Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Participants and Administrator of the Bosch Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Bosch Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012 and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2013 and 2012 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Bosch Pension Plan

Notes to Financial Statements

December 31, 2013 and 2012

1. Description of the Plan

The following brief description of the Bosch Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description.

The assets of the Plan are invested in the Robert Bosch LLC Master Retirement Trust ("Master Trust").

General

The Plan is a noncontributory, defined-benefit pension plan that is administered by a Benefit Plans Committee composed of representatives of Robert Bosch LLC (the "Company" or "Plan Sponsor") and participating subsidiaries and affiliates. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

All employees of the Company and its participating subsidiaries and affiliates that have adopted the Plan (collectively, the "Employers") are participants in the Plan on their date of hire, provided they are not included in a collective bargaining unit or any other group of employees to which the Plan has not been extended.

Effective July 1, 2011, participation in the Plan was frozen so that no individual who was not a participant in the Plan prior to July 1, 2011, could become a participant after June 30, 2011. There were no changes to vesting provisions as a result of the freeze and participants will continue to receive vesting service under the terms of the Plan document. Employees hired on or after July 1, 2011 may be eligible to participate in a new defined contribution plan established by the Company, the Bosch Defined Contribution Plan ("BDC Plan").

Contributions

The Employers have agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the funding requirements of ERISA. The Plan has met the ERISA minimum funding requirements for 2013 and 2012.

Benefit Payments

A participant is eligible for normal retirement benefits on or after the attainment of age 65 subject to certain transitional provisions from previously merged plans as defined in the Plan document. Prior to January 1, 2005, for normal retirement, a yearly pension is payable for the life of the participant equal to 1.25% of final average pay, as defined, plus .25% of their final average pay above the Average Social Security Wage Base, times credited service up to 35 years, plus 1.5% of final average pay times credited service between 35-40 years. These benefits were frozen at December 31, 2004.

Effective January 1, 2005, participants under the Plan began earning new benefits, based on pension credits. Pension credits consist of pay credits, based on pensionable earnings and age at December 31, and interest credits, based on an annual interest crediting rate applied to accumulated pension credits. The pension credits are then converted to an annuity. This annuity is added to the frozen December 31, 2004 annuity to arrive at the participant's total benefit payment from the Plan.

For plan years 2005 through 2016 certain participants, who were participants as of December 31, 2004, and have attained a defined combined age and years of service total, will receive an additional "transition" pay credit, to be added to their pension credits as described above.

Bosch Pension Plan

Notes to Financial Statements

December 31, 2013 and 2012

In conjunction with the 2011 freeze of the Plan, no participant (including, but not limited to a disabled participant) will receive pay credits after June 30, 2011. Participants will continue to receive interest credits after June 30, 2011. Participants eligible for transition pay credits will continue to receive transition pay credits through December 31, 2016. Credits will continue to be allocated once per year.

A participant is eligible for early retirement benefits on or after the attainment of age 55 and before his or her normal retirement date, as defined in the Plan document. Pension benefits will be reduced by a set percentage per year based upon age, as defined in the Plan document, for each year a participant receives benefits before his or her 62nd year.

At age 55, a participant is automatically vested. If terminated, a participant with 3 years of service, each with at least 1,000 hours of service, will be vested and therefore entitled to begin receiving retirement benefits as early as attaining the age of 55. Participants who are actively employed at a location that is closed generally become fully vested on the closure date, subject to the approval of the Plan Sponsor.

Optional forms of payment are available if elected by the participant as described in the Plan document. A participant that is married at the date of retirement would receive a joint and 100% survivor benefit unless spousal consent is obtained for an alternate benefit payment. Participants' beneficiaries are entitled to death benefits, as defined in the Plan document.

During 2013, terminated vested participants meeting certain conditions, as defined by the Plan, obtained the right to commence their benefits as of November 1, 2013. Such payments were primarily lump-sum, although certain annuity options were also made available. Participants who had not yet attained their early or normal retirement dates received benefits actuarially equivalent to their accrued benefit. Payments related to this initiative totaled approximately \$184 million.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA and as described in the Plan document. Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on the priority of those benefits, the financial condition of the Company, and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Administrative Expenses

Substantially all allowable administrative expenses are paid by the Plan.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Benefit Payments

Benefits are recorded when paid.

Investment Valuation and Income Recognition

The Master Trust's investments are stated at fair value. The fair value of the participation units in the common collective trusts is based on the net asset value of units held on the last business day of the Plan year. Securities such as common stock, preferred stock, registered investment companies, and real estate investment trusts, traded on a national securities exchange are valued at the last reported sales price on the last business day of the Plan year; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices. Fixed income securities such as corporate debt instruments and U.S. government securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available, the bond is valued using matrix pricing or models from reputable pricing vendors. Partnerships/JV interest funds are valued based on the Master Trust's interest in the net asset value of the funds' underlying assets using statements provided by the fund manager.

Investment transactions of the Master Trust are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (Note 3) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the date pay credits were frozen or to the valuation date for certain ongoing accrued benefits. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; and (b) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their compensation during the year preceding the valuation date for transition pay credits and through June 30, 2011 for frozen pay credits. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date or freeze date.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

3. Accumulated Plan Benefits

An independent actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits at December 31, 2012 was as follows:

Vested benefits	
Participants currently receiving payments	\$ 447,260,866
Other participants	646,937,274
Total vested benefits	1,094,198,140
Nonvested benefits	4,666,111
Total actuarial present value of accumulated plan benefits	<u>\$ 1,098,864,251</u>

The following summarizes the significant components of the change in the present value of accumulated plan benefits from December 31, 2011 to 2012:

Actuarial present value of accumulated plan benefits as of December 31, 2011	\$ 1,075,627,986
Increase (decrease) during the year attributable to	
Benefits accumulated and actuarial experience gain/loss	(1,961,900)
Interest due to change in discount period	66,931,353
Benefits paid	(43,823,837)
Assumption changes	2,090,649
Actuarial present value of accumulated plan benefits as of December 31, 2012	<u>\$ 1,098,864,251</u>

Significant assumptions underlying the actuarial computations are as follows:

Interest rate	6.35%
Retirement rate	6% by age 55; 10% by age 60; 25% by age 62; 50% by age 65; 100% by age 70
Mortality	RP - 2000, Combined Health, projected with AA on a static basis for 7 - 15 years past the valuation date and RP-2000 Combined Health, projected with AA to 2015 with no collar adjustment as of December 31, 2012 and 2011, respectively

Assumption changes for the year ended December 31, 2012 are attributable to an update to the mortality assumption offset by a decrease in the cash balance interest on accumulated pension credits assumption, from 4.05% to 3.60%. This assumption is used to project account balances from the valuation date to decrement age in order to estimate the monthly benefit assumed to commence at that age.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Certification of Investment Information

All investment information disclosed in the accompanying financial statements, including plan interest in Robert Bosch LLC Master Retirement Trust at December 31, 2013 and 2012, plan interest in net investment income of Robert Bosch LLC Master Retirement Trust for the years then ended, and the investments and investment income information of the Master Trust presented in Note 5, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by The Northern Trust Company ("Trustee"), except as noted below.

The Master Trust's investment in Partnership/JV interest as of December 31, 2013 and 2012 of \$44,329,148 and \$41,324,293, respectively, and the Plan's proportionate share of that investment of \$34,133,444 and \$32,315,597, respectively, were not certified. Accordingly, the net appreciation in the fair value of the Master Trust's investment in Partnership/JV interest for the years ended December 31, 2013 and 2012 of \$3,004,855 and \$1,324,293, respectively, and the Plan's proportionate share of that net appreciation of \$2,313,738 and \$1,035,597, respectively, also were not certified.

5. Investment in Master Trust

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan, and several other Company-sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. At December 31, 2013 and 2012, the Plan's interest in the net assets of the Master Trust was approximately 77.0% and 78.2%, respectively. The value of the Plan's interest is determined on the basis of cumulative funds specifically contributed on behalf of the Plan, net of funds withdrawn for benefit payments and expenses specific to the Plan and adjusted for an allocation of investment income and investment expenses. Investment income and expenses are allocated monthly to the Plan based upon its pro rata share in the net assets of the Master Trust.

The following table presents the fair value of investments for the Master Trust at December 31:

	2013	2012

6. Fair Value Measurements

The FASB established a framework to increase consistency and comparability in fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

For a description of the valuation methodologies used for assets measured at fair value see Investment Valuation and Income Recognition under Note 2. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

For the years ended December 31, 2013 and 2012, there were no significant transfers in or out of levels 1, 2 or 3.

Common collective trusts and the Partnership/JV interest consist of pools of investments used by institutional investors to obtain equity and fixed income market exposures by investing in funds which are intended to mirror market indices. They are valued on the basis of the relative interest of each participating investor in the fair value of the underlying assets of each of the respective common collective trusts and Partnership/JV. The funds are valued based on the NAV as provided by the investment account manager and are classified in Level 2 of the fair value hierarchy. Common collective trust investments can be traded daily with a time delay for international trades, while the Partnership/JV interest can be redeemed after a 30 day notice period. As of December 31, 2013 and 2012, the Master Trust is not holding any unfunded commitments. Common collective trusts and the partnership/JV interest included in the Master Trust and their relative benchmarks include:

Notes to Financial Statements

December 31, 2013 and 2012

7. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company in a letter dated March 11, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's ERISA counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax asset or liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of an asset or liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years beginning prior to January 1, 2010.

9. Party-in-Interest Transactions

The Master Trust invests in common collective trusts managed by the Trustee or its affiliates. These transactions qualify as exempt party-in-interest transactions. Fees paid to the Trustee by the Master Trust for 2013 and 2012 were \$790,261 and \$742,194, respectively.

10. Subsequent Events

The Plan has evaluated the events and transactions that have occurred through October 10, 2014, the date the financial statements were available to be issued, and noted no other items requiring adjustment to the financial statements or additional disclosure.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	January 1, 2005. Amended and restated effective January 1, 2008. The latest amendment dated April 3, 2012.
Eligibility for Participation	All non-union participants in the RBC Plan, Skil-Bosch, or Vermont American Plan and a group of former Chicago union participants become participants immediately at December 31, 2004. Full-time employees who were not participants on December 31, 2004, become participants on their date of hire. Part-time employees become participants on first day of the month following completion of 1,000 hours in one year. Effective July 1, 2011, the plan was frozen to new participants.
Pensionable Earnings	<p>Base salary or wages, overtime, shift differential, commissions and regular annual management bonuses, plus Section 125, 401(k) deferrals and non-qualified deferred compensation.</p> <p>Effective January 1, 2010, Pensionable Earnings will exclude any pay received after the later of (i) the end of the calendar year during which employment terminates, or (ii) two and one-half months after employment terminates.</p> <p>Effective April 3, 2012, additional bonuses (excluding gain sharing, goal sharing, signing, project and retention bonuses) are included.</p>
Pension Credits	The sum of interest credits, pay credits and transition credits.
Interest Credits	Interest credits are determined by multiplying the account balance at the beginning of the year by the 30-Year Treasury Rate for November of the prior year. The rate shall not be less than 3.00%.

Pay Credits

Pay credits are credited to the account on the last day of the plan year. They are determined by multiplying the participant's pensionable earnings for the year by a percentage based on the participant's age in completed year as of December 31 of the current year. The percentages are as follows:

Age	Pay Credit Percentage
0-24	2.00%
25-29	2.50%
30-34	3.00%
35-39	3.50%
40-44	4.00%
45-49	4.50%
50-54	5.00%
55-59	5.50%
60-64	6.00%
65+	6.50%

Effective July 1, 2011, base pay credits were frozen. The pay considered for benefits in 2011 was limited by the plan to \$122,500.

Transition Credits

Prior plan participants from the RBC or Rexroth Salaried Plan are eligible for transition credits if they had attained age 40 and five years of vesting service as of December 31, 2004.

Prior plan participants from the Skil-Bosch Plan are eligible for transition credits if they had attained age 40 and 10 years of vesting service as of December 31, 2004.

Prior Vermont American participants are not eligible for transition credits.

Normal Retirement

Eligibility

Age 62.

Benefit

A monthly amount equal to (1) plus (2):

- (1) The accrued prior plan monthly benefit frozen as of December 31, 2004
- (2) The pension credits as described above, converted to a single life annuity using the applicable mortality table under IRS 417(e) and an interest rate of 7.00%.

Early Retirement

Eligibility

Age 55.

Benefit

A monthly benefit equal to the sum of (1) plus (2):

- (1) The accrued prior plan monthly benefit frozen as of December 31, 2004 adjusted for early retirement using the prior plan's early retirement factors.
- (2) The pensions credits projected to the normal retirement age of 62, divided by the age 62 annuity factor and then reduced by 5% for each year the early retirement precedes age 62.

Vested Termination

Eligibility

Three years of vesting service or age 55.

Benefit

The same benefit amount as for normal retirement, assumed to commence at age 62.

Surviving Spouse

Eligibility

Three years of vesting service or age 55.

Benefit

A monthly benefit payable to the surviving spouse beginning at the employee's earliest retirement age equal to 100% of the amount payable if the participant had retired early with a 100% joint and survivor benefit.

Schedule SB Attachment (Form 5500)—2013 Plan Year
Bosch Pension Plan
EIN: 36-2903176 PN: 001

Normal Form of Benefit

For a single participant, pension credits are converted into a single life annuity payable monthly. For a married participant, pension credits are converted into an actuarial equivalent 100% joint and survivor annuity.

Participants who commence benefits between July 1, 2011 and July 1, 2012 have the option of rolling over their balances from the Robert Bosch Defined Contribution Plan into the Bosch Pension Plan (no later than October 31, 2012). The balances will be converted to an annuity and added to the Pension Plan benefit.

Optional Forms of Annuity

Ten year certain and life annuity, a 50% joint and survivor annuity and a level income option is available on all payment forms. If the monthly benefit is less than \$100, a lump sum can be elected. In addition, some participants have protected optional forms on the frozen benefits from predecessor plans.

Actuarial Equivalence

417(e)(3) applicable mortality and 6% interest rate.

Plan Changes Since the Prior Year

The funding valuation does not reflect any plan changes.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- A change in the salary increase assumption from a graded scale that ranged from 2.00% to 10.80% to a flat rate of 3.50%.

This change was made to better reflect the anticipated plan experience. This assumption change did not reduce the funding shortfall by more than thresholds stated in Internal Revenue Code Section 430(h)(5); as such, approval of the Commissioner is not required.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	January 1, 2005. Amended and restated effective January 1, 2008. The latest amendment dated April 3, 2012.
Eligibility for Participation	All non-union participants in the RBC Plan, Skil-Bosch, or Vermont American Plan and a group of former Chicago union participants become participants immediately at December 31, 2004. Full-time employees who were not participants on December 31, 2004, become participants on their date of hire. Part-time employees become participants on first day of the month following completion of 1,000 hours in one year. Effective July 1, 2011, the plan was frozen to new participants.
Pensionable Earnings	<p>Base salary or wages, overtime, shift differential, commissions and regular annual management bonuses, plus Section 125, 401(k) deferrals and non-qualified deferred compensation.</p> <p>Effective January 1, 2010, Pensionable Earnings will exclude any pay received after the later of (i) the end of the calendar year during which employment terminates, or (ii) two and one-half months after employment terminates.</p> <p>Effective April 3, 2012, additional bonuses (excluding gain sharing, goal sharing, signing, project and retention bonuses) are included.</p>
Pension Credits	The sum of interest credits, pay credits and transition credits.
Interest Credits	Interest credits are determined by multiplying the account balance at the beginning of the year by the 30-Year Treasury Rate for November of the prior year. The rate shall not be less than 3.00%.

Schedule SB Attachment (Form 5500)—2013 Plan Year
Bosch Pension Plan

Pay Credits

Pay credits are credited to the account on the last day of the plan year. They are determined by multiplying the participant's pensionable earnings for the year by a percentage based on the participant's age in completed year as of December 31 of the current year. The percentages are as follows:

Age	Pay Credit Percentage
0-24	2.00%
25-29	2.50%
30-34	3.00%
35-39	3.50%
40-44	4.00%
45-49	4.50%
50-54	5.00%
55-59	5.50%
60-64	6.00%
65+	6.50%

Effective July 1, 2011, base pay credits were frozen. The pay considered for benefits in 2011 was limited by the plan to \$122,500.

Transition Credits

Prior plan participants from the RBC or Rexroth Salaried Plan are eligible for transition credits if they had attained age 40 and five years of vesting service as of December 31, 2004.

Prior plan participants from the Skil-Bosch Plan are eligible for transition credits if they had attained age 40 and 10 years of vesting service as of December 31, 2004.

Prior Vermont American participants are not eligible for transition credits.

Normal Retirement

Eligibility

Age 62.

Benefit

A monthly amount equal to (1) plus (2):

- (1) The accrued prior plan monthly benefit frozen as of December 31, 2004
- (2) The pension credits as described above, converted to a single life annuity using the applicable mortality table under IRS 417(e) and an interest rate of 7.00%.

Early Retirement

Eligibility

Age 55.

Benefit

A monthly benefit equal to the sum of (1) plus (2):

- (1) The accrued prior plan monthly benefit frozen as of December 31, 2004 adjusted for early retirement using the prior plan's early retirement factors.
- (2) The pensions credits projected to the normal retirement age of 62, divided by the age 62 annuity factor and then reduced by 5% for each year the early retirement precedes age 62.

Vested Termination

Eligibility

Three years of vesting service or age 55.

Benefit

The same benefit amount as for normal retirement, assumed to commence at age 62.

Surviving Spouse

Eligibility

Three years of vesting service or age 55.

Benefit

A monthly benefit payable to the surviving spouse beginning at the employee's earliest retirement age equal to 100% of the amount payable if the participant had retired early with a 100% joint and survivor benefit.

Schedule SB Attachment (Form 5500)—2013 Plan Year
Bosch Pension Plan
EIN: 36-2903176 PN: 001

Normal Form of Benefit

For a single participant, pension credits are converted into a single life annuity payable monthly. For a married participant, pension credits are converted into an actuarial equivalent 100% joint and survivor annuity.

Participants who commence benefits between July 1, 2011 and July 1, 2012 have the option of rolling over their balances from the Robert Bosch Defined Contribution Plan into the Bosch Pension Plan (no later than October 31, 2012). The balances will be converted to an annuity and added to the Pension Plan benefit.

Optional Forms of Annuity

Ten year certain and life annuity, a 50% joint and survivor annuity and a level income option is available on all payment forms. If the monthly benefit is less than \$100, a lump sum can be elected. In addition, some participants have protected optional forms on the frozen benefits from predecessor plans.

Actuarial Equivalence

417(e)(3) applicable mortality and 6% interest rate.

Plan Changes Since the Prior Year

The funding valuation does not reflect any plan changes.
