1. DESCRIPTION OF PLAN

The following description of the Alorica 401(K) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution and profit sharing plan which was adopted by Alorica, Inc., (the "Company") effective December 31, 2007, restated effective November 1, 2011 and is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986, as amended. The purpose of the Plan is to provide retirement benefits for substantially all nonunion employees of the Company who are age 18 and over and have completed at least 90 days of credited service. An eligible employee must have completed at least 6 months of credited service to participate in the Plan for purposes of the match and employer non-elective contributions.

Contributions

Participants may contribute a percentage of their pretax annual compensation, as defined in the Plan, limited to the maximum deferral limitation, as defined in the Internal Revenue Code. Participants may also elect to designate all or any portion of their elective deferral as after-tax contributions to a Roth account. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company can also make discretionary matching contributions. Employer contributions were $101,313 and $74,157 for the years ended December 31, 2013 and 2012, respectively.

Participant Accounts

Each account is credited with the participant's contribution and an allocation of (a) the Company's contributions, (b) the Plan's earnings, and (c) forfeitures of Company contributions, and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations of earnings are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Retirement, Death and Disability

A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer contribution is based on years of continuous service. A participant is 100% vested in the employer contribution after 5 years of credited service.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may receive the value of the vested interest in his or her account as lump-sum distribution.

Notes Receivable from Participants

Participants may borrow from the Plan a minimum of $1,000 up to an aggregate amount not exceeding the lesser of: (a) $50,000 or (b) 50% of the participant's vested account balance. The loans are secured by the balance in the participant's account and bear interest based on comparable market rates. Principal and interest is paid through payroll deduction in substantially equal payments over the life of the loan.

1. DESCRIPTION OF PLAN (CONTINUED)

Forfeitures

Participants' forfeitures of Company distributions can be used to pay administrative expenses of the Plan. To the extent forfeitures are not used to pay administrative expenses, they may be used to reduce future Company contributions. The amount of forfeitures used for the years ended December 31, 2013 and 2012 was diminutive.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") using the accrual basis of accounting.

Fully Benefit-Responsive Investment Contracts

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates, including those regarding fair value, and assumptions that affect certain reported amounts and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of change in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Costs of administering the Plan are paid by the Company, except for investment and transaction-based fees that are charged to the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Excess Contributions

Refunds of excess participant deferral contributions may be required to satisfy the relevant nondiscrimination provisions of the Plan. Such refunds are accrued as a liability and reduction in contributions in the Plan year in which the excess deferrals were made to the Plan.

Adoption of Accounting Pronouncement

Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in ASU No. 2011-04

In July 2013, the Financial Accounting Standards Board ("FASB") issued an accounting standard update which defers indefinitely the effective date of certain required disclosures in Accounting Standards Update No. 2011-04 of quantitative information regarding the significant unobservable inputs used in Level 3 fair value measurements of investments held by a plan not subject to the Securities and Exchange Commission's filing requirements ("nonpublic employee benefit plan") in its plan sponsor's own nonpublic entity equity securities as well as equity securities of its plan sponsor's nonpublic affiliated entities. The update does not defer the effective date for certain quantitative disclosures for other nonpublic entity equity securities held in the nonpublic employee benefit plan or any qualitative disclosures. The update is effective upon issuance for any financial statements that have not been issued. The implementation of this update did not have a material effect on the Plan's financial statements.

Subsequent Events

The Plan has evaluated events through September 30, 2014, which is the date the financial statements were available to be issued.

3. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their account balances.

4. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian, Massachusetts Mutual Life Insurance Company ("Mass Mutual"), has certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate.

4. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN (CONTINUED)

	2013	2012
Investments, at fair value	$ 29,947,903	$ 28,115,529
Notes receivable from participants	924,332	945,669
	$ 30,872,235	**$ 29,061,198**

Interest income on notes receivable from participants	**$ 39,721**	**$ 41,443**

5. INVESTMENTS

The following presents the fair values of investments that represent five percent or more of the Plan's net assets available for benefits as of December 31, :

	2013	2012
Mass Mutual SAGIC Diversified Bond	$ 4,425,861	$ 5,032,680
JP Morgan Smart Retirement 2040 Fund	3,742,804	3,281,534
JP Morgan Smart Retirement 2030 Fund	3,718,223	3,255,349
JP Morgan Smart Retirement 2020 Fund	1,955,653	1,836,080
PIMCO Total Return Fund	2,075,448	2,376,057
William Blair Growth Fund	1,601,301	*

* This fund did not represent 5% or more of the Plan's net assets as of December 31 for the corresponding year.

The Plan's investment accounts (including gains and losses on investments bought and sold, as well as held during the years ended December 31, 2013 and 2012) appreciated in value by $3,794,404 and $2,642,954 respectively.

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan invests in an investment contract that invests in underlying managed portfolios, collective trust vehicles and individual mutual funds. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. The shares in the investment contract were subject to a market value adjustment totaling $(70,165) and $(247,597) as of December 31, 2013 and 2012, respectively, in order to report the investment contract at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate was approximately 2.97% and 3.18% for 2013 and 2012, respectively. The fair value of shares in the investment contract at December 31, 2013 and 2012 was $4,425,861 and $5,032,680, respectively.

7. FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

7. FAIR VALUE MEASUREMENTS (CONTINUED)

The three levels of the fair value hierarchy are described as follows.

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Separate Account Guaranteed Interest Contract ("SAGIC"): This investment is a market value separate account investment option with an insurance company general investment account guarantee and stated rate of return, whereby participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their balance in the SAGIC investment option at contract value. Contract value represents contributions plus credited interest less participant withdrawals and fees. The fair value of the Plan's investment in the SAGIC is based upon its interest in the fair value of the underlying separate account as determined by its participation units in the separate investment account; the fair value of the contractual guarantee provided by the insurance company through its general account has been determined to be immaterial, and there are no reserves against contract value for credit risk of the issuer or otherwise (Level 3 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

8. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. Certain Plan investments are units of participation in a Separate Account Guaranteed Interest Contract issued by Mass Mutual, shares of mutual funds and collective trusts issued by Plan trustees or affiliates of the trustees, and, therefore, qualify as party-in-interest transactions. Notes receivable from participants are also considered party-in-interest transactions. Some administrative expenses of the Plan are paid directly by the Company.

9. TAX STATUS

The Plan adopted its latest Prototype Non-standardized Profit Sharing Plan with a cash or deferral arrangement developed by Mass Mutual, effective December 2007, which obtained a favorable Internal Revenue Service ("IRS") determination letter on May 11, 2009, in which the IRS stated that the form of the underlying prototype plan was acceptable under provisions of the Internal Revenue Code (the "Code") and that any employer adopting this form of the plan will be considered to have a plan qualified under the Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there is currently no audit for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

10. EXCESS CONTRIBUTIONS PAYABLE

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions and totaled $377,238 and $318,427 for the years ended December 31, 2013 and 2012, respectively. The Plan distributed the 2013 and 2012 excess contributions to the applicable participants prior to March 15, 2014 and 2013, respectively.
