Note 1 - Plan Description

The following description of QRM 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering employees of Quantitative Risk Management, Inc. (the "Company"). Any employee of the Company who has earned income within the United States of America is eligible to participate in the Plan upon date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee 401(k) deferral contributions up to a maximum of 100 percent of annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code (IRC). Participants may also make voluntary after-tax Roth 401(k) contributions which are also subject to IRC limitations. The Plan also accepts participant contributions in the form of a rollover of funds from another qualified plan.

The employer makes a safe harbor matching contribution equal to 100 percent of the first 3 percent (in relation to compensation) of each participant's contribution and 50 percent of the next 2 percent (in relation to compensation) of each participant's contribution.

Participant Accounts - Each participant's account is credited with the participant's contributions, the employer's matching contribution and allocations of plan earnings, and charged with allocations of plan losses and administrative expenses. Allocations are based on participant compensation or participant-directed account balances, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participant and employer matching contributions and related earnings are fully vested at all times and are not subject to forfeiture for any reason.

Benefit Payments - Benefit payments are generally paid in a lump sum as soon as practicable after employment with the Company has ended. Participants may elect to defer commencement of distributions until April of the calendar year after they attain the age of 70½. Until such time as the funds are distributed, the participant is entitled to receive a pro-rata share of fund earnings. Benefits may also be paid directly to an eligible retirement plan as a rollover distribution.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Vanguard Fiduciary Trust Company or its affiliates. Vanguard Fiduciary Trust Company is the trustee of the Plan and therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 1 - Plan Description (Continued)

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, based on quoted market values. See Note 3 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 8, 2014, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

Note 3 - Fair Value Measurements (Continued)

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2013

	Level 1	Level 2	Level 3	Balance at December 31, 2013

Total	$ 29,293,851	$ -	$ -	$ 29,293,851

Note 3 - Fair Value Measurements (Continued)

Assets Measured at Fair Value on a Recurring Basis at December 31, 2012

	Level 1	Level 2	Level 3	Balance at December 31, 2012
Mutual funds:				
Money market	$ 1,358,654	$ -	$ -	$ 1,358,654
Fixed income	2,209,629	-	-	2,209,629

Other	165,094	-	-	165,094
Total	$ 21,504,847	$ -	$ -	$ 21,504,847

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

There were no transfers between levels of the fair value hierarchy during the reporting period.

Note 4 - Unaudited Information

Vanguard Fiduciary Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Investments that comprise a significant portion of end of year net assets are as follows:

	2013	2012
Vanguard mutual funds:		
Target Retirement 2035	$ 2,934,660	$ 2,591,582
Target Retirement 2045	2,744,384	2,133,098
500 Index	2,572,267	1,535,616
Prime Money Market	2,005,166	1,358,654
Emerging Markets Stock Index	1,214,270	1,176,071

Note 5 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) stating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

Note 5 - Tax Status (Continued)

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.
