Spangler Candy Company 401(k) Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description

The following description of Spangler Candy Company 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Spangler Candy Company (the "Company") who have reached 19 years of age and who have completed 30 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 100 percent of annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants are immediately vested in employee salary and rollover contributions and any income or loss thereon. Participants not covered by a collective bargaining agreement are immediately eligible, upon entry into the Plan, to receive a 50 percent employer matching contribution on the first 4 percent of compensation that is deferred. These participants are fully vested in the employer match after three years of service.

Beginning January 1, 2011, employees are eligible to receive an additional 0-3 percent of compensation lump-sum contribution based on Company performance which is paid the following year. Participants are fully vested in this contribution immediately. Participants received a 3 percent contribution related to the 2012 plan year which was contributed in 2013 and was a receivable as of December 31, 2012. Participants also received a 3 percent contribution related to the 2013 plan year which was contributed in 2014 and is a receivable as of December 31, 2013.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions or to pay administrative expenses of the Plan and any remaining forfeitures will be allocated to participants.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, plan earnings, and forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Spangler Candy Company 401(k) Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate. Notes receivable must bear a term of no more than five years, or up to 10 years for the purchase of a primary residence, and principal and interest are paid ratably through monthly payroll deductions.

Payment of Benefits - Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or various annual annuities. Account balances less than \$5,000 are paid in a single lump sum upon termination.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company. Principal Trust Company is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets. The fully benefit-responsive insurance contract is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits (see Note 7). The fair value of the unallocated contract is based on contract value adjusted for certain contractual provisions.

All other investments are valued based on quoted market prices. See Note 5 for additional information.

Spangler Candy Company 401(k) Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 12, 2014, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Wells Fargo Advantage Growth A Fund	1,049,260	823,898

Note 4 - Tax Status

The Plan has received a favorable determination letter dated May 24, 2012 from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Accordingly, no provision for income taxes has been made in the accompanying financial statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012.

Level I - Fair values determined by Level I inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Spangler Candy Company 401(k) Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 5 - Fair Value Measurements (Continued)

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. Significant Level 3 inputs for the guaranteed investment contract include specific terms and contractual provisions outlined in the contract including the effective interest rate, composite credit rate, and surrender charge.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

There were no unfunded commitments or redemption restrictions on the investments described above.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value during 2013 and 2012.

Note 5 - Fair Value Measurements (Continued)

Changes in Level 3 assets measured at fair value on a recurring basis for the years ended December 31, 2013 and 2012 are as follows:

	Guaranteed Investment Contract
Balance at January 1, 2013	\$ 1,426,717
Purchases	502,820

Total unrealized gains	75,090

Issuances and settlements	(768,402)
Total unrealized gains	11,353
Balance at December 31, 2012	<u>\$ 1,426,717</u>

Of the Level 3 assets still held by the Plan at December 31, 2013, the unrealized gains for the years ended December 31, 2013 and 2012 were \$75,090 and \$11,353, respectively, which are recognized in the statement of changes in net assets available for benefits. Realized gains recognized in the statement of changes in net assets relate to investments in the Principle Fixed Income Guaranteed Option sold during the years ended December 31, 2013 and 2012 with proceeds totaling \$112,281 and \$768,402, respectively. During the years ended December 31, 2013 and 2012, the Plan also purchased \$502,820 and \$541,337, respectively, of Principal Fixed Income Guaranteed Option investments.

Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets and liabilities. As a result, the unrealized gains for these assets presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs.

Spangler Candy Company 401(k) Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 7 - Investment Contracts

In 2010, the Plan entered into a benefit-responsive investment contract with Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than zero. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provision; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan; or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract (GIC) does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. However, the investment contract generally imposes conditions on both the Plan and the issuer. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Plan to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the plan agreement. The issuer may be in default if it breaches a material obligation under the investment contract; makes a material misrepresentation; has a decline in its long-term credit rating below a threshold set forth in the contract; or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan were unable to obtain a replacement investment contract, withdrawing plans may experience losses if that value of the Plan's assets no longer covered by the contract is below contract value.

Spangler Candy Company 401(k) Savings Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 7 - Investment Contracts (Continued)

The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro-rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. If a GIC terminates due to a decline in the ratings of the issuer, the issuer may be required to pay to the Plan the cost of acquiring a replacement contract (i.e., replacement cost) within the meaning of the contract. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice.

As described in Note 2, because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the GIC. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

	2013	2012
Average yields for GICs and Synthetic GICs:		
Based on actual earnings	2.04 %	2.48 %
Based on interest rate credited to participants	1.39 %	1.83 %

Note 8 - Delinquent Contributions

During 2012, the Company remitted certain contributions to the Plan after the Department of Labor's required timeframe. The delinquent contributions were remitted in the plan years ended December 31, 2012 and 2013, along with lost earnings, which were remitted in the plan year ended December 31, 2013.
