Plan Amendments — The Plan was amended during 2013 as follows:

Amendment No. 12 made certain provisions in connection with the merger of assets from the RathGibson LLC 401k Retirement Plan, the Dickson Testing Company, Inc. 401k Profit Sharing Plan, the Klune Industries, Inc. 401k Plan and the GCM Holdings 401(k) Plan effective April 1, 2013.

Amendment No. 13 made certain provisions in connection with the spinoff and transfer of assets from The Employee 401(k) Retirement Plan for TIMET to the Plan effective July 1, 2013. The Amendment also added conditions for receiving prior service credit for employees of International Piping Group, Inc. that became employees of BTM Manufacturing, LP on April 1, 2013 as a result of the partnership interest acquisition on December 29, 2012, and for employees of Unison Engine Components, Inc. or an affiliate who became employees of PCC Aerostructures Wilkes-Barre, LLC on May 20, 2013 as a result of the asset acquisition on March 26, 2013.

A Corrective Amendment was made regarding loan payment suspensions during a leave of absence and to allow for additional rollovers into the Plan.

The Plan was restated as of January 1, 2014 to reflect prior amendments, incorporate provisions relating to plan mergers, update Plan language, ensure continued compliance with applicable law, and make editorial, clarifying and administrative changes.

Contributions — Each year, participants may contribute up to 75% of pretax annual compensation, and up to 100% of bonuses, as defined by the Plan, up to the maximum allowable by the Internal Revenue Service (“IRS”), which was \$17,500 for the years ended December 31, 2013 and 2012. Participants may also rollover amounts representing distributions from other qualified defined contribution plans. Participants in the Plan are eligible for employer matching contributions ranging from 0%–100% of elective contributions up to 1.5%–10% of the participant’s pay. Some participants are also eligible for an employer profit-sharing match of 1.5%–6% of eligible compensation. The range of contributions is based on the rates credited in various historical plans. The matching period may be one pay period or one calendar quarter. Participants age 50 and older may contribute up to \$5,500 in catch-up

contributions annually. New employees at locations electing the automatic enrollment feature will be automatically enrolled in the Plan at 3% for pretax deferrals, increasing automatically by 1% per year up to a maximum of 7%, unless other percentages are elected in the electing location's Business Unit Participation Statement.

Vesting — Participants are immediately vested in their contributions plus actual earnings or losses thereon. Most Plan participants that are eligible for employer matching contributions will be one-third vested after one year of service, another one-third vested after two years of service, and fully vested after three years of service; however, the employer matching contributions made for employees of some business units vest immediately or as provided for in the participant's collective bargaining agreement.

Forfeitures — Forfeitures of nonvested Company contributions are used to fund future Company matching contributions. However, if a participant is reemployed and fulfills certain requirements, as defined in the Plan agreement, the account will be reinstated. At December 31, 2013 and 2012, forfeited nonvested accounts were not significant. During 2013, employer contributions were reduced by \$984,333 from forfeited nonvested accounts.

Participant Accounts — Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, if any, and (b) Plan earnings (losses). The allocation of Plan earnings is based on participants' account balances. Participants may direct the investment of their contributions and/or account balances into various investment options offered by the Plan and may change investments and transfer amounts between funds daily. The Plan offers 20 mutual fund investment options for participants managed through the Fidelity Master Trust. PCC common stock is not an investment option.

Notes Receivable from Participants — Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their account balance, whichever is less. A participant may have no more than two loans outstanding at one time. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms are limited to five years, unless the funds are used to acquire the principal residence of the participant, in which loan terms are limited to fifteen years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with interest rates charged by financial institutions for comparable loans at the time the loan is made. Interest rates range from 3.3% to 10.5% at December 31, 2013. Principal and interest are paid through payroll deductions or by direct payment from participants.

Payment of Benefits — On termination of service with the Company, including termination due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The Business Unit Participation Statement for a location may allow for payments to be made in installments. Required minimum distributions may also be made in installments.

Plan Administration — The Plan is administered by an Administrative Committee comprised of members who are appointed by the Chief Executive Officer of PCC.

Administrative Expenses — Most legal, audit, administrative and custodial expenses are paid by the Plan. Those not paid by the Plan are paid by the Company. No expenses are paid by the Plan to PCC employees who perform services on behalf of the Plan.

2. SUMMARY OF ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Basis of Accounting — The accompanying financial statements have been prepared on the accrual method of accounting, and in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Investment Valuation and Income Recognition (Note 4) — Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of the Plan's interest in the Master Trust is based on the beginning value of the Plan's interest in Master Trust, plus actual contributions and allocated investment income (loss), less actual distributions and allocated administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Interest on loans is recognized over the term of the loan and is calculated using the simple-interest method on principal amounts outstanding. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates — The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan provides various investment options to its participants, including mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Notes Receivable from Participants — Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Payment of Benefits — Benefit payments to participants are recorded upon distribution. There were no participants, who elected to withdraw from the Plan, but had not yet been paid at December 31, 2013 and 2012.

Recent Accounting Pronouncements — In December 2011 and January 2013, the Financial Accounting Standards Board (FASB) issued guidance requiring expanded disclosures, including both gross and net information, for derivatives, repurchase and reverse repurchase agreements, and securities borrowing and securities lending transactions that are either offset in the reporting entity's financial statements or those that are subject to an enforceable master netting arrangement or similar agreement. The Plan adopted the new guidance respectively in 2013. The new guidance affects disclosures only and therefore had no impact on the statements of net assets and changes therein.

Disclosure of Evaluation of Subsequent Events — In accordance with ASC 855, the Company evaluated subsequent events through October 10, 2014, the date these financial statements were available to be issued.

Refer to Note 1 for Plan amendments made after December 31, 2013.

3. INTEREST IN FIDELITY MASTER TRUST

4. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Investments classified within Level 3 whose fair value measurements consider several inputs may include Level 1 or Level 2 inputs as components of the overall fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value in the Fidelity Master Trust. There have been no changes in the methodologies used at December 31, 2013 and 2012:

Mutual Funds — Valued at the quoted market prices which represent the net asset value of shares held by the Fidelity Master Trust at year end. Investments in this category can be redeemed immediately without notice at the current net asset value per share based on the fair value of the underlying assets. Mutual funds with investments valued based on quoted market prices are classified as Level 1. All other mutual funds are classified as Level 2.

PCC Common Stock — Valued at the closing price reported on the New York Stock Exchange. PCC common stock is classified as Level 1. These shares are not an investment option of the Plan.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management of the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Fidelity Master Trust's net assets at fair value at December 31, 2013 and 2012:

	2013			Total
	Level 1	Level 2	Level 3	
Mutual funds:

Transfers Between Levels — The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended, December 31, 2013 and 2012, there were no transfers between levels.

5. PLAN EXPENSES

As provided in the Plan agreement, administrative expenses of the Plan may be paid either by the Plan or by the Company. Loan, redemption and certain other fees are charged to participant accounts. No expenses are paid by the Plan to PCC individuals who perform services on behalf of the Plan.

6. INFORMATION CERTIFIED BY TRUSTEE

Fidelity Management Trust Company (“Fidelity”) holds all investments and executes all transactions on behalf of the Plan. The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan administrator has obtained certifications from Fidelity that information regarding the fair value and cost of all investments, plus all investment interest and dividend income, and net appreciation (depreciation) in fair value of investments and gains and losses is complete and accurate at December 31, 2013 and 2012, and for the year ended December 31, 2013. In addition, the information included in Note 4 and information included in the Supplemental Schedule of Assets (Held at End of Year) was derived from certified information.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

8. TAX STATUS

The IRS has determined and informed the Company by a letter dated September 14, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Code. The Plan has been amended; however, the Plan administrator and the Plan’s tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments held in the Master Trust are shares of mutual funds managed by Fidelity, or an affiliate thereof. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

10. NONEXEMPT PARTY-IN-INTEREST TRANSACTION

From 2010 through 2013, the Company remitted several participant contributions totaling \$8,658,634 to the trustee later than required by Department of Labor (DOL) Regulation 2510.3-102. The Company filed Form 5330 for each of those years with the IRS and paid \$4,739 in excise tax on the transaction. In addition, participant accounts were credited with interest calculated by using the rate provided by the DOL.

11. VOLUNTARY COMPLIANCE RESOLUTION

In January 2013, the Company filed an application for a compliance statement from the IRS under the voluntary compliance resolution program. The compliance statement was sought with respect to the following operational failures:

- A failure under IRS section 72(p)(2)(A) and failing to follow the limit on the number of loans set forth in the Plan for three participants;
- A failure to repay loans in accordance with the terms of the loan and related Plan terms due to various administrative errors;
- A failure to follow Plan terms relating to the reamortization of participant loans on account of an authorized leave of absence;
- A failure to rollover loans from another plan in a timely manner for two newly acquired Business Units; and
- A failure to follow Plan terms by calculating match for a particular Business Unit on a quarterly basis rather than on a per payroll basis as required by the Unit's Business Unit Participation Statement.

The Plan received a favorable compliance statement on December 19, 2013.
