Independent Auditor's Report

To the Administrator and Participants of
FlightSafety Employees' 401(k) Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of FlightSafety Employees' 401(k) Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Massachusetts Mutual Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2013 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

FLIGHTSAFETY EMPLOYEES' 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

1. Description of plan

This description of the FlightSafety Employees' 401(k) Retirement Plan (the "Plan") is for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan covers eligible employees of:

- FlightSafety Services Corporation ("FSSC")
- FlightSafety International Inc. ("FSI"), including FlightSafety Capital Corporation

The Plan is a defined contribution plan, which qualifies under Section 401(k) of the Internal Revenue Code, and is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility:

Generally, all employees of these companies become eligible to participate in the Plan when they are hired. Participants are eligible to make voluntary tax deferred contributions beginning with the first payment of compensation or after the date of which the election was effective. Effective June 1, 2001, participants become eligible for the Company matching contributions immediately. Full-time eligible employees are eligible to receive the employer discretionary contributions immediately, and the part-time eligible employees are eligible to receive the employer discretionary contributions when they complete 1,000 hours of service annually.

Contributions:

Participants are allowed to make voluntary tax deferred contributions of up to 50% of their annual pretax earnings. In addition, participants may rollover amounts representing distributions from other qualified defined benefit or defined contributions plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Annual contributions by a participant cannot exceed a maximum amount of $17,500 for 2013 and 17,000 for 2012. Effective April 1, 2014, the Plan implemented changes to its automatic deferral program.

A participant who is age 50 or older was able to make a catch-up deferral contribution of $5,500 in 2013 and 2012.

1. Description of plan (continued)

The participating companies provided for the following employer contributions:

- *FSSC*
  Eligible FSSC participants receive an employer discretionary contribution of 3% of their base pay as of January 1 or hire date, whichever is later. Participants are also eligible for the Company matching contribution that equals 50% of the first 8% of salary a participant contributes to the Plan. FSSC participants received employer contributions of $2,380,315 and $1,024,722 for the years ended December 31, 2013 and 2012, respectively.

- *FSI*
  Eligible FSI participants receive an employer matching contribution equal to 50% of the first 8% of salary a participant contributes to the Plan. FSI participants received employer contributions of $6,748,275 and $6,911,672 for the years ended December 31, 2013 and 2012, respectively.

As of January 1, 2013, the company matching contribution changed to a safe harbor contribution of 100% of the first 3% of salary a participant contributes to the Plan plus 50% of the next 2% of salary a participant contributes to the Plan. In addition, all employees will be 100% vested in all company matching contributions.

Employee tax deferred contributions are withheld from the participants' wages by the participating companies and are remitted to the recordkeeper, Massachusetts Mutual Life Insurance Company ("MassMutual"), by the participating companies at the end of each payroll period along with employer matching. Employer discretionary contributions are remitted to the recordkeeper on a quarterly basis.

Employer contributions are invested as directed by the participants. Contributions and earnings thereon are credited to separate accounts maintained for each participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant investment options:

The participating companies have appointed the Plan Benefit Committee as the plan administrator, certain officers of the Company as the Plan trustee and Massachusetts Mutual Life Insurance Company ("MassMutual") as the Plan's recordkeeper and investment custodian.

Participants may elect to invest employee tax deferred contributions in any combination of 15 pooled separate accounts, 4 registered investment companies, and a guaranteed interest account with an insurance company (see Note 3). In addition, participants may change their contribution rate at any time, redesignate the distribution of their contributions, or transfer existing employee-contributed balances between investment funds, subject to the limits set forth in the Plan.

The Participant Loan Fund is a fund set up to track loan activity (withdrawal, payments, etc.) for notes receivable from participants.

1. Description of plan (continued)

Vesting:

As of January 1, 2013, all participants are 100% vested immediately. Prior to January 1, 2013, FSSC participants were 100% vested immediately, and FSI participants were 0% vested until the participant had completed three years of service, in which event the participants became 100% vested. Retirement, involuntary layoff, death or disability resulted in full vesting, regardless of years of service.

Withdrawals and forfeitures:

Withdrawals from the Plan may be made as follows:

- Upon death, the participant or beneficiary will receive the entire balance in the participant's account. In this case, all funds are considered fully vested.

- Non-retired participants attaining 59-1/2 years of age, may elect to withdrawal all or part of their tax deferred contributions and rollover dollars.

- Terminated participants and retirees are entitled to distributions of their vested account balances in the form of a lump-sum distribution or direct rollover. Balances above $5,000 may not be distributed without and until the participant requests a distribution, except in the case of a participant meeting the 70-1/2 year minimum distribution requirements. An account balance between $1,000 and $5,000 will be distributed as a direct rollover to the Plan's designated individual retirement plan, and an account balance of $1,000 or less will be distributed directly to the participant. Withdrawals from participant-contributed balances are permitted in certain hardship cases as defined in the Plan.

- Non-vested amounts attributable to Company contributions of a terminated participant are forfeited immediately and can be used to reduce subsequent employer contributions. However, if a participant is re-employed within five years, the forfeited amount will be restored if the participant repays to the Plan the full amount of any prior distribution. During 2013 and 2012, $92,739 and $144,141 was forfeited, respectively. All forfeitures were used to reduce Company contributions or to pay plan expenses.

Notes receivable from participants:

The Plan allows participants to obtain loans against their accounts subject to certain restrictions and limitations. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lessor of: (a) $50,000, reduced by the excess, if any, of the highest outstanding balance during the one-year period ending immediately preceding the date of the loan over the outstanding balance on the date of the loan of all such loans from the Plan or (b) one-half of the participant's vested account balance. The loan term cannot exceed five years, unless the loan is for the purchase of the participant's primary residence. A loan for the

1. Description of plan (continued)

purchase of a primary residence may be allowed for 10 years. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates at the time funds are borrowed as determined by the Plan administrator. Principal and interest is paid through payroll deductions. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Administration and expenses:

The Plan is administered by the Plan Benefit Committee which is comprised of individuals appointed by the participating companies' Boards of Directors. Investment of Plan assets and payment of benefits are managed by MassMutual in accordance with the terms of a trust agreement with the Plan.

The administrative expenses of the Plan, including administrator expenses and custodian fees are paid from the Plan assets unless the participating companies elect to reimburse the Plan. Participant loan fees are paid by the participant's drawing the loans. Brokerage and other investment fees are included in the cost of the related security.

Tax status:

The Plan is designed to be a qualified plan as described in Sections 401(a) and 401(k) of the Internal Revenue Code (the "Code") of 1986, as amended, and is expected to be exempt from federal income taxes under Section 501(a) of the Code.

2. Summary of significant accounting policies

Basis of presentation:

The Plan has prepared its financial statements on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America. Contributions are recorded in the period to which they relate. Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded when earned, and dividends are recorded on the ex-dividend date.

As described in Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 962, *Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted

2. Summary of significant accounting policies (continued)

transactions under the terms of the plan. As required by ASC 962, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, and changes therein. Actual results could differ from those estimates.

Valuation of investments:

The Plan invests in various mutual funds within pooled separate accounts, and other investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan's investments are stated at fair value based on quoted market prices. Notes receivable from participants are valued at unpaid principal balances plus any accrued but unpaid interest. The fair value of investment contracts with an insurance company are calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Payment of benefits:

Benefits are recorded when paid.

3. Investment contracts with an insurance company

In 2001, the Plan entered into fully benefit-responsive investment contracts with an insurance company. The insurance company maintains the contributions in a general account that is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

3. Investment contracts with an insurance company (continued)

As described in Note 2, because the guaranteed investment contract is fully-benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the issuer, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are set on a quarterly basis.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The average yields are as follows as of December 31, 2013 and 2012:

Average yields:	2013	2012
Based on actual earnings	3.37%	3.79%
Based on interest rate credited to participants	3.37%	3.79%

4. Investments

The current value of individual investments that exceed 5% or more of the Plan's net assets as of December 31, 2013 and 2012 are as follows:

	2013	2012
Investment contracts with insurance company, at contract value	$ 182,421,558 *	$ 171,881,826 *
Pooled separate accounts:		
MassMutual Premier Core Bond Fund Z	18,043,015 **	19,467,167

Outside funds:		
Vanguard Institutional Index Fund	22,418,813	14,599,429 **
Royce Pennsylvania Mutual Fund	28,423,739	20,427,851

* - The fair value of this investment is $188,538,325 and $187,386,897 at December 31, 2013 and 2012, respectively.

** - Amount represents less than 5% of net assets

During the years ended December 31, 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	2013	2012
Pooled separate accounts	$ 39,997,992	$ 19,997,872
Outside funds	12,019,436	3,346,806
Net appreciation in fair value of investments	$ 52,017,428	$ 23,344,678

5. Fair value measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

5. Fair value measurements (continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Investments in pooled separate accounts: Valued at unit value which is calculated based on the observable net asset value of the underlying investment or pool of securities.

Investments in outside funds: Valued at unit value which is calculated based on the observable net asset value of the underlying mutual fund investment.

Investment contracts with an insurance company: Valued at liquidation value which is calculated based on an actuarial formula as defined under the terms of the contract (See Note 3).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair value measurements (continued)

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2013 and 2012:

	2013	2012
Balance, beginning of year	$ 187,386,897	$ 167,309,536
Contributions	30,954,159	28,835,243
Interest credited	6,341,091	6,722,158
Change in unrealized gain/loss	(9,388,304)	3,236,618

	$ -	$ 192,674,489	$ 187,386,897	$ 380,061,386

In prior years, MassMutual had suggested that the classification of the investment contracts with insurance company investment option was a Level 3 fair value measurement. The rationale behind this was the fact that the book value of the operating fund supporting the investment was an established crediting rate, maintaining its benefit responsiveness for participants regardless of the market value's fluctuation. This added feature was unlike an investor who was solely in the underlying separate account. However, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (i.e., this investment market value equals the number of units owned multiplied by the investment's unit value). Therefore, since the market value is observable, MassMutual changed its suggested categorization of the investment level to Level 2 at December 31, 2013.

6. Summary of information furnished by custodian

In accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator has received certification from the custodian as to the accuracy and completeness of certain financial information of the Plan.

The following items were provided by or were derived from data provided by the custodian:

- Statements of net assets available for benefits at December 31, 2013 and 2012:
  - Investments, including investment contracts with an insurance company and the adjustment from fair value to contract value, pooled separate accounts and registered investment companies and their valuation and participant loans and information presented in Note 4

- Statement of changes in net assets available for benefits for the year ended December 31, 2013 and 2012:
  - Interest on notes receivable from participants of $320,055 and $333,190
  - Interest on investment contracts with an insurance company of $8,324,628 and $8,480,420
  - Realized and unrealized appreciation in fair value of investments of $52,017,428 and $23,344,678

- Supplemental schedule Form 5500, Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2013 – all information included in the schedule.

7. Related party transactions

Plan investments are managed by MassMutual. Since MassMutual and its affiliates perform the roles of recordkeeper and investment custodian, its transactions qualify as party-in-interest.

8. Plan termination

Although they have not expressed any intention to do so, the participating companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan. If the Plan is terminated, all amounts credited to a participant's account at the time of termination become fully vested. Any such amounts would be retained in the trust until a participant's termination of employment and would then be distributed as provided by the Plan.

9. Federal income tax status

The Plan has received a favorable determination letter dated April 10, 2012 from the Internal Revenue Service as to the qualified status of the Plan. The plan has been amended since receiving the determination letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, the financial statements contain no provision for federal or state income taxes.

9. Federal income tax status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2013, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

10. Subsequent events

The Company has evaluated events subsequent to December 31, 2013 through October 10, 2014, which is the date the financial statements were available to be issued. There have been no material events noted in this period which would impact the results reflected in this report, the Plan's results going forward or require additional disclosure.

Schedule C Soft Dollar Compensation
Eligible Indirect Compensation Statement

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information ("SAI").

For additional information on soft dollar compensation, refer to the section of the mutual fund's SAI that discusses brokerage allocation and other practices.
