HARRISON RETIREMENT AND SAVINGS PROGRAM

Notes to Financial Statements

For the Year Ended December 31, 2013

Note 1 - Description of the Plan

The following description of Harrison Retirement and Savings Program (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan, established by Harrison Medical Center (the Employer) under the provisions of Section 403(b) of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan Administration - Lincoln Financial Group (Lincoln) is the trustee and recordkeeper of the Plan. Wilmington Trust (Wilmington) is the custodian of the Plan.

Eligibility - All employees other than leased employees and nonresident aliens may participate in the deferral portion of the Plan. There are no age or service requirements to participate in the deferral and employer matching portions of the Plan. All employees other than leased employees, nonresident aliens, employees covered by a collective bargaining agreement, employees accruing a benefit under the Harrison Medical Center Retirement Plan, per diem employees, on-call employees, interns, and individuals who become employees as a result of an asset or stock acquisition, merger, or other similar transaction unless and until the Employer shall declare such employment be covered under the Plan, are eligible to participate in the employer matching and employer nonelective portion of the Plan. Employees are eligible to receive an employer nonelective contribution after completing 1,000 hours of service in a 12 consecutive month period. Eligible employees must complete 1,000 hours of service during the plan year and be employed on the last day of the plan year to be eligible to receive the employer nonelective contribution.

Contributions - Eligible employees may elect to defer up to 100% of their compensation as pre-tax contributions. Participants who have attained age 50 before the end of the plan year and participants completing 15 years of service with the Employer are eligible to make catch-up contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

The Employer matches 50% of a participant's contribution not to exceed 4% of eligible compensation. On an annual basis, the Employer may make an additional discretionary nonelective contribution based on each participant's years of eligible service. For the year ended December 31, 2013, the employer nonelective contribution allocated to participant accounts was 3% of eligible compensation for employees with 0 to 4 credited years of service for the Employer and 5% of eligible compensation for employees with 5 or more credited years of service for the Employer. The employer nonelective contribution was \$5,007,517 for the year ended December 31, 2013 and was funded subsequent to year-end. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts - Participants are allowed to direct the investment of all contributions into various investment options that offer a diversity of investment risk and return. Each participant's account is credited with any contributions made to the account as well as increases or decreases in the market value of investments. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan Transfers - At the direction of the Employer, for a class of employees who are participants or beneficiaries in another plan under Code Section 403(b), the Employer may permit a transfer of assets into the Plan. Plan transfers are recorded with employee rollover contributions on the statement of changes in net assets available for benefits.

HARRISON RETIREMENT AND SAVINGS PROGRAM

Notes to Financial Statements For the Year Ended December 31, 2013

Note 1 - Continued

Payment of Benefits - Upon termination of service, death, disability, retirement, or attainment of age 59 ½, a participant may elect to receive a distribution of his or her vested account balance. The distribution may be in the form of a lump-sum payment. The Plan also provides for hardship withdrawals in accordance with provisions specified in the plan document.

Vesting - Participants are immediately vested in their contributions and employer matching contributions plus earnings. Employer discretionary contributions vest ratably over five years.

Forfeitures - Forfeitures of the nonvested portion of terminated participants' accounts are to be used to pay plan expenses and then to reduce future employer contributions. There was \$219,848 in forfeitures used for the year ended December 31, 2013 to offset employer contributions. At December 31, 2013 and 2012, there were \$10,350 and \$107,005, respectively, in unapplied forfeitures available for the Employer to use as described above.

Notes Receivable from Participants - A participant may borrow the lesser of \$50,000 or 50% of his or her vested account balance, with a minimum loan amount of \$1,000. Loans are payable through payroll deductions over periods ranging from one to five years, unless the loan is used to acquire a principal residence, in which case the limitation is 15 years. The interest rate applied to new loans is based on prime plus 1%. Participants may only have one loan outstanding at a time.

Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fixed annuity contracts at contract value, which approximates fair value.

Use of Estimates - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 - Continued

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance. Accrued but unpaid interest, if any, would not have a material impact on the Plan's financial statements. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Investment and Administrative Expenses - The Plan's investment options are subject to management fees based on a percentage of invested assets. All such fees are charged directly against the investment performance and, therefore, are not separately disclosed in the accompanying financial statements. Investments, loans and distributions are subject to service fees paid by plan participants. All other administrative expenses related to the Plan are paid by the Employer.

Subsequent Events - Plan management has evaluated subsequent events through October 8, 2014, the date on which the Plan's financial statements were available to be issued.

Note 3 - Fair Value Measurements

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 3 - Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Fixed Annuity Contracts - The Lincoln Stable Value Account J76 is a fixed annuity contract issued by The Lincoln National Life Insurance Company (Lincoln National Life). Contract value approximates a discounted cash flow value which is calculated by using an appropriate risk-adjusted market discount rate which correlates with Lincoln National Life's historical crediting rates. Interest rates are adjusted to market quarterly. Accordingly, contract value, which represents net contributions plus interest at the contract rate, approximates fair value.

Interest-Bearing Cash - Valued at cost plus accrued interest, which approximates fair value.

The valuation methodologies used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

Note 5 - Investment in Fixed Annuity Contracts

Participants may choose to invest in the Lincoln National Life Stable Value Account J76 which are fully benefit responsive fixed annuity contracts issued by Lincoln National Life. Participants may ordinarily direct the withdrawal or transfers of all or a portion of their account balance at contract value within reasonable timeframes. The account is credited with participant contributions plus earnings and charged for participant withdrawals and administrative expenses. The issuer is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan. The guaranteed interest rates are determined quarterly and applied to the entire contract balance. The crediting interest rates in effect for 2013 were 1.75% and ranged from 1.75% to 2.00% for the year ended December 31, 2012. The average yield earned on the contracts was 1.75% for the year ended December 31, 2013.

Participants are able to take 100% of the value of their account for bona fide plan benefits, such as retirement, termination, hardship, etc. Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events may include contract discontinuation in which a market value adjustment may apply. The plan sponsor does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 6 - Federal Income Taxes

The Plan has been designed to qualify under Section 403(b) of the IRC. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for plan participants under Section 403(b). Management believes it has operated the Plan in a manner that did not jeopardize the tax benefits associated with these arrangements.

The Plan is subject to audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan's management believes it is no longer subject to income tax examinations for years prior to 2010.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 8 - Information Certified by Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2013 and 2012, and investment income for the year ended December 31, 2013, that is disclosed in the accompanying financial statements and supplementary information, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the custodian of the Plan.

Note 9 - Party-In-Interest

Plan investments include fixed annuity contracts offered by Lincoln National Life, an affiliate of Lincoln Financial Group, the recordkeeper of the Plan. Therefore, transactions with the investment and fees charged by Lincoln National Life for managing the investment qualify as party-in-interest transactions which are exempt from prohibited transaction rules. For the year ended December 31, 2013, Lincoln was paid \$64,951 from plan assets.

Note 10 - Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their employer contributions.

Note 11 - Reconciliation of Financial Statements to Form 5500
