NOBLE HOUSE HOTELS & RESORTS, LTD. 401(k) PLAN

Notes to Financial Statements For the Year Ended December 31, 2013

Note 1 - Description of the Plan

The following description of the Noble House Hotels & Resorts, Ltd. 401(k) Plan (the Plan) provides general information only. Participants should refer to the plan document for complete information regarding the Plan's definitions, benefits, eligibility and other matters.

General - The Plan is a defined contribution plan for employees of Noble House Hotels & Resorts, Ltd. (the Company) that was established on April 1, 1996. The Plan covers all employees of the Company who have three months of service and are 21 years or older, except employees under a collective bargaining agreement, nonresident aliens or employees that are not eligible for the Company provided health and welfare benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions - Participants may contribute to the Plan through voluntary deferrals of earned compensation. Eligible employees may contribute up to 100% of eligible compensation to the Plan, not to exceed annual limitations prescribed by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions, not to exceed annual IRC limits. Participants are also allowed to rollover contributions from other qualified retirement plans.

The Company may make discretionary matching and additional nonelective contributions to the Plan. For the year ended December 31, 2013, the Company matched 50% of employee deferrals up to 3% of compensation for employees who had completed one year of service, on a pay period basis. The Company did not make any additional nonelective contributions for the year ended December 31, 2013.

Participant Accounts - Participant contributions to the Plan are voluntary. Participants are allowed to direct the investment of all contributions into various investment options that offer a diversity of investment risk and return. Each participant's account is credited with any contributions made to the account, increases or decreases in the market value of investments, and any loans and loan repayments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Allocation Provisions - Dividend income, interest income and net realized and unrealized investment gain or loss of each fund shall be allocated to the accounts of each participant based on the participant's proportionate share of the various investment funds held in their investment account.

Vesting - Participants are fully vested in their voluntary deferrals plus actual earnings thereon. Vesting in the discretionary employer matching and additional nonelective contributions plus actual earnings thereon is based on continuous years of service. A participant is fully vested after three years of credited service.

Notes Receivable from Participants - The Plan allows participants to borrow from their accounts using their vested balance as collateral for the loans. The maximum amount that a participant may borrow is equal to the lesser of 50% of their entire vested account balance or \$50,000; with a minimum amount of \$1,000. Loan terms cannot exceed five years unless it is used to acquire a principal residence. The loans bear interest at a rate commensurate with local prevailing rates as determined monthly by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits - Upon termination of service, death, disability, retirement, or upon attaining the age of 59½, a participant may elect to receive a distribution of their vested account balance. The distribution may be in the form of a lump-sum payment. The Plan also provides for hardship withdrawals of elective deferrals in accordance with provisions specified in the plan document.

NOBLE HOUSE HOTELS & RESORTS, LTD. 401(k) PLAN

Notes to Financial Statements For the Year Ended December 31, 2013

Note 1 - Continued

Forfeited Accounts - Forfeitures may be used to first reduce administrative expenses, and then to reduce employer contributions and restore contributions for rehired participants. Forfeitures in the amount of \$3,229 were used to offset plan expenses and restore contributions for rehired participants for the year ended December 31, 2013. At December 31, 2013 and 2012, assets held by the Plan in the form of forfeited nonvested accounts totaled \$33,483 and \$15,458, respectively.

Note 2 - Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation or depreciation in the fair value of investments represents the change in fair value of investments from one period to the next and includes realized and unrealized gains and losses on investments.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance. Accrued but unpaid interest, if any, would not have a material impact on the Plan's financial statements. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits paid to participants are recognized when they are paid. There were no amounts allocated to accounts of participants who had elected to withdraw from the Plan but had not yet been paid as of December 31, 2013 and 2012.

Investment and Administrative Expenses - Several of the investment fund options are subject to investment and administrative fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance and they are not separately disclosed in the accompanying financial statements. The Plan pays for certain custodian and recordkeeping fees while the Company pays for all other Plan expenses.

Subsequent Events - The Company has evaluated subsequent events through October 6, 2014, the date on which the Plan's financial statements were available to be issued.

Notes to Financial Statements For the Year Ended December 31, 2013

Note 3 - Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled Separate Accounts - The fair value of participation units in the pooled separate accounts is determined by John Hancock Life Insurance Company (John Hancock), valued at the accumulation of unit value which is based on a combination of the fund net asset value and the separate account charges.

Investment in Insurance Company General Account - Valued at contract value which approximates fair value and is equal to principal and previously accrued interest to any participant exercising his or her right to receive a distribution, borrow or transfer funds, under the terms of the Plan. However, there is a possible market value adjustment when funds are withdrawn from the account by participants prior to the maturity date. Thus, the investment in insurance company general account is not considered fully benefit-responsive.

The valuation methodologies used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Information Certified by the Custodian

The Plan's management has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, certain information certified by an insurance company need not be subjected to independent audits. The Plan's management has obtained a certification from John Hancock that the following information included in the Plan's financial statements and supplementary information is complete and accurate:

- Fair value and, if applicable, contract value of investments as of December 31, 2013 and 2012;
- Investment income earned for the year ended December 31, 2013; and
- Investment transactions for the year ended December 31, 2013.

Notes to Financial Statements

For the Year Ended December 31, 2013

Note 6 - Investment Contract with Insurance Company

The Plan holds investment contracts with John Hancock for investments in guaranteed interest accounts. John Hancock maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for withdrawals and administrative expenses. The contract is included in the financial statements at contract value which approximates fair value as reported by John Hancock. The contract provides a guaranteed rate for the remaining term of the contract (three, five and ten-year terms).

The average yield for the year ended December 31, 2013, was a loss of 0.3%. The crediting interest rates for the guaranteed accounts at December 31 were as follows:

	<u>2013</u>	<u>2012</u>
Three year	0.10%	0.10%
Five year	0.50%	0.15%
Ten year	0.75%	0.40%

Note 7 - Federal Income Taxes

The Plan adopted a prototype nonstandardized profit sharing plan which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the design of the Plan is in accordance with applicable sections of the IRC. The Plan has been amended since receiving the opinion letter. However, the Company believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is subject to audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan's management believes it is no longer subject to income tax examinations for years prior to 2010.

Note 8 - Parties-In-Interest

Plan investments are units of pooled separate accounts and guaranteed interest accounts managed by an affiliate of the Plan's custodian. John Hancock serves as the custodian of the Plan. As a result, transactions involving its subsidiary John Hancock USA Manulife (Manulife) qualify as party-in-interest transactions. For the year ended December 31, 2013, the Plan paid \$56,694 in investment management and administrative fees to John Hancock and Manulife. A portion of the fees paid to these parties are commission or transaction based fees that are charged to participant accounts and are netted against net appreciation in fair value of pooled separate accounts, as reported on the statement of changes in net assets available for benefits.

In addition, Qualified Benefits, Inc. (QBI) has been contracted to provide certain record-keeping services for the Plan. As such, fees paid to QBI qualify as party-in-interest transactions. During the year ended December 31, 2013, the Plan paid \$20,489 in fees to QBI.

Note 9 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their account balances.

Note 10 - Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 11 - Delinquent Participant Contributions and Loan Repayments

The Company determined there were instances during the year ended December 31, 2013, in which certain participant contributions and loan repayments were not deposited by the Company as Plan assets within the time limitation stipulated under the Department of Labor's regulations. For the year ended December 31, 2013, a total of \$26,429 in participant contributions and loan repayments has been identified as delinquent and is considered a nonexempt prohibited transaction. During the year ended December 31, 2014, the Company calculated and restored lost earnings and related interest attributed to the late deposits.
