Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Siemens Healthcare Diagnostics Inc. Puerto Rico Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 7, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Compliance of Form and Content with Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the certified investment information have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2013

1. Description of Plan

The following description of the Siemens Healthcare Diagnostics Inc. Puerto Rico Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a non-contributory, defined benefit plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). For the years ended December 31, 2013 and 2012, the assets of the Plan were held in trust by Banco Popular de Puerto Rico (Banco Popular or Trustee). Pursuant to a sub-trustee agreement, the Trustee, as directed by the Investment Committee, has invested the Plan's assets in the Master Trust for Siemens Pension Plans (Master Trust), for which BNY Mellon Bank, N.A. (BNY Mellon) is the trustee. Effective January 2, 2014, JP Morgan Chase Bank N.A. replaced BNY Mellon as the sub-trustee of the assets of the Master Trust.

Participation in the Plan was suspended as of December 31, 1995, and no further benefits will be accrued for services rendered after that date. Effective January 31, 2011, liabilities and associated assets related to frozen pension benefits (other than interest credits) for certain current and former employees of Siemens Medical Solutions USA, Inc. were transferred to the Plan from the Siemens Pension Plan.

Administration

The Administrative Committee of Siemens is responsible for administering the Plan's operations and the Investment Committee of Siemens is responsible for selecting and monitoring investments held by the Plan, all of whom are appointed by the Board of Directors of Siemens.

1. Description of Plan (continued)

Pension Benefits

Benefits are provided at normal, early, and deferred retirement and upon total and permanent disability, subject to certain limitations. Participants who attain five years of service (at least 1,000 hours in a calendar year) or who terminated employment after reaching the age of 65 earn the right to a fully vested benefit. Benefits accrued prior to December 31, 1995 are generally computed according to a two step formula that takes into account a participant's years of benefit service, final average pay and estimated social security benefits, each through December 31, 1995. Step one of the formula is to compute 1.75% times a participant's projected years of benefit service to age 65 multiplied by his or her final average pay, less 1.75% times the participant's projected years of benefit service to age 65 multiplied by his or her estimated social security benefit. Step two is to multiply the difference computed in step one by a fraction, the numerator of which is the participant's actual years of service through December 31, 1995 and the denominator of which was the participant's projected benefit service through normal retirement age. All accrued benefits have been frozen. Alternate benefit formulas apply to certain participants who have accrued pension benefits that were transferred to the Plan from other defined benefit plans.

The benefit commencement date for normal retirement is the first day of the month coincident with or next following the date of an employee's 65th birthday. Benefits are payable beginning after the normal retirement date is reached. The benefit commencement date for a reduced early retirement benefit is the first day of any month after the early retirement date, which is the date an employee terminated employment after he has attained age 55 and completed ten or more years of vesting service. The benefit commencement date for deferred retirement is the first day of the month coincident with or next following the termination of employment after the normal retirement date. An eligible employee who incurs a disability after completing at least ten years of vesting service shall be entitled to his accrued benefit at normal retirement age or a reduced benefit as early as the month following the participant's attainment of age 55.

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Funding Policy

The Plan is funded solely by contributions made by the Company.

Contributions are determined annually based on actuarial valuations of the Plans by Hewitt Associates LLC (Hewitt), an independent consulting actuary. Hewitt determines the maximum amount permitted by law or regulation as a Federal income tax deduction and the minimum amount necessary during any plan year to avoid an accumulated funding deficiency as defined by ERISA.

The Company funds normal cost on a current basis and initial and additional past service liabilities from plan amendments, assumption/method changes and actuarial experience over periods of 30, 10, and 5 years, respectively. The actuarial funding method was the projected-unit-credit-cost method. The interest rate assumption used for funding purposes was within the range of 6.0% and 5.0% for 2013 and 2012. The Plan met the minimum funding requirements of ERISA for 2013 and 2012. The Company made contributions to the Plan in the amount of \$0 and \$184,000 for the years ended December 31, 2013 and 2012, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Siemens Healthcare Diagnostics Inc.
Puerto Rico Pension Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust, plus contributions, asset transfers in, and allocated investment income less actual distributions, allocated investment loss, asset transfers out and allocated administrative expenses.

As further discussed in Note 8, certain investments in securities held by the Master Trust are valued using quoted market prices. The last reported sales price on the valuation date is used when no other value is obtainable from the trustee. The amounts reported by the Master Trust for securities that have no quoted market price represent estimated fair value as determined by the trustee. The investment manager values investments in private placement bonds and high-yield bonds when no other value is obtainable from the trustee. Investments in short-term investment funds are reported at cost, which approximates fair value.

Investments in limited partnerships are valued based on information provided by the sponsor of the partnership. In the event that no other value is obtainable from the trustee, the investment manager will determine the value. Purchases and sales by the Master Trust are recorded on a trade-date basis. Interest income is recorded by the Master Trust on the accrual basis. The Master Trust records dividends on the ex-dividend date.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Plan Expenses

Certain expenses are paid by the Master Trust and charged to the Plan based upon the Plan's proportionate interest in the net assets of the Master Trust. Expenses attributed to a specific plan are charged to that plan only.

Siemens Healthcare Diagnostics Inc.
Puerto Rico Pension Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan may invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

The Investment Committee has diversified the net assets of the Master Trust with the intention of appropriately addressing significant concentrations of risk. The Master Trust's net assets were managed by 17 investment managers for the year ended December 31, 2013, and 16 for the year ended December 31, 2012.

Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect amounts reported and disclosed in the financial statements.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for employee services already rendered. Accumulated plan benefits include benefits expected to be paid to: (i) retired or terminated employees or their beneficiaries; (ii) beneficiaries of employees who have died and (iii) present employees or their beneficiaries. Benefits under the Plan are based on employees' highest five-year average compensation within the ten-year period immediately prior to the employee's termination. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date) or the total cash compensation during the year. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employees' service rendered and compensation received up to the valuation date.

3. Actuarial Present Value of Accumulated Plan Benefits (continued)

The actuarial present value of accumulated benefits for the Plan was determined by AON Hewitt and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used in the December 31, 2012 valuations were:

1. Life expectancy of participants – Generational mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(d)
2. Accrued benefit interest rate – 6.96%
3. Weighted-average retirement age – 63.1 in 2012 (changed from 62.7 in 2011)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue even though the benefits are frozen. If the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2012, is as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 2,295,057
Other participants	2,535,946
Nonvested benefits	3,454
Total actuarial present value of accumulated plan benefits	<u>\$ 4,834,457</u>

Siemens Healthcare Diagnostics Inc.
Puerto Rico Pension Plan

Notes to Financial Statements (continued)

3. Actuarial Present Value of Accumulated Plan Benefits (continued)

The changes in the actuarial present value of accumulated plan benefits during the year ended December 31, 2012, is as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 4,770,502
Increase (decrease) during the year attributable to:	
Increase for interest due to decrease in discount period	324,889
Benefits paid	(208,613)
Other changes	(52,321)
Net increase	<u>63,955</u>
Total actuarial present value of accumulated plan benefits at end of year	<u>\$ 4,834,457</u>

The Plan's experience and assumptions change amounts reflect changes due to retirement experience, turnover and mortality, as well as the impact of interest rate change.

4. Plan Termination

Even though the Plan is frozen, the Company intends to continue the Plan indefinitely without interruption, but reserves the right to discontinue it at anytime. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Benefits attributable to employee contributions, taking into account those paid out before termination.
- (b) Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan's provisions in effect at any time during the five years preceding the Plan's termination.

Siemens Healthcare Diagnostics Inc.
Puerto Rico Pension Plan

Notes to Financial Statements (continued)

4. Plan Termination (continued)

- (c) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government agency) up to the applicable limitations (discussed below).
- (d) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (e) All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2013, that ceiling is \$4,789.77 per month. That ceiling, which is adjusted periodically, applies to pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan's sponsor and the level of benefits guaranteed by the PBGC.

5. Tax Status

The Plan has received a determination letter from the Commonwealth of Puerto Rico's Department of Treasury (Department of Treasury) dated October 19, 2011, stating that the Plan is qualified under the Puerto Rico Internal Revenue Code, and therefore, the related trust is exempt from taxation. Subsequent to this determination by the Treasury, the Plan was amended on November 28, 2011 and October 1, 2012, and received letters from the Department of Treasury, dated May 31, 2012 and May 2, 2013, that state that the amendments do not affect the determination issued October 19, 2011. Once qualified, the Plan is required to operate in conformity with the Puerto Rico Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Puerto Rico Code and therefore believes that the Plan, as amended remains qualified and the related trust remains tax-exempt.

Accounting principles generally accepted in the United States requires the management of the Company to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits to be sustained upon examination by the Puerto Rico Department of the Treasury. The management of the Company has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Parties-in-Interest

BNY Mellon, the sub-trustee of the Master Trust and custodian of the Plan's assets, also serves as an investment manager with respect to one of the funds in which the Plan's assets are invested. In addition, BNY Mellon also serves as the custodian for certain funds managed by INVESCO in which the Plans participate. As of January 2, 2014, JPMorgan Chase Bank, N.A. replaced BNY Mellon Bank, N.A. as the sub-trustee for the assets of the Master Trust for the Siemens Pension Plans.

7. Information Certified by the Trustee

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Banco Popular de Puerto Rico and BNY Mellon for the years ended December 31, 2013 and 2012, as complete and accurate, except for comparing such information certified by the trustees to information included in the Plan's financial statements.

The accuracy and completeness of the Plan's share of investments in the net assets of the Master Trust and the investment income for the years ended December 31, 2013 and 2012, have been certified by Banco Popular de Puerto Rico and BNY Mellon as summarized below.

8. Investment in the Master Trust

All Master Trust amounts were prepared from records certified to be complete and accurate by the BNY Mellon at December 31, 2013 and 2012, and the years then ended.

The Plan has a proportionate interest in the Master Trust. The Master Trust's net assets and investment income are allocated to the individual pension plans on a daily weighted-average basis. The Plan's proportionate interest in the Master Trust's net assets at December 31, 2013 and 2012 was 0.16% and 0.15%, respectively.

Fair Value Measurements

The Company defines fair value as the exchange price that would be received for an asset or paid for a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The Company utilizes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize unobservable inputs when determining fair value and also establishes three levels of classifications.

Siemens Healthcare Diagnostics Inc.
Puerto Rico Pension Plan

Notes to Financial Statements (continued)

8. Investment in the Master Trust (continued)

As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy in ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

8. Investment in the Master Trust (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Short-Term Investments: Short-term investments are held in a pooled investment vehicle. This fund maintains a \$1 per share value. Any gains and/or earnings by the underlying assets are paid out as interest.

Equity: All assets in which the Master Trust holds a direct share have been classified as common stocks. These assets are valued at the closing price reported on the active market on which the individual securities are traded. Preferred securities are valued based on the closing price reported on the active market on which the individual securities are traded (Level 1) and the remaining investments are valued utilizing data furnished by an independent pricing service (Level 2). Also contained in equities are commingled funds which are classified as Level 2 securities and valued as described below.

Core Bonds: Certain of these investments are valued based on the closing price reported on the active market on which the individual securities are traded (Level 1) and the remaining investments utilizes data furnished by an independent pricing service (Level 2), incorporating various inputs such as benchmark curves, benchmarking of like securities, matrix pricing, model processes such as the Option Adjusted Spread model to assess interest rate impact of and develop prepayment scenarios. Both models and processes take into account market conventions. Also contained in core bonds are commingled funds which are classified as Level 2 securities and valued as described below.

Siemens Healthcare Diagnostics Inc.
Puerto Rico Pension Plan

Notes to Financial Statements (continued)

8. Investment in the Master Trust (continued)

Emerging Markets: Certain of these investments are valued based on the closing price reported on the active market on which the individual securities are traded (Level 1) and the remaining investments utilizes data furnished by an independent pricing service (Level 2), (and that data draws upon, among other information, the market values of foreign investments). These assets have been classified as common stocks on the preceding Master Trust table based on the underlying assets of the funds which are common stocks. The fund calculates a net asset value (NAV) based on the underlying securities' value at market close, less any applicable expenses, divided by the shares outstanding. NAVs may be calculated on daily/weekly/monthly basis (as determined by the fund). Also contained in emerging markets are commingled funds which are classified as Level 2 securities and valued as described below.

Limited Partnerships: Limited partnerships are valued based on the information provided by the manager. Quarterly data is usually received one to three months after quarter end. This creates a "lag" as the data is updated when it is received. There is no material impact as a result of this lag.

Commingled Funds: These investments own shares of pooled investment vehicles which, in turn, own various underlying assets (equity, fixed income, etc.). Each funds' performance will be the result of the underlying assets. The fund calculates a net asset value (NAV) based on the underlying securities' value at market close, less any applicable expenses, divided by the shares outstanding. NAVs may be calculated on daily/weekly/monthly basis (as determined by the fund).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

401(h) Account

Included within the assets of the Master Trust is a separate 401(h) account which is maintained with respect to a retiree health-benefit component of the Siemens ElectroCom L.P. Retirement Plan which merged into the Siemens Pension Plan on December 31, 2000. The Siemens Pension Plan also participates in the Master Trust. This asset has been accounted for in accordance with Section 401(h) of the Code. The corresponding liability has been recorded in the statement of net assets of the Siemens Pension Plan and is not reflected in the Master Trust assets above. These assets are not available to the Plan.

Securities Lending

The Investment Committee decided to end the participation of the Master Trust in BNY Mellon Global Securities Lending Program, and during 2013, the Master Trust was completely transitioned out of the program. These securities were lent to certain unrelated third-party brokers in exchange for collateral, usually in the form of cash. Collateralization levels were equal to a percentage of the market value of the borrowed securities. For U.S. securities, collateral shall not be less than 102%, and for non-U.S. securities, collateral shall not be less than 105% unless it is denominated in the same currency as the collateral, in which case it will be 102%. Collateral received was invested in a short-term collateral re-investment fund that was managed by BNY Mellon's Global Security Lending Group, and the fund consisted of high quality short-term investments. The value of loaned securities amounted to \$0 and \$4,373,647 at December 31, 2013 and 2012, respectively. The obligation to return collateral is reflected as a liability in the Master Trust's financial statements.

9. Subsequent Events

Management evaluated subsequent events for the Plan through October 8, 2014, the date the financial statements were available to be issued.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	January 1, 1995 (most recent amendment effective January 1, 2008).
Eligibility	Participants in the Baxter Healthcare Corporation of Puerto Rico and Affiliates Pension Plan as of December 19, 1994 remained as participants in the Dade International Inc. Puerto Rico Pension Plan. There were no new entrants after December 31, 1995.
Traditional Benefit	
Normal Retirement	
Eligibility	Age 65.
Benefit	The monthly pension is the greater of (a) or (b): (a) Accrued Benefit (b) Merger Accrued Benefit.
Early Retirement	
Eligibility	Age 55 with 10 years of Vesting Service.
Benefit	The monthly pension is the accrued benefit deferred to age 65 or if payments commence before age 65, such accrued benefit is reduced by 0.25% for each month by which the starting date precedes age 65.
Termination	
Eligibility	100% vested with five years of Vesting Service.
Benefit	The monthly pension is determined as in Normal Retirement (a) above, but reduced actuarially if payments begin after age 55 but before age 65.
Death Benefits	
Eligibility	Five years of Vesting Service.
Benefit	Upon death after becoming eligible for Early Retirement or attaining age 65, the spouse receives 100% of the retirement income the employee would have received had he retired on the date of his death and elected a 100% joint and survivor option.

Schedule SB Attachment (Form 5500)—2013 Plan Year
Siemens Healthcare Diagnostics Inc. Puerto Rico Pension Plan
EIN: 13-2623356 PN: 030

Benefit	If the participant dies on or before the date on which he would have been eligible for Early Retirement, the spouse shall receive a monthly benefit equivalent to the benefit he or she would have received if the participant had separated from service on the date of death, survived to the date on which he would have been first eligible for Early Retirement, retired with an immediate 50% joint and survivor option, and died on the date after such Early Retirement Date. Payments shall commence as of the date on which the participant would have been eligible for Early Retirement.
Definitions:	
Year of Service	Each Plan Year in which an employee earns 1,000 hours of service.
Vesting Service	All Years of Service earned on or after January 1, 1995 plus any service recognized for purposes of vesting by a plan merger.
Credited Service	All Years of Service, including periods of disability.
Final Average Monthly Compensation	The five highest consecutive year average out of the last ten years of participation, including the first partial year of participation and excluding the last partial year of participation. If less than five years of participation have been completed, the average of complete plan years of participation is used. Final Average Compensation was frozen at December 31, 1995.
Primary Social Security Benefit	The estimated monthly amount of Primary Social Security benefit payable at age 65 in accordance with the law in effect on the earlier of the date of termination of December 31, 1995, assuming a 6% salary scale in year prior to the earlier of termination and level future compensation to age 65.
Accrued Benefit	<p>The monthly pension equals (a) minus (b), multiplied by (c):</p> <p>(a) 1.75% of Average Monthly Compensation, multiplied by Credited Service projected to age 65.</p> <p>(b) 1.75% of the Primary Social Security Benefit multiplied by Credited Service projected to age 65, limited to 60% of the Primary Social Security Benefit.</p>

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- A change in the cash balance interest crediting rate from 4.50% to 4.25%.

This change was made to better reflect the anticipated plan experience. This assumption change did not reduce the funding shortfall more than the thresholds stated in the Internal Revenue Section 430(h)(5), as such approval of the Commissioner is not required.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	January 1, 1995 (most recent amendment effective January 1, 2008).
Eligibility	Participants in the Baxter Healthcare Corporation of Puerto Rico and Affiliates Pension Plan as of December 19, 1994 remained as participants in the Dade International Inc. Puerto Rico Pension Plan. There were no new entrants after December 31, 1995.
Traditional Benefit	
Normal Retirement	
Eligibility	Age 65.
Benefit	The monthly pension is the greater of (a) or (b): (a) Accrued Benefit (b) Merger Accrued Benefit.
Early Retirement	
Eligibility	Age 55 with 10 years of Vesting Service.
Benefit	The monthly pension is the accrued benefit deferred to age 65 or if payments commence before age 65, such accrued benefit is reduced by 0.25% for each month by which the starting date precedes age 65.
Termination	
Eligibility	100% vested with five years of Vesting Service.
Benefit	The monthly pension is determined as in Normal Retirement (a) above, but reduced actuarially if payments begin after age 55 but before age 65.
Death Benefits	
Eligibility	Five years of Vesting Service.
Benefit	Upon death after becoming eligible for Early Retirement or attaining age 65, the spouse receives 100% of the retirement income the employee would have received had he retired on the date of his death and elected a 100% joint and survivor option.

Benefit	If the participant dies on or before the date on which he would have been eligible for Early Retirement, the spouse shall receive a monthly benefit equivalent to the benefit he or she would have received if the participant had separated from service on the date of death, survived to the date on which he would have been first eligible for Early Retirement, retired with an immediate 50% joint and survivor option, and died on the date after such Early Retirement Date. Payments shall commence as of the date on which the participant would have been eligible for Early Retirement.
Definitions:	
Year of Service	Each Plan Year in which an employee earns 1,000 hours of service.
Vesting Service	All Years of Service earned on or after January 1, 1995 plus any service recognized for purposes of vesting by a plan merger.
Credited Service	All Years of Service, including periods of disability.
Final Average Monthly Compensation	The five highest consecutive year average out of the last ten years of participation, including the first partial year of participation and excluding the last partial year of participation. If less than five years of participation have been completed, the average of complete plan years of participation is used. Final Average Compensation was frozen at December 31, 1995.
Primary Social Security Benefit	The estimated monthly amount of Primary Social Security benefit payable at age 65 in accordance with the law in effect on the earlier of the date of termination of December 31, 1995, assuming a 6% salary scale in year prior to the earlier of termination and level future compensation to age 65.
Accrued Benefit	<p>The monthly pension equals (a) minus (b), multiplied by (c):</p> <p>(a) 1.75% of Average Monthly Compensation, multiplied by Credited Service projected to age 65.</p> <p>(b) 1.75% of the Primary Social Security Benefit multiplied by Credited Service projected to age 65, limited to 60% of the Primary Social Security Benefit.</p>

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- A change in the cash balance interest crediting rate from 4.50% to 4.25%.

This change was made to better reflect the anticipated plan experience. This assumption change did not reduce the funding shortfall more than the thresholds stated in the Internal Revenue Section 430(h)(5), as such approval of the Commissioner is not required.
