PROHEALTH CORP. 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. PLAN DESCRIPTION

Background - The ProHEALTH Corp. 401(k) Savings Plan (the "Plan"), is a defined contribution plan as described in the Internal Revenue Code ("IRC") section 401(k) sponsored and administered by ProHEALTH Corp. (the "Company"). The Plan was adopted on January 1, 1998 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The investment custodian, which also provides recordkeeping services, is AXA Equitable Life Insurance Company ("AXA Equitable" or the "Custodian") and the third-party administrator is The Heritage Group, LLC. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

Amendment - The Plan was amended effective July 16, 2013 to allow participants to have two loans concurrently outstanding from the Plan.

Eligibility - The Plan is available to all employees of the Company, as well as the following related companies: ProHEALTH Care Associates, LLP, ProHEALTH Ambulatory Surgery Center, Inc., and Mobile Medical Services, P.C., excluding collective bargaining employees and leased employees, who have attained age 21 and completed six months of service. Eligibility credit may be given when an established medical practice joins the Company. An employee may elect participation in the Plan on the first day of the month following completion of such eligibility requirements.

Contributions and Vesting - Participants in the Plan may make regular 401(k) deferral contributions, specified as a percentage of their eligible compensation or a dollar amount, on a pre-tax basis. In addition, Plan participants may make Roth 401(k) deferral contributions, specified as a percentage of their eligible compensation or a dollar amount. The Plan allows for such combined contributions up to 100 percent of eligible compensation, subject to Section 401(k) maximum limitations (\$17,500 for the year ended December 31, 2013). Additionally, those participants who are age 50 or above may make catch-up contributions of up to \$5,500 annually.

An eligible employee may make a transfer to the Plan of a benefit from a qualified retirement plan of another employer, referred to as rollover contributions, with certain restrictions.

1. PLAN DESCRIPTION (continued)

Contributions from participants consisted of the following during 2013:

Regular 401(k) contributions (including catch-up)	\$ 5,330,500
Roth 401(k) contributions	179,027
Rollover contributions	<u>2,297,013</u>
Total	<u>\$ 7,806,540</u>

Participants are fully and immediately vested in their own contributions and earnings thereon.

Distributions to Participants - Distributions to participants are available upon the following events: retirement, termination of employment, the attainment of age 59 1/2, or death. A participant's benefit, consisting of his/her entire account balance, is paid in the form of a single lump sum payment or direct rollover to an individual retirement account or another retirement plan. Payment shall be made as soon as administratively feasible following the event, provided, however, that the participant's consent is obtained for distributions of amounts in excess of \$5,000. A participant with an account balance in excess of \$5,000 may elect to defer payment until minimum distribution rules apply under the IRC. Participant account balances of less than \$1,000 will be paid automatically in a lump sum payment.

The Plan also provides for hardship withdrawals to participants meeting certain requirements as described in the Plan agreement. Upon written request, participants may withdraw all or a portion of their rollover contributions.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, which is determined by the Plan administrator based on prevailing interest rates, remains fixed for the duration of the loan. Interest rates ranged from 3.25 percent to 10.25 percent per annum on loans outstanding during the year ended December 31, 2013. Principal and interest is paid ratably through payroll deductions over periods of 1 to 5 years. The repayment period may be extended for loan proceeds used for the purchase of a primary residence.

Administrative Expenses - A substantial portion of administrative expenses incurred in connection with the management of the Plan are paid by the Company. In accordance with Plan provisions, the Company may, at any time, elect to have some or all of such expenses paid by the Plan. Fees related to the administration of notes receivable from participants and certain other transaction fees are charged directly to the participant's account and are included in administrative expenses. Net investment gain from pooled separate accounts is reported net of investment related expenses.

Termination - The Company intends to continue the Plan indefinitely, but reserves the right to modify or discontinue it at its discretion, subject to applicable provisions of ERISA.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The Plan's policy is to prepare financial statements on the accrual basis of accounting.

Restatement of net assets available for benefits as of December 31, 2012 - The accompanying statement of net assets available for benefits as of December 31, 2012 has been restated from our original report dated October 2, 2013 to include a liability for excess contributions returned to participants during 2013 as follows:

Net assets available for benefits as of December 31, 2012	
as originally reported	\$ 24,674,569
Adjustment for liability for excess contributions payable	
as of December 31, 2012	<u>(157,942)</u>
Net assets available for benefits as of December 31, 2012	
per the accompanying financial statements	<u>\$ 24,516,627</u>

This adjustment has no effect on the previously filed 2012 Form 5500.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in assets and liabilities, as well as disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net investment gain (loss) on pooled separate accounts represents the earnings (loss) on the underlying investments in such accounts, in which dividends are recorded on the ex-dividend date, and net appreciation (depreciation) includes the accounts' gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable - Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (“IRS”) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions to applicable participants prior to March 15, 2014.

Risks and Uncertainties - The Plan provides for various investment options, including pooled separate investment accounts with underlying investments in any combination of stocks, bonds, fixed income securities, mutual funds and other investment securities. Investment securities are exposed to interest rate, market and credit risk. As a result of the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Subsequent Events - The plan has evaluated subsequent events through September 29, 2014, the date the financial statements were available to be issued (See Note 10).

3. INCOME TAX STATUS

In March 2008, the IRS stated in an opinion letter that the prototype plan adopted by the Plan administrator was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter, however, the Plan administrator and management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Accordingly, they believe that the Plan was qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that would not likely be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

5. INVESTMENTS

The Plan's investments, at fair value, which exceeded 5 percent of net assets available for benefits as of December 31, 2013 and 2012 are as follows:

	<u>2013</u>	<u>2012</u>

*Investment did not exceed 5 percent of the Plan's net assets available for benefits.

5. INVESTMENTS (continued)

For the year ended December 31, 2013 the Plan's investments (including gains and losses on investments bought and sold during the year) appreciated (depreciated) in value as follows:

	<u>2013</u>
Pooled separate accounts	\$ 5,027,550
Interest in insurance company general account	(91,613)

Investment Contract with Insurance Company - Contributions to the AXA Equitable Guaranteed Interest Option ("AXA GIO") become part of AXA Equitable's general account. At the beginning of each quarter, AXA Equitable will set a minimum guaranteed interest rate for that quarter. The Guaranteed Interest Option rate as of December 31, 2013 was 2.0 percent and the contract minimum rate in effect was 2.0 percent. The AXA GIO is not considered fully benefit-responsive and accordingly, fair value, as determined by the Company, is the relevant measurement attribute for that portion of the net assets available for benefits attributable to this investment. Participants normally transact at contract value for participant-directed transactions. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Transfer restrictions apply, such that the maximum amount that participants may transfer from the AXA GIO during a calendar quarter to AXA Equitable pooled separate accounts is the greater of 25 percent of their investment in the AXA GIO or the total amount they transferred out of the AXA GIO during the preceding 12 months.

6. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

6. FAIR VALUE MEASUREMENTS (continued)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. During 2013 the fair value of the interest in the insurance company general account includes a discount for the transfer restrictions described in Note 5.

Pooled separate accounts - Investments in pooled separate accounts are stated at fair value, which have been determined based on the unit values of the accounts. Unit values are determined by AXA by dividing the account's net assets at fair value by its units outstanding at the valuation date. When taking a distribution or a loan in accordance with Plan provisions, or when making fund transfers, participants may redeem their interest in the pooled separate accounts at unit value with no waiting period or other redemption restrictions. Level 2 is appropriate for pooled separate accounts because the valuations are based primarily on quoted prices for similar assets in active markets.

Value of interest in insurance company general account - The fair value of the AXA GIO, which is a general obligation of AXA Equitable, is based on discounted cash flows using rates for similar investments as the discount rate and taking into consideration the restrictions to plan transfers out of the account. The Plan's investment in the AXA GIO is classified as Level 2 in the fair value hierarchy, based on inputs other than quoted prices that are observable for the asset.

6. FAIR VALUE MEASUREMENTS (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

⁽¹⁾ The fair values of the investments are based on the fair values of the underlying investments in the funds.

⁽²⁾ Certain events may cause funds held in the pooled separate account to be deferred, including, but not limited to, the following:

- (i) The New York Stock Exchange is closed or trading is restricted.
- (ii) Sales of securities or determination of fair value is not reasonably practicable due to an emergency.
- (iii) The Securities and Exchange Commission, by order permits AXA Equitable to defer payment in order to protect persons with interests in the Separate Account.

⁽³⁾ The underlying investments in the pooled separate account have various income strategies including total return, growth, income, liquidity, etc.

7. NET ASSET VALUE (NAV) PER SHARE (continued)

The investment strategies of each significant class of pooled separate accounts are summarized as follows:

<u>Class</u>	<u>Investment Strategy</u>
Domestic and international stock	Pooled separate accounts investing primarily in domestic and international stocks seek to achieve long-term capital appreciation and outperform the related market benchmarks for the classification of stocks held.
Balanced	Pooled separate accounts classified as balanced seek to achieve long-term growth of capital with an emphasis on risk-adjusted returns and lower volatility relative to traditional equity funds and equity market indexes.
Bond	Pooled separate accounts investing primarily in bonds seek to earn high current income, with long-term capital appreciation as a secondary objective.
Conservative	The pooled separate account classified as conservative is the EQ/ Money Market Portfolio, which seeks to obtain a high level of current income, preserve its assets, and maintain liquidity.
Specialty	The pooled separate accounts classified as specialty seek to achieve long-term capital appreciation and current income through investments in real estate investment trusts (REITs) or to achieve maximum real return through investments in commodity index-linked derivative instruments backed by portfolios of inflation-indexed bonds or other fixed income securities.

8. RELATED-PARTY TRANSACTIONS

The Plan's investments consist of pooled separate accounts managed by AXA Equitable, the custodian of the Plan, and an interest in the insurance company general account. In connection with its recordkeeping services to the Plan, the administrative expenses described in Note 1 were paid to AXA Equitable. Transactions with the custodian qualify as party-in-interest transactions; however, they are exempt from prohibited transaction rules under ERISA. Fees paid by the Plan as indirect compensation to AXA Equitable are included as a reduction of the investment return on pooled separate accounts.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500, on which the return of excess contributions are recorded as corrective distributions in the year they are paid to the applicable participants:
