NOTE A - DESCRIPTION OF PLAN

General

The Beam Retirement Savings Plan (the "Plan") is designed to encourage and facilitate systematic savings and investment by eligible employees of Beam Inc., Beam Global Spirits & Wine, Inc., Jim Beam Brands Co., Maker's Mark Distillery, Inc., and Cruzan Viril, Ltd. (collectively the "Company or "Beam") for their retirement. The Plan is a tax-qualified defined contribution retirement plan that is intended to comply with Section 401(k) of the Internal Revenue Code of 1986, as amended (the "Code"). The Plan is subject to various provisions of the Code and the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The financial statements present the net assets available for benefits as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the years then ended. The assets of the Plan are held in the Beam Retirement Savings Plan Trust ("Beam Trust"), which is a single employer trust holding assets exclusively for the Plan. Fidelity serves as the Trustee of the Beam Trust.

The following provides a brief description of the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions, which is available from the Plan Administrator.

Contributions

Contributions are held by the Trustee and accumulated in individual participant accounts. Pursuant to the terms of the Plan, participants may make tax deferred contributions under Section 401(k) of the Code of up to 50% of "eligible compensation" (as defined under the Plan), subject to lower limits for "highly compensated employees" (as defined under the Code) who participate in the Plan. Participants' annual tax deferred contributions are limited by the Code to $17.5 and $17.0 in 2013 and 2012, respectively. In addition, during the year in which a participant attains age 50 and in subsequent years, the participant may elect additional unmatched, pretax "catch up" contributions of up to $5.5 in 2013 and 2012.

Participants may also make after-tax contributions, but the sum of tax deferred contributions and after-tax contributions may not exceed 50% of eligible compensation (lower limitations apply to highly compensated employees). If a participant has reached the limitations on tax deferred contributions as described above, the participant may elect to have the tax deferred contributions automatically switch to after-tax contributions.

Participants that are eligible to make tax deferred contributions may roll over balances from another eligible tax qualified retirement plan or individual retirement account into the Plan.

Eligible employees who have neither enrolled in the Plan nor affirmatively declined enrollment in the Plan become automatically enrolled in the Plan and are deemed to have elected to make tax deferred contributions equal to 3% of their eligible compensation. Participants may change or discontinue their participation in the Plan at any time.

The Company provides a matching contribution of a participant's elective pre-tax contributions that is dollar for dollar on the first 3% of the participant's earnings contributed and 50 cents for every dollar contributed between 4% and 5% of the participant's earnings. In addition, the Company provides a profit sharing contribution to eligible participants who have completed at least 1,000 hours of service during the year and were employed on the last day of the year with the exception of those terminated during the year due to retirement, death, disability, or termination of employment without fault.

Participants may direct the investment of their accounts in the available investment funds under the Plan. The Beam common stock portion of the Plan is designated as an employee stock ownership plan.

Participant account balances are maintained to reflect each participant's beneficial interest in each of the investment funds available under the Plan. Participant account balances are increased by Company and participant contributions (including rollovers from other plans) and decreased by the amount of withdrawals and distributions. Income and losses on Plan assets are allocated to participants' accounts based on the ratio of each participant's account balance invested in an investment fund to the total of all participants' account balances invested in that fund as of the preceding valuation date.

Vesting

Participants are immediately vested in their own contributions, in the event there are any Qualified Nonelective Contributions (QNEC), in the QNECs, plus earnings on those contributions. Vesting in the Company matching contributions, plus earnings on those contributions, occurs after one year of service.

Participants vest in the Company profit-sharing contribution plus related earnings based on the earliest to occur of the following: (1) retirement; (2) death; (3) disability; (4) attainment of age 65; (5) termination of employment without fault, or (6) after five years of service as summarized below:

Number of years of service	Percentage vested
Less than 1	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 or more	100%

Forfeitures

On December 31, 2013 and 2012, forfeited nonvested accounts totaled $974 and $470, respectively. These accounts will be used to reduce future Company contributions or Plan expenses. Forfeited nonvested accounts were used to pay $13 of Plan expenses in 2013 and to reduce $385 of Company contributions in 2012.

Notes Receivable from Participants

A participant may apply for a loan of at least $1 from the vested portion of the participant's account balance in an amount which does not exceed one-half of the participant's vested balance, provided that the loan also does not exceed $50. Any loans applied for are also reduced by the participant's highest loan outstanding under the Plan within the previous twelve months. The term of any loan shall not exceed five years, unless the loan is related to the purchase of the participant's principal residence for which the term is ten years. A participant may only have one loan outstanding for general purposes and one loan outstanding for purchasing a principal residence.

Each loan bears a rate of interest commensurate with prevailing market rates at the time of issuance. Repayment is made by payroll deduction so that the loan is repaid over the term of the loan.

Distributions and Withdrawals

Benefits are payable from a participant's account under the Plan's provisions upon a participant's death, retirement or other termination of employment in a lump sum or in installment payments. The Plan also permits withdrawals to be made by participants who have incurred a "hardship" as defined in the Plan or who have attained age 59-1/2. Participants are permitted to request rollover distributions from their accounts into an IRA.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of the Plan's financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for Plan benefits at the date of the financial statements and the changes in net assets available for Plan benefits during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation

The Plan's investments are reflected at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date in the principal or most advantageous market for the asset or liability. Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk.

Accounting guidance provides a three-tiered hierarchy of inputs for classifying fair value measurements for disclosure purposes. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including:

1. Quoted prices for similar assets or liabilities in active markets.

2. Quoted prices for identical or similar assets or liabilities in inactive markets.

3. Inputs other than quoted prices that are observable for the assets or liabilities (including volatilities).

4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs are unobservable for the asset or liability (including the entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability) and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Plan management uses the following methods and significant assumptions to estimate fair value of investments. There have been no changes in the methodologies used at December 31, 2013 and 2012.

The investments held by the Plan are valued as follows:

Interest bearing cash: Valued at cost plus earnings from investments for the period, which approximates fair market value due to the short-term duration.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end, which is obtained from an active market.

Collective trust funds: Valued at the NAV of units of each bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the funds less their liabilities. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of a collective trust, the investment advisor generally reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Common stock: Valued at the closing price reported on the active market on which the security is traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The following tables present the Plan's investments by level within the fair value hierarchy as of December 31, 2013 and 2012 (in thousands):

	2013			
	Level 1	Level 2	Level 3	Total

(a) The collective trust funds are valued at their December 31, 2013 and 2012 net asset value per share as provided by the funds' administrator. The investment strategy of these funds is to maximize total return with a risk level that may be appropriate for each fund's particular timeframe by holding a mix of stocks and fixed income instruments and gradually shifting to a conservative risk level at the end of the timeframe. Redemption from these funds is permitted with 30-days notice.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Income Recognition

Security transactions are accounted for on the trade-date basis. Dividend income is accrued on the ex-dividend date. Interest income is recorded on the accrual basis. Net realized and unrealized appreciation/depreciation is recorded in the accompanying statements of changes in net assets available for benefits as net appreciation in fair value of investments.

Benefits Paid to Participants

Distributions and withdrawals are recorded when paid.

Operating Expenses

Certain expenses incurred by the Plan are netted against earnings prior to allocation to participant accounts. These include investment manager, trust and record keeper expenses and are recorded in the accompanying statements of changes in net assets available for benefits as net appreciation in fair value of investments. Other expenses are paid by the Plan or the Company at the Company's discretion.

NOTE C – INVESTMENTS

The following investments represented 5% or more of the Plan's net assets at December 31, 2013 and 2012 (dollars in thousands):

During the years ended December 31, 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows (dollars in thousands):

	2013	2012
Common shares/stock	$ 2,462	$ 7,361
Mutual funds	22,978	11,022
Collective trust funds	9,692	7,534
Net appreciation in fair value of investments	$ 35,132	$ 25,917

NOTE D - RISKS AND UNCERTAINTIES

The Plan invests in various investments including stocks, mutual funds and collective trust funds. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in market value could materially affect participants' account balances and the amounts reported in the statements of net assets available for Plan benefits and the statements of changes in net assets available for Plan benefits.

NOTE E - TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed Beam Inc. by letter dated November 22, 2013, that the Plan is designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and is currently being operated in compliance, in all material respects, with the applicable requirements of the Code.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE F - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Fidelity Investments. Fidelity Investments is an affiliated company of the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

The Plan holds Beam common stock.

Fees have been paid to Fidelity by the Plan for recordkeeping and investment management services for the years ended December 31, 2013 and 2012.

NOTE G - PLAN TERMINATION

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and Beam, as Plan sponsor, has the right to terminate the Plan at any

time subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in the Company contribution portion of their accounts.

NOTE H - INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for the Plan year ending December 31, 2013. Accordingly, Fidelity has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statement of net assets available for benefits as of December 31, 2013.

- Net investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2013.

- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2013.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE I - SUBSEQUENT EVENTS

Management of the Plan has evaluated subsequent events from December 31, 2013 through October 9, 2014, the date these financial statements were available to be issued. Other than as disclosed below, there were no subsequent events that require recognition or additional disclosure in these financial statements.

On January 13, 2014, the Company announced it was being acquired by Suntory Holding Limited (Suntory). Suntory completed the acquisition of Beam's shares on April 30, 2014 and the Company was renamed Beam Suntory Inc. Beam is no longer a publically traded company and does not have any outstanding shares, therefore; the Beam common stock is no longer an investment option of the Plan.

Participants holding Beam common stock in their accounts prior to the acquisition were cashed out of the Beam common stock. The proceeds were automatically invested in the respective Target Date BlackRock Lifepath Index Funds H in accordance with the participant's age. Subsequently, participants were permitted to exchange their balances into the other investment options of the Plan. Contributions to participant accounts previously directed to the Beam common stock option were automatically directed into the respective Target Date BlackRock Lifepath Index Funds H in accordance with the participant's age, unless another investment choice was made.
