RUTLAND PLASTICS, INC. 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

Note A. Description of the Plan

The following description of the Rutland Plastics, Inc. 401(K) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. General. The Plan is a defined contribution plan covering all full-time employees of Rutland Plastics, Inc. and its affiliates, Union, Inc. and Rutland Plastic Technologies ('the company") who have completed three months of service and are at least 18 years of age. One year of service is required for matching contributions. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions. Each year, participants may contribute up to 100% of their qualifying compensation, as defined by the Plan. In 2013, participant contributions were subject to a limitation of $17,500 plus an additional $5,500 for participants aged 50 or older. Participants may also contribute amounts representing distributions from other qualified plans referred to as "Rollovers". The Company will match 100% of employee contributions not to exceed 3% of total compensation and 50% of contributions greater than 3%, but no more than 5% of compensation. The plan is defined as a "Safe Harbor Plan". Employer and Employee contributions are made directly to funds in the custody of Alerus Financial N.A.

3. Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) The Company's contribution, (b) Plan earnings and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's "Safe Harbor" matching portion of their accounts plus actual earnings is immediate upon participation in the match.

5. Forfeitures. Forfeitures of "Pre-Safe Harbor" Company contributions were utilized in accordance with the plan document and there were no forfeitures remaining as of 1/1/2012.

6. Administrative Expenses. Certain expenses incurred in the administration of the Plan are paid directly by the Company.

(Note A – Description of Plan (continued)

7. Notes Receivable from Participants. Participants may borrow a minimum of $1,000 and an amount up to 50% of their account balance not to exceed $50,000. The loans are secured by the balance in the participant's account and bear interest rates ranging from 4.25% to 10.25%, which were commensurate with the local prevailing rates at the times individual loans were made.

8. Payments of Benefits. On termination of service due to severance of employment, the participant will receive a lump sum distribution. For employees aged 59 ½ and those who qualify for "Hardship Distributions", in-service distributions are permitted by the plan. Participants should refer to the "Summary Plan Description" for the details concerning death and disability as it relates to distributions.

Note B. – Summary of Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from these estimates.

Investment Valuation and Income Recognition
Investments – The investments in all of the funds are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2013 and 2012. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. One Investment has been deemed "Fully Benefit Responsive" and is reported at fair value and adjusted to contract value.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of net Assets Available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is

Note B – Summary of Accounting Policies (continued) (Investment Valuation)

prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.
Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses
Expenses of maintaining the plan are shared by the plan and the employer.

Subsequent Events

Note E – Fair Value Measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of investments. When available, the Plan measures fair value using level 1 inputs because they generally provide the most reliable evidence of fair value.

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; and (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the following methodologies used at December 31, 2013 and 2012:

Mutual Funds: Valued at the closing price reported on the active market on which the individual securities are traded.
Common Trust Funds: Valued at market-based prices with observable inputs.

Note F – Related Party Transactions

Certain Plan investments are shares of mutual funds and common trust funds managed by Alerus Financial, N.A. the custodian of the Plan. These transactions qualify as exempt party-in-interest transactions. The plan auditor's compensation was paid by the plan sponsor.

Note G – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, there will be no change in vesting since participants are already 100% vested in their accounts.

Note H – Reconciliation of Financial Statements to Schedule H of Form 5500

There are no differences to report.

Note I - Tax Status

The Plan has not requested a determination letter from the Internal Revenue Service. Effective January 1, 2008, the plan was restated under a "Prototype Non-standardized Profit Sharing Plan" sponsored by Alerus Financial N.A. The latest Internal Revenue Service opinion letter supporting this plan design was issued on March 31, 2008. The letter states that the form of the plan is acceptable under Section 401 of the Internal Revenue Code for use by employers for the benefit of their employees. The plan administrator believes that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not, would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2010.
