Administrative and Investment Committees

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Siemens Pension Plan and Siemens Pension Plan for Union Employees (the Plans), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 9, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2013 and 2012 and for the years then ended, that the information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Disclaimer of Opinion on Supplemental Schedule

The accompanying supplemental schedule of delinquent participant contributions for the year ended December 31, 2013 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Compliance of Form and Content with Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the certified investment information have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Siemens Pension Plan (Pension Plan) and Siemens Pension Plan for Union Employees (Union Plan)

Notes to Financial Statements

December 31, 2013

1. Description of Plans

The following brief description of the Siemens Pension Plan (the Pension Plan) and the Siemens Pension Plan for Union Employees (the Union Plan) (collectively, the Plans, individually, the Plan) is provided only for general information. Participants should refer to the respective plan document for a more complete description of each Plan's provisions. Certain groups of employees who participated in pension plans that have been merged into the Pension Plan or the Union Plan may be subject to terms and conditions that differ from those described below.

Participation in the Plans, at one time, had been available to all eligible employees of Siemens Corporation (the Company or Siemens) and those affiliated companies that participated in the Plans. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The assets of the Plans are held in the Master Trust for Siemens Pension Plans (the Master Trust) along with assets of certain other pension plans sponsored by Siemens. The assets of the Master Trust are held by BNY Mellon Bank, N.A. (the Trustee). Effective January 2, 2014, JPMorgan Chase Bank N.A. replaced BNY Mellon Bank, N.A. as the trustee for the assets of the Master Trust.

Benefits earned under the Pension Plan were frozen, effective December 31, 2010, so that no future accruals after December 31, 2010 (except for interest credits under the cash balance formulas of the Pension Plan) will be earned. Similarly, as a result of changes negotiated with respect to certain collective bargaining units during calendar year 2010, the Company froze benefits earned by the members of these collective bargaining units under the Union Plan so that no future accruals after December 31, 2010 (except for interest credits under the cash balance formulas of the Union Plan) will be earned by these members. The Board of Directors of the Company also approved additional employer contributions to be made either to the Siemens Savings Plan or the Siemens Savings Plan for Union Employees, as applicable, to those participants in the Pension Plan or the Union Plan who were affected by the freezing of future benefits under those Plans, beginning January 1, 2011.

Administration

The Administrative Committee of Siemens is responsible for administering the Plans' operations and the Investment Committee of Siemens is responsible for selecting and monitoring investments held by the Plans, all of whom are appointed in accordance with the provisions of the Plans.

1. Description of Plans (continued)

Pension Plan

General

The Pension Plan, which commenced on October 1, 1965, is a defined benefit plan sponsored by the Company. The Pension Plan had been amended to include a cash balance formula, effective January 1, 2001, in addition to the final average pay formula which was in effect prior to January 1, 2001. Participation in the Pension Plan for new participants had been frozen in 2006. No individual who was initially hired or rehired on or after April 1, 2006 was eligible to participate in the Pension Plan. With respect to individuals hired prior to April 1, 2006, an employee became eligible to enter the Pension Plan on January 1 or July 1 of any year, provided he/she had completed at least six full months of employment. A temporary employee became eligible to enter the Pension Plan on January 1 or July 1, provided he/she had completed at least one year of employment. The Pension Plan defines an employee as any person employed by the Company or affiliated companies that participate in the Plan who receives regular compensation other than a pension, retirement allowance, retainer or fee under contract. However, the Pension Plan excludes (i) employees covered by collective bargaining agreements entered into with the Company or one of the affiliated companies for which the agreements do not prescribe inclusion of such employees in the Pension Plan, (ii) hourly-paid or salary-paid employees specifically excluded from coverage by a participating company and (iii) leased employees and independent contractors.

Pension Benefits

For participants who became covered under the cash balance formula as of January 1, 2001, the lump-sum value of their accrued pension benefit as of December 31, 2000 under the Pension Plan's final average pay formula became their opening cash balance account value as of January 1, 2001. Currently under the cash balance formula, the Company credits each eligible participant's balance each month with an interest credit. The interest credit, which is a percentage of the participant's monthly beginning balance, is based on the annual interest rate of the 30-year U.S. Treasury bonds as of August of the previous year, subject to a minimum rate of 4.06%. For 2013, the minimum rate was the interest rate that applied for the Pension Plan. The pay credit which has been frozen was based on the participant's years of vesting service, pay and the level of contribution applicable to his or her employing company. Pay credits increased as the

participant's pay and service increased. Participants who have a vested benefit under the cash balance formula may elect either a lump-sum payment or, if the amount of the benefit is greater than \$5,000, monthly annuity payments.

Under the final average pay formula, participants with at least five years of employment are entitled to annual pension benefits beginning at normal retirement age, which is the later of (i) attainment of age 65 or (ii) generally the completion of at least five years of employment or at least five years of participation. The annual pension under the final average pay formula is the greater of (i) 1.125% of the first \$12,000 of the participant's average final compensation, as defined by the Pension Plan, plus 1.5% of the portion of the participant's average final compensation in excess of \$12,000, multiplied by the number of years and completed months, expressed as a fraction of a year, of benefit service or (ii) the minimum benefit, as defined by the Pension Plan, for employees entitled to such benefit.

Alternate benefits are available to certain participants who qualify based on certain provisions, as specified in the Pension Plan. If the present value of the vested benefit under the final average pay formula is less than \$5,000, the Pension Plan provides for the automatic lump-sum payments of pension benefits to participants. If the amount of the distribution is between \$1,000 and \$5,000 and if the participant does not elect to receive the distribution directly or to have the amount distributed as an eligible roll over, the plan administrator will direct that the amount be directly rolled over to an individual retirement plan designated by the plan administrator. If the benefit payable under the final average pay formula is less than \$50 per month, a lump-sum option can be elected; otherwise, a lump-sum payment is not an option.

Siemens Pension Plan (Pension Plan) and
Siemens Pension Plan for Union Employees (Union Plan)

Notes to Financial Statements (continued)

1. Description of Plans (continued)

The final average pay formula of the Pension Plan permits early retirement at a reduced benefit provided the participant has reached age 55 and has completed at least ten years of employment at the time of retirement. The reduction factors for early retirement under the final average pay formula are shown in the table below. There is no reduction in benefits for early retirement for participants that are age 62 and older when payments start.

Final Average Pay Reduction Factors	
Age When Payments Start	Total Monthly Reduction %
62 or later	0%
61	5
60	10
59	16
58	22
57	28
56	34
55	40%

Death and Disability Benefits

Under the cash balance formula, if a participant dies while employed, his/her benefit automatically becomes 100% vested. The benefit can be left in the Pension Plan until a later date, or the surviving beneficiary can receive the benefit as a lump sum or as a single-life annuity payable for the life of the beneficiary based on the beneficiary's age when benefits begin.

Under the final average pay formula, if a participant dies while still employed or before Pension Plan benefits commence, having a vested right to any portion of his/her accrued benefits, the participant's spouse will receive an annuity payment for life equal to the 50% joint and survivor annuity benefit, not to be less than \$360 per year. If the spouse is more than 15 years younger than the participant, the pension benefit is reduced by 1 percentage point for each year, or fraction thereof, by which the difference in age exceeds 15 years. If a retired participant receiving benefits dies, the surviving spouse shall receive 50% of the pension which the participant would receive unless the participant has chosen one of the other optional forms of payment provided under the Pension Plan.

Siemens Pension Plan (Pension Plan) and
Siemens Pension Plan for Union Employees (Union Plan)

Notes to Financial Statements (continued)

1. Description of Plans (continued)

If an active participant incurs a total and permanent disability, as defined by the Pension Plan, before December 31, 2010, benefits may continue to be earned during the period of disability up through December 31, 2010. When a participant becomes disabled and ends his/her employment, the cash balance account can be payable as a monthly annuity or a lump-sum payment. If a disabled participant begins to receive a benefit from the Pension Plan while receiving a long-term disability benefit, the disability benefit will be reduced by the Pension Plan benefit. If a lump-sum payment is elected from the Pension Plan, the disability payment will be reduced each month by the single-life annuity value of the Pension Plan benefit.

Under the final average pay formula, before December 31, 2010, an active participant who incurs a total and permanent disability, as defined by the Pension Plan, and (a) has worker's compensation payable in connection with the disability or (b) has completed at least ten years of employment with the Company, had the period of the disability treated as benefit service and employment under the Pension Plan. Disability ended on the earliest of (a) the date on which the participant recovers from the disability, (b) the date of the participant's death, or (c) the date of commencement of retirement benefit payments. Effective December 31, 2010, any Participant who is out on a total and permanent disability ceased accruing any benefits under the Pension Plan but will, up to the earlier of the time the participant starts to receive his or her benefit from the Pension Plan or reaches age 65, continue to receive credit towards meeting any early retirement requirements under the final average pay formula of the Pension Plan.

Union Plan

General

The Union Plan, which commenced on January 1, 2001, was a defined benefit cash balance plan sponsored by the Company. Some plans have been merged into the Union Plan which have formulas other than a cash balance formula. An employee may enter the Union Plan on January 1 or July 1, provided he/she has completed at least six full months of employment, which only applies to those plans that were not frozen. Temporary employees are eligible to enter the Union Plan on January 1 or July 1, provided they have completed at least one year of employment, which only applies to those plans that were not frozen. The Union Plan defines an "employee" as any person who is employed by the Company or an affiliated company, receives regular compensation, and who is covered by a collective bargaining agreement that provides for participation in the Union Plan. The Union Plan excludes leased employees or independent

contractors. Some of the collective bargaining agreements applicable to employees covered by this Plan provide that employees hired or rehired after certain dates are not eligible for participation in the Plan.

Pension Benefits

Currently under the cash balance formula, the Company credits each eligible participant's balance each month with an interest credit. The interest credit, which is a percentage of the participant's monthly beginning balance, is based on the annual interest rate of 30-year U.S. Treasury bonds as of August of the previous year and the rate was 2.77% in 2013 for the Union Plan. There is no minimum interest credit rate for the Union Plan.

The pay credit (which had been frozen as of December 31, 2010 for participants of the Union Plan who were members of certain collective bargaining units) was based on the participant's years of service, pay, and the level of contribution applicable to his/her company. Pay credits increased as the participant's pay and service increased. Participants with three years of service may elect either a lump-sum payment or monthly annuity payments. If the present value of a participant's vested benefit is less than \$5,000, the Union Plan provides for a lump-sum payment of the accumulated pension benefit to the participant. If the amount of the distribution is between \$1,000 and \$5,000, and if the participant does not elect to receive the distribution directly or to have the amount distributed as an eligible roll over, the plan administrator will direct that the amount be directly rolled over to an individual retirement plan designated by the plan administrator.

Death and Disability Benefits

If a participant dies while employed, his/her benefit automatically becomes 100% vested. The benefit under the cash balance formula can be left in the Union Plan until a later date, or the surviving beneficiary can receive the benefit as a lump sum or as a single-life annuity payable for the life of the beneficiary based on the beneficiary's age when benefits begin.

If an active participant incurs a total and permanent disability, as defined by the Union Plan, benefits under the cash balance formula will continue to be credited with interest during the period of disability up to the time the participant starts to receive his or her benefit from the

Siemens Pension Plan (Pension Plan) and

1. Description of Plans (continued)

Union Plan. When a participant becomes disabled and ends his/her employment, the cash balance account can be payable as a monthly annuity or a lump-sum payment. If a disabled participant begins to receive a benefit from the Union Plan while receiving a long-term disability benefit, the disability benefit will be reduced by the Union Plan benefit. If a lump-sum payment is elected from the Union Plan, the disability payment will be reduced each month by the single-life annuity value of the Union Plan benefit.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plans have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and supplemental schedule and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The fair value of the Plans' interest in the Master Trust is based on the beginning of year value of the Plans' interest in the Master Trust plus actual contributions, asset transfers in, and allocated investment income less actual distributions, allocated investment loss, asset transfers out and allocated administrative expenses.

As further discussed in Note 10, certain investments in securities held by the Master Trust are valued using quoted market prices. The last reported sales price on the valuation date is used when no other value is obtainable from the Trustee. The amounts reported by the Master Trust for securities that have no quoted market price represent estimated fair value as determined by the Trustee. The investment manager values investments in private placement bonds and high-yield bonds when no other value is obtainable from the Trustee. Investments in short-term investment funds are reported at cost, which approximates fair value.

Siemens Pension Plan (Pension Plan) and
Siemens Pension Plan for Union Employees (Union Plan)

Notes to Financial Statements (continued)

2. Summary of Accounting Policies (continued)

Investments in limited partnerships are valued based on information provided by the sponsor of the partnership. In the event that no other value is obtainable from the Trustee, the investment manager will determine the value. Purchases and sales by the Master Trust are recorded on a trade-date basis. Interest income is recorded by the Master Trust on the accrual basis. The Master Trust records dividends on the ex-dividend date.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Plan Expenses

Certain expenses are paid by the Master Trust and charged to the applicable Plan, and if chargeable to both Plans, the charge is based upon each Plan's proportionate interest in the net assets of the Master Trust. Expenses attributed to a specific Plan are charged to that Plan only.

Risks and Uncertainties

The Plans invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

The Investment Committee has diversified the net assets of the Master Trust with the intention of appropriately addressing significant concentrations of risk. The Master Trust's net assets were managed by 17 investment managers as of December 31, 2013 and 2012.

Contributions to the Plans are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect amounts reported and disclosed in the financial statements.

Siemens Pension Plan (Pension Plan) and
Siemens Pension Plan for Union Employees (Union Plan)

Notes to Financial Statements (continued)

2. Summary of Accounting Policies (continued)

3. 401(h) Account

As a result of the December 31, 2000 merger of the Siemens ElectroCom L.P. Retirement Plan (the ElectroCom Plan) into the Pension Plan, the Pension Plan's financial statements reflect the net asset balance of a separate 401(h) account with a corresponding payable at December 31, 2013 and 2012. This separate account is held in the Master Trust and is maintained solely with respect to a health benefit component of the ElectroCom Plan established to fund a portion of the postretirement obligations of Siemens ElectroCom L.P. for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code (the Code). In accordance with Code Section 401(h), the Plan's investment in the 401(h) account may not be used for, or diverted to, any purpose other than providing health and welfare benefits for retirees and participants who had been employed by ElectroCom. Pension Plan participants did not contribute to the 401(h) account.

4. Funding Policy

The Plans are generally funded solely by contributions made by the Company and its affiliates whose employees participated in the Plans. For some groups in the Union Plan contributions are required by the employees.

Contributions are determined annually based on actuarial valuations of the Plans by AON Hewitt, an independent consulting actuary. AON Hewitt determines the maximum amount permitted by law or regulation as a Federal income tax deduction and the minimum amount necessary during any plan year to avoid an accumulated funding deficiency as defined by ERISA.

The Company funds normal cost on a current basis and initial and additional past service liabilities from the Plans' amendments, assumption/method changes and actuarial experience over periods of 30, 10, and 5 years, respectively. The actuarial funding method was the standard-unit-credit-cost method. The effective interest rate assumption used for funding purposes was within the range of 6% and 7% for 2013 and 2012. The contributions for the years ended December 31, 2013 and 2012, were \$0 and \$25,143,000, respectively, for the Pension Plan. The contributions for the years ended December 31, 2013 and 2012, were \$0 and \$15,000,000, respectively for the Union Plan. The minimum funding requirements of ERISA were met for both years.

Siemens Pension Plan (Pension Plan) and
Siemens Pension Plan for Union Employees (Union Plan)

Notes to Financial Statements (continued)

4. Funding Policy (continued)

Employee contributions are no longer required or permitted under the Plans, except by employees who are required to make employee contributions as a condition of membership under the Jackson Retirement Plan formula of the Union Plan. After October 1, 1981, no employee contributions to the Siemens Pension Plan were made. Employees participating in the Siemens Westinghouse Retirement Plan (SWRP) and the Siemens Westinghouse Retirement Plan for Union Employees (SWRPU) were required to make employee contributions under the SWRP and SWRPU until December 31, 2001.

When the Jackson Retirement Plan, SWRP and SWRPU merged into the Plans, the participant balances were retained. Accumulated contributions of employees in the Pension Plan at December 31, 2013 and 2012, were \$23,329,190 and \$24,849,221, respectively, including interest credited at an interest rate of 1.04% and 1.4% for 2013 and 2012, respectively, compounded annually. Accumulated contributions of employees in the Union Plan at December 31, 2013 and 2012, were \$3,043,108 and \$3,014,350, respectively, including interest credited at an interest rate of 1.04% and 1.4% for 2013 and 2012, respectively, compounded annually.

As of January 1, 2012, the Company adopted with respect to determining liabilities for funding purposes for each of the Plans the federal act known as “Moving Ahead for Progress in the 21st Century” (MAP-21).

5. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plans’ provisions for employee services already rendered. Accumulated plan benefits include benefits expected to be paid to (i) retired or terminated employees or their beneficiaries; (ii) beneficiaries of employees who have died and (iii) present employees or their beneficiaries. Benefits under each Plan are based on employees’ average compensation during the last five years of credited service or the total cash compensation during the year. The accumulated plan benefits for active employees are based on their average compensation during the four years ending on the date as of which the benefit information is presented (the valuation date) or the total cash compensation during the year. Benefits payable under all circumstances (i.e., retirement, death, disability and termination of employment) are included, to the extent they are deemed attributable to employees’ service rendered and compensation received up to the valuation date.

Siemens Pension Plan (Pension Plan) and
Siemens Pension Plan for Union Employees (Union Plan)

Notes to Financial Statements (continued)

5. Actuarial Present Value of Accumulated Plan Benefits (continued)

The actuarial present value of accumulated plan benefits for each of the Plans was determined by AON Hewitt, and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used in the December 31, 2012 valuation were:

1. Life expectancy of active participants – Generational mortality table for annuitants and non-annuitants per §1.430(h)(3)-1(d)
2. Accrued benefit interest rate – 6.96%
3. Weighted-average retirement age – 63 for the Pension Plan and 62 for the Union Plan

The foregoing actuarial assumptions are based on the presumption that the Plans will continue even though benefits are frozen. If either or both of the Plans terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2012, is as follows:

	Pension Plan	Union Plan
Vested benefits:		
Participants and beneficiaries currently receiving payments	\$ 1,022,638,217	\$ 85,798,866
Participants with deferred benefits	2,047,222,566	79,839,585
Other participants	—	—
	<u>3,069,860,783</u>	<u>165,638,451</u>
Nonvested benefits	7,536,570	849,659

Siemens Pension Plan (Pension Plan) and
Siemens Pension Plan for Union Employees (Union Plan)

Notes to Financial Statements (continued)

5. Actuarial Present Value of Accumulated Plan Benefits (continued)

The changes in the actuarial present value of accumulated plan benefits during the year ended December 31, 2012, are as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 3,109,812,859	\$ 163,358,772
Increase (decrease) during the year attributable to:		
Interest accumulation	209,484,781	10,980,868
Benefits payments	(203,368,687)	(11,366,541)
Assumption changes	(41,409,144)	1,836,273
Accrual of additional benefits	—	1,892,262
Experience loss/(gain)	2,877,544	(213,524)
Net (decrease)/increase	(32,415,506)	3,129,338
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 3,077,397,353</u>	<u>\$ 166,488,110</u>

The Plans' experience and assumptions change amounts reflect changes due to retirement experience, turnover and the interest crediting rate.

6. Plan Termination

Even though for the most part the Plans are frozen, the Company intends to continue the Plans indefinitely without interruption, but reserves the right to discontinue either of the Plans at any time. In the event either or both of the Plans terminate, the net assets of the terminated Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Benefits attributable to employee contributions, taking into account those paid out before termination.

Siemens Pension Plan (Pension Plan) and
Siemens Pension Plan for Union Employees (Union Plan)

Notes to Financial Statements (continued)

6. Plan Termination (continued)

- (b) Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plans. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under each Plan's provisions in effect at any time during the five years preceding a Plan's termination.
- (c) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government agency) up to the applicable limitations (discussed below).
- (d) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (e) All nonvested benefits.

Certain benefits under the Plans are insured by the PBGC if either of the Plans terminate. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plans, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plans are guaranteed at the level in effect on the date of the Plans' termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2013, that ceiling is \$4,789.77 per month. That ceiling, which is adjusted periodically, applies to pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. Whether all participants receive their benefits should either or both of the Plans terminate at some future time will depend on the sufficiency, at the time, of that Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

7. Parties-in-Interest

Currently, three members of the Investment Committee and one of the members of the Administrative Committee are participants in the Pension Plan. The Trustee also serves as an investment manager with respect to one of the investment funds of the Plans. In addition, the Trustee also serves as the custodian for certain funds managed by INVESCO in which the Plans participate. As of January 2, 2014, JPMorgan Chase Bank, N.A. replaced BNY Mellon Bank, N.A. as the trustee for the assets of the Master Trust for the Siemens Pension Plans.

8. Tax Status

The IRS has issued favorable determination letters dated June 23, 2014 and June 5, 2008 advising that the Pension Plan and Union Plan, respectively, qualify for tax-exempt status pursuant to the provisions of Section 401(a) of the Internal Revenue Code (the Code). Both of the Plans' were filed with the IRS on January 27, 2012 for a determination that both Plans remain qualified under the Internal Revenue Code. The Plans' administrator and management of the Company believe that the Plans, as subsequently amended, conform to ERISA requirements and continue to qualify as tax exempt under the Code. Accordingly, no provision has been made for federal income taxes.

Accounting principles generally accepted in the United States requires the management of the Company to evaluate uncertain tax positions taken by the Plans. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The management of the Company has analyzed the tax positions taken by the Plans, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plans have recognized no interest or penalties related to uncertain tax positions. The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Information Certified by the Trustee

The Plans' administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plans' administrator instructed the Plans' independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee of the Plans, as complete and accurate, except for comparing such information certified by the Trustee to information included in the Plans' financial statements.

The Trustee has certified to the accuracy and completeness of each of the Plan's share of investments in the net assets of the Master Trust at December 31, 2013 and 2012, and the investment income for the years ended December 31, 2013 and 2012, as summarized below:

10. Investment in the Master Trust

All Master Trust amounts were prepared from records certified to be complete and accurate by the Trustee at December 31, 2013 and 2012, and the years then ended.

Each Plan has a proportionate interest in the Master Trust. The Master Trust's net assets and investment income are allocated to the individual Company sponsored pension plans on a daily weighted-average basis. The Pension Plan's proportionate interest in the Master Trust's net assets at December 31, 2013 and 2012, was 94.00% and 94.36%, respectively. The Union Plan's proportionate interest in the Master Trust's net assets at December 31, 2013 and 2012, was 5.67% and 5.31%, respectively.

Fair Value Measurements

The Company defines fair value as the exchange price that would be received for an asset or paid for a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The Company utilizes a fair value hierarchy which requires each Plan to maximize the use of observable inputs and minimize unobservable inputs when determining fair value and also establishes three levels of classifications.

Siemens Pension Plan (Pension Plan) and
Siemens Pension Plan for Union Employees (Union Plan)

Notes to Financial Statements (continued)

10. Investment in the Master Trust (continued)

As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy in ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Short-Term Investments: Short-term investments are held in a pooled investment vehicle. This fund maintains a \$1 per share value. Any gains and/or earnings by the underlying assets are paid out as interest.

Siemens Pension Plan (Pension Plan) and
Siemens Pension Plan for Union Employees (Union Plan)

Notes to Financial Statements (continued)

10. Investment in the Master Trust (continued)

Equity: All assets in which the Master Trust holds a direct share have been classified as common stocks. These assets are valued at the closing price reported on the active market on which the individual securities are traded. Preferred securities are valued based on the closing price reported on the active market on which the individual securities are traded (Level 1) and the remaining investments are valued utilizing data furnished by an independent pricing service (Level 2). Also contained in equities are commingled funds which are classified as Level 2 securities and valued as described below.

Core Bonds: Certain of these investments are valued based on the closing price reported on the active market on which the individual securities are traded (Level 1) and the remaining investments utilizes data furnished by an independent pricing service (Level 2), incorporating various inputs such as benchmark curves, benchmarking of like securities, matrix pricing, model processes such as the Option Adjusted Spread model to assess interest rate impact of and develop prepayment scenarios. Both models and processes take into account market conventions. Also contained in core bonds are commingled funds which are classified as Level 2 securities and valued as described below.

Emerging Markets: Certain of these investments are valued based on the closing price reported on the active market on which the individual securities are traded (Level 1) and the remaining investments utilizes data furnished by an independent pricing service (Level 2), (and that data draws upon, among other information, the market values of foreign investments). These assets have been classified as common stocks on the preceding Master Trust table based on the underlying assets of the funds which are common stocks. The fund calculates a net asset value (NAV) based on the underlying securities' value at market close, less any applicable expenses, divided by the shares outstanding. NAVs may be calculated on daily/weekly/monthly basis (as determined by the fund). Also contained in emerging markets are commingled funds which are classified as Level 2 securities and valued as described below.

Limited Partnerships: Limited partnerships are valued based on the information provided by the manager. Quarterly data is usually received one to three months after quarter end. This creates a "lag" as the data is updated when it is received. There is no material impact as a result of this lag.

Commingled Funds: These investments own shares of pooled investment vehicles which, in turn, own various underlying assets (equity, fixed income, etc.). Each funds' performance will be the result of the underlying assets. The fund calculates a net asset value (NAV) based on the underlying securities' value at market close, less any applicable expenses, divided by the shares outstanding. NAVs may be calculated on daily/weekly/monthly basis (as determined by the fund).

10. Investment in the Master Trust (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plans believe their valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the Master Trust's net investments at fair value for the years ended December 31, 2013 and 2012, respectively:

401(h) Account

Included within the assets of the Master Trust is a separate 401(h) account which is maintained with respect to a retiree health-benefit component of the Siemens ElectroCom L.P. Retirement Plan as described in Note 3. This asset has been accounted for in accordance with Section 401(h) of the Internal Revenue Code. The corresponding liability has been recorded in the statement of net assets of the Pension Plan and is not reflected in the Master Trust assets above. These assets are not available to the Union Plan.

Securities Lending

The Investment Committee decided to end the participation of the Master Trust in the BNY Mellon Global Securities Lending Program, and during 2013, the Master Trust was completely transitioned out of this Program. These securities had been lent to certain unrelated third-party brokers in exchange for collateral, usually in the form of cash. Collateralization levels were equal to a percentage of the market value of the borrowed securities. For U.S. securities, the collateral was not less than 102%, and for non-U.S. securities, the collateral was not less than 105% unless it was denominated in the same currency as the collateral, in which case it was 102%. Collateral received was invested in a short-term collateral re-investment fund that was managed by BNY Mellon's Global Security Lending Group, and the fund consists of high quality short-term investments. The value of loaned securities amounted to \$0 and \$4,373,647 at December 31, 2013 and 2012, respectively. The obligation to return collateral is reflected as a liability in the Master Trust's financial statements.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Optional Payment Form Election Percentage

For Cash Balance participants who terminate after retirement age eligibility, it is assumed that 25% elect an immediate lump sum payment, 20% elect an immediate life annuity, and 55% elect a lump sum payment payable at age 61.

For Cash Balance participants who terminate prior to retirement age eligibility, it is assumed that 20% elect an immediate lump sum payment and 80% elect a lump sum payment payable at age 61.

All other participants are assumed to elect a single life annuity.

Retirement Age

Active Participants

Terminated Vested Participants

See Table 1

For Cash Balance participants, 80% of those who terminated within two years of the valuation date are assumed to elect an immediate lump sum payment and 20% elect a lump sum payment payable at age 61.

For all other Cash Balance participants, it is assumed that 100% elect a lump sum payment at age 61.

All other participants are assumed to elect a life annuity payable at age 61.

The accrued normal benefit is reduced 5/9% for each month that commencement starts before age 65.

Termination

Eligibility

100% vested after five years of service.

Benefit

The annual pension is the accrued benefit deferred to age 65 or on or after age 60. If payments commence before age 65, such accrued benefit is reduced.

Death Benefits

Benefit

Upon death after five years of vesting service, the spouse receives a benefit as if the employee terminated or retired on the date of his death with the spouse's option in effect. The spouse's benefit option provides that 50% of his benefit will continue to his spouse after his death. An actuarially reduced pension is provided for this optional form of payment.

Disability Retirement
Eligibility

Age 55 and 10 years of service, or 20 years of service regardless of age (except for employing unit number 211 whose only requirement is 10 years of service regardless of age).

Benefit

The annual pension to begin after 6 months of disability is the accrued normal benefit, reduced by benefits relating to the disability paid to him by law, except for Social Security disability benefits or any military service pension.

Termination
Eligibility

100% vested after 5 years of service.

Benefit

The annual pension is the accrued benefit deferred to age 65 or on or after age 55. If payments commence before age 65, such accrued benefit is reduced.

Death Benefits
Before Retirement

Upon death after becoming eligible for regular early retirement or attaining age 65, the spouse receives 50% of the retirement income the employee would have received had he retired on the date of his death and elected a 50% contingent annuitant option. Employee is charged for remaining REA required death benefits.

If the participant dies on or before the date on which he would have been eligible for Early Retirement, the spouse shall receive a monthly benefit equivalent to the benefit he or she would have received if the participant had separated from service on the date of death, survived to the date on which he would have been first eligible for Early Retirement, retired with an immediate 50% contingent annuitant option, and died on the date after such Early Retirement Date. Payments shall commence as of the date on which the participant would have been eligible for Early Retirement.

Employee Required Contributions

Mandatory employee contributions have been made in the past for certain employees. These participants who terminate without entitlement to any other benefit shall receive a refund of their contributions plus credited interest. Also, if any such participant should die before he has received benefits (excluding disability income received prior to age 65) which equal in value his contributions plus credited interest, the difference shall be paid to his beneficiary.

Normal Retirement

Eligibility

Age 65 with 5 years of service.

Benefit

The annual benefit is based on each year's earnings. For each year of service prior to 1983, the annual benefit is computed as 1% of annual earnings during each year of credited service. For each year of service after 1982, the annual benefit is 1.2% of annual earnings during each year of credited service, plus 1% of such earnings which are in excess of \$9,000. The total benefit is subject to a minimum of 1% of final 5-year average earnings (but not less than \$120 nor more than \$180) multiplied by total years of credited service.

Early Retirement

Eligibility

Age 60 with 10 years of service.

Benefit

The accrued normal benefit is reduced 5/9% for each month that commencement starts before age 62, with a supplemental benefit payable prior to age 62 of \$72 for each year of credited service (maximum of 25 years).

Disability Retirement

Eligibility

10 years of service.

Benefit

Normal retirement benefit (without the minimum) accrued to date of disability commencing after 6 months of disability reduced by 5/9 of 1% for each month by which the first pension payment precedes age 62, provided such reduction shall not exceed 12%; plus \$75 per month payable until eligible for unreduced Social Security benefits.

Termination

Eligibility

100% vested after 5 years of service.

Benefit

The annual pension is the accrued benefit deferred to age 65 or on or after age 55. If payments commence before age 65, such accrued benefit is reduced.

Effective January 1, 1994, benefits as of December 31, 1993 were frozen for all employees who had not attained age 50 as of June 1, 1993.

Early Retirement

Eligibility

Age 60 with five years of service.

Benefit

The accrued normal benefit is reduced 5/9% for each month that commencement starts before age 65.

Termination

Eligibility

100% vested after five years of service.

Benefit

The annual pension is the accrued benefit deferred to age 65 or on or after age 60. If payments commence before age 65, such accrued benefit is reduced.

Death Benefits

Benefit

Upon death after five years of vesting service, the spouse receives a benefit as if the employee terminated or retired on the date of his death with the spouse's option in effect. The spouse's benefit option provides that 50% of his benefit will continue to his spouse after his death. An actuarially reduced pension is provided for this optional form of payment.

Disability Retirement
Eligibility

Ten years of service.

Benefit

The annual pension to begin after 6 months of disability is the accrued normal benefit, payable for life, plus an extra \$72.00 times service (maximum 25 years) payable until the employee becomes eligible for unreduced Social Security benefits.

Termination
Eligibility

100% vested after five years of service.

Benefit

The annual pension is the accrued benefit deferred to age 65 or on or after age 55. If payments commence before age 65, such accrued benefit is reduced.

Death Benefits
Before Retirement

The employee may elect a survivor's benefit payable to his spouse upon his death after age 55 and after he is eligible for regular early retirement. The spouse's benefit is 50% of the employee's reduced pension. The employee's pension is actuarially reduced to pay for this benefit. Employee is charged for remaining REA required death benefits.

After Retirement

A subsidized spouse's option is available under which the employee's pension is reduced 10% and his surviving spouse receives 50% of the reduced pension for life. The 10% reduction varies with the difference between the employee's age and his spouse's age.

*Social Security Wage Base (SSWB)

This benefit is then subject to a minimum benefit of "Annual Minimum Benefit" per year of benefit service.

The benefit is paid on a 50% joint and survivor basis actuarially equivalent to a life annuity for all participants who have been married at least one year with life annuities for all others. Other forms are available on an actuarially equivalent basis.

Early Retirement

Eligibility

Age 55 with 10 years of vesting service.

Benefit

The annual pension is the accrued benefit deferred to age 65 or if payments commence before age 65, such accrued benefit is reduced 4% (3% for Unit 211) for each year down to age 60 that commencement precedes age 65 and an additional 6% (5% for Unit 211) for each year down to age 55 that commencement precedes age 60.

Disability Retirement
Eligibility

Age 55 and 10 years of service, or 20 years of service regardless of age (except for employing unit number 211 whose only requirement is 10 years of service regardless of age).

Benefit

The annual pension to begin after 6 months of disability is the accrued normal benefit, reduced by benefits relating to the disability paid to him by law, except for Social Security disability benefits or any military service pension.

Termination
Eligibility

100% vested after 5 years of service.

Benefit

The annual pension is the accrued benefit deferred to age 65 or on or after age 55. If payments commence before age 65, such accrued benefit is reduced.

Death Benefits
Before Retirement

Upon death after becoming eligible for regular early retirement or attaining age 65, the spouse receives 50% of the retirement income the employee would have received had he retired on the date of his death and elected a 50% contingent annuitant option. Employee is charged for remaining REA required death benefits.

If the participant dies on or before the date on which he would have been eligible for Early Retirement, the spouse shall receive a monthly benefit equivalent to the benefit he or she would have received if the participant had separated from service on the date of death, survived to the date on which he would have been first eligible for Early Retirement, retired with an immediate 50% contingent annuitant option, and died on the date after such Early Retirement Date. Payments shall commence as of the date on which the participant would have been eligible for Early Retirement.

Employee Required Contributions

Mandatory employee contributions have been made in the past for certain employees. These participants who terminate without entitlement to any other benefit shall receive a refund of their contributions plus credited interest. Also, if any such participant should die before he has received benefits (excluding disability income received prior to age 65) which equal in value his contributions plus credited interest, the difference shall be paid to his beneficiary.

Jackson Retirement Plan

Normal Retirement

Eligibility

Age 65 with 5 years of service.

Benefit

The annual benefit is based on each year's earnings. For each year of service prior to 1983, the annual benefit is computed as 1% of annual earnings during each year of credited service. For each year of service after 1982, the annual benefit is 1.2% of annual earnings during each year of credited service, plus 1% of such earnings which are in excess of \$9,000. The total benefit is subject to a minimum of 1% of final 5-year average earnings (but not less than \$120 nor more than \$180) multiplied by total years of credited service.

Early Retirement

Eligibility

Age 60 with 10 years of service.

Benefit

The accrued normal benefit is reduced 5/9% for each month that commencement starts before age 62, with a supplemental benefit payable prior to age 62 of \$72 for each year of credited service (maximum of 25 years).

Disability Retirement

Eligibility

10 years of service.

Benefit

Normal retirement benefit (without the minimum) accrued to date of disability commencing after 6 months of disability reduced by 5/9 of 1% for each month by which the first pension payment precedes age 62, provided such reduction shall not exceed 12%; plus \$75 per month payable until eligible for unreduced Social Security benefits.

Termination

Eligibility

100% vested after 5 years of service.

Benefit

The annual pension is the accrued benefit deferred to age 65 or on or after age 55. If payments commence before age 65, such accrued benefit is reduced.

Death Benefits
Benefit

Upon death after becoming eligible for regular early retirement, the spouse receives a benefit as if the employee retired on the date of his death with the spouse's option in effect. The spouse's benefit option provides that 50% of his benefit will continue to his spouse after his death. The participant receives an actuarially reduced pension to provide for this optional form of payment. Employee is charged for remaining REA required death benefits.

Employee Contributions

A participant must contribute 3% of each year's earnings which are in excess of \$9,000.
