Note A - Description of Plan

The following description of the Houston Shutters, LLC 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Houston Shutters, LLC (the "Company" or "Employer") for the benefit of all eligible non-union employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation

Eligible employees may become participants in the Plan for purposes of making contributions after one year of service provided they are 21 years of age.

Contributions

Plan participants may contribute a percentage of pretax annual compensation, not to exceed the dollar limitation contained in Section 402(g) of the Internal Revenue Code (the "Code"), through a salary reduction election. Participants may elect to rollover contributions into the Plan from a previous employer. Each year the Company may make matching contributions of a percent to be determined annually based on a percentage of each eligible participant's elective deferral contribution to the Plan. For the years ended December 31, 2013 and 2012, the Plan provided a matching contribution of 50% for each eligible participant's elective deferral contribution to the Plan, up to 4% of a participant's eligible compensation.

Participants age 50 or older are permitted to make additional catch-up contributions of up to $5,500 for the years ended December 31, 2013 and 2012.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and an allocation of Plan earnings and charged with an allocation of Plan expenses. Allocations are based on the participants' earnings or account balances, as defined. The benefit to which a participant is entitled is equal to the value of the participant's vested account.

Note A - Description of Plan (Continued)

Forfeitures

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $517. These accounts will be used to reduce future Employer Contributions. During 2013 and 2012, the Company did not reduce Employer Contributions using forfeited non-vested accounts.

Vesting

Participants shall at all times be one hundred percent (100%) vested in their salary deferral and rollover contributions. A participant is 100% vested in Company contributions upon the completion of three years of service. Additionally, participants are fully vested at their normal retirement date, death or disability, regardless of the number of years of participation.

Payment of Benefits

The Plan provides that a participant's vested interest in the Plan will be distributed to the participant upon retirement, total disability or death. Employees terminating employment with the Company for other reasons are entitled to their vested interest in the Plan. Participants with elective deferral contributions in excess of $5,000 may elect to defer distribution to a future date. Distributions are made in the form of lump-sum payments.

Participants may also withdraw certain basic contributions thereon only in the event of a financial hardship as defined by the Plan and the Code. A participant who receives a distribution for hardship shall be prohibited from making elective deferrals and employee contributions for a six month period after receipt of the distribution.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Note B - Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments

Benefits distributed to participants are recorded when paid.

Subsequent Events

The Company has evaluated all subsequent events through October 9, 2014, the date the financial statements were available to be issued.

Note C - Investments

Certifications by John Hancock Financial Services

The Plan's Administrative Committee has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's rules and regulations for reporting and disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained certification from John Hancock Financial Services that all of the information provided by John Hancock Financial Services and included in the accompanying financial statements and supplemental schedule of assets (held at end of year) is complete and accurate. Information as to the investments in the accounts of John Hancock Financial Services, investment income, and all information appearing in the accompanying statements and supplemental schedule of assets (held at end of year) are presented in reliance solely upon those certifications.

Note C - Investments (Continued)

The following table presents the fair value of investments that represent five percent or more of the Plan's net assets at December 31, 2013 and 2012:

	2013	2012
John Hancock Lifecycle 2035	**$ 199,119**	$ 141,954
John Hancock Lifecycle 2040	**89,289**	113,481
John Hancock Lifecycle 2045	**90,997**	64,706
John Hancock Lifestyle Balanced	**118,438**	87,152
John Hancock Lifestyle Growth	**213,170**	152,543
John Hancock Lifestyle Aggressive	**236,407**	161,009
John Hancock Mutual Beacon	**66,069**	****
John Hancock Templeton World	**67,882**	46,212

** *Investment was less than 5% of Plan Assets*

During the years ended December 31, 2013 and 2012, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value by $207,596 and $110,481, respectively.

Note D - Fair Value Measurements

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurement and Disclosure*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Note D - Fair Value Measurements (Continued)

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset, based on the best information available in the circumstances.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled Separate Accounts ("PSA"): PSAs are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The net asset value ("NAV") of a PSA is based on the market value of its underlying investments. The PSA NAV is not a publicly-quoted price in an active market. PSAs are reported at fair value utilizing primarily Level 2 inputs.

Money Market Mutual Funds: Valued at the NAV of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note D - Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

		Fair Value Measurements at Reporting Date Using:		
Description	Balance 12/31/13	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

The following table for December 31, 2013 and 2012 sets forth a summary of the Plan's investments whose fair value is estimated using net asset value per share (or its equivalent):

Investment Type	2013 Fair Value	2012 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts (a)	$1,226,128	$ 919,650	-	Immediate	None

(a) Pooled separate accounts seek to either replicate the movements of an index of a specific financial market or to maximize returns on investment allocation models as specified in the prospectuses of the individual pooled separate accounts.

Note D - Fair Value Measurements (Continued)

The following is a description of the investment strategies for pooled separate accounts at December 31, 2013 and 2012:

Balanced funds: These funds include investments that seek to provide a high total return until a target retirement date or seek to provide a balance between current income and long-term capital growth.

International funds: These funds include investments that seek to track the performance of a broad-based equity index of foreign countries, including emerging and developing markets.

Large Cap funds: These funds include investments that seek to provide long-term capital growth. Invest principally in common stocks of large capitalized U.S. Companies and abroad.

Stable Value funds: This fun seeks to preserve capital and provide stability of principal while earning current income that exceeds money market rates over the long term.

Note E - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants shall immediately become 100% vested, and therefore, be entitled to receive a distribution of the value of all cash and investment units credited to his or her account as of that date.

Note F - Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements on the IRC.

Note F - Tax Status (Continued)

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note G - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note H - Related Party Transactions

Certain investments are managed by John Hancock Financial Services, who is the custodian defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note I - Delinquent Participant Contributions

The Company had late contributions totaling $7,385 for the Plan year ended December 31, 2013. The Company has utilized the Department of Labor Voluntary Fiduciary Corrections Program calculator to determine lost earnings in an effort to self-correct these delinquent contributions. The Company deposited $4,719 of the funds in 2013, and $2,666 in 2014.
