Riverhead Building Supply Corp. 401(k) Savings Plan

NOTES TO FINANCIAL STATEMENTS

1. **Description of Plan:**

The following description of the Riverhead Building Supply Corp. (the Company) 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution Plan covering non-union employees of the Company who are age 21 or older and,

- if classified as "full time", have completed 90 days of employment, or
- if classified as "part time", have completed 1,000 hours of service in a year.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may elect to have compensation deferred by up to the maximum percentage allowable, not to exceed the statutory limits. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Effective June 10, 2013, the Plan allows for the election of after-tax contributions (Roth contributions). The Company, at the option of the Company's Board of Directors, may make a discretionary percentage match of 0% to 100% of the participant's elective deferrals and has the option to limit the amount of matching contribution to a specified percentage of compensation or a specified dollar amount.

Eligible employees who have not completed a salary deferral agreement will automatically have 3% withheld from their pay each payroll period, which will be contributed to the Plan as a salary deferral. Eligible employees may enter a salary deferral arrangement at any time to select an alternative deferral amount or elect not to defer under the Plan. Effective January 1, 2013, the automatic deferral amount will increase each year by 1% of compensation up to a maximum of 10% of compensation unless specified otherwise by the eligible employee.

Each year, the employer may, in its discretion, make a profit sharing contribution. The employer will determine the amount of the contribution to be made on behalf of each allocation group. Employees are placed in an allocation group "tier" based on the tier definitions in the Plan document.

The contribution is allocated evenly in proportion to Plan compensation within each group of employees. The compensation computation period is the Plan year. For the year ended December 31, 2013, the employer profit sharing contribution received by the Plan was $807,685.

Riverhead Building Supply Corp. 401(k) Savings Plan

NOTES TO FINANCIAL STATEMENTS

1. **Description of Plan (continued):**

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, if any, (b) Plan earnings, net of an allocation of administrative expenses and (c) participant initiated charges. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary employer match contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service and a three year cliff vesting schedule. Vesting in the Company's profit sharing contribution and related earnings is based on years of service and is determined as follows:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Investment options: Participants direct the investment of their contribution and their share of the employer contribution into various investment options offered by the Plan. Available investment options include both a Guaranteed Interest Fund and Pooled Separate Investment Accounts. The principal of the Guaranteed Interest Fund is guaranteed as long as the contract is in force. The principal of the Pooled Separate Investment Account is not guaranteed. Due to market volatility, these accounts are subject to market risk.

Participants may change their investment options daily. Transfers into certain investment options are prohibited if the participant made a purchase followed by a sale involving the same investment within the previous sixty days.

Some participants enter the Plan via automatic enrollment. Deferrals of participants that enter the Plan via automatic enrollment are invested into the Target Date investment options according to their age in relation to the "normal retirement age".

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of:

1) $50,000 reduced by the excess (if any) of the highest outstanding balance of loans during the one year period ending on the day before the loan application is approved by the trustees over the outstanding balance of loans from the Plan on the date the loan application is approved, or

2) 50% of the present value of the non-forfeitable accrued benefit of the participant.

Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loans fund. The Plan does not permit loan payments to exceed five years, even for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at a rate of 1.00% over prime. During the years ended December 31, 2013 and 2012, interest rates ranged from 4.25% to 6.00%. Principal and interest is paid ratably through weekly payroll deductions. The default of a loan is deemed a taxable distribution of the unpaid balance.

Payment of benefits: On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum payment or a direct rollover equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum payment, a direct rollover or he or she may choose to remain in the Plan. For continuing employees' not reaching age 59 1/2, a participant may only withdraw his or her elective deferrals in cases of financial hardship, as set forth in the Plan.

Forfeited accounts: During the years ended December 31, 2013 and 2012, non-vested accounts were forfeited in the amounts of $17,871 and $1,418, respectively. Notwithstanding any other provision of the Plan to the contrary, any forfeitures not used to pay Plan expenses shall reduce the amount of any discretionary employer contribution. Also, in 2013, $1,383 in Plan expenses were paid from forfeited non-vested accounts.

2. **Summary of significant accounting policies:**

Basis of accounting: The financial statements of the Plan are prepared using the modified cash method of accounting, which is a special purpose framework of accounting other than U.S. generally accepted accounting principles.

2. **Summary of significant accounting policies (continued):**

Basis of accounting (continued):

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes receivable from participants: Amounts participants borrow from their fund accounts are reported at their unpaid principal balances plus any accrued but unpaid interest.

Estimates: The preparation of financial statements in conformity with other comprehensive basis of accounting requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as received. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Funding policy: The Company's policy is to remit the participants' contributions within the allowable time period prescribed by ERISA.

Concentrations of credit, interest rate and market risk: The Plan provides participants with various investment options, which include stocks, bonds, fixed income securities (including guaranteed investment contracts), money market instruments and other investment

NOTES TO FINANCIAL STATEMENTS

2. **Summary of significant accounting policies (continued):**

Concentrations of credit, interest rate and market risk (continued):

securities. Investment securities are exposed to various risks, such as credit, interest rate and market risks. Due to the level of risks associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near-term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Expenses: Several of the investment fund options are subject to investment fees based upon a percentage of invested assets, as disclosed in each fund's prospectus. All such fees are charged directly against the fund's investment performance and thus are not separately disclosed in the accompanying financial statements. Participant loan accounts are assessed a separate fee for the administration of loans. All other administrative expenses related to the Plan may be paid by either the Sponsor or the Plan.

Subsequent events: Subsequent events have been evaluated through October 6, 2014, which is the date the financial statements were available to be issued.

3. **Investment contract with insurance company:**

In 1993, the Plan entered into a fully benefit-responsive investment contract with MassMutual Life Insurance Company (MassMutual). MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the Statements of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTES TO FINANCIAL STATEMENTS

3. **Investment contract with insurance company (continued):**

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates were 2.59% and 2.68% for 2013 and 2012, respectively. The crediting interest rate is based on an agreed-upon formula with the issuer but may not be less than the lowest rate in effect for the fund or more than the highest rate in effect for the fund.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with MassMutual. The Plan administrator believes the occurrence of such events is not probable.

MassMutual holds major credit ratings of AA+/A++/Aa2.

** Does not represent 5% or more of the Plan's net assets available for benefits at the applicable date.

4. **Investments (continued):**

As discussed in Note 1, some participants enter the Plan via automatic enrollment. These participant investments are non-participant directed. Non-participant directed amounts have been determined to be immaterial to the financial statements taken as a whole.

During 2013, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $2,633,049.

5. **Fair value measurements:**

The Plan follows the recommendations of generally accepted accounting principles, which establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

5. **Fair value measurements (continued):**

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

General Investment Account investment option (GIA): Liquidation value based on actuarial formula as defined under the terms of the contract. No observable price.

Pooled separate accounts:

- ***Separate Investment Account with underlying mutual fund investment:*** Unit value calculated based on the observable net asset value of the underlying investment.

- ***Separate Investment Account which holds a pool of securities:*** Unit value calculated based on the net assets of the underlying pool of securities.

The aforementioned methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

For those assets with fair value measured using Level 3 inputs, the Plan administrator determines the fair value measurement policies and procedure in consultation with the Company's chief financial officer and the pension committee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable input used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third party information.

5. **Fair value measurements (continued):**

The following table sets forth, by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

The amount of total gains or (losses) for the period attributable to the change in unrealized gains or (losses) relating to assets still held at December 31, 2013 and 2012, were $(103,365) and $383,819, respectively.

Unrealized gains (losses) from the guaranteed investment contract are not included in the Statement of Changes in Net Assets Available for Benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

*Transfers into and out of Level 3 are participant directed changes in investment options.

5. **Fair value measurements (continued):**

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements: The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments and the significant unobservable inputs and the ranges of values for those inputs.

Investment	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Interest Rate Range*
Guaranteed Investment Contract	$6,695,826	Market value formula	Assumed interest rate Experience rate	0.69-4.13% 1.15-6.76%

*Duration adjusted Barclay's index for assumed interest rates for past 5 years.

6. **Transactions with parties-in-interest:**

The Plan's funding vehicle, under which benefits are made in accordance with the Plan document, is a Group Annuity Contract with MassMutual. MassMutual is the Plan custodian. Therefore, these relationships qualify MassMutual as a party-in-interest. The investments with MassMutual represent 97.5% and 97.6% of net assets available for Plan benefits at December 31, 2013 and 2012, respectively.

The Plan contracts with UBS Financial Services, Inc. for investment advisory services. Therefore, this relationship also qualifies as a party-in-interest.

Administrative fees include fees for contract administration, audit services and investment advisory services. For the years ended December 31, 2013 and 2012, administration fees totaled $65,088 and $51,533, respectively.

7. **Plan termination:**

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTES TO FINANCIAL STATEMENTS

8. **Tax status:**

The Internal Revenue Service has determined and informed the Company by a letter dated April 27, 2011, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Although the Plan has been amended since receiving this determination letter, the Plan management believes that the Plan is currently designed and operating in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been made in the financial statements.

The Plan follows recommendations of accounting principles generally accepted in the United States of America, which require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income examination for years prior to 2010.

9. **Certification by Plan custodian:**

Other than the fair value of the guaranteed investment contract and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable from participants held at December 31, 2013 and 2012 and net appreciation in fair value of investments and interest for the year ended December 31, 2013, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by MassMutual (the custodian of the Plan). The contract value of the guaranteed investment contract was certified by the custodian.
