Note 1 - Description of Plan

The following description of the Clever Devices Ltd. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1997 and is a defined contribution profit sharing plan covering all eligible employees. The Plan's sponsor is Clever Devices Ltd. (the "Company" or "Employer" or "Sponsor").

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute a percentage of their salary, up to the maximum amount permitted by law. Participants who have attained age 50 before the end of the Plan year, are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company provides a dollar for dollar match up to and including the first $3,000 contributed by an employee to his or her 401(k) plan. In addition, the Company, at its discretion may make profit sharing contributions to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the employer's contribution, if any, Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants shall have a vested percentage in their employer contribution accounts according to a graded vesting schedule based on years of service.

Note 1 - Description of Plan (cont'd.)

Vesting (cont'd.)

Participants' accrued benefits from voluntary pre-tax salary reduction contributions and related interest and investment gains and losses are 100% vested at all times. A participant is 100% vested if termination is due to death or disability. Participants' accrued benefits from employer contributions and related interest and investment gains and losses are vested as follows:

Years of Service	Vesting Percentage
Less than 3	0%
3 through 7	20% in each year

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of 50% of their vested account balance or $50,000. If a loan was taken in the previous 12 months, the amount of the highest outstanding loan balance is deducted from the amount the participant may borrow. Loans are secured by the balance in the participant's account. Loans will be subject to interest charges equal to the annual effective prime rate plus 1.5%.

Loans must normally be repaid within such period as agreed to between the participant and the Plan, up to a maximum of five years. Any outstanding loans must be fully repaid when employment terminates. At December 31, 2013, the interest rate on all loans was 4.75% per annum. The loans had various maturity dates.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant or beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows certain withdrawals at age 59 ½ and hardship withdrawals.

Forfeitures

The nonvested portion of a participant's account is forfeited when employment is terminated and allocated to the other participant accounts. At December 31, 2013, there were no forfeited nonvested accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments in common collective trusts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the common collective trusts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid by the Employer, except for $51,246 which was paid by the Plan.

Note 3 - Information Prepared and Certified By Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by John Hancock Life Insurance Company of New York, the custodian of the Plan, at December 31, 2013 and 2012 and for the year ended December 31, 2013. This information has not been audited by the independent auditors.

	2013	2012
Cash	$ 5,057	$ 672
Investments, at fair value, pooled separate accounts	10,823,489	7,314,203
Common collective trust, at fair value	469,212	376,691
	$ 11,297,758	$ 7,691,566
Net appreciation in fair value of investments	$ 1,729,170	
Interest on notes receivable from participants	$ 7,110	

Note 4 - Investments

At December 31, 2013 and 2012, investments that represented 5% or more of the Plan's net assets available for benefits consisted of the following:

	2013	2012
Pooled Separate Accounts:		
Lifestyle Balanced	$ 1,859,609	$ 1,213,092
Lifestyle Growth	2,475,976	1,603,379
Lifestyle Aggressive	698,137	436,498
Total Return Fund	*	512,634
Index 500	733,823	404,603

* Fund balance was not greater than 5% of net assets at December 31, 2013.

Note 5 - Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 5 - Fair Value Measurements (cont'd.)

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2013 and 2012.

The Level 1 assets are pooled separate accounts that invest in mutual funds. The fair value of the underlying mutual funds are publicly quoted pricing inputs and are used in determining the net asset value ("NAV") of units of pooled separate accounts held by the Plan at year-end.

The Level 2 inputs relate to a stable value fund whose underlying assets are common collective trusts which invest in group annuity contracts ("GACs") and synthetic guaranteed investment contracts ("GICs") issued by life insurance companies, banks and other financial institutions with excess cash invested in cash equivalents. The objective of the stable value fund is to provide preservation of capital and relatively stable returns regardless of the volatility of the financial markets. The estimated fair value of the stable value fund is the net asset value, exclusive of the adjustment to contract value.

In the event current market prices or quotations are deemed not readily available, the fair value is determined using alternative fair valuation methods. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Fair Value Measurements (cont'd.)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2013 and 2012:

Note 6 - Common Collective Trust

The Plan invests in a common collective trust, which holds fully benefit-responsive investments. John Hancock Life Insurance Company of New York maintains the contributions in a general account. Each account is credited with participant contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed interest contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events may limit the ability of the Plan to transact at contract value. Such events include but may not be limited to the following: (1) complete or partial termination of the Plan, (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The average yields for 2013 and 2012 are as follows:

Average yields:	2013	2012
Based on actual earnings	1.91%	1.57%
Based on interest rate credited to participants	2.27%	2.61%

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 - Related Party Transactions

Certain Plan investments are pooled separate accounts managed by John Hancock Life Insurance Company of New York, custodian as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment services amounted to $51,246 for the year ended December 31, 2013.

Note 9 - Tax Status

The Internal Revenue Service has determined and informed the Plan by a letter dated March 31, 2008 that the Plan based on its initial filing as a Prototype Plan, is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt at the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan and recognize a tax benefit only if it is more likely than not that the tax position would be sustained upon examination by the Internal Revenue Service.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

Note 11 - Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012 to the Form 5500:

Note 11 - Reconciliation of Financial Statements to the Form 5500 (cont'd.)

During this period, there were no material subsequent events requiring disclosure.
