1. Description of the Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution, Plan Administrator contributions, earnings as allocated and forfeitures of terminated participants' non-vested accounts. The account is reduced by the payment of benefits and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Plan Administrator's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after 3 years of service.

Notes Receivable from Participants

Participants may obtain a loan from the balance in their account. The loan may not be less than $1,000 nor exceed the lesser of $50,000 or 50 percent of the market value of the participant's vested account balance. A participant may have only one loan outstanding at any time. Loans must be repaid to the participant's account over a period not to exceed five years, unless the loan is for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 5.00 percent, which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Benefit Payment

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in the participant's account, or annual installments only with respect to the lifetime required minimum distribution. For termination of service or for other reasons, a participant may receive the value of the vested interest in his or her accounts as a lump-sum distribution. Benefits are provided for early retirement at an attained age of 55 with 15 years of vesting service, and normal retirement at an attained age of 65, or may be deferred if the participant continues in active service with the Plan Administrator. Benefits are also provided upon specific hardship or attainment of age 59½.

Forfeitures

Forfeited non-vested accounts are used to reduce future administrative expenses, Plan Administrator contributions or can be allocated to qualifying participants. At December 31, 2013 and December 31, 2012, forfeited non-vested accounts totaled $-0- and $1,157, respectively. Also, in 2013, administrative expenses were reduced by $5,195 from forfeited non-vested accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's policy is to prepare its financial statements on the modified cash basis of accounting; consequently, certain revenue is recognized when received rather than when earned, and certain expenses are recognized when cash is disbursed rather than when the obligation is incurred. Contributions are shown on the accrual basis of accounting. Benefits are recorded when paid.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are stated at fair value as certified by the custodian, Reliance Trust Company. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividends are recorded on the modified cash basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Administrator and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and requests for distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through the date of the independent auditors' report, which is the date the financial statements were made available to be issued.

3. Fair Value Measurement

Fair value is the price at which an asset could be exchanged in a current transaction between knowledgeable, willing parties. Fair value measurements are categorized into one of three levels based on the lowest level of significant input used: Level 1 (unadjusted quoted prices in active markets); Level 2 (observable market inputs available at the measurement date, other than quoted prices included in Level 1); and Level 3 (unobservable inputs that cannot be corroborated by observable market data).

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds
Valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV is the closing price reported on the active market on which the securities are traded.

Common Collective Trust
Valued at the net asset value (NAV) of units held by the trust at year end. The NAV is based on the estimated value of the underlying investments within the trust.

There have been no changes in the methodologies used at December 31, 2013 and December 31, 2012.

The preceding methods described may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Fair Value Measurement (Continued)

The following table presents information about Plan investments measured at fair value on a recurring basis as of December 31, 2013 and December 31, 2012, and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value:

4. Financial Certification (Unaudited)

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan has elected to utilize the certification of certain financial information by Reliance Trust Company, in compliance with the audit requirements of the Act.

The following is a summary of the unaudited information included in the accompanying financial statements and supplemental schedule that was prepared and furnished to the Plan by Reliance Trust Company. The Plan has obtained a certification from Reliance Trust Company that such information is complete and accurate as of December 31, 2013 and December 31, 2012 and for the year ended December 31, 2013.

5. Party-in-Interest Transactions

Plan investments are managed by Reliance Trust Company. Reliance Trust Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the administrative management services included in administrative expenses amounted to $17,460 for the year ended December 31, 2013. Fees paid by the Plan for investment management services are included in net appreciation in fair value of investment as they are paid through revenue share, rather than a direct payment. The Plan Administrator pays directly any other expenses related to the Plan's operations.

6. Plan Termination

Although it has not expressed any intent to do so, the Plan Administrator has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination or partial termination, participants would become 100 percent vested in the Plan Administrator contribution portion of the participant's account.

7. Tax Status

The Plan uses a prototype plan document sponsored by Daily Access Corporation. Daily Access Corporation received an opinion letter from the IRS dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable provisions of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

9. Reconciliation of Form 5500 to the Financial Statements

The following is a reconciliation of net assets available for plan benefits per Form 5500 to the financial statements:

	December 31, 2013	December 31, 2012
Net assets available for plan benefits per the Form 5500	$ 3,751,253	$ 2,933,349

Other adjustment	-	1
Net assets available for plan benefits per the financial statements	$ 3,747,330	$ 2,901,052

The following is a reconciliation of the net increase per Form 5500 to the financial statements:

	For the Year Ended December 31, 2013
Net increase in net assets per the Form 5500	$ 817,904
Adjustment for uncollectible loan	6,509
Adjustment from fair value to contract value for fully benefit-responsive investment contract	21,866
Other adjustment	(1)
Net increase in net assets per the financial statements	$ 846,278

10. Corrective Distributions

For the year ended December 31, 2013, the Plan's actual deferral percentage and actual contribution percentage ("ADP/ACP") discrimination test was completed in 2014. Based on the results of this test, it was determined that the Plan had excess contributions of $26,967. These excess contributions were refunded to plan participants in 2014.

For the year ended December 31, 2012, the Plan's actual deferral percentage and actual contribution percentage ("ADP/ACP") discrimination test was completed in 2013. Based on the results of this test, it was determined that the Plan had excess contributions of $31,698. These excess contributions were refunded to plan participants in 2013.
