INDEPENDENT AUDITOR'S REPORT

The Plan Administrator
Brazos Electric Power Cooperative, Inc.
Retiree Welfare Benefit Plan:

Report on the Financial Statements

We have audited the accompanying financial statements of Brazos Electric Power Cooperative, Inc. Retiree Welfare Benefit Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Auditor's Responsibility (continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of December 31, 2013 and 2012, and the changes in its financial status for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Brazos Electric Power Cooperative, Inc.
Retiree Welfare Benefit Plan

Notes to Financial Statements

December 31, 2013 and 2012

(1) Description of Plan

The following brief description of the Brazos Electric Power Cooperative, Inc. (the Company) Retiree Welfare Benefit Plan (the Plan) provides only general information. Participants should refer to the employee handbook and Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan provides medical, dental, and life insurance benefits to retired employees of the Company. For employees hired prior to October 1, 1990, an employee is eligible to participate in the Plan upon retirement if the employee is age 55 with ten years of service at the Company after age 45. For employees hired on or after October 1, 1990, an employee is eligible to participate in the Plan upon retirement if the employee is age 55 with twenty years of service at the Company after age 35. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Plan Benefits

Participants may elect lifetime medical, dental, and/or life insurance coverage for themselves, their beneficiaries, and dependents upon retirement from the Company. The benefits to which participants are entitled vary based on age, retirement date, and years of service.

The Plan is self-insured for medical benefits related to retirees under the age of 65. For medical benefits related to retirees 65 and older and for all dental and life insurance benefits, the Plan is fully insured.

(c) Funding Policy

The Company makes contributions to the Plan to cover certain medical claims, insurance premium costs, and administrative expenses. Participant contributions represent their portion of insurance premium costs based on their age, retirement date, and years of service. Participants can optionally continue up to $20,000 of basic life insurance in effect prior to their retirement. Retiree life insurance premiums are fixed at retirement.

Notes to Financial Statements
(Continued)

(1) Description of Plan (continued)

(c) Funding Policy (continued)

Retiree contribution rates for medical and dental benefits are as follows (in general):

Participants Hired	***Retiree Contribution***
Prior to October 1, 1990	Retirees with ten or more years of service from age 45 contribute from 15% to 33% of estimated cost of providing their postretirement benefits based on date of retirement occurring on October 1, 1990 an thereafter. All other retirees pay 100% of the estimated costs.
On or after October 1, 1990 and prior to January 1, 1997	Retirees with twenty or more years of service from age 35 contribute 75% of estimated cost of providing their postretirement benefits. All other retirees pay 100% of the estimated costs.
On or after January 1, 1997	Retirees pay 100% of estimated cost of providing their postretirement benefits.

A closed group of employees retired as of October 1, 1990 pay $10 a month if under age 65 and $6 a month if age 65 or older for medical benefits. This closed group pays $3 a month for dental benefits.

Retiree contribution rates for life insurance benefits are as follows (in general):

Participants Retired	***Retiree Contribution***
Prior to October 1, 1990	Retirees contribute $1.89 per thousand of life insurance coverage per month, and the Company pays the balance of the cost up to $20,000 of coverage.

(Continued)

(1) Description of Plan (continued)

(c) Funding Policy (continued)

Participants Retired	***Retiree Contribution***
On or after October 1, 1990	The Company pays 50% of the cost for providing up to $10,000 of coverage; retirees contribute the remaining 50% and 100% of any optional coverage above $10,000.

The Company makes contributions to the Plan as needed to fund any claims in excess of participants' contributions. Any deficiency of the Plan's net assets over benefit obligations is funded by the Company on a pay-as-you-go basis.

Although they have not expressed any intention to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

(d) Stop Loss Coverage

The Plan has entered into a stop-loss insurance arrangement in an effort to limit its exposure for self-insured benefits (individual participant claims over a specific dollar amount as well as its aggregate exposure for all claims).

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

(b) Investments

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(2) Summary of Significant Accounting Policies (continued)

(c) Risks and Uncertainties

The Plan invests in various mutual funds. Mutual funds are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates, health care inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(d) Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

(e) Stop Loss

Premiums for stop-loss insurance are included in insurance premiums paid in the accompanying statements of changes in net assets available for benefits. Stop-loss refunds have been netted medical claims paid for participants in the accompanying statements of changes in net assets available for benefits.

(f) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, benefit obligations and changes therein, liabilities and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(3) Investments

The following table presents the fair values of investments held at December 31, 2013 and 2012. Investments that represent five percent or more of the Plan's net assets available for benefits are separately identified.

(3) Investments

	2013	2012
Mutual funds:		
Short-Term Bond Fund	$ 1,874,147	1,843,990
Value Equity Fund	3,768,710	2,776,500
	$ 5,642,857	4,620,490

During 2013 and 2012, the Plan's investments (including investments bought, sold and held during the year) appreciated in value by $930,199 and $305,540, respectively.

(4) Tax Status

The Plan's assets are held in a trust and income generated from such assets is tax-exempt. The Plan administrator and the Plan's tax counsel believe that the Plan is currently being operated in compliance with applicable sections of the Internal Revenue Code to continue to qualify for tax-exempt status.

The Plan is no longer subject to examination by the Internal Revenue Service for years prior to 2010.

(5) Plan Benefit Obligations

The accumulated postretirement benefit obligation represents the actuarial present value of those estimated future benefits that are attributed to employee service rendered to the valuation date. Postretirement benefits include future benefits expected to be paid to or for (1) currently retired employees and their beneficiaries and dependents and (2) active employees and their beneficiaries and dependents after retirement from service with the Company.

The actuarial present value of the accumulated postretirement benefit obligation is determined by the Plan's actuary, Towers Watson, and is the amount that results from applying actuarial assumptions to adjust the accumulated benefit obligation to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or termination). The disclosures below were obtained from the December 31, 2013 actuarial valuation report. The significant actuarial assumptions used in the valuation as of December 31, 2013 were (a) life expectancy of participants (RP-2000 mortality tables for males and females projected to 2020; for 2012, the 1994 Group Annuity Mortality Table projected to 2010

was utilized), (b) retirement age assumptions (the assumed weighted average retirement age is 65 for both years), (c) discount rate (5.10%; for 2012, the discount rate was 4.16%), and (d) assumed rate of return (4.45% for both years). These actuarial assumption changes in 2013 decreased the accumulated postretirement benefit obligation by approximately $5.1 million.

For measurement purposes at December 31, 2013, a 7.5% annual rate of increase in the per capita cost of covered health care benefits was assumed. The rate was assumed to decrease gradually to 5% by 2019 and remain at that level thereafter. The health care cost trend rate assumption has a significant effect on the amounts reported. If the assumed rate increased by one percentage point in each year, that would increase the obligation as of December 31, 2013 by $4,365,587.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the postretirement benefit obligation.

The following table presents the Plan's benefit obligation at December 31, 2013:

Accumulated postretirement benefit obligation:	
Actives not yet eligible	$ 7,098,837
Actives fully eligible	9,536,822
Retirees and dependents	13,694,670
	$ 30,330,329

The net change in the Plan's accumulated postretirement benefit obligation during 2013 is as follows:

Accumulated postretirement benefit obligation - beginning of year	$ 39,445,600
Actuarial loss	(10,714,044)
Benefits paid	(1,784,334)
Participants' contributions	369,307
Service cost	1,453,100
Interest cost	1,560,700
Accumulated postretirement benefit obligation - end of year	$ 30,330,329

(5) Plan Benefits (continued)

In addition, the Plan is self-funded for certain medical benefits. Claims payable of $16,514 and $37,831 at December 31, 2013 and 2012, respectively, including amounts incurred but not reported, are included in addition to the above benefit obligation. The provision for claims incurred but not reported is based on historical experience.

On December 8, 2003, the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act) for employers sponsoring postretirement health care plans that provide prescription drug benefits was signed into law. The Act introduces a prescription drug benefit under Medicare, as well as a federal subsidy to sponsors of retiree health care benefit plans providing a benefit that is at least actuarially equivalent to Medicare Part D(1).

Under the Act, the Medicare subsidy amount is received directly by the plan sponsor and not the related plan. Further, the plan sponsor is not required to use the subsidy amount to fund postretirement benefits and may use the subsidy for any valid business purpose. The accumulated postretirement benefit obligation information and the changes in the accumulated benefit obligation information do not reflect any amount associated with the Medicare subsidy because the plan is not directly entitled to the Medicare subsidy.

(6) Party-In-Interest Transactions

The Plan has not considered Company contributions to the Plan or premiums and expenses paid by the Plan for participants as party-in-interest transactions.

(7) Fair Value Hierarchy and Measurements

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Brazos Electric Power Cooperative, Inc.

Notes to Financial Statements
(Continued)

(7) Fair Value Hierarchy and Measurements (continued)

- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a financial instrument in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2013 and 2012:

		Fair Value Measurements at Reporting Date Using		
	Fair Value December 31, 2013	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

(8) Subsequent Events

The Plan has evaluated subsequent events from the balance sheet date through October 3, 2014, the date at which the financial statements were available to be issued, and determined there are no items to disclose.
