Note 1 Description of Plan

The following description of the New York Mets Employee Savings Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description, the Plan Document and the Adoption Agreement for a more complete description of the Plan's provisions.

General The Plan, established by Sterling Mets, L.P., is a defined contribution 401(k) plan covering all eligible employees employed by the employer or affiliate employers (together the "Employer" or "Administrator") that have adopted the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Eligible employees exclude: those who are under age twenty one; those who are participants in the Major League Baseball Players Benefit Plan; those who are Minor League baseball players; those who are covered by collective bargaining agreements; and those, who are seasonal employees, or paid on a per-day or per-game basis, unless such person is credited with a minimum of 1,000 hours of service in the twelve month period after becoming an employee, or in any Plan year thereafter.

Employee Contributions Each year, participants may authorize the Employer to withhold up to 100% (to a maximum of \$17,500 in 2013 and \$17,000 in 2012) of eligible compensation for contribution to the Plan. Participants over 50 years of age, may make an additional annual "catch-up" contribution. The maximum annual catch-up contribution for 2013 and 2012 is \$5,500. Participants also may contribute rollover amounts representing distributions or distributable amounts from other qualified retirement plans.

Employer Contributions The Employer is obligated to contribute a matching contribution equal to 50% of each employee's contribution. Employee contributions in excess of 6% of participant eligible compensation are excluded when calculating the required Employer matching contribution. Additional matching amounts may be contributed to the Plan solely at the option of the Employer. Catch-up contributions and rollover contributions are not eligible for Employer matching. Eligible compensation is statutorily limited to \$255,000 in 2013 and \$250,000 in 2012.

Forfeitures Forfeitures of terminated participants' non-vested accounts may be applied to reduce Employer contributions. Activity arising from forfeitures of terminated participants' non-vested account balances for the years ended December 31, 2013 and 2012 was:

	2013	2012
Forfeiture balance available - beginning of year	\$ 18,000	\$ 30,000
Increase arising from forfeitures of terminated participants' non-vested account balances	16,000	18,000
Amount applied to reduce Employer contributions	- 0 -	(30,000)
Forfeiture balance available - end of year	<u>\$ 34,000</u>	<u>\$ 18,000</u>

Participant Accounts Each participant's Plan account is credited with the participant's contributions and allocations of the Employer's contributions, including any earnings or losses thereon, and may be charged with an allocation of certain administrative expenses, if any. Allocations of earnings or losses are based on participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested Plan account.

Note 1 Description of Plan (continued)

Vesting Participants are immediately 100% vested in their own contributions plus earnings thereon. Employer matching and discretionary contributions, and any earnings or losses thereon, vest based on years of service. For these amounts, a participant becomes 100% vested, in 20% increments, over a period of one through five years of service. Also for these amounts, a participant becomes 100% vested upon normal retirement age 65, total disability, death, termination or partial termination of the Plan.

Participant Loans Participants may borrow from their Plan accounts, in general, up to an amount equal to the lesser of \$50,000 or 50% of their vested account balance. The minimum permitted loan is \$1,000. Loans are collateralized by the balance in the participant's Plan account. Principal and interest are to be paid ratably through payroll deductions. Loan origination fees, if any, are charged directly to the participant's account.

Payment of Benefits Upon termination of service due to death, disability or retirement, a participant generally may elect to defer distribution, or receive either a lump sum amount or installments equal to the vested value in his or her account.

Tax Status The Internal Revenue Service has issued an advisory letter to the sponsoring organization of the prototype plan adopted by the Employer opining that the form of the prototype plan and related trust are designed in accordance with applicable tax qualification and tax exemption sections of the Internal Revenue Code of 1986, as amended (the "Code"). The prototype plan has been amended since receiving the advisory letter. The Employer has not sought to apply for its own determination letter with regard to the tax qualification of the adopted prototype plan, as amended. The Employer believes that the Plan is designed and currently is being operated in compliance with the applicable requirements of the Code. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Investment Options Upon enrollment in the Plan, participants may direct the investment of contributions made on their behalf and may transfer the investment of Plan account balances among approximately 40 investment options, primarily registered investment companies ("mutual funds"). The Employer may add or subtract from the list of investment options from time to time. When employees direct their own Plan account investments, their Plan accounts are allocated earnings or losses reflective of their chosen investments. A participant's Plan account does not share in the investment performance of other participants' Plan accounts.

Plan Termination Although it has not expressed any intent to do so, the Employer has the right to discontinue its contributions and terminate the Plan subject to the provisions of ERISA and the Internal Revenue Code. Should the Plan terminate, participants would become 100% vested in all Plan accounts. Further, under some circumstances (such as a partial Plan termination caused by a significant reduction in Plan participants from one Plan year to the next) Plan participants with respect to whom a partial Plan termination occurs, would become 100% vested in all their Plan accounts.

Note 2 Summary of Significant Accounting Policies

The financial statements of the Plan are prepared using the accrual method of accounting.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires the Plan Administrator to make estimates and assumptions that may affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Attributes that are specific to an asset or liability, such as restrictions on the asset's sale, need to be considered when measuring fair value, if market participants would take those attributes into account when pricing the item. The Plan Administrator determines the Plan's valuation policies utilizing information provided by Fidelity Management Trust Company, the Trustee of the Plan. See Note 3 for a discussion of fair value measurements..

Participant loans receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a deemed distribution is recorded.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (or depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits are recorded when paid.

Mutual fund and money market fund expenses, including investment management and advisory services, are charges against the respective investment vehicle assets and are reflected in the respective investment's share/unit value, dividends and net appreciation (or depreciation) in fair value of investments.

Certain operating and administrative expenses are absorbed by the Employer, and to that extent, are not reflected in these financial statements.

Certain amounts, classifications and disclosures included in prior year financial statements, from time to time, are restated to conform to the presentation of the current year.

Note 3 Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs consist of unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Level 1 inputs have the highest priority.

Level 2 inputs include:

- quoted prices for similar, but not identical, assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets (i.e., markets in which there are few transactions for the asset or liability, the prices are not current, price quotations vary substantially, either over time or among market makers, or in which little information is publicly available, for example, a principal-to-principal market);
- inputs other than quoted prices that are observable for the assets or liabilities; and
- inputs that are derived principally from, or corroborated by, observable market data, either by correlation or other means.

Level 3 inputs have the lowest priority. Level 3 inputs, which are unobservable and significant, are used for fair value measurement only when observable inputs are not available. Thus, these inputs apply when there is little or no market activity for the asset or liability at the measurement date.

The assets' or liabilities' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Appropriate valuation techniques based on the available inputs are used to measure the fair value of the Plan's investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Level 1 Fair Value Measurements - The fair value of money market funds and mutual funds is based on year-end quoted net asset values of the shares held by the Plan, as certified by the Trustee. (See Note 4.) Gains and losses, realized and unrealized, included in changes in net assets available for benefits for the years ended December 31, 2013 and 2012, are reported in net appreciation (or depreciation) in fair value of investments. The Plan's investments in money market funds and mutual funds are deemed to be actively traded.

Level 2 and Level 3 Fair Value Measurements - No level 2 or level 3 inputs were used by the Plan.

	<u>\$ 12,821,879</u>	<u>\$ 10,710,272</u>

Note 5 Parties in Interest and Related Party Transactions

Various investments of the Plan are in shares of mutual funds and money market funds. These investment vehicles may pay fees for investment advisory services, management or similar services, both to their own related mutual fund family umbrella companies and to other service providers, some of whom may do business with the Plan, the Employer, the Trustee, the custodian and the investment advisor.

Certain officers and employees of the Employer are named fiduciaries of the Plan. They, along with service providers, the Employer and Trustee, are considered "parties in interest" pursuant to definitions within ERISA (and "disqualified persons" within the Code). In general, individuals and companies that do business with the Plan may be defined as parties in interest. Parties in interest may be restricted in their ability to be involved in transactions with the Plan and Plan fiduciaries.

Note 6 Risks, Concentrations and Uncertainties

Future Employer contributions to the Plan are subject to risk arising from concentration in, and financial capacity of, the sources providing those contributions.

Benefits provided by the Plan are not insured by the Pension Benefit Guaranty Corporation under ERISA. Also, the Plan's investments are not equivalent to bank deposits and are not insured or guaranteed by the FDIC. Further, all of the Plan's investments are exposed to various risks, such as interest rate fluctuation, market volatility and credit risk. Accordingly it is at least reasonably possible in the near term, that risks would materially affect future amounts reported in the statements of net assets available for benefits, and in the statements of changes in net assets available for benefits; and consequently impact participants' Plan account balances, including vested account values at retirement date or upon another distributable event.

Note 7 Income Taxes

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize tax liabilities or assets if the Plan has taken uncertain tax positions that more likely than not, would not be sustained upon examination of the applicable governmental authorities. The Plan Administrator believes there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability, or asset, or disclosure in the financial statements.

The Plan's income tax returns are subject to examination by taxing authorities. With few exceptions, the Plan is no longer subject to examinations by taxing authorities for years before 2010. The application of tax laws and regulations to many types of transactions is susceptible to varying interpretations, and accordingly, amounts and disclosures reported in the financial statements could be changed at a later date upon final determination by the taxing authorities.

In connection with the Plan's restatement effective January 1, 2010, the Employer determined that certain amendments were required to the superceded Plan - in effect through December 31, 2009 - to comply with applicable sections of the Internal Revenue Code. Accordingly, a submission proposing certain amendments to the superceded Plan was made pursuant to the Voluntary Correction Program ("VCP") administered by the Internal Revenue Service ("Service"). In 2012 the Service issued the requested "Compliance Statement" approving the proposed corrective amendments. In conjunction with the VCP submission, the Employer also applied for a separate determination letter with respect to the superceded Plan. During 2013, the Service requested certain additional information and the Employer responded. The Employer received the requested favorable determination letter dated July 25, 2014, indicating that the superceded Plan complies with the applicable sections of the Code.

Note 8 Subsequent Events

Management has evaluated subsequent events through October 8, 2014, the date on which the financial statements were available to be issued.
