensive research to evaluate the quality of management, the strength of the firm's financial condition and business model, and the sustainability of the firm's competitive advantage. The portfolio primarily consists of companies recognizable as strong global leaders and to a lesser extent, companies that are either underfollowed or overlooked but have strong business fundamentals and companies that are trading at a discount as a result of controversy and negative headlines.

Growth & Income Funds

T. Rowe Price Equity Income Fund - This fund seeks to achieve substantial dividend income and long-term capital appreciation. This portfolio is managed with a conservative, value oriented approach that uses fundamental research to find undervalued stocks along with stocks that pay above average dividends. T. Rowe Price narrows the universe of companies down to approximately 300-400 companies by screening for market capitalization, liquidity, valuation characteristics (such as price-earnings, price-book and price-sales), and earnings and dividend streams that appear to be mispriced. Management conducts traditional fundamental analysis and rigorously evaluate companies to find undervalued companies across a range of industries. They focus on large capitalization companies that are either at discounts to historical valuations or undervalued based on relative valuations, and have the ability to benefit from changes in investor perception or the emergence of a catalyst.

JPMorgan Mid Cap Value Fund - This fund seeks capital appreciation. In constructing the portfolio, the investment manager uses a bottom-up approach to uncover companies with strong fundamentals. First, the universe is narrowed down to companies with a market cap range of $1 - $20 billion. Then quantitative screens and analyst research are used to identify stocks attractive to the manager. After the initial screening is complete, fundamental analysis is conducted to evaluate a company's business factors, management factors, and financial factors. In the final step, the team executes thorough valuation analysis on each stock. This process will lead to a portfolio that will consist of approximately 80-100 stocks with the largest position typically at 5%.

Asset Allocation Funds

JH Lifestyle Aggressive - Active Strategies - This fund seeks to achieve long-term growth of capital by investing its assets in underlying portfolios that invest primarily in equity securities. This asset allocation portfolio is managed with the intention of providing an optimal mix of a broadly diversified portfolio. There are four main steps involved in the design of the John Hancock Lifestyle Funds. First, asset classes and underlying funds are selected for potential inclusion in the portfolios. Next, sophisticated optimization techniques are used to establish the appropriate weightings given to each asset class. In the third step, an advanced statistical process is used to determine the optimal mix of managers. In the fourth and final step, the economic environment and investment markets are continually monitored to determine if any changes are needed, and to keep the portfolio up-to-date and consistent with its investment policies and objectives.

JH Lifestyle Growth - Active Strategies - This fund seeks to achieve long-term growth of capital by primarily investing in assets in underlying portfolios that invest approximately 80% of the portfolio's assets in underlying portfolios that invest primarily in equity securities and approximately 20% of its assets in portfolios that invest primarily in fixed-income securities. Current income is also a consideration. This asset allocation portfolio is managed with the intention of providing an optimal mix of a broadly diversified portfolio. Income Funds

High Yield Fund - This fund seeks to realize an above-average total return over a market cycle of three to five years, consistent with reasonable risk. The investment team relies on the ability to integrate superior fundamental credit research with accurate relative value analysis to drive performance in the High Yield strategy. Management utilizes both a top-down and bottom-up approach within their investment process. Beginning with a top-down approach, Western Asset will consider their economic assessments along with each credit analyst's industry insights. A strategic portfolio is then created by management, which outlines the risk profile versus the benchmark highlighting key over- or underweights. Next, a bottom-up approach is utilized, which takes into consideration both fundamental credit analysis and a relative value assessment for each security within the strategic portfolio in order to construct the final client portfolio. Sell discipline is primarily based on at least one of three factors: (i) a security meets or exceeds its relative target value, (ii) the risk associated with holding the security no longer justifies the expected return, and (iii) there has been a relevant change to management's original premise that affects their fundamental valuation.

PIMCO Total Return Fund - This fund seeks maximum total return, consistent with preservation of capital and prudent investment management. Seeks to add value through a variety of techniques that attempt to maximize return and minimize volatility. PIMCO's investment process begins with the formation of top down strategies based on their 3- to 5-year outlook for the global economy and interest rates and how these outlooks apply to the upcoming 3-12 month periods. Bottom-up analysis based on quantitative research, credit analysis and individual security selection is then meshed with the top down strategies to add value.

Vanguard Short-Term Federal Fund - This fund seeks to provide current income while maintaining limited price volatility. This portfolio invests primarily in U.S. Government agency securities, which are debt obligations issued or guaranteed by agencies or instrumentalities of the U.S. Government. Such agency securities may not be backed by the full faith and credit of the U.S. Government. The portfolio may also invest in U.S. Treasury securities, as well as repurchase agreements collateralized by U.S. Treasury or U.S. Government agency securities. In an effort to minimize fluctuations in market value, this fund is expected to maintain a dollar-weighted average maturity between 1 and 3 years.

Conservative Funds

Money Market Fund - This fund seeks to achieve maximum current income consistent with preservation of principal and liquidity. John Hancock Asset Management's managers invest in high-quality, short-term U.S. dollar-denominated money market instruments. Examples include obligations issued or guaranteed as to principal and interest by the U.S. government, certificates of deposit, and bank notes. Also included are time deposits and bankers' acceptance of U.S. banks, commercial paper and corporate obligations and repurchase agreements.

5 - Income Tax Status

The Internal Revenue Service ("IRS") determined and informed the Plan's trustees by a letter dated June 17, 2010 that its prototype plan was designed in accordance with applicable sections of the Internal Revenue Code ("IRC") and is exempt from income taxes. This plan was adopted by the Company on March 1, 1996. Plan management believes that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified, and the related trust is tax exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the value in their accounts.

7 - Party-in-Interest Transactions

Plan investments include pooled separate accounts managed by John Hancock Life Insurance Company of New York. John Hancock Life Insurance Company of New York is the Custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services amounted to $13,540 for the year ended December 31, 2013.

8 - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are subject to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

9 - Subsequent Events

Subsequent events have been evaluated through October 6, 2014, the date the financial statements were available to be issued.
