SUNSTAR AMERICAS, INC. 401(K) RETIREMENT SAVINGS PLAN
Notes to Financial Statements

1. Description of the Plan

The following description of the Sunstar Americas, Inc. 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a Section 401(k) defined contribution retirement savings plan established on October 1, 1991 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan covers substantially all full-time employees of Sunstar Americas, Inc. (the "Employer" and "Plan Administrator"). The latest amendment and restatement of the Plan was effective January 1, 2009 through adoption of the Vanguard Fiduciary Trust Company Prototype Basic Plan Document with an additional amendment to the prototype plan adoption agreement effective July 1, 2011 and December 20, 2013. The trustee of the Plan is Vanguard Fiduciary Trust Company ("Trustee").

Eligibility

Covered employees are eligible to participate in the pre-tax salary deferral provisions and employer matching contribution provisions of the Plan immediately upon hire and having attained 18 years of age. Covered employees who have completed one year of service, as defined by the Plan, and have attained 18 years of age are eligible to participate in the Employer discretionary profit sharing contribution provisions of the Plan.

Contributions

Eligible employees may make pre-tax salary deferral contributions in flat dollar amounts or as a percentage of compensation, as defined by the Plan, up to the maximum amount allowable by law. Eligible employees hired January 1, 2009 or later who do not elect an initial pre-tax salary deferral rate or do not opt out of participation within 30 days of hire are automatically enrolled in the Plan at a 3% pre-tax salary deferral rate with the Vanguard targeted age-directed date funds as the qualified default investment alternative. Participants whose pre-tax salary deferral rate is less than 10% will have their pre-tax salary deferral rate increased 1% in July of each year up to a maximum of 10% unless the participant opts out of the increase. The Employer contributes a matching contribution equal to 50% of the first 5% of pre-tax salary deferral contributions contributed by a participant to the Plan. Participants may also contribute to the Plan amounts representing distributions from other qualified defined benefit or contribution plans.

1. Description of the Plan (continued)

Contributions (continued)
The Plan also provides for the Employer to make a discretionary profit-sharing contribution, as approved by the Board of Directors annually, to eligible employees who have completed 1,000 hours of service during the Plan year and are still employed on the last day of the Plan year. The Employer made a discretionary profit sharing contribution of $906,382 for the year ended December 31, 2013. The Employer discretionary profit sharing contribution is allocated to qualified participants based on the ratio that each qualified participant's compensation, as defined by the Plan, bears to the total compensation of all qualified participants.

Investments
Participants self-direct investment of their pre-tax salary deferral, employer matching and rollover contributions amongst several funds offered by the Plan or may choose, by way of brokerage accounts, to invest in other funds, common stocks and other types of investments as allowed by the Plan. Investment of the employer discretionary profit sharing contributions is directed by the Plan Administrator into the age appropriate Vanguard targeted age-directed date funds.

Vesting
Participants are immediately fully vested in their pre-tax salary deferral, employer matching and rollover contributions, plus actual earnings thereon. Participants vest in their employer discretionary profit sharing account on a graduated basis based on years of vesting service, as defined by the Plan, and are fully vested after six years of vesting service. There is approximately $38,000 of forfeitures of terminated participants' non-vested accounts at December 31, 2013. These amounts will be allocated to participants in accordance with Plan provisions.

Participant Accounts
Each participant's self-directed account is credited with the participant's contribution, the Employer's matching contribution, and actual earnings (loss) thereon and charged with administrative expenses and distributions, if any. Each participant's employer discretionary profit-sharing account is credited with an allocation of (a) the Employer discretionary profit sharing contributions, (b) actual earnings (loss) thereon, and (c) forfeitures of terminated participants' nonvested accounts, and charged with an allocation of certain administrative expenses, if any. Allocations within each participant's employer discretionary profit sharing account are based on the ratio the participant's compensation, as defined by the Plan, or account balance bears to total compensation or account balance of all participants.

1. Description of the Plan (continued)

Notes Receivable from Participants
Participants may borrow from their Plan account a minimum of $1,000 up to a maximum of $50,000, or 50% of their vested account balance, whichever is less. Loan terms range from 6 months to 5 years or up to 30 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at 2% above the current prime interest rate. The interest rate will be locked in at initiation of the loan. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits
On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or monthly installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Hardship withdrawals are also permitted from participant's pre-tax salary deferral amounts for specific situation as defined by the Plan and in-service withdrawals from pre-tax salary deferral or matching contribution amounts for those participants who have attained the age of 59-1/2.

Plan Termination
Although it has not expressed any intention to do so, the Plan Administrator has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes in net assets available for benefits during the reporting period and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fully Benefit-Responsive Investment Contracts
Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment in the common collective trust fund relating to fully benefit-responsive investment contracts as well as the adjustment of the investment in the common collective trust fund relating to fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Determination as to when participant loans are considered in default and reclassified as distributions is based on the terms of the plan document.

Benefit Payments
Benefits are recorded when paid.

Administrative Expenses
Administrative fees on loans from the Plan are charged to the borrowing participants' accounts. The asset management expenses are paid from the Plan's investment funds. The Employer pays expenses incurred in the administration of the Plan and, thus, they are not reflected in the accompanying financial statements. The Employer does not plan to obtain reimbursement from the Plan for these expenses.

Subsequent Events
Management has evaluated subsequent events for reporting and disclosure through October 7, 2014, the date the financial statements were available to be issued.

5. Fair Value Measurements

In measuring the fair value of the Plan's investments, plan management utilizes a framework that provides for a fair value hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used to measure assets at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Mutual funds – Valued at the net asset value of shares held by the Plan at year-end.

Common stocks – Valued at the closing price reported on the active market on which the individual securities are traded.

continued

5. Fair Value Measurements (continued)

Common Collective Trusts – Valued at the net asset value of the units held by the Plan at year-end which is determined by the Trustee of the collective trust fund based on the contractual terms of the underlying investment contracts of the trust fund. The Collective trust fund in which the Plan invests seeks to provide a relatively predictable return from current income with no change in principal value. The contracts in which the collective trust fund invests primarily invest in US treasury securities, high-quality mortgage-backed securities, corporate bonds and asset-backed securities. The collective trust fund allows for daily liquidity and no additional days notice for redemption for participant-directed transactions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

6. Risks and Uncertainties

The Plan provides for various investment options. These investment options are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment options and the level of uncertainty related to changes in the value of the investment options, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

7. Related Party Transactions

The Plan invests in shares of mutual funds managed by an affiliate of Vanguard Fiduciary Trust Company ("VFTC") and a common collective trust for which VFTC is trustee. VFTC acts as the trustee as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

8. Income Tax Status

An Internal Revenue Service (IRS) letter of determination, dated March 31, 2008, was issued to the Trustee for the Vanguard Fiduciary Trust Company Prototype Basic Plan Document which the Plan has adopted. The IRS stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.
