DATAMONITOR, INC. 401(K) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

Note 1 Description of Plan

The following description of the Datamonitor, Inc. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide all U.S. employees of Datamonitor, Inc. and affiliates (collectively referred to as the "Company") with retirement benefits in accordance with Sections 401(a) and 401(k) of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

All employees of the Company who have attained the age of 21 are eligible to participate in the Plan on the first day of the first month following employment. The Plan also includes an automatic enrollment provision. Therefore, when an employee becomes eligible to be a participant in the Plan, the Company will automatically, on behalf of those participants, defer 3% of the participants' eligible compensation (as defined). Participants may cancel, modify or otherwise change any of the automatic elections.

Participant contributions

Eligible participants may make voluntary contributions through salary reductions from 1% to 100% of their annual compensation, limited to the maximum amount allowable under the provisions of the IRC (\$17,500 in 2013). Further, participants who are 50 years of age or older can contribute an additional "catch up" contribution (\$5,500 in 2013). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan also allows for participants to defer funds into a "Roth 401(k) deferral". These deferrals are subject to federal and state income taxes, and the maximum allowable combined contributions of the Roth 401(k) and pre-tax deferrals is \$17,500. The Plan offers various pooled separate accounts and guaranteed interest accounts as investment options for participants.

Employer contributions

Effective January 1, 2012, the Plan was restated and included an employer matching contribution equal to 50% of the participants' elective deferral not to exceed 6% of eligible compensation. For the year ended December 31, 2013, the Company contributed \$135,280 of matching contributions.

Additionally, the Company, at the discretion of the Board of Directors, may make certain discretionary contributions, including qualified non-elective contributions ("QNEC") and profit sharing contributions. For the year ended December 31, 2013, the Company made a QNEC in the amount of \$26,574.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2013 and 2012

Note 1 Description of Plan (continued)

Participants' accounts

Each participant's account is credited with their respective contribution and its allocation of (a) employer contributions and (b) Plan earnings or losses.

Vesting

Participants' voluntary contributions, rollover contributions, QNEC contributions and any earnings thereon vest immediately. Vesting in employer matching and profit sharing contributions, and any earnings thereon, is based on the number of years of credited service, as defined. Vesting occurs at a rate of 20% per year after two years of service, with full vesting after completing six years of credited service. In the event of death, disability or attainment of age 65, participants' accounts become fully vested.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Participants may borrow up to 50% of their vested account balance with a minimum of \$1,000 and a maximum of \$50,000. Loans are subject to approval by the plan administrator and terms range from one to five years. However, if the purpose of the loan is to acquire the principal residence of the participant, the term of the loan may be extended. Further, loans bear interest at a reasonable rate of interest determined by the plan administrator and are secured by the balance in the participant's account. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

Upon termination of employment, retirement, attainment of age 59 ½, death or disability, the participant or the participant's beneficiary is entitled to receive the vested portion of the participant's account in a single lump-sum, in accordance with Internal Revenue Service ("IRS") regulations and Plan provisions. Withdrawals from the Plan are also available for special hardship reasons, as defined. Distributions to participants are recorded when paid.

Forfeitures

The Plan provides that forfeitures, the unvested portion of employer contributions for terminated participants, will be used to pay plan expenses with any forfeitures remaining to be used to reduce future employer matching contributions. The Company used the forfeiture account to reduce its contributions during 2013 by \$24,621. As of December 31, 2013, there was a balance of \$23,595 in the forfeiture account. There was no balance in the account as of December 31, 2012.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2013 and 2012

Note 2 Summary of significant accounting policies

The following is a summary of significant accounting policies followed by the Plan.

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition

Plan investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's sponsor determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. The fair value of pooled separate accounts is determined based on the fair value of the net assets of each collective pool and the number of units held by the Plan at year end. The guaranteed interest account is non-benefit responsive and is therefore valued at fair market value in accordance with generally accepted accounting principles. See Note 10 for discussions of fair value measurements.

Realized gains and losses on investments sold and the unrealized appreciation and depreciation of investments held are reported on an average current cost basis, based on fair market value of the investments at the beginning of the Plan year or at the time of purchase during the Plan year.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that could affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Administrative expenses

The Company may, at its discretion, pay the expenses incident to administering the Plan. In the event that the Company does not pay the Plan expenses, the expenses shall be paid by the Plan.

Fair value

Accounting standards provide a common definition of fair value and establish a framework to make the measurement of fair value in generally accepted accounting principles more consistent and comparable. Accounting standards also require expanded disclosures to provide information about the extent to which fair value is used to measure certain financial assets and liabilities, the methods and assumptions used to measure fair value, and the effect of fair value measures on earnings. The Plan's financial assets and liabilities reflected in the financial statements at fair value include its investments (see Note 10).

Refundable contributions due to participants

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2012 and 2013 contributions to the applicable participants prior to March 15th of the following year.

Subsequent events

The Plan has evaluated subsequent events through October 1, 2014, which is the date the financial statements were available to be issued.

In April, 2014, the assets of the Plan were transferred into a related plan.

Note 3 Investments

Individual investments that represent 5% or more of the Plan's total net assets as of December 31, 2013 and 2012, are as follows:

During the Plan year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by \$721,119.

DATAMONITOR, INC. 401(K) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2013 and 2012

Note 4 Information certified by the Plan's custodian (unaudited)

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Principal Life Insurance Company ("Principal"), the custodian, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year):

<u>Investment</u>	<u>2013</u>	<u>2012</u>
Guaranteed Interest Accounts (contract value)	\$ 44,075	\$ 28,639
Pooled Separate Accounts	4,012,987	3,185,076

The custodian also certified to the completeness and accuracy of \$721,119 of net appreciation in fair value of investments and \$267 of interest income related to the aforementioned investments for the year ended December 31, 2013.

Note 5 Related party transactions

Plan investments include pooled separate accounts and guaranteed interest accounts managed by Principal. Principal is the custodian, as defined by the Plan, therefore, these transactions qualify as party-in-interest transactions.

Note 6 Tax status

The Plan is designed to be exempt from taxation under the IRC. The Company believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Financial Accounting Standards Board has issued a standard regarding the accounting and recognition of income tax positions taken or expected to be taken by the Plan. The plan administrator assesses the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 7 **Plan termination**

In the event that the Plan and the related trust terminate, all accounts will be valued as of the termination date, participants will become 100% vested in their accounts and all accounts will be distributed in full to participants (see Note 2).

Note 8 **Risks and uncertainties**

The Plan provides for various investment options in accounts that invest in combinations of stocks, bonds, fixed income securities, mutual funds and other investment securities. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that these changes would, in the near term, materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 9 **Reconciliation of financial statements to Form 5500**

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2013 and 2012 and net increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2013:

Note 10 Fair value measurements

Accounting standards require that financial assets and liabilities, recognized or disclosed in financial statements on a recurring basis (at least annually), be measured at fair value. These standards define fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

These standards also establish a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. These standards describe three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices for similar assets or liabilities in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for the assets or liabilities.

Level 3 - Unobservable inputs for the asset or liability. These inputs reflect the Plan's assumptions about the assumptions a market participant would use in pricing the asset or liability.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 and Level 3 inputs are only used when higher level inputs are not available.

DATAMONITOR, INC. 401(K) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2013 and 2012

Note 10 Fair value measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: Fair values are determined based upon the fair value of the underlying mutual funds, which are based upon observable daily quoted market prices and net asset values ("NAV"). Mutual funds are active and contain sufficient transaction frequency and volume.

Guaranteed interest accounts: Fair values are determined by a formula as described in the applicable group annuity contract. Guaranteed interest accounts are not actively traded and significant other observable inputs are not available.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the valuation of the Plan's financial assets at December 31, 2013:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
