NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

Note 1 Description of Plan

The following description of the Warren-Anderson Ford dba Fritts Ford 401(k) Plan (The "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The National Automobile Dealers Association (NADA) represents nearly 16,000 new car and truck dealers, both import and domestic, with more than 29,000 separate franchises. NADA membership is open to any new-automobile or new-truck dealership holding a new automobile or truck sales and service franchise. NADA Retirement Administrators Inc., dba NADART, an affiliate of NADA, provides and administers 401(k), pension and profit sharing plans for NADA members, non-members, and their employees. NADART sponsors a Master Plan, consisting of the basic plan document and the adoption agreement, which outlines the rules and provisions of the retirement plan adopted by the Employer. Employers establish the Plan by executing an adoption agreement (Plan Agreement).

The Warren-Anderson Ford dba Fritts Ford 401(k) Plan was established to provide retirement benefits for employees of Warren-Anderson Ford dba Fritts Ford (the "Company"). Employees become eligible to participate in the Plan following six months of service and attainment of age 21, as defined in the Plan Agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (the "ERISA").

Effective March 1, 2013, NADART elected to change the Plan's discretionary trustee from Cardinal Bank to Global Trust Company (GTC). GTC has engaged State Street Bank and Trust Company as the Plan's custodian, also effective March 1, 2013. Assets were transferred from Cardinal Bank to GTC on March 1, 2013.

Contributions - Participant contributions consist of pre-tax elective deferrals and after-tax contributions. Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan and subject to limitations by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Employer discretionary matching contributions and nonelective contributions are allowed under the Plan.

Note 1 Description of Plan (continued)

Participant Accounts and Vesting - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in Company's contributions portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited services.

Net assets available for benefits include the accounts of active participants, as well as certain separated, vested and retired participants who have elected to receive their benefits in installment payments or elected to defer receipt of their benefit to a later date. The accounts of these separated, vested and retired participants are referred to as Encore accounts. These participants share in the earnings and investment expenses of the investments.

Notes Receivable from Participants - Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Participant notes are carried at fair value and are generally repaid through payroll reductions. Interest is earned on loans at prime rate plus 1%.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annuities that are offered by the Plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts - The non-vested portions of participants' employer-derived account balance are treated as forfeitures. At December 31, 2013 and 2012, forfeited non-vested accounts totaled $0 and $0 respectively. These accounts can be used to offset plan expenses or may be used to reduce the employer's matching contributions.

Note 2 Summary of Accounting

Date of Management's Review - Subsequent events were evaluated through October 8, 2014, which is the date the financial statements were available to be issued.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles, requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Basis of Accounting - The accompanying financial statements have been prepared on the accrual method of accounting and include only assets, liabilities and changes in net assets of the Plan in conformity with accounting principles generally accepted in the United States of America. As described, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participant would receive if they were to initiate permitted transactions under the terms of the plan. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investments.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expense when incurred. As of December 31, 2013 and 2012, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan Administrator considers the participant loan to be in default, the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Master Plan.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Ford FRITTS RIVERSIDE AUTO CENTER

Note 2 Summary of Accounting (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - A participant eligible for distribution may elect to have the amount paid in cash in one lump-sum. Any distribution to a participant who has a benefit which exceeds $5,000, shall require such participant's written (or in such other form as permitted by the Internal Revenue Service) consent if such distribution occurs prior to the time the benefit is "immediately distributable." A benefit is "immediately distributable" if any part of the benefit could be distributed to the participant (or surviving spouse) before the participant attains or would attain (or would have attained if not deceased) the later of age 62 or normal retirement age.

Administrative Expenses - Investment management fees are charged to participants based on their investment elections. In addition, all collective trusts return a fee for recordkeeping services to NADART, calculated based on invested assets, as outlined in the service agreement between the Employer and NADART. These fees are reflected in the net appreciation in fair value of investments in the accompanying financial statements, and in Note 4.

All expenses of maintaining the Plan are paid by the Company.

Note 3 Related Party Transactions

Certain plan investments consist of investments managed by Global Trust Company. Global Trust Company is the discretionary trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transaction by the United States Department of Labor's (DOL) Rules and Regulations.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 4 Investments Certified by Trustee

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by Global Trust Company (GTC), the Plan Trustee, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedules

The Trustee has certified as to the completeness and accuracy of all investment balances and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, all of the investment activity and interest income from notes receivable from participants reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013, and all investment information in the supplemental schedules.

The following presents investments that represent 5% or more of the Plan's net assets, available for benefits:

	2013	2012
Collective Investment Trust:		
NADART Fund CIT	$ 529,008	$ 551,491
Income Fund CIT, at contract value	267,388	258,467
SSgA 2025 Strategy CIT	111,281	104,587
PIMCO Total Authority Fund CIT	*	104,930
S & P 500 Large Cap Fund CIT	174,010	109,617
S & P 400 Mid Cap Fund CIT	193,130	125,561
Russell 2000 Small Cap Fund CIT	122,735	*

* Individually, balances are less than 5% of net assets available for benefits.

The Trustee has certified the completeness and accuracy of the net appreciation in fair value of investments. For the year ended December 31, 2013, the Plan's investments (including investments bought, sold and held during the year) appreciated in value as follows:

Fair value as determined by the Trustee:	
Collective Investment Trusts	$ 275,228
Net appreciation (depreciation) in fair value of investments	$ 275,228

Note 5 Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable input (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

LEVEL 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

LEVEL 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

LEVEL 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5 Fair Value Measurements (continued)

The following table sets forth by level, with the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

Note 5 Fair Value Measurements (continued)

The following table provides further details of the Level 3 fair value measurements:

	Income Fund
December 31, 2013	
Beginning balance	$ 280,076
Total gains or losses (realized or unrealized) included in changes in net assets available for benefits	4,738

Ending balance	$ 280,076

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2013 are reported in net appreciation (depreciation) in fair value of investments.

Note 6 Adjustment to Contract Value for Income Fund

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Income Fund CIT investment held by the Plan contains underlying fully benefit-responsive investment contracts. The Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012 present the fair value of the Income Fund CIT as well as the adjustment of the Income Fund CIT from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Note 7 Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 to Schedule H of Form 5500:

	2013	2012
Net assets available for benefits per the financial statements	$ 1,857,407	$ 1,669,747
Adjustment for fair value for Income Fund CIT	10,713	21,609
Net assets available for benefits per Schedule H to Form 5500	$ 1,868,120	$ 1,691,356

The following is a reconciliation of investment income per the financial statements at December 31, 2013 to Schedule H of Form 5500:

	2013
Total investment income per the financial statements	$ 275,233
Adjustment to fair value for Income Fund 2013	10,713
Adjustment to fair value for Income Fund 2012	(21,609)
Interest income from notes receivable from participants	534
Total investment income (loss) per Form 5500	$ 264,871

Note 8 Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, the respective participant interest, net of any termination fees, the vested interest of any participant shall not be diminished or adversely affected, and will be distributed to each participant in accordance with the Master Plan.

Ford FRITTS RIVERSIDE AUTO CENTER

Note 9 Tax Status

The Company has adopted a Prototype 401(k) plan and related trust. The Internal Revenue Service (IRS) has determined that the Plan and related trust are designed in accordance with applicable sections of the IRC.

The NADART master prototype documents were amended to comply with the statutory requirements of the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) of 2001 and received favorable opinion letters from the IRS on March 31, 2008. Each plan adopting a NADART master prototype plan document has been restated to reflect the EGTRRA plan changes. In accordance with Revenue Procedure 2002-6, the Plan administrator has chosen to rely on the current opinion letter that has been issued to the prototype. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 10 Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
