Notes to Financial Statements

December 31, 2013 and 2012

Note 1 - Plan Description

The following description of David S. Smith (Holdings) America, Inc. Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan with a 401(k) salary reduction arrangement covering all employees of David S. Smith (Holdings) America, Inc., StePac USA, and David S. Smith America, Inc. (collectively, the "Sponsor") who are not subject to a collective bargaining agreement for which retirement benefits have been the subject of good faith negotiations or are not a leased employee. Employees are required to be at least 21 years of age, complete six months of continuous service, and have at least 1,000 hours of service during the 12-month period beginning with the date the employee first performs an hour of service in order to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may contribute up to 40 percent of pretax annual compensation, as defined in the Plan, subject to the maximum tax-deferred limitation established by the Internal Revenue Code. Participants may also contribute amounts representing rollover distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

There were delinquent contributions of \$20,645 during the plan year ended December 31, 2013. The late contributions were deposited in 2013 and lost earnings will be contributed in 2014.

Matching Contributions - For the year ended December 31, 2013, the Sponsor made required matching contributions of 100 percent for the first 3 percent and an additional 50 percent of the next 2 percent of base compensation that a participant contributed to the Plan. The matching contribution is invested directly into various investment options as directed by the participant.

Discretionary Profit-sharing Contributions - The Sponsor may also make discretionary profit-sharing contributions at the option of the Sponsor's board of directors. Profit-sharing contributions are allocated according to the ratio of each participant's eligible compensation to the total eligible compensation paid to all participants for the plan year. The Sponsor made no discretionary contributions in 2013.

Participant Accounts - Each participant's account has been credited with the participant's contribution, allocations of the Sponsor's contribution, and plan earnings and charged with an allocation of administrative expenses. Allocations are based on a participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the participant's vested account balance. Participants direct the investment of their contributions into various investment options offered by the Plan.

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately fully vested in their contributions, rollovers, and the Sponsor's safe harbor matching contributions to the Plan plus earnings thereon. Vesting in the Sponsor's discretionary contribution portion of their accounts plus earnings thereon is based on years of continuous service beginning at 20 percent after two years of service and increasing 20 percent for each year of continuous service thereafter. A participant is 100 percent vested after six years of service with the Sponsor.

Participant Notes Receivable - Participants may borrow from their fund accounts a minimum of \$1,000 up to the maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The participant notes receivable are secured by the balance in the participant's account and participant note receivable terms generally range from one to five years, unless the participant note receivable is for the purchase of a principal residence, in which case the participant note receivable term may be longer. The notes bear interest at 1 percent above the prime rate. Principal and interest payments are generally made through payroll deduction.

Payments of Benefits - Upon termination of employment, retirement, or disability, the participant or, in the case of death, the beneficiary may elect to receive the participant's vested interest in his or her account balance in a single lump sum.

Hardship Withdrawals - Participants may request hardship withdrawals for extreme hardships, pursuant to plan requirements, not to exceed the total amount of employee contributions to date. Participants receiving hardship withdrawals are prohibited from contributing to the Plan for a period of six months from the date of the withdrawal.

Forfeitures - Forfeitures are used to reduce future company contributions that would otherwise be made for the plan year.

Termination - While it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions in the plan document and ERISA. Upon plan termination, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan investments are managed by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust Company) and its affiliates. Principal Trust Company is the custodian as defined in the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The common collective trust fund investment is valued at contract value. Contract value represents investments at cost, plus accrued interest income, less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund. The common collective trust fund primarily holds guaranteed investment contracts. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets.

All other investments are valued based on quoted market prices. See Note 4 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Sponsor.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes to Financial Statements December 31, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 3, 2014, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (the "Custodian") holds the Plan's investments and participant notes receivable and executes related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodian.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

- (iii) This class represents investments in an actively managed common collective trust fund that invests primarily in investment contracts, a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, and wrapper contracts. There were no unfunded commitments or redemption restrictions on this investment at December 31, 2013 and 2012.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2013.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated February 11, 2005 indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 5 - Tax Status (Continued)

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.
