Fortune Plastics, Inc. 401 (k) Pension Plan
Notes to the Financial Statements
As of and for the Years Ended December 31, 2013 and 2012

Note 1 – Description of the Plan

The following description of the Fortune Plastics, Inc. 401 (k) Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan, established June 30, 1969. Fortune Plastics, Inc. (the Company) established the Plan to provide employees with a systematic means of saving and investing for the future. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All employees of the Company, with one year of service and at least 1,000 hours of service who have attained 21 years of age, are eligible to participate. Effective January 1, 2014 the Plan was merged into the HLX PLY Holdings, Inc. 401 (k) Plan and will be subject to the specifications of that Plan.

Contributions – Participants are allowed to contribute to the Plan by deferring their compensation on a pre-tax basis in accordance with Section 401 (k) of the Internal Revenue Code (IRC) with the maximum amount a participant can contribute and defer being limited to certain limits as established by tax laws. The Plan also allows individuals who will be at least age 50 by the end of the Plan year to make an additional catch-up contribution, which is limited to \$5,500 for the years ended December 31, 2013 and 2012. For those employees that became participants on or after January 1, 2007, there is an automatic deferral 3% unless they make an alternative deferral election. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Company makes matching contributions up to 4% of a participants' compensation for a Plan year.

The following table sets forth the portion of employer contribution to which an employee is entitled, based on age and years of service.

Age	Years of Service				
	1 - 4	1 - 4	1 - 4	1 - 4	20+
21-29	25%	50%	75%	0%	0%
30-39	50%	50%	75%	100%	125%
40-49	75%	75%	75%	100%	125%
50-59	100%	100%	100%	100%	125%
60+	100%	100%	125%	125%	125%

The Company may also make a discretionary profit-sharing contribution to the Plan, which will be allocated among eligible participant accounts based upon a ratio of each participant's compensation for that Plan year to total compensation of all participants for that Plan year. There was no discretionary profit-sharing contribution in 2013 or 2012.

Notes to the Financial Statements
As of and for the Years Ended December 31, 2013 and 2012

Note 1 – Description of the Plan (continued)

Participant Accounts – Each participant's account is credited with the participant's contribution and the Company's matching contribution and allocation of (a) any profit sharing contribution and (b) Plan earnings, including appreciation and depreciation of investments and (c) administrative expenses. Allocations are based upon participant account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions, as well as any earnings and appreciation thereon. Vesting in the employer's contribution portion of their accounts increases annually, based on the following:

<u>Years of Vesting Service</u>	<u>Vesting Interest</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participants also become 100% vested in all Company contributions when the participant retires, dies, becomes disabled, reaches age 65 while employed, or the Plan is terminated.

Participant Notes Receivable – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. Generally, loan terms cannot exceed five years; however, if the loan is for the purchase of a principal residence, a longer repayment term may be permissible. The loans are secured by the vested balance in the participant's account and bear interest that must be a reasonable rate similar to the rate charged for a loan made under similar circumstances by persons in the business of lending money. These rates range from 5.25% to 10.25% on loans outstanding at December 31, 2012, and mature through 2017. Participants are only permitted one outstanding Plan loan at any given time. Principal and interest are paid through payroll deductions.

Payment of benefits: Each participant is eligible to receive benefits at their normal retirement date, which is the participant's 65th birthday. There are provisions for early or late retirement, disability, termination of employment and death benefits. The Plan also permits participating employees to withdraw their vested account balance in the event of a financial hardship as described in the Plan.

The methods for distribution of benefits include payment in a single-sum, installment payments, or direct rollover.

Note 1 – Description of the Plan (continued)

Forfeitures – At December 31, 2013 and 2012, forfeited accounts totaled approximately \$4,500, respectively. Forfeited balances of terminated participants' nonvested accounts can be used to reduce future employer contributions and/or administrative expenses.

Investment options – Participants may direct contributions, in 1% increments, to any of the investment options offered by the Plan. Participants may change their selected investment options at any time.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on an accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully-benefit responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Directors determines the Plan's valuation utilizing information provided by the investment custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Notes to the Financial Statements
As of and for the Years Ended December 31, 2013 and 2012

Note 2 – Summary of Significant Accounting Policies (continued)

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Contributions – Contributions from Plan participants and the matching contribution from the Plan Sponsor are recorded in the year in which the participant contributions were withheld from amounts paid. Discretionary profit-sharing contributions are recognized upon authorization as the underlying compensation is recognized. All participant and employer contributions are participant directed.

Payments of Benefits – Benefits are recorded when paid.

Expenses – The Plan permits the payment of expenses to be made from the Plan. If expenses are paid using Plan assets, then expenses will generally be allocated proportionally among the accounts of all participants. Certain other expenses may be paid directly out of an individual account if they are specifically attributable to said individual.

Note 3 – Investments

The Plan's investments are held and managed by the Plan's custodians. Investments that represent 5% or more of the Plan's net assets are separately identified.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in inactive markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2013 and 2012:

Guaranteed investment contract: Valued based on the NAV of units of the guaranteed interest contract. The NAV, as provided by the custodian, is used as a practical expedient to estimating fair value. The NAV is based on the underlying assets of the contract. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Self directed brokerage account: Valued at fair value based on the value of the underlying investment, as provided by the custodian.

Registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Notes to the Financial Statements
As of and for the Years Ended December 31, 2013 and 2012

Note 4 – Fair Value Measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

All investments in the statements of net assets available for benefits are reported at fair value. The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012. All Plan assets had been transferred out as of December 31, 2013.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

<u>Description</u>	<u>(Level 1)</u>	<u>(Level 2)</u>	<u>(Level 3)</u>	<u>Total</u>

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2012:

<u>Investment</u>	<u>Fair Value Estimated Using NAV Per Share</u>

Notes to the Financial Statements
As of and for the Years Ended December 31, 2013 and 2012

Note 4 – Fair Value Measurements (continued)

(a) The objective of the guaranteed interest contract is to provide a stated rate of return generated from performance of a core bond portfolio that insulates the account from daily fluctuations in the bond market. Investments in this category can be redeemed daily at the current net asset value per share based on fair value of the underlying assets,

Note 5 – Guaranteed Investment Contract

The Plan entered into a benefit-responsive guaranteed investment contract with MassMutual. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as report to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012, was \$7,385,173 (2011 - \$7,423,657). The crediting interest rate is based on a formula agreed upon with the issuer and ranged from 2.95% to 3.50% during 2012.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan); 2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; 3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6 – Related Party Transactions

The Company, as Plan sponsor, paid certain plan administrative expenses for the years ended December 31, 2013 and 2012 including accounting and audit fees and certain other administrative expenditures. Total fees paid by the Plan sponsor during 2013 and 2012 were approximately \$13,800 and \$13,100, respectively.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Should the Plan be terminated at some future time, participants will become 100% vested in their accounts and the net assets available for Plan benefits at the termination date would be distributed to participants based on amounts that have been allocated to their respective accounts. Effective January 1, 2014 the Plan was merged into the HLX PLY Holdings, Inc. 401 (k) Plan.

Note 8 – Tax Status

The IRS has determined and informed the Company by a letter dated July 16, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the [identify applicable taxing authorities]. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.
